Lowest Prices Ever Offered On Pure Bred -- Northern Grown Seeds-Plants-Bulbs and Fruits

We Challenge the World For Better Quality or Lower Prices

Live Out of Your Own Garden This Year!!
Select Your Seed and Plants
from This Catalog NOW, and

Beautiful Flowers For Every Customer FREE

On the opposite page to the left we illustrate in natural colors ten of the leading varieties of Gladiolus and on pages 166 167 and 168, we list additional varieties of this beautiful flower which we grow annually by the millions and which is now recognized as the most satisfactory annual flower in cultivation. We want every customer to have some of these beautiful flowers in their gardens this spring. With every order of \$2.00 or larger than \$2.00 for Garden and Flower Seeds, Plants, Bulbs or Shrubs of any kind, we will include FREE with the order ten Gladiolus Bulbs, Choicest Mixed Colors. On orders of \$1.50 or over, will send five FREE Bulbs and on orders of \$1.00 or more will include FREE three Gladiolus Bulbs, Choicest Mixed Colors. These Bulbs offered you as a premium are not bulblets; they are blooming size bulbs. "Guaranteed to Please." While we harvested an excellent crop of Gladiolus Bulbs this year, we know the demand is going to be heavy and we suggest that you order early, please, as this special deal is good only on orders received before May 15th, 1932. This special Premium of Gladiolus does not apply on orders for FARM SEED, POTATOES, ONION SETS, HOTKAPS, INSECTICIDES, NITRAGIN or FERTILIZERS.

2383 Golden Gleam Nasturtium

NASTURTIUM

2383 Golden Gleam

Bodger's New Semi-Double Sweet Scented. The Most Talked of Novelty of the Season. Awarded Gold Medal at Atlantic City Flower Show, Sept., 1931.

Awarded Gold Medal at Atlantic City Flower Show, Sept., 1931.

The plant forms a vigorous, large bush which throws out short runners, averaging eighteen inches. The flowers commence to come as soon as the plant nears complete development, and at the time it is in full bloom the entire plant, including the runners, is a blaze of color. The large, golden-yellow flowers average two and one-half to three inches across. They are borne on erect, stiff stems six inches in length; consequently the flowers stand well above the foliage, an arrangement which adds immeasurably to the showy appearance of the plant.

When well grown these flowers have the

appearance of the plant.

When well grown these flowers have the appearance of a fully double flower, and are most attractive. An ordinary sized bouquet, when allowed to remain in a room for a short period of time will fill the room with fragrance. Mr. Bodger, "the originator," sent us ten seed of this great novelty last spring for trial, and we can assure our friends and customers that this New Golden Gleam Nasturtium is truly a beautiful annual flower that will grow in any ordinary garden soil to perfection and we most urgently recommend it to all flower lovers. Seed is scarce, so order early, please.

Packet, 30 seed, 20 cts.; $\frac{1}{2}$ oz., 75 cts.; oz., \$1.40, postpaid.

Four New Specialties for 1932

These Have Been Tried and Proven, and Recommended to Please You

332 Carrot Red Cored Chantenay

Red Cored Chantenay

The first time you pull this new carrot you will want to eat it then and there. The deep orange-red color and smooth symmetrical shape are combined with just the right size to make it irresistibly appetizing. Its beauty is not merely skin deep; it goes clear through to the very center and the interior is even more tempting than the outside. The yellow ring which is usually found around the core of carrots has been bred out of Red Cored Chantenay and in the breeding a sweeter, richer flavor has been acquired. This flavor alone is enough to establish its superiority and when combined with the crisp, tender quality and deep color of the flesh a new treat is furnished for those who appreciate the healthful and high nutriment value of carrots. See painting on front cover. Packet, 10 cts.; oz., 18 cts.; ¼ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

443-A New Musk Melon Honey Rock or Sugar Rock (85-day Melon)

(85-day Melon)

Honey Rock is well known as the most profitable market melon in the melon growing districts of Michigan, Ohio and Indiana. It is of superior flavor, a great shipper and commands the highest prices always.

Honey Rock has four characteristics, which are outstanding. These are: first, quality—second, productiveness—third, ability to stand shipping and handling—fourth, striking appearance. This Melon has deep orange flesh with a flavor different from other sorts, which can only be appreciated by tasting. It has won its way so far, mostly on account of its wonderful sweetness.

Honey Rock is one of the most prolific varieties grown. Five to seven perfect fruits are produced on one vine and often more. The rind is so tough and the flesh so firm that they can be allowed to ripen on the vine and then shipped long distances and arrive in perfect condition. The appearance of Honey Rock Melons is strikingly attractive, and distinct from all other sorts. The fruits are oval and medium in size, and are not ribbed. The ground color is light golden yellow overlaid with heavy gray netting. This heavy netting and tough rind is what makes them stand handling and shipping so well. Packet, 10 cts.; 0z., 18 ets.; ¼ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

308-A Cabbage-Marion Market

Yellows Disease Resistant Strain of Copenhagen Market -Also Known as Iacope

This is the latest introduction of an improved strain of Copenhagen Market Cabbage bred under the direction of the Wisconsin Agricultural College. It has given wonderful satisfaction in fields badly diseased with yellows. It produces profitable crops where ordinary strains (not yellows disease resistant) have proven complete failures. Marion Market is one of the earliest Round Headed types marion market is one of the earnest round Headen types producing heads 8 to 10 pounds perfectly formed with few outer leaves. We highly recommend this to all and especially to those of you who have fields that show even a trace of (Cabbage Yellows). Packet, 15 cts.; oz., 75 cts.; ¼ 1b., \$2.25; ½ 1b., \$4.00; lb., \$7.50; 2 lbs., \$14.90, postpaid.

2327 Lilium Tenuifolium

2327 Lilium **Tenuifolium**

The Coral Lily of Siberia A Great Novelty

A gem, perfectly hardy. One of the earliest to flower. 24 in, high with the flowers up and down on the stem. Blooms are deep scarlet in color and have recurved petals of waxy texture. A wonderful cut-flower splendid for the rock garden. This seed can be sown in the open where the soil is mellow, or in a mixture of part sand, part leaf mold and part humus. The seeds germinate quickly. Most of the seedlings will bloom the second year, some in the first. Packet (100 Seed), 25 cts.

FATHER, SONS AND GRANDSON

HOW OUR SEED AND PLANT BUSINESS BEGAN

1st Generation Beginning in the ages of the old Cradle and Rake when everything on the farm was done by hand and back work, Dad started farming with Mr. Greenlee, a pioneer farmer of old reliable Scotch parents. In those days land of course was cheap, but money was scarcer than hens' teeth and crops very poor on account of inferior seed and lack of proper cultivation, so you may know it was mighty hard sledding for a good many years; still I guess it was a good thing, for those lean seasons, when it was hard to produce enough to pay the interest on the mortgage set Dad to thinking and figuring how to make both ends meet, and he concluded the best way out was to use extra care in selecting his seed, breeding it up to the highest standard possible and to spare no labor in preparing and cultivating the seed beds after planting. This worked out well and really was the motive or incentive instilled in him in pioneer days, transplanted to we boys a few years later, which makes it possible to serve you today in a pleasing and particular manner.

2nd Generation It was during those early days that John and Leonard were born and as we grew up under Dad's careful instructions we naturally followed his trend of thought, so at the age of 13 we both started working out on a small truck farm at the enormous wage of 40c a day. Well do I remember my first day: The boss started John picking peas and I weeding asparagus, and honestly the rows looked a mile long. We stuck to it though, even if it was hard work, and I'll never forget if I live to be a hundred how proud we were when we took our first pay home to Mother. She, too, was proud of us, for while we worked hard and were dirty, she knew it was honest work and Dad needed the money, and we were glad to help even though it was only a little.

"As You Sow So Shall You Reap"

Well, this went on for a few years, Mother insisting we go to school winters and garden in the summer. As time passed we realized more fully the necessity of planting good seeds to produce good crops, for we saw many failures from poor seed; consequently we went into the seed-growing business on our own account, and today we personally grow on our own farms and rented ones thousands of bushels annually of beans, peas, corn, radishes and other seed crops, so we are still actual farmers and really more so than ever before, and we know full well the necessity and wisdom of planting only the best seeds that grow, for the old proverb, "As you sow so shall you reap," is more pronounced than ever. Being actual producing farmers and gardeners, we know your needs in seeds and understand your wants, your trials and your troubles, so please don't hesitate to inquire for any information not given in this book. It's yours for the asking and it's free whether you buy our seeds now that you know how carefully they are grown, for there's none better at any price and few as good.

The Trial Grounds Tell the Truth

On our Famous Rock River Valley Seed Farms at Rockford, Illinois, we conduct one of the most extensive Trials of Vegetables, Flowers, etc., in the country. You are cordially invited to visit us and inspect these growing crops. Our display of Tulips, Paeonies, Gladiolus and other flowers will be a gorgeous sight from early spring until late fall.

3rd Generation In closing, we want to introduce Leonard Condon, Jr., to the new customers, for he is the lad that will be serving you later on, and he wishes to thank his old friends for the many kind letters and orders sent last year. Looking forward with pleasure to serving you this year, we are, yours sincerely

CONDON BROS., SEEDSMEN

Plan Now to Have a Big Garden This Spring of

Fresh Crisp Vegetables and Beautiful Flowers

Do the work yourself. In gardening you exercise every muscle in your body. Getting down on your knees, scratching old Mother Earth, planting a tiny seed and watching it grow to a luscious ripe Tomato, a crisp bunch of Radishes, a tender ear of Sweet Corn or a gorgeous bloom of Shaggy Asters, a fine bed of Zinnias or Gladiolus is the greatest tonic in the world for the entire human body.

Furthermore, in addition to the exercise your body secures from gardening, you have the other benefits which after all are really the greatest; "namely" plenty of fresh vegetables to eat right out of your own garden, picked fresh every morning when they are at their best. In this age all of us eat too much meat and too many fancy dishes and very few of us eat enough of fresh vegetables which are absormuch meat and too many fancy dishes and very few of us eat enough of fresh vegetables which are absolutely essential to keep the body in perfect condition.

Try gardening this year for health and profit.

If you need further information not covered in the book, feel free to write us.

Yours for Better Health and Bigger Gardens, CONDON BROS., SEEDSMEN.

HOW TO ORDER

Use enclosed order sheet and envelope if possible; if not, any kind of paper will do, only Be Sure to Sign Your Full Name and Address, giving your Post Office, County and State, your rural Route, Box or Street Number. Be sure to state just how you wish order shipped, and remember if you order part from Postpaid Prices in body of Catalog and part from Not Prepaid Prices, or from pages 188 to 192, which are not postpaid prices, we will ship All Not Prepaid by Express or Freight unless instructed differently, as the charges would not be increased any. For this privilege we add extras to well satisfy our customers.

HOW TO SEND MONEY

Post Office Money Order, Bank Draft, Express Order or U. S. Postage Stamps in good condition. Register your letter when sending stamps, currency or coin; otherwise we cannot accept responsibility if order and remittance are lost. TERMS Cash with order.

Everything Listed at Postpaid Prices Unless Stated Otherwise.

NOTICE—We cannot ship Plants, Shrubs or Nursery Stock to Canada
REMEMBER – We cannot accept Canadian Postage Stamps

OUR GUARANTEE

We guarantee our seeds and plants to be just as represented. If they prove otherwise, we will refill the order free of charge, or return your money if complaint is made within nine months of date of purchase, but it must be understood we do not guarantee the crop, thereby, in common with all reliable seedsmen, we give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds, plants, bulbs, shrubs, trees or any goods we send out, and we will not be in any way responsible for the crop. Subject to these conditions, purchase is made at the moderate prices charged. CONDON BROS., SEEDSMEN.

"Preparing Soil for the Seed Box."

Use any good garden soil free from weeds; put in a little fertilizer, thoroughly mixing together, and screen into seed box as pictured above. Press the soil down firm and smooth with small flat piece of board. This will give you a fine fertile seed bed.

"Sowing the Seed."

Simply scatter the seed thinly over surface of soil as pictured above. When these seedlings come up this method requires transplanting them at uniform distance in another flat to grow larger before setting in the garden or field. It's a little more work this way but you always get better and more stockier plants.

"Another Method of Sowing the Seed."

After firming soil take your marking stick and draw straight furrows across the top and sow seed at a uniform distance as pictured. If this method is followed you may let them grow full size before setting in the garden or field. In other words, it's only one transplanting.

Start Your Garden Right

Grow Your Own Vegetable and Flower Plants

Reduce Your Table Expenses

A 50 foot garden lot will produce more than a \$100\overline{90} worth of food

A 10c Packet of Seed will Produce More Plants than you could buy for \$10.00.

When you raise your own plants you are always sure of getting just the varieties you want; besides it's worth a great deal to have the plants growing in boxes in your own home so you can set them out right before or after a shower. You can't have this privilege unless you raise your own

can't have this privilege unless you raise your own.

The illustrations here will give you a complete idea how to prepare the soil, plant the seed, transplant the seedlings and reset in the garden or field.

This page applies mostly to customers who don't have hot beds or cold frames, but it's just as important for you folks to grow your Cabbage, Celery, Cauliflower, Egg Plants, Tomato, Aster, Salvia, Verbena, Pansy, etc., as it is for Big Market Gardeners, and believe me, all our Market Gardeners grow their own plants. They do it to be sure of the type and in order to have the plants ready to set at the proper time, avoiding disappointment of having them delayed and damaged when shipped in. Try it this year. If you need further advice just ask for it. You're always welcome.

CONDON BROS., SEEDSMEN

"Covering the Seed."

After sowing seed as pictured in photographs 2 and 3, take your screen again and screen over the top of seed some nice fine soil, covering seed with soil ½ to ½ inch deep, according to size of seed, Press top of soil down firmly again,

"Transplanting Seedlings to Permanent Box."

Prepare soil as outlined in photographs Nos. 1 and 3 and set your plants about 4 inches apart each way. Keep in sunny exposure and expose to cool air gradually to instill a hardy growth.

"Seedlings Are Now Up Ready to Transplant."

See photograph No. 7 for proper method of transplanting.

"Getting Seed to Start Quickly."

We now cover top of box with a damp burlap bag which gives a uniform moisture and as the sprouts begin to show remove the bag and place a pane of common window glass over it. Place in sunny exposure and partly remove glass from box every day to harden the seedlings.

Condon's Common Sense Cultural Directions on Vegetables

Grow all you need for table use and plenty to can besides. A 50-foot garden will produce \$100.00 worth of food.

ASPARAGUS—The \$500.00 Per Acre Crop. A delicious vegetable that should be in every garden. Set crown of roots six inches under surface of soil in rows 1½ to 2 feet apart and 3 feet between rows for home garden. Complete Culture Leaflet sent FREE in each order or mailed free upon request.

BEANS--A Quick Money Making Crop. Ready to eat or market in 60 days. 1 to 11/4 bushels to plant an acre in drills. One pound will plant a row 100 feet long. A light, rich, well-drained loam which was manured for the previous crop is the most desirable. Beans are very sensitive to both cold and wet, so it is useless to plant them before the ground has become dry and warm. For field cold and wet, so it is useless to plant them before the ground has become dry and warm. For field crop or market planting we recommend drilling in rows two to three feet apart, leaving room between for proper cultivation, drop the seed in the rows 4 to 5 inches apart to a depth of 2 inches; you can use an ordinary corn planter by securing special bean plate from factory. For home garden plant in same manner, having rows about 15 to 18 inches apart where cultivating with hand hoes. Good results are obtained planting 2 to 3 seeds in hills two feet apart, although we prefer the row method. For succession, plant at intervals of two weeks apart until mid-summer. The plants up to the time of blossoming should have constant cultivation, only be sure to cultivate shallow so as not to disturb the roots, otherwise the blossoms will blast and cause a very poor harvest. Never hoe or cultivate the crop while leaves or vines are wet, as that tends to produce rust. In planting Lima beans plant the seed sideways with the eye down. On pole beans set poles 4 feet apart at base, tie top of deep around base of each pole.

BRUSSELS SPROUTS and BROCCOLL 1 oz.

BRUSSELS SPROUTS and BROCCOLI. 1 oz. of seed for 5,000 plants; 2 ounces will produce plants for 1 acre. Same culture as cabbage.

plants for 1 acre. Same culture as cabbage.

BEET—1 oz. of seed to 100 feet in drills; 7
lbs. per acre. The best results are obtained on a
deep, rich, sandy loam. If wanted very early,
sow such sorts as Crosby's Egyptian or Condon's
Early Dawn in hotbeds and transplant, cutting
off the outer leaves. For general crop sow in
freshly prepared soil as soon as the ground will
permit, in rows eighteen inches apart, covering
about an inch deep and pressing the soil firmly
over the seed. When the plants are well established, thin out to three inches apart in the row.
For winter use sow Condon's Royal Blood in
June, so as to mature late in the season. When
wanted for early greens sow in manner stated
above, only don't need thinning out. Some sow
real thick, pulling out the surplus for greens,
allowing the remainder to produce large bottoms.

CABBAGE—An Ounce Will Produce About

allowing the remainder to produce large bottoms.

CABBAGE—An Ounce Will Produce About
3,000 Plants. The plants are started in frame or
seed bed, and afterward transplanted. Seed for
early cabbages may be started in autumn in a
cold frame, or in early spring in a hotbed. For
main crop, summer and autumn cabbage, the
seed should be sown in a rich border in the open
air, in May or June. Sow shallow; a packet will
produce about 250 plants, an ounce 3,000 plants;
y pound for an acre. Set plants 1½ by 3 feet
apart. Ready to use in 60 to 130 days. The soil
for cabbage should be made rich with manure
or fertilizer, and the plants should be kept in
strong growth by frequent cultivation.

CARROT—The Great Health Food for Babies

CARROT—The Great Health Food for Bables and Grown Folks. 1 oz. of seed to 100 feet in drills; 4 pounds per acre. The Carrot is one of the most wholesome and nutritious of our garden roots, deserving to be more extensively used for culinary purposes, and we urge our customers to give some of the early table varieties a trial. While a sandy loam, made rich by manuring the previous year, is the best soil for the

Carrot, any good land, if thoroughly and deeply worked, will produce satisfactory crops. It is advisable to sow as early in the spring as the ground is fit to work, though good crops may be grown from sowings as late as June 15. For table use, sow the smaller kinds early in rows sixteen to eighteen inches apart. For field culture, sow in drills eighteen to twenty-four inches apart, using from three and one-half to four pounds of seed to the acre. Cover one-half to one inch deep and see to it that the soil is pressed firmly above the seed. As soon as the plants appear, use the cultivator or wheel hoe. Thin three to four inches apart in the row. to four inches apart in the row.

CAULIFLOWER—1 oz. of Seed for 3,000 Plants.
4 oz. will produce plants for one acre. Treat the same as recommended above for Cabbage, only time your sowings so it will come into heading in the early summer or fall to avoid extreme hot, dry weather, which is unfavorable for producing clear, snowy white heads. When the head begins to form, tie the leaves together at the top to protect from the sun.

the top to protect from the sun.

CELERY. Celery seed is slow to germinate, and ample time must be given. Sow thinly in early spring and cover lightly. Keep constantly moist. Count on about 400 plants to a packet of seed, about 7,500 plants per ounce or quarter pound per acre. When the seedling plants are 3 inches high they should be clipped at the top, to favor stocky growth, or else transplanted. Celery is mostly grown under flat culture, without trenches, in rows 4 feet apart, 6 inches apart in row. For home use celery is often grown in double rows, 10 inches apart, and plants 6 inches apart in each row, allowing 4 feet of space before setting out another double row. This will permit soil for banking for winter storage without lifting. Ready for use in 110 to 140 days.

CUCUMBER—For Slicing, Salads and Pickles.

CUCUMBER—For Slicing, Salads and Pickles.

1 oz. to 100 hills; 2 to 3 lbs. in hills per acre.

Plant when all danger of frost is over, right
after corn planting time and from then on to
July 20 in this section of the country. Late
planting is recommended for pickles. In order
to obtain the largest yield of cucumbers, the soil to obtain the largest yield of cucumbers, the soil should be well enriched with well-rotted manure, but an abundance of good fruit can be raised on any rich garden soil. Plant the seed not over an inch deep in hills four to six feet apart each way, dropping fifteen to twenty seeds in a hill. After the plants begin to crowd and danger from the striped beetle is pretty well over, thin to three plants to the hill. Give frequent, but shallow, cultivation until the plants make runners so long that this is impracticable. In field culture, plow that this is impracticable. In field culture, plow furrows four feet apart and similar ones at right angles to the first. At each intersection drop a shovelful or more of well-rotted manure, which should be well mixed with the soil.

EGGPI.ANT—1 oz. of Seed to Produce 1,000 Plants. Seed germinates slowly and should be started in hotbed, for in this, as in all semitropical plants, it is, important to secure a rapid and continuous growth from the first, the plants never recovering from a check received when young. When plants have two rough leaves, transplant three or four inches apart. When the never recovering from a cneck received water, young. When plants have two rough leaves, transplant three or four inches apart. When the ground is warm and all danger, not only from frosts, but from cold nights, is past, harden off by gradual exposure to the sun and air and decreasing the supply of water, then carefully transplant to open ground, setting two and one-half feet apart. It is desirable to shade the young plants from very hot sun and to protect them from the potato bug, which otherwise often destroys them. destroys them.

ENDIVE or WINTER LETTUCE—1 oz. of Seed to 150 Feet in Drills. The Endive is a form of Chicory. Sow the seeds thinly in drills. and the plants are well established thin to

Common Sense Cultural Directions—Continued

eight inches. Water and cultivate thoroughly in order that a good growth of leaves may be made. When the leaves are six to eight inches in length, draw them together and tie them so the heart will blanch. The leaves should not be tied up while wet or decay will follow. The heads should be used as soon as blanched. For winter use sow the seeds rather late and remove the plants, with a ball of earth adhering to the roots, to a cellar or cold frame, and blanch during the winter as required for use. Endive is used as a salad at times of the year when lettuce and similar crops are out of season.

KALE or BORECOLE—1 Oz. of Seed to Produce 2,500 Plants. There are a large number of forms of Kale, and these are thought by some to be the original type of the Cabbage. Kale does not form a head and has convoluted leaves and thick leaf stems. It is cultivated the same as Cabbage, but may be set somewhat closer. This crop is very hardy and will live through the winter in the open ground in localities where freezing is not too severe. The flavor of Kale is improved by frost. Kale is used for greens during the winter and as a substitute for Cabbage.

KOHL-RABI—1 Oz. of Seed to 300 Feet in Drils. Kohl-Rabi belongs to the same class as Cabbage and Cauliflower, but presents a marked variation from either. It is, perhaps, half-way between the Cabbage and Turnip, in that its edible part consists of the swollen stem of the plant. For an early crop, plant and cultivate the same as for early Cabbage. For a late crop or for all seasons in the South the seed may be sown in drills where the crop is to be grown and thinned to about 8 inches apart in the row. The rows should be from 18 to 36 inches apart, according to the kind of cultivation employed. The fleshy stems should be used while they are young and quite tender. Prepare Kohl-Rabi for the table in the same manner as Turnips, which it very much resembles when cooked.

very much resembles when cooked.

LETTUCE—The Great Salad Plant. Seed may be sown in the open ground in a rich, sandy loam as soon as it can be worked, in rows 1 foot apart, covering seed about 1 inch; thin plants to stand 6 to 8 inches apart in the row. Make successional sowings every two weeks until June; for Fall use sow seed in August and September. A packet will sow about 30 feet of drill, an ounce about 300 feet, use 4 to 5 pounds for an acre. Ready to use in 38 to 60 days. For best results with head lettuce make sowing of seed in hotbed, transplanting to field when plant has 3 or 4 leaves. Time your sowings so as to bring into heading in the early spring or fall months, for it does not head well in extreme hot, dry weather.

MELON—MUSKMELON—1 Oz. of Seed to 50 Hills—2 to 3 lbs. Per Acre. A sandy loam with plenty of well-rotted barnyard manure will be found to be adapted to the cultivation of the Muskmelon. When commercial fertilizer is used instead of manure, it should be applied at the rate of from 500 to 1,000 pounds of high-grade material to the acre. The Muskmelon requires a long season to develop and is easily injured by frost or even by cool weather. For an early crop in the North, start the hills in a hotbed in berry boxes and plant out after the soil becomes warm. For the main crop throughout the country the seed are planted in the open ground as soon as the soil is reasonably warm. Place the hills about 6 feet apart each way and 8 to 10 seeds in a hill. After the plants become established, thin out all but the four best ones. Another method is to sow in drills and thin to single plants 18 inches to 2 feet apart. Good cultivation should be maintained until the vines interfere.

MELON-WATERMELON-1 Oz. to 25 Hills; 4 to 5 lbs. Per Acre. The cultivation of the Watermelon is practically the same as for the Muskmelon, except that the plants grow larger. Plant 10 feet apart each way in hills or in drills 10 feet apart and hills 5 feet apart in the drills.

ONION—1 Oz. of Seed to 100 Feet in Drills, 5 lbs, Per Acre. Onions are raised in two ways, from the seed and from sets. Seed sown in early spring produces ripe onions in the fall, while

sets set out at the same time make green "bunching" onions in a few weeks and dry ripe onions in July or August. To raise good onions from seed the ground should be a rich black loam or muck soil. Work it over several times, making it just as fine as you would for a flower garden. Use 500 to 1,000 lbs. of fertilizer per acre. Sow the seed as early as possible in rows 14 inches apart. Weed as soon as the onions appear and keep well cultivated all through the season.

To Raise Early Green Onions. The usual way is to plant sets early in the spring but they can be raised from seed sown the previous year. Seed sown in June will usually produce fair size onions which if left where they grow and given a little protection will survive the winter and produce nice green onions earlier than from sets and at less cost. White Portugal and Southport White Globe are good for this.

PARSLEY—The Great Garnishing Plant. ½ oz. to 100 feet in drills. After soaking the seed of Parsley for a few hours in warm water, they may be sown in the same manner as Celery seed and the plants transplanted to the open ground. At the North, Parsley will live over winter in a cold frame or pit, and in the South it will thrive in the open ground during the winter, but it cannot withstand the heat of summer. The plants should be set in rows 12 inches apart and every 4 inches in the row. The leaves of Parsley are used for garnishing around meats and for flavoring soups.

PARSNIP—½ Oz. to 100 Feet in Drills; 5 lbs. Per Acre. Sow the seed of Parsnip as early as convenient in the spring in drills 18 inches to 3 feet apart. Thin the plants to stand 3 inches apart in the rows. The Parsnip requires a rich soil and frequent cultivation. Parsnip seed being slow to germinate it is advisable to mix a little Turnip shaped Radish seed with it before planting. The Radish will be up in a few days, allowing Parsnip to sprout more freely. Try sowing this way and you will have no further trouble in getting a good stand.

PEAS—A Delicious Vegetable, Easily Grown. 2 lbs. of seed to 100 feet in drills; 1½ bu. per acre drilled; 3 bu. per acre brondcast. Sow Plenty of Peas. There is no more delicious vegetable than fresh, young green peas picked right off the vines in your garden and cooked immediately. If the garden is small, sow all the land you can spare. After the peas are gone the land can be used for late cabbage, turnips, spinach, etc. Sow in earliest Spring and make successional plantings every ten days until June 1. In the latter part of August sow early peas for an Autumn crop. Drill 1 to 2 inches deep in rows 2½ to 4 feet apart. In the field use no sticks. In garden culture sow in double rows 10 inches apart, and use supports for the tall growing varieties.

PEPPER—1 Oz. of Seed to 1,000 Plants. Plant the seed of Peppers in a hotbed, or box of soil in the house where the temperature is 65° or better, and transplant to the open ground as soon as it is warm, or sow the seeds in the garden after all danger of frost is past. When grown in the garden the plants should be in rows 3 feet apart and 15 to 18 inches apart in the row. The plants require about the same treatment as the Tomato. There are a large number of varieties of the Pepper, including the large sweet sorts used for pickling and the small hot kinds, such as Chill, Tabasco, and Cayenne.

RADISH—Universal Favorite, Big Cash Crop, Rendy to Eat or Market in 21 Days. 1 oz. of seed to 100 feet in drills; 10 to 12 lbs. per acre. To get Radishes in the open ground that are not "hot" the soil should be very loose and quite rich. A little nitrate of soda applied as soon as the radishes come up will help a good deal. Sow the seed in rows a foot apart and thin the plants to 2 inches apart. There is no way to prevent injury by maggots except to screen the beds with cheese cloth to keep the flies out. By sowing Radish seed in August or first of September much better Radishes can be raised than in the spring and summer, as they are not injured by maggots in the fall.

Common Sense Cultural Directions—Continued

SQUASH and PUMPKIN. Summer sorts 4 oz. to 100 hills; winter sorts 8 oz. to 100 hills; 4 lbs, bush varieties per acre; 2 lbs, winter varieties per acre. Plant and cultivate same as recomper acre. mended for Melons.

SPINACH—Will Produce Two or More Crops a Season. Very Healthful Vegetable, Easily Grown. 1 oz. of seed to 100 feet in drill; 12 to 15 lbs. per acre. Sow seed in good, rich soil in early spring 1 inch deep in rows 1 foot apart or broadcast. For a succession, sow every two weeks until June 15, and again from August 10 to September 15. For early spring use, seed may be sown in September, and covered with a few inches of hay, leaves or litter the last of November and left on during the winter. A packet will sow about 25 feet of drill, an ounce to 100 feet, 8 to 10 pounds per acre in drills; 12 to 15 pounds broadcast. Ready to cut in about 45 to 55 days. SPINACH-Will Produce Two or More Crops 55 days.

SALSIFY or VEGETABLE OYSTER—1 Oz. of Seed to 100 Feet in Drill S to 10 lbs. Per Acre. Sow seed of Salsify during the spring in the same manner as for Parsnips or Carrots. At the same manner as for Parsnips or Carrots. At the South, a sowing may be made in summer to produce roots for winter use. After the plants are well established they should be thinned sufficiently to prevent their crowding. The cultivation should be the same as for Parsnips or Carrots, and frequent use of a wheel hoe will avoid the necessity for hand weeding. Salsify may be dug in the autumn and stored, or allowed to remain in the ground during the winter, as its treatment is the same as for Parsnips.

TOMATO—1 Oz. of Seed to Produce 2,000 Plants. Tomatoes do best on light, warm, not over-rich soil, and success depends largely upon securing a rapid, vigorous and unchecked growth during the early part of the season. Sow the seed in February or March in a hotbed, greenhouse or in shallow boxes in the house in rows 4 to 6 inches apart and half an inch deep. When the plants are about 2 inches high transplant to 3-inch pots or into shallow boxes 4 inches apart each way. Transplant in the open ground after all danger of frost is past, 3 to 4 feet apart each way.

TURNIP—1 Oz. to 250 Feet in Drills; 2 to 3 lbs. Per Acre. Sow early flat varieties in April, in drills 12 to 18 inches apart. Cover seed ½ inch and thin out to 4 to 6 inches in the row. Cultivate frequently. For succession, sow at intervals until the last week in May. For Fall and Winter crop, sow in July or August in drills or broadcast. A packet will sow about 50 feet of drill, an ounce about 250 feet; 1½ pounds to acre in drills or 2½ pounds broadcast. Ready to use in 45 to 75 days.

SWEDE TURNIPS or RUTABAGA—1 Oz. of Seed to 250 Feet in Drill 1½ to 3 lbs. Per Acre. Sow the seed from the latter part of June until August in drills 15 to 24 inches apart. Cover seed ½ inch and thin out to 6 to 8 inches in the rows. Cultivate frequently. Can be sown broadcast. Use a packet to about 50 feet of drill, an ounce to 250 feet, 1½ pounds to the acre in drills or 3 pounds broadcast. Ready to use in 80 to 95 days. 95 days.

SWEET CORN-1/2 Pound to 100 Hills; 12 Lbs. Per Acre. A rich, warm, alluvial soil is the best, but excellent sweet corn can be raised on any good, ordinary soil, if it is deeply and thoroughly worked before planting. In the North sweet corn may be planted as early as can be done without risking great loss from frosts or from rotting of the seed in the soil, but with the main crop varieties, especially, it is well to wait until the ground has become warm, as the sweeter the ground has become warm, as the sweeter varieties are more sensitive to cold and wet than field corn or varieties of inferior quality. If planted in rows, make the rows three to four feet apart, according to the vigor of growth of the variety, and place the seed twelve to sixteen inches apart in the row, covering one inch deep with fine soil firmly pressed down. If planted in hills, make the hills for the early varieties three feet apart each way and plant four to six kernels to the hill. For the later sorts the hills should be three and one-half to four feet apart each way. Hoe frequently and when six inches high thin so as to leave three or four plants in the hill. Give frequent and thorough but shallow cultivation until the tassels appear, after which will require no further attention. will require no further attention.

Newer Vegetables of Great Merit for 1932

Cucumber 357. Longfellow, Vaughan or Windermoor Wonder. A distinct new type producing Cucumbers out of doors fully equal in appearance under normal conditions to any hot house grown Cucumber. The fruits are slender with very few seed and the color is uniform from end to end. An ideal type for private garden or market surpasse. Fruits 12 private garden or market purposes. Fruits 12 to 14 inches long by 2½ inches in diameter. Decidedly deep green in color. Packet, 10 ets.; 0z., 20 ets.; ¼ lb., 60 ets.; ½ lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid.

Cucumber 356. "It Stays Green." The most popular variety grown in the

Sucumber 356. "It Stays Green." The most popular variety grown in the South, especially in Florida. Probably the earliest of the white spine types and unquestionably the heaviest yielder. Fruits are vivid dark green with no trace of white even when fruit is mature. Ideal size for packing. This seed is a distinct variety and is not in any way the product of the originator. Packet, 10 cts.; oz., 15 cts.; ½ lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

Squash 602. Giant Summer Straightneck. For economy in packing and for eliminating the serious matter of breakage, the Giant Straightneck is in a class by itself. For shipping to distant markets its shape is a striking advantage over the old Giant Crookneck. Fruits intensely warted. 18 to 20 inches long, deep orange in color with a thick meaty neck. Packet, 10 ets.; 0z., 20 ets.; 4½ lb., 50 ets.; ½ lb., 85 ets.; lb., \$1.50; 2 lbs., \$2.00, postpaid.

Tomato 650½. Oxheart. A main crop, large size pink fruited variety with very few seeds. The fruits are large, bulging and taper to almost a point similar to Pimiento Pepper. Flesh very thick and solid with exceedingly heavy skin. Fruits set in cluster

3 to 7. Oxheart Tomato crop failed this season. We recommend Condon's Everbearing Tomato. See page S6.

Sweet Corn

sweet corn of much merit. While the stalks grow 6 feet or more in height and the 14-rowed ears are 7 to 8 inches in length, this variety matures three days earlier than Golden Bantam. The kernels are broad, deep and of excellent quality. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

Sweet Corn

Galler or Bantam Evergreen. A cross between Golden bantam and Stowell's Evergreen and a most cexcellent sort of fine quality. Ears 8 inches long, 12 to 14 rowed; matures with Early Evergreen, grain rather broad and deep, of a rich golden-yellow color. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

Japanese Mustard-Spinach 4751/2. Also called Tendergreen. Oriental origin. In Japan it takes the place of spinach, remains tender in dry weather. Virtually an all season plant. Withweather. Virtually an all season plant. Withstands extreme summer heat, also resistant to cold weather. The large, oblong leaves are dark green in color with a very small center rib. The leaves are cooked and prepared for table the same as spinach and turnip or mustard greens. It compares favorably to these greens in eating qualities. Does not make roots like turnips; only small thin roots about 2 or 3 inches in length. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

Condon's Improved Types of Newer Vegetables for Gardeners

Celery—339C—Condon's Golden Self Blanching Tall Strain Selected French Grown Originators Stock

This strain of French grown Celery Seed is recognized as absolutely the highest type Pure Bred Seed available. It is grown especially for us by the French originator in France. Seed is saved from hand-selected plants. Produces tall, thick, broad stalks which are solid and very crisp. Blanches easily. When blanched the stalks are creamy white while the leaves turn a beautiful golden yellow. There are two distinct strains of this type, one known as the old strain producing short stalky growth, heavy thick stalks with well developed heart crisp and brittle. The new or tall strain grows more rapidly than the old strain, stalks are longer, attaining good size quicker than any other known sort. The new strain is now recognized by large, critical Celery growers as the better type for early or fall use and in many sections of the country the new strain is preferred for late winter use. This type has been so carefully bred that it is almost blight proof, resisting attacks of blight much better than the old strain or any of the American grown strains that we know of. For commercial shipping or home market our customers tell us this is the finest quality and the best money maker yet introduced. Packet, 20 cts.; ½ oz., 70 cts.; oz., \$1.25; ½ lb., \$8.50; lb., \$16.00, postpaid.

339A Celery—Condon's Golden Self Blanching (Dwarf Strain)

Having all the good character of the tall strain described above but grows shorter, attaining height of 18 to 20 inches. Packet, 20 cts.; ½ oz., 70 cts.; oz., \$1.25; ½ lb., \$4.25; ½ lb., \$8.50; lb., \$16.00, postpaid.

339D Celery-New Golden Plume

This celery is very similar to the Golden Self Blanching. It is of the same color and general appearance but of more vigorous, sturdy growth, forming heavy, solid stalks which blanch quickly and are of fine quality. We have a very fine strain which will be found equal, if not superior, to any

postpaid.

we have a very me stand which will be found equal, if not superior, to any sold, even at much higher prices.

We advise all growers of celery to try this strain. There are never any soft stalks and the celery is large, vigorous and healthy and keeps well in storage.

Packet, 20 cts.; ½ oz., 70 cts.; oz., \$1.25; ½ lb., \$4.25; ½ lb., \$8.50; lb., \$16.00. postpaid.

339C Condon's Golden Self Blanching Tall

Cauliflower

338 New Super Snowball

A Marvelous New Early Cauliflower

This is the earliest of all varieties we have ever seen. It makes a firm, solid head 6 to 9 inches in diameter in about 85 days after sowing. Even under unfavorable conditions it will head up well, heads forming all at one time, showing a uniformity of size, shape, and type that is truly astonishing. The plants make a compact dwarf growth with ample foliage of a beautiful dark green color. The inner leaves curve over the head and serve as good protection against the weather. The head itself is almost round. Has a beautiful pure white, smooth curd, presenting a most attractive appearance when cooked. Dry weather does not materially check its growth and therefore is able to resist diseases; resulting in yielding heads of high grade where the other strains under similar conditions will either yield heads of inferior quality or no heads. Pkt., 25 cts.; ¼ 0z., \$1.00; ½ 0z., \$1.90; 0z., \$3.50; ¼ 1b., \$12.00; ½ 1b., \$23.00; 1b., \$45.00, postpaid. This is the earliest of all varieties we have

Condon's Big Money Making Specialties for 1932

Mr. Grant Pierce, originator of this wonderful "New Squaw" Hulless Popcorn.

548 Condon's "New Squaw" Hulless Pop Corn

The most marvelous Pop Corn ever introduced. Ears 8 to 9 inches long, 8-row kernels smooth top (making it easy to harvest), double the size of any other Pop Corn we have ever seen. When popped the kernel is two or three times larger than other varieties and the marvelous thing about it is-it is absolutely hulless and the most delicious flavor of any and all other varicties—pure white—extra large—making the most wonderful Pop Corn Balls that look like Big Snowballs. We control the entire "Pure Bred" Stock of this New World Wonder and as supply is limited please order early. Large packet, 10 cts.; $\frac{1}{4}$ lb., $\frac{17c.}{5}$; $\frac{1}{2}$ lb., 28 cts.; lb., 50 cts.; 2 lbs., 95 cts.; 5 lbs., \$2.00, postpaid.

532 Pepper—California Wonder A recent introduction of great merit

Fruits are square shaped, broader at stem end than at nose without distinct lobing. Especially free from roughness at blossom end. Specimens often weighing a full pound. Attractive darkgreen color when young, turning to crimson as they ripen. Sturdy and productive, bearing five to nine large fruits at the setting. Medium early maturing fruit in seventy-two days. Flesh three-eighths of an inch thick, excellent quality entirely free from pungency. Excellent for home market or long distance shipping. Packet, 10 cts.; 1/2 oz., 30 cts.; oz., 50 cts.; 1/4 lb., \$1.50; 1/2 lb., \$2.75; lb., \$5.25, postpaid.

4821/2 Condon's Special Strain. Brigham's Longkeeping Yellow Globe Onion

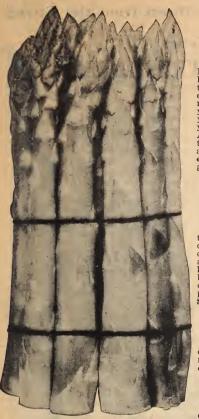

nated by Mr. Brigham of Michigan, an extensive Onion grower. In comparative trials it has proven the longest keeping Best Storage Onion yet introduced. In shape it is decidedly broader than its height, although not at all on the flat type, best described as apple shape. In color is a very dark amber yellow, extremely heavy skin that fits up very tight all around its small firm neck, making it solid as a rock. The flesh is white and very firm. Each layer as it develops seems to lay closer to its previous layer than any known variety. This special characteristic is where it gets its name Longkeeper. We placed some of these Longkeepers in storage early last fall and when we took them out the last of May, they were just as solid as the day they went in.

In size they grow larger than any Globe Onion except Giant Sweet Spanish. The seed we offer on this new Onion was produced the past summer on our own farms at Rockford, Illinois, from three cars of hand-selected Bulbs grown from the originator's stock; two of these cars were produced in Michigan and one in Indiana.

Like all Longkeeping vegetables when planted for seed they are slow to produce a seed stalk and invariably only two seed stalks ever develop from the largest Onion bulb; therefore it is a very shy seeder, yielding less than one-half an average seed crop; consequently price per pound is higher than other sorts, but if you are a commercial Onion grower who grows to store for winter or who sells the crop to produce men to store for late winter use, this is the best variety we have ever seen and we recommend it with confidence that it will make you more money than any other sort at any price. Packet, 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; ½ lb., \$1.10; lb., \$2.10; 2 lbs., \$4.10, postpaid.

4821/2 Condon's Special Strain. Brigham's Longkeeping Yellow Globe.

202 Mary Washington

CONDON'S Delicious ASPARAGUS

Most Profitable Vegetable for Market Gardeners and Home Use. Everybody receiving this catalog who owns or has a lease on any land should plant at least a hundred roots of this delicious vegetable. It yields the first returns in the spring when vegetables are expensive and so highly relished. \$500.00 per Acre Profit is a common yield. Perfectly hardy and when once established lasts for years. For immediate returns we recommend purchasing our two-year-old thrifty roots setting in the spring and the following spring you can market a good crop and bigger ones each succeeding year. Asparagus seed is sown in the spring; cultivated two years, then the roots are transplanted and the second year following you have a good crop. By all means start your bed this year. Don't put it off any longer. Our free culture Leaflet furnished with every order gives you full instructions how to grow Asparagus profitably.

202 Mary Washington

By far the best strain and the Most Vigorous of the Famous Washington Asparagus

There are several strains of Asparagus originated by Prof. Norton, of the U. S. Department of Aspiculture. The original strain was called Washington, another selection Martha Washington, and another Mary Washington. The Mary is considered the best strain, as the shoots are larger and grow more rapidly than the other kinds. The stalks are very thick and grow unusually tall without branching. The color is deep green with purple tips. This is decidedly the best variety for either the home garden or commercial planting. Pkt., 10 cts.; oz., 18 cts.; ½ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.50, postpaid.

203 Bonvallet's Giant

"A Mighty Good Sort"

With the single exception of Mary Washington it is superior in every way to all others, being larger, earlier, quicker in growth, more continuous in bearing and more uniform in size. Pkt., 7 cts.; oz., 12 cts.; ½ lb., 35 cts.; ½ lb., 55 cts.; lb., 90 cts., postpaid.

206 Palmetto

A very early maturing and prolific variety, producing an abundance of very large, deep green shoots of good quality. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

Strong Healthy 2-Year-Old Asparagus Roots

Some dealers offer one-year-old roots at lower prices, but it always pays to plant 2-yr.-old. They produce a crop the following spring and are used always by the Big Market Growers.

199 Artichoke Large Green Globe

The best strain of this favorite French delicacy. In the latitude of R o ckford the Globe Artichoke is grown as a biennial, namely, the seed is sown one year, the plant develops during the growing season and is carried through the winter with a slight protection of leaves or straw. The following season the large globes or flower heads are produced. 7th. 10 cts; 0z., 70 cts; ½ lb., \$2.25; ½ lb., \$4.00; lb., \$7.50, postpaid.

205 Conover's Colossal

The largest and most extensively used green variety. Quality very tender. Abundant yielder. Pkt., 5 cts.; vz., 10 cts.; ½ lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

207 Broccoli Italian Green Sprouting

New Delicious Vegetable. Dietary experts claim this the Greatest of All fat-reducing foods. Cook and serve like Cauliflower, or cook and serve with dressing. Sow in early spring, mid-summer or fall same as you would Cabbage. It thrives everywhere. Set plants 2 feet apart each way. Packet, 10 cts.; oz., 40 cts.; ½ lb., \$1.35; ½ lb., \$2.60; lb., \$5.00, postpaid.

207 Broccoli-Italian Green Sprouting

235 Full Measure

Stringless

Round Pod

227 CONDON'S "SURE CROP" STRINGLESS

The Best and Earliest Stringless Green Pod. Long Podded Everbearing Variety—absolutely stringless. early, excellent quality, delicious flavor, big yielder. Ready to pick in 45 to 50 days. This extra early variety, although comparatively new, has been widely distributed, and we have yet to hear anything but praise about its fine quality and other merits; it is an ideal Snap Bean, producing a fine crop of round, straight, solid, fleshy pods averaging 61/2 inches long, wonderfully tender and brittle, without a trace of tough interlining, and having no string when broken. The flavor is most delicious, while the delicate green color of the pods is retained after cooking, adding to its attractiveness when served. The plants are of robust, compact habit, unexcelled in bearing qualities, maturing the crop very regularly. It is extra early, the pods being fit to pick three to four days before other varieties of equal size. 2-oz. packet, 10 cts.; 1/2 lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

235 Full Measure Very Early Round Podded Stringless

In great demand in the eastern states. Fine string-less medium green pod of high quality. The pods are straight, 6 inches long, very fleshy, almost round, crease-backed, and are tender. It is a prolific sort, the heavy pods producing throughout a long season. consider this one of the very best stringless green pod bush Beans for early and main crop planting. On ac-count of the superior quality, it is especially recommended for the home garden. 2-oz. packet, 10 cts.; 1/2 lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

237 Longfellow Attractive Long Green Round Pods of Excellent Quality

This perfectly round, green podded bean is tender and prolific, and is one of the standard varieties for market and canning. The pods are of fine quality, although stringy and exceedingly handsome. In production, very prolific; exhibits a profusion of highly beautiful, rich green pods 7 to 8 inches long, straight and round. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

223 Black Seeded Valentine

The Great Southern Shipper

This Bean possesses much of the merits of the Red Valentine, and in addition the pod is fully one-third longer; perfectly round and straight, and of a beautiful green color. Of fair quality, although stringy. It is equally as hardy in every respect as the Refugee, while the Beans are produced in enormous quantities. Suited for both early and late planting; its great hardiness withstands light frost. Market gardeners find the Black Valentine a profitable sort. 2-oz. packet, 10 cts.; 3/2 lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

248 Tennessee Green Pod

Very Early-Long Podded Southern Favorite.

32 days. The Earliest and Largest Podded Dwarf Sort This early snap bean is very popular in some sections of the south and where known in other parts of the country is considered of exceptional merit. The plants are large, somewhat spreading and prolific. The pods are very long, often seven to eight inches, flat, irregular in shape, dark green and of exceptionally fine flavor. Not absolutely stringless. It is a hardy, vigorous mid-season sort, very productive. 2-oz. packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts., 2 lbs., 69 cts., postpaid. ets., postpaid.

Tennessee Green Pod

Black Seeded Valentine

BEANS Dwarf Yellow Podded or Wax Varieties

242 Condon's Rust-Proof Golden Wax

One of the Finest Wax Beans in Cultivation; Enormous Yielder; of Robust Growth; Handsome Yellow Stringless Flat Pods of Unsurpassed Quality; the Standard Flat Wax-Podded

Although this is not the earliest Dwarf Wax Bean, yet it is so sure to produce heavy crops of large, attractive pods, no matter whether sown early or late, that it has found a very high place in the estimation of both home and market growers. The pods are exceedingly handsome, being of large size, very thick, and unusually fleshy. The quality is tender, brittle and entirely without strings or fibers at all stages until maturity, while the color is rich golden-yellow. There is no strain of Golden Wax that will excel the stock we offer. 2-oz. packet, 10 cts.; 1/2 lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., postpaid.

²⁴¹ Condon's Prolific Black Wax

First Early Round Podded Yellow Stringless Wax

Standard early for home or market gardening. Produces marketable crop 50 days from planting. Hardy and productive; absolutely stringless and of delicious flavor. Pods 41/2 inches long, slightly curved and very fleshy. Color of pods light golden yellow remaining a long time in condition for table use. 2-oz. packet, 10 cts.; 1/2 lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

243 Curries Rust-Proof Black Wax

Great Favorite with Southern Truckers

This is a standard market garden sort This is a standard market garden sort. The vine is a very vigorous grower and about the hardiest of the wax sorts. A very early variety, bearing an abundance of handsome yellow pods of excellent quality and delicious flavor. The pods are 5½ inches long, flat, straight and stringy; color light yellow, practically rust-proof. Not recommended for home gardens. 2-oz. packet, 10 ets.; ½ lb., 17 ets.; lb., 30 ets.; 2 lbs., 55 ets., postpaid.

238 Pencil Pod Black Wax

One of The Earliest and Longest Round Podded Stringless Wax Beans

We consider this the best round pod wax bean. The pods are 6 to 7 inches long, straight, as round as a pencil. Clear yellow, very brittle, stringless and of the finest quality. Matures early and the plant is vigorous and productive. The seed is black. 2-oz. packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., postpaid.

Condon's Rust-Proof Golden Wax 208 Sure Crop Wax

242

Absolutely Stringless. A Most Prolific Variety of Fine Quality

The handsome rich vellow pods are slightly curved, averaging 6 to 7 inches in length. They are almost round, ½ inch wide, very meaty and sweet, and perfectly stringless at all stages. The habit of the plant is free branching, but sturdy and upright, every branch carrying a heavy crop of the magnificent pods. Valuable for its productiveness and disease-resisting qualities. It is classed as an early variety. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs. 65 cts., postpaid 2 lbs., 65 cts., postpaid.

238 Pencil Pod Black Wax

208 Sure Crop Wax

²³⁹ Condon's Earliest Market "Mammoth Podded Stringless Wax"

The Earliest, Hardiest, Most Prolific Flat Podded Wax Bean We Have Ever Seen—ABSOLUTELY RUST-PROOF. Our Own Origination. A Hybrid Selection from the Famous Rust-Proof Black Wax. Very robust, bushy plant bearing enormous crops of handsome flat golden yellow pods 6 to 7 inches long. Without doubt this bean is the hardiest of all wax beans, consequently may be planted very early and will yield an abundant crop far ahead of any known sort. Quality is delicious, pods long, thick and meaty, and absolutely stringless. For FIRST CROP, either for home or market, we recommend this as the BEST and BIGGEST MONEY-MAKER. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

244 Round Pod Kidney Brittle Wax

A bean of superb quality, extreme earliness and surprising productiveness. The pods are nearly straight and often attain a length of 6 inches. Are very tender, entirely stringless and very fleshy. The plants are of vigorous growth, with large foliage, and are completely loaded with the handsome pods. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

240 Davis White Wax

Vines vigorous and very prolific, bearing handsome yellow waxy white pods 7 to 8 inches long. This is an excellent shipping Bean, also very desirable canning sort. When young the pods are crisp and tender although it has strings. The dry Beans are excellent for baking. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

246 Wardwell's Kidney Wax

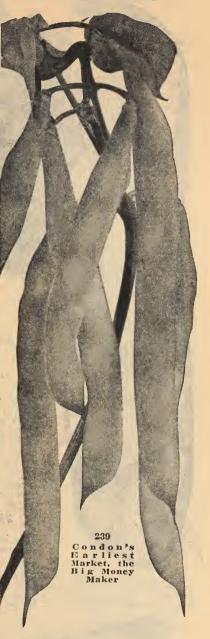

It is a very early variety, ripening only a little later than Golden Wax and yields a larger crop. Pods, 6½ to 7 inches long, straight, flat, waxy-yellow, brittle and stringless. Desirable for every climate. Can be grown with great profit in the South for early shipment North. They always command a ready sale in every market. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

247 Unrivaled Wax

One of the Latest Introductions in Wax or Yellow Podded Snap Beans

The plants are vigorous, healthy growers, producing an abundance of pale yellow pods about 5½ inches long. Pods are narrow and somewhat flattened but very fleshy and of excellent quality, and while having a trace of strings are quite fiberless. It is extremely early and recommended for Market or Home Gardens. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

Wax Beans

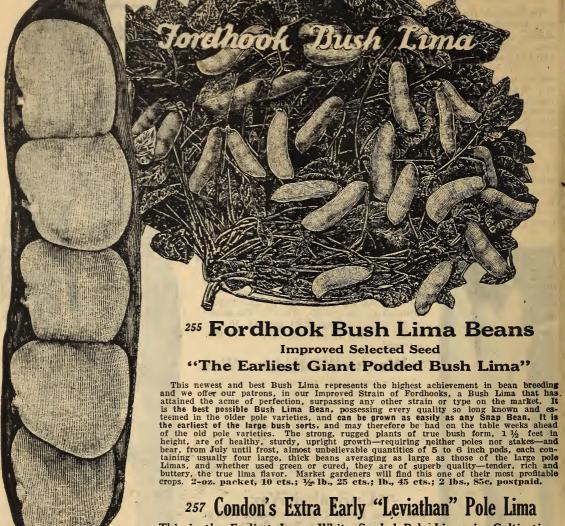

²¹⁰ Condon's New Stringless Kidney Wax

The most beautiful long podded Stringless Wax Bean we have ever seen. Excellent for home, for market gardening and canning. Vines 15 inches high—dark green—vigorous robust type. Pods 6 to 7 inches long, half or semi-round, straight, color deep golden yellow. 60 days from planting ready for table use. This we can recommend as one of the finest buttered flavored Stringless Wax Beans in cultivation. Supply is limited this year so please send your orders early and be sure to include this new bean in your list. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

210—Condon's New Stringless Kidney Wax

Two Wonderful Beans That Everybody Should Plant

This is the Earliest Large White Seeded Pole Lima in Cultivation.
Especially suited to Northern States where growing season is short.

The plant is strong and takes to the poles more readily than any other sort. It is fully a week earlier than any other pole variety, therefore can be grown successfully where other sorts would be caught by frosts of early autumn. Moreover, it is a prodigious cropper, producing its pods in large clusters from base to top of pole, frequently from 5 to 10 together. These are well filled with large, fleshy Beans of excellent quality, delicate, pale green in color, and possessing in a superlative degree that rich, buttery flavor so highly esteemed by all. 2-oz. packet, 10 cts.; ½ lb., 21 cts.; lb., 38 cts.; 2 lbs., 70 cts., postpaid.

The Best LIMA or BUTTER BEANS

249 King of the Garden Pole Lima

Giant Podded-Biggest Yielder of All and Finest Quality-Our

A strong grower and uniformly large podded. The pods frequently contain 5 to 6 very large beans. Beans of excellent quality, easily shelled; of large size and handsome appearance, 2-oz. packet, 10 ets.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.,

251 Seibert's Early Pole Lima

Earliest of All Pole Limas

In earliness, ease of shelling, size, beauty and quality of the green beans, this variety leads all other early limas for either the home garden or market. The vines are vigorous and remarkably productive. The pods are medium green, large, flat, about five inches long, moderately curved. The green shell beans are very large, very tender and of finest quality. This standard early pole lima was introduced in 1895. Seed ovoid, flat with slight greenish tinge. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35c.; 2 lbs., 65 cts., postpaid.

250 Large White Pole Lima

"An Old Standard Favorite"

Vine tall growing, vigorous, but slender; leaves medium sized, smooth, light green; pods borne in clusters, long, broad, very thin, dark green; seed very large, flat, greenish white. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

BUSH LIMAS

252 Burpee's Improved Bush Lima

Very Earliest Large Seeded Bush Limas

The plants are vigorous and productive. The pods are medium green, very large, about five inches long, thick and usually contain four beans, which are unusually thick, of largest size and of excellent quality. Seed very large, thick and usually shows a greenish white tinge which is generally considered an indication of superior quality. One of the best and most extensively used bush limas for the market as well as home garden. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid. The plants are vigorpostpaid.

Burpee's Improved Bush Lima

252

253 Burpee's Bush Lima-Large Seeded

A bush form of the large white Lima, growing about 20 inches high, the pods and Beans are nearly the same size as the latter. While not as early as the "Henderson" its large size commends it to many. 2-oz. packet, 10 cts.; ½ lb., 21 cts.; lb., 38 cts.; 2 lbs., 70 cts., postpaid.

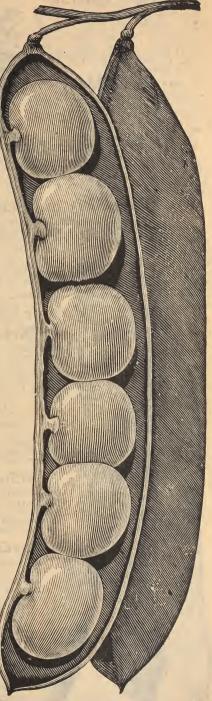

254 Dreer's Bush Lima

A bush form of Dreer's Pole Lima. Beans thick, sweet and succulent, growing close together in the pods. Growth vigorous, about 18 inches high, with abundant foliage. Grows well even in dry season. 2-oz. packet, 10 cts.; ½ lb., 21 cts.; lb., 38 cts.; 2 lbs., 70 cts., postpaid.

256 Henderson's Bush Lima-Small Seeded

Valuable variety on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frosts. Its popularity increases every year. Rich, buttery Limas—the true flavor—even better. Vines are without runners, small, bright green and Lima-like; flowers small, yellowish white, borne in clusters and often above the foliage. Pods short, flat and contain from three to five beans, which are of delicious quality. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

249 King of the Garden Pole Lima

Beans for Dry Shelling and Baking

These Are Grown Exclusively to Use as Shell Beans, Either Green or Dried for Winter

234 White Marrow

Vines slender, spreading, with short runners and small leaves; very prolific; pods broad, green, changing to yellow; seed large, ovoid, clear white; cooking very dry and mealy. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

233 Red Kidney

The good, old-fashioned baking bean. Our stock is extra select Northern grown. 2-oz. packet, 10 cts.; ½ lb., 30 cts.; ets.; ½ lb., 17 ets.; ll 2 lbs., 55 ets., postpaid.

236 Royal Dwarf White Kidney

The plants of this late variety, also called White Kidney, are upright, very large, branching, with large, broad leaves. The pods are coarse, dark green and about six inches long. Seed large, white, kidney shaped, slightly flattened and of excellent quality, for family use either green shelled or dry. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

231 Dwarf Horticultural or Cranberry Vines very productive, compact, upright, with large aves. Pods medium in length, broad and thick, curved, leaves. with splashes of bright red on a yellowish ground. 2-oz. packet, 10 cts.; 1/2 lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

White Navy or Michigan Robust

The Greatest Money Maker of All. \$100.00 per Acre Profit Not Uncommon

Our Improved Strain of White Navy Beans are second to none. All northern grown from re-selected true seed, carefully milled and hand picked; very uniform size seed that will plant evenly and reproduce a quality of Beans that will sell always at good prices. Plant at least enough for your own use next winter. 2-oz. packet, 5 cts.; ½ lb., 15 cts.; lb., 25 cts.; 2 lbs., 45 cts., postpaid.

232 Improved White Navy

Pole or Climbing Beans 209 McCaslan Pole

Excellent, Either as a Snap or Shell Bean A wonderfully prolific bean, absolutely stringless, white seeded, green podded, buttery, rust-proof, and very early. Vines continue to bear throughout the season if kept closely picked. 2-ox. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.,

220 White Creaseback

Adapted to Early and Late Planting

The pods are deep green 6 inches long, perfectly round, fleshy and stringless. Seed white. Excellent corn field variety. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

221 Striped Creaseback, or Scotia

Especially Suitable for Growing on Corn for Snaps

Identical with White Creaseback except color of bean, which is mottled putty color with dark striping. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

219 Carolina or Sieva Pole Lima

Baby Lima, Known as the Butterbean of the South

This very early and reliable small seeded pole lima is especially adapted for planting in the South; does equally as well planted in the north, especially in sections where early frosts will not permit other limas to mature their crop. A continuous and prolific bearer. 2-oz. packet, 10 cts.; ½ 1b., 20 cts.; 1b., 35 cts.; 2 lbs., 65 cts., postpaid.

222 Missouri Wonder or Noxall

The Earliest Green Podded Pole or Corn Hill Bean. 65 days

A sure cropper, giving large crops when others are an entire failure. The green pods are long, round and tender, maturing in 65 days; excellent for planting among corn. Seed mottled putty color, with brown striping. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

220 White Creaseback

White Dutch Case Knife

263 Mammoth Podded Horticultural or Speckled Cranberry

The mammoth pods are striped and splashed with brilliant crimson. The Beans are of immense size and of the finest quality, used either green or dry. They are by many preferred to Limas. Best suited for cool climate. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

265 White Dutch Caseknife A Good Corn Hill Bean

A Good Corn Hill Bean
Vines moderately vigorous,
climbing well, but twining more
loosely than some, and so may
be used for corn hill bean of
medium season. Pods become
creamy white as they mature.
Of excellent quality, whether
used green or dry. 2-oz. packet,
10 cts.; ½ lb., 20 cts.; lb., 35 cts.;
2 lbs., 65 cts., postpaid.

262 Kentucky Wonder Wax The Best Pole Wax Beans for Northern Planting

It is similar in habit of growth to "Kentucky Wonder Green Pod," and bears as early, or when about as high as the average bush bean. Pods are beautiful golden yellow, and so fleshy that often the thickness surpasses the width; make delicious eating. A heavy yielder and bears a long season. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

POLE BEANS

260 Famous Kentucky Wonder or Old Homestead

The Old Reliable Standard Green Pod Pole Bean

Very early and enormously productive, the long green pods hanging in clusters from top to bottom of pole; entirely stringless. Pods of a silvery green color. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

258 Burger's Giant Green Podded Stringless Pole

White Seeded Kentucky Wonder or St. Louis Perfection

Louis Perfection

The best Green Pod Pole Bean for the North. The vines are not very long, and can be grown on brush instead of on a pole. The pods are borne in clusters and average 6 to 8 inches in length; are very uniformly straight, and of dark green color. They are absolutely stringless, very meaty, tender, and sweet in flavor. The dry beans are small and white, being good for baking after the pods have become too ripe. Equally desirable for the market and for the home gardens. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

259 Golden Cluster Wax

he Earliest Grandest Yellow-Podded Pole Bean in Cultivation. Well Re-pays the Trouble of Procuring Poles

We know of no bean that will please you more than this remarkable new sort. We have grown pods from this variety 10 inches long, and a most beautiful golden waxy color, and where they have been exposed in market have readily brought a better price than any other sort. Pods are produced in clusters of from 4 to 6 the entire length of the vine. While this variety is nearly as early as any of the Dwarf Beans, it will continue to produce pods until cut down by frost. 2-0z. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

264 Red Speckled Cut Short or Corn Hill

A very popular variety for planting amongst corn. It will give a good crop without the use of poles. Pods short, fleshy and of fine quality. 2-oz. packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

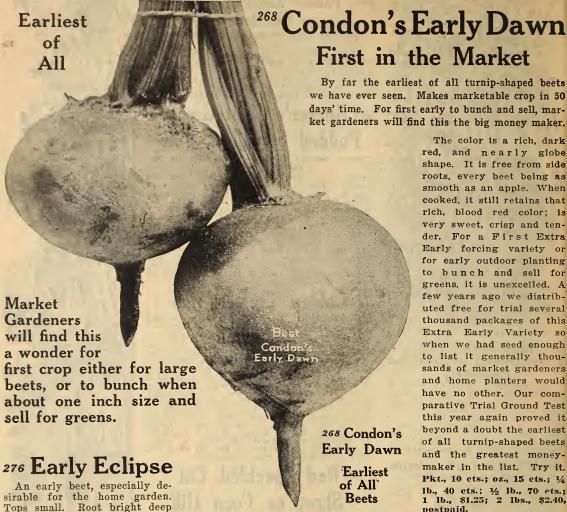

261 Lazy Wife

Enormously Productive. Excellent Quality
The pods are produced in great abundance, and measure 6 inches in length. They are broad and thick, fleshy and entirely stringless. The pods retain their rich, tender and stringless qualities until nearly ripe, and at all stages are peculiarly luscious. Each pod contains from 6 to 8 white beans, which make excellent winter shell beans. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

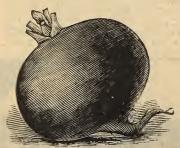

CONDON'S "Sure Crop" Table BEETS

The color is a rich, dark red, and nearly globe shape. It is free from side roots, every beet being as smooth as an apple. When cooked, it still retains that rich, blood red color; is very sweet, crisp and tender. For a First Extra Early forcing variety or for early outdoor planting to bunch and sell for greens, it is unexcelled. A few years ago we distributed free for trial several thousand packages of this Extra Early Variety so when we had seed enough to list it generally thousands of market gardeners and home planters would have no other. Our comparative Trial Ground Test this year again proved it beyond a doubt the earliest of all turnip-shaped beets and the greatest moneymaker in the list. Try it. Pkt., 10 cts.; oz., 15 cts.; 1/4 1b., 40 cts.; ½ lb., 70 cts.; 1 lb., \$1.25; 2 lbs., \$2.40, postpaid.

An early beet, especially desirable for the home garden. Tops small. Root bright deep red, smooth round or slightly tespend with a gradual to the control of top-shaped, with a small tap and small collar. Flesh bright red, zoned with pinkish white, very sweet, crisp and tender, especially when young. Packet, 5 cts.; oz., 10 cts.; ½ lb., 22 cts.; 1/2 lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

Early Eclipse

275 Early Blood Turnip

Standard Early

Our select strain of this old reliable is good and true. Medium early-globeshaped roots-rather coarse tops. Flesh deep red, zoned with lighter shades. Sweet, crisp and tender. Packet, 5 cts.; oz., 10 cts.; 1/4 lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

Beet — Condon's Royal Blood Turnip

277 Edmand's Early Blood Turnip

Tops short and rather spreading; ribs and leaf stalks dark red; blade of leaf bright green, often with wavy edge. Root nearly round or slightly flattened; exterior color dark red, interior color purplish red with little zoning; crisp, tender, sweet, and an excellent keeper. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

Market Gardeners See Special Wholesale Prices on Large Quantities, Pages 188

A Wonderful Cropper for Bunching, and of the Highest Quality.

The root is deep red, very symmetrical, two or three times as long as thick, and always smooth and handsome. The flesh is rich, very dark red, sweet, crisp and tender, never becoming woody even in the portions above the ground. It is a late variety and particularly valuable to store for winter use, Packet, 5 cts.; oz., 10 cts.; 14 lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

270 Extra Early Egyptian Blood Turnip

The strain we offer you of this grand beet has been bred to perfection by our French grower, who enjoys a handsome trade on it by the most critical European gardeners. You will find the quality and type far superior to that offered by many dealers. The best variety for forcing, and excellent for first early crop out of doors, being very early, with small tops. Leaves dark green, shaded and veined with dark red. Root very dark red, moderately thick, a little rounded on top, distinctly flat on bottom, and about 2 inches in diameter when mature. Flesh dark purplish red, zoned lighter shade; firm, crisp and tender. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

281 Condon's New Early Wonder or Model

A selection from Crosby's Egyptian but a few days later. The roots are nearly globe shaped and uniform in size. The skin is a fine deep red and the flesh is also a rich dark color, with very little zoning. Packet, 7 ets.; oz., 13 ets.; ¼ lb., 30 ets.; ½ lb., 50 ets.; lb., 90 ets.; 2 lbs., \$1.70, postpaid.

Condon's Early Wonder or Model

CONDON'S "Sure Crop" BEETS

272 Crosby's Egyptian "Extra Selected Strain"

The name of this variety is misleading, as it resembles the Egyptian only in its extreme earliness. Tops small. The roots are nearly round, or slightly flattened, and very smooth. Exterior color of root bright red. Flesh bright vermilion-red, zoned with a lighter shade; very sweet, tender and of excellent quality. One of the best for early planting outdoors. It becomes fit for use sooner than any other variety, but it is not as well suited as the Egyptian for foreign. but it is not as well suited as the Egyptian for forcing in hotbeds or for transplanting. Our stock is exceptionally uniform in shape and color. Packet, 7 cts.; oz., 13 cts.; 1/4 lb., 30 cts.; 1/2 lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

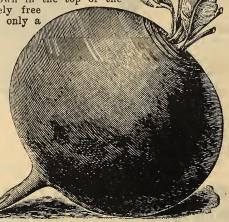

271 Crimson Globe

Excellent Table and Market Beet Of fine shape, very small tap-root, deep crimson

flesh of fine grain, surprisingly sweet flavor and unsurpassed quality. The foliage is small—leaves all grow from a very small crown in the top of the bulb. The beets are entirely free from fibrous rootlets, having only a

slender tap-root. This beet is extensively planted for second early and main crop purposes, it is a splendid mid-season variety. Does well here and in the South. No up-tobe without this most exdate grower can afford to cellent sort. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

274 Detroit

271 Crimson Globe

274 Detroit Dark Red

Main Cropper

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian, and greatly passes that variety in flavor. The color is rich, dark red, and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop, or for use in winter, as it is a good keeper. It cooks sweet, tender and crisp, and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Packet, 7 cts.; oz., 14 cts.; 14, 16., 30 cts.; ½ 16., 55 cts.; 1b., \$1.00; 2 1bs., \$1.90, post-paid.

Excellent for the open garden. This is particularly val-uable for forcing because it produces less foliage than any other variety, and can be grown close together. The roots are smooth and regular in form; the skin is dark blood-red. Flesh fine grained and cooks dark blood-red. Remains in fine condition for a long time. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

For Quantity Prices See Wholesale Pages 188 to 192.

280 New Dark Stinson Very Dark Red, Long Keeper

Swiss Chard Lucullus

SWISS CHARD for Greens

The Cut and Come Again Spinach Beet

Provides "Greens" from Early Spring Until Frost
The outside leaves of Swiss Chard are used as "boiling greens" and are excellent for this purpose. They closely resemble spinach in flavor, but are declared by connoisseurs to be even finer. The large white stalks are used like asparagus; they are boiled and served in melted butter or milk dressing and are fully as delicious as asparagus. Swiss Chard grows well even during hot weather when spinach fails.

282 Lucullus or Silver Ribbed

A strong growing Swiss Chard with extra large leaves which are thick and heavily crumpled. It yields an enormous amount of greens, and has thick white stalks. The most popular variety so we have discontinued growing other varieties. Packet, 7 ets.; oz., 14 ets.; ½ 1b., 30 ets; ½ 1b., 55 ets.; 1b., \$1.00; 2 lbs., \$1.90, postpaid.

Condon's Enormous Mangel

Any land that will grow a good crop of Corn will produce a good crop of Mangels or Sugar Beets, which are surer crops than any other root. Sow 6 to 8 lbs. per acre.

The value of Sugar Beets and Mangels for stock feeding is clearly seen in the improved health and condition of the animals, the increased flow and quality of milk from cows, and the saving in fodder. They yield enormously and can be grown at triffing cost. Everyone who keeps even one cow should grow a patch of either Mangels or Sugar Beets for winter feed. They make excellent and rich feed for poultry. An Acre of Roots will Winter Your Stock. Relished by All Stock. Keeps Animals Healthy. Tonic. As Digestible as Grain. Takes the Place of Silo. Roots as good as Grain Pound for Pound Saves One-Half without Water. Grain Feed without Reducing Milk Vield. 288 Condon's

Enormous

The Largest Yielding Highest Feeding Value of any Mangel we Know of. Grows well above the ground, easily harvested, very nutritious. In color is a rich cardinal red, very cylindrical in shape. Flesh is white, firm and very sweet. cows 25 to 50 pounds a day, depending on taste. Average yield 25 to 30 ton per acre. Ounce, 10 cts.; 1/4 lb., 30 cts.; ½ lb., 55 cts.; 1 lb., \$1.00; 5 lbs., \$4.50; 10 lbs., \$8.50, postpaid.

CONDON'S World Beating Stock

MANGELS and SUGAR BEETS

284 Giant Feeding Sugar Beet, or Half Sugar Mangel

This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mangels, supplies a food of very much higher nutritive value, the roots for feeding purposes being really more valuable, pound for pound, than those of the very best strains of Sugar Beet, and the yield under equally favorable conditions being more than double. The roots grow partly out of the ground, and because of this and their shape, the crop can be harvested and stored at less expense than any other root crop. We are certain that every one who plants this variety and grows it with care will be much pleased with the crop. Every farmer should try it. Ounce, 8 cts.; 1/4 lb., 20 cts.; 1/2 lb., 34 cts.; lb., 60 cts.; 2 lbs., \$1.10; 5 lbs., \$2.50, postpaid.

285 Klein Wanzleben Sugar Beet

(For Sugar Making)

This variety yields 14 to 18 per cent of sugar and is considered e best for sugar making, both in Europe and America. A heavy der. Ounce, 8 cts.; 1/4 lb., 19 cts.; 1/2 lb., 35 cts.; lb., 60 cts.; postpaid.

Of medium size and brought by careful selection to the highest perfection, both in shape and color of roots. Greatly esteemed by sugar manufacturers, and one of the finest for stock feeding, owing to the high percentage of sugar. Ounce, 8 cts.; 1/4 lb., 19 cts.; 1/2 lb., 35 cts.; lb., 60 cts. postpaid.

290 Improved Mammoth Long Red Mangel

Our stock is a great improvement on the old variety. The roots are very large, uniformly straight and well formed. Color deep red, roots solid, tops small. Roots attain a large size. We received several reports last season of Mangels weighing 20 to 23 pounds each. Produces an immense bulk and tonnage. Ounce, 8 cts.; ¼ lb., 18 cts.; ½ lb., 32 cts.; lb., 60 cts.; 2 lbs., \$1.10; 5 lbs., \$2.50, postpaid.

289 Improved Golden Tankard Mangel

The Best Yellow Mangel Grown
—Dairymen's Friend

—Dairymen's Friend

It combines apparently all the fine points possible to condense into a Mangel. The color is a deep rich yellow. The flesh is firm and solid and a rich golden yellow in color. On account of its shape, enormous crops are grown, and it is easily lifted from the ground. Ounce, 8 cts.; ½ lb., 18 cts.; ½ lb., 32 cts.; lb., 60 cts.; 2 lbs., \$1.10; 5 lbs., \$2.50, postpaid.

Giant Feeding Sugar Beet, or Half Sugar Mangel

Mangel Mammoth Long Red

CONDON'S "Sure Crop" CAULIFLOWER

336 Genuine True Early Snowball. Extra Early

334 Extra Early Favorite

Early dwarf variety. Heads are solid, but are not so large nor sure-heading as the Erfurt type. Packet, 10 cts.; ½ oz., 55 cts.; oz., \$1.00; ¼ lb., \$3.50, postpaid.

333 Extra Early Dwarf

A remarkably sure heading Cauliflower. Of dwarf habit with short outside leaves. The heads when ready for market are of medium to large size, curd white, exceptionally deep and of finest quality. It will give excellent results either in the home garden or for market use. Packet, 10 cts.; $\frac{1}{2}$ oz., \$1.00; oz., \$1.85; $\frac{1}{4}$ lb., \$6.75; $\frac{1}{2}$ lb., \$13.00; 1b., \$23.00, postpaid.

NOTICE Picture to Right

337 New Dry Weather or Danish Giant

Especially Adapted to Resist Drought. Reaches Perfec-tion When Ordinary Sorts Fail

Sorts Fail

This new strain originated in Denmark, but has been fully tested in America, producing large, solid, pure white head, maturing a little later than Early Snowball. It is in all respects a first-class Cauliflower, and is especially adapted to dry situation and to resist droughts. Like all other Cauliflowers, it requires manure and culture; but it will succeed with less rainfall than any other variety.

Packet, 10 cts.; ½ ounce, 95 cts.; ounce, \$1.75; ¼ lb., \$6.00; ½ lb., \$11.50; lb., \$22.00, postpaid.

336 Genuine True Early Snowball—Extra Early

It Heads Where Others Fail

It Heads Where Others Fail

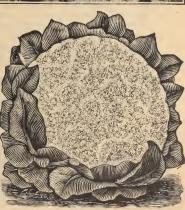

Unquestionably the earliest maturing strain of the true, short-leaved snowball type of Cauliflower. It is admirably adapted for forcing or wintering over for early crop and is the most popular sort for these purposes, also one of the best sorts for late summer and fall crops. Early Snowball is, moreover, a most desirable sort for the home garden. The plants are compact, with few short, outside leaves and are well suited for close planting. The heads are of medium to large size, solid, compact, round, very white and curd-like and are developed earlier than those of any other sort.

The seed we offer you is of the highest possible quality "Grown in Denmark," the country from which it was first introduced. The strain we offer is the resuit of thirty years breeding and perfecting by the most honorable and responsible grower in Denmark. Packet, 15 cts.; ¼ ounce, 65 cts.; ½ ounce, \$1.20; ounce, \$2.25; ¼ 1b., \$7.50; ½ 1b., \$14.00; 1b., \$25.00; postpaid.

335 Early Dwarf Paris

While less expensive, this will give quite good results in suitable localities. Packet, 5 cts.; ½ oz., 45 cts.; oz., 75 cts.; ¼ lb., \$2.50; postpaid.

New Dry Weather

301 CONDON'S Cannon Ball CABBAGE

301 Condon's "Cannon Ball"

Introduced by us in 1913, and now used annually by 50,000 satisfied customers

Read What They Say:

"The 'Cannon Ball' Cabbage I got from you last spring produced the finest early cabbage in Rock Island county."

-FRANK SUMAN, 1607 7th Ave., Moline, Ill.

READY FOR MARKET 65 DAYS AFTER SETTING PLANTS BEYOND QUESTION THE BEST

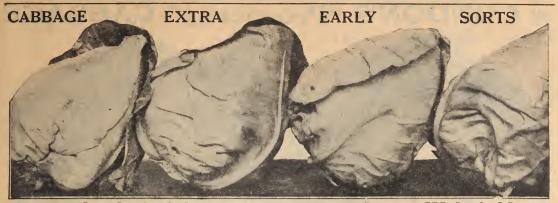

301 Condon's Cannon Ball represents the highest achievement in Cabbage breeding, and is the best extra early round headed Cabbage we have ever grown or seen. In uniformity to type and evenness in early maturing it is a marvel. Every row and every head in a row look nearly alike as if all had been turned out of a mold. Its evenness in maturing has proved it a great favorite with all Cabbage growers as they appreciate the great importance of being able to clear off the ground at one cutting, especially where room is required for a second crop. The plants are of compact, stocky growth, producing large, solid, ball-shaped heads, which average about ten pounds in weight, and are of the very finest quality, smooth with fine veins and small core. Cannon Ball Cabbage is fully as early as the Wakefield types. Will yield a greater crop per acre than other Cabbage of which we know. For both private gardens and marketing this is the One Best Early Cabbage and the Greatest Money Maker of all. Its remarkably fine quality and tenderness, whether cooked or sliced for slaw or salad wins friends wherever tried, while for marketing its handsome salable appearance and uniformity in maturing the crop has caused it to be in great demand. Last year we sold out our entire supply and received hundreds of unsolicited testimonials from customers from all over the country, from Maine to California and from Canada to the Gulf of Mexico. Send your orders early for some of this grand Cabbage. Packet, 10 cts.; ounce, 35 cts.; ½ 1b., \$1.25; ½ 1b., \$2.30; 1b., \$3.95; 2 1bs., \$7.80, postpaid.

309 Extra Early Winnigstadt

A very fine header and will grow a hard head under circumstances where most sorts would fail. Plant very compact, with short, thick leaves. Heads regular, conical and very hard. Packet, 5 cts.; ounce, 20 cts.; ¼ lb., 65 cts.; ½ lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

308 Extra Early Express

Good sized pointed or oval heads frequently weighing 10 pounds. Extra early, compact, solid and of fine flavor. Packet, 5 ets.; ounce, 20 ets.; ¼ lb., 65 ets.; ½ lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

307 Condon's Selected Extra Early Jersey Wakefield

"THE BIG MONEY-MAKING FIRST EARLY OBLONG HEADED CABBAGE"

The photograph above represents an identical sample of the product of our select seed of this grand old standby. Note the uniformity of heads. We have bred it for years and feel safe in saying our strain today is vastly superior to the old parent stock. The heads are uniformly hard and solid. They are pyramidal in form, generally pointed at the end, with but few outside leaves. The outer leaves are usually thick and heavy, and it is thereby enabled to stand more cold weather than any other sort without injury when carried through the winter, either in the open ground in the South or in cold frames in the North. Packet, 10 cts.; 0z., 25 cts.; 1/4 lb., 70 cts.; 1/2 lb., \$1.30; lb., \$2.50; 2 lbs., \$4.90, post-paid.

320 The Golden Acre

Latest introduction from Denmark. A Big Money Maker for Gardeners and Home Planters.

A very small round head, Extra Early Variety, maturing 5 lb. heads in 80 days from time of sowing. Very uniform in size and growth, dwarf, compact head with small leaves, short stem laying close to ground allowing close planting. Heads are very firm and solid with white flesh of excellent quality. This New Wonderful Cabbage matures a full uniform crop that can all be marketed at one cutting at a time when Cabbage is selling at very high prices. Our seed is direct from the originator in Denmark and can be relied upon as the Genuine Golden Acre. Packet, 10 cts.; oz., 40 cts.; ½ lb., \$1.25; ½ lb., \$2.35; lb., \$4.50; 2 lbs., \$8.90, postpaid.

299 Charleston Wakefield

A third larger than Jersey Wakefield, about a week later and much heavier cropper. Packet, 5 cts.; 0z., 20 cts.; ½ lb., 65 cts.; ½ lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

311 Glory of Enkhuizen

The heads are of medium size, globe shaped, handsome, with few outer leaves and just right for market; very productive and excellent in quality; surpassing in flavor most of the other varieties. Packet, 5 cts.; 0z., 20 cts.; ½ lb., 65 cts.; ½ lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

303 Copenhagen Market

Extra Select Originators Strain Very Popular with Market

Very Popular with Market
Gardeners
The heads average about ten pounds each in weight, are hard and solid with small core.
The quality is extra fine and sweet. It matures as early as the Wakefields and will yield more to the acre in weight. It is a short stemmed variety, the heads nearly resting on the ground. The leaves are light green, rather small, and tightly folded, making it possible to set them close together in the field. Packet, 10 cts.; 02., 30 cts.; ¼ lb., \$1.50; lb., \$2.90; 2 lbs., \$5.70, postpaid.

302 CONDON'S "Prosperity" CABBAGE

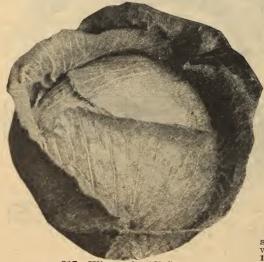

Very Earliest, Largest and Best Flat Headed Cabbage Is What Our Customers Say "America's' Favorite for a second early variety—over a hundred thousand satisfied planters testify it to be the very finest quality, best yielder and biggest Money Maker of all the early flat headed varieties.

Try it yourself this year.

Try it yourself this year.

Prosperity is yours if you plant an acreage of this grand cabbage. Very EARLIEST, LARGEST and BEST FLAT HEADED CABBAGE we have ever seen. It forms large flat heads, solid as marble, weighing 16 to 20 pounds each. The most popular of all Summer Cabbage. Truly this might be termed THE ALL YEAR AROUND CABBAGE. Condon's Prosperity is a dwarf, compact grower with few outer leaves, allowing very close planting, a sure header, very uniform in growth, beautiful appearance, free from coarse leaves and far superior in quality to the Big Winter varieties. For boiling, slaw, sauerkraut, etc., it is unsurpassed, being crisp, tender and sweet, flavor unexcelled, color beautiful creamy white that commands the buyer's attention wherever offered. Whether you grow a dozen heads or a dozen acres for market and regardless of where—North, East, South or West—Condon's Prosperity is the one to Plant for Quantity and Quality as a second early Money Maker. Packet, 15 cts.; ½ oz., 30 cts.; oz., 55 cts.; ¼ lb., \$6.00: 2 lbs., \$11.75, nostnaid. \$1.85; ½ lb., \$3.25; lb., \$6.00; 2 lbs., \$11.75, postpaid.

317 Wisconsin All Season

317-Wisconsin All Season "Improved Yellow Resistant"

This new strain was developed at the Wisconsin Experiment Station and has proven a wonderful help to Kraut Growers and Shippers where "yellows" is prevalent. It is one of the most valuable mid-season or kraut varieties. It differs slightly in color from other strains, being a little darker and showing a resemblance to the color of Hollander. This strain shows a little shorter stem. The heads are rounding or slightly flattened and are solid and fine quality even in weather unfavorable to other late varieties. The seed we offer is of the true "yellows resistant" strain. Packet, 15 cts.; oz., 35 cts.; ½ lb., \$1.10; ½ lb., \$2.10; lb., \$4.00; 2 lbs., \$7.90, postpaid.

296 Bugner's Ballhead "Pure Bred" Yellow Resistant

A very wonderful hard headed winter variety of short stem ballhead, which is now used almost exclusively for winter cabbage in and around Chicago, Illinois. Packet, 15 cts.; oz., 50 cts.; ¼ lb., \$1.45; ½ lb., \$2.65; lb., \$5.00; 2 lbs., \$9.90, postpaid.

Please order by number as well as name. It will help us to serve you quicker.

CONDON'S "Sure Crop" CABBAGE

306 Stein's Early Dwarf Flat Dutch

298 Burpee's Surehead

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear of using words of praise too high for its merits. It forms large, hard, solid, flattened heads, uniform in shape and color, and of handsome appearance. It has a very short stem, and is a compact grower. It is as natural for this cabage to form a head as to form leaves, and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain, for it represents the best principles of seed culture applied. Packet, 5 cts.; oz., 18 cts.; ¼ lb., 60 cts.; ½ lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid.

297 All-Head Early

310 All Season's

An excellent second An excellent second early cabbage, produc-ing large, solid heads of uniform shape, flat-tened on top as shown in the illustration. Fully developed heads Fully developed heads frequently measure 10 to 12 inches across, and weigh 12 to 15 lbs. each. It is also fine grained a n d of dainty flavor. It succeeds everywhere. Some of the largest Cabbage raisers in this country, who grow especially for kraut factories, use our special strain of All Seasons, and claim it far superior to all other varieties for kraut purposes. Packet, 7 cts.; ounce, 20 cts.; ½ lb., 65 cts.; ½ lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

For Uniformity of Heads, for Tonnage and Earliness combined, our Select Strain of this Wonderful Cabbage has no equal. Average heads 16 to 25 lbs. each, excellent quality, always commanding the highest market prices. Yields as high as twenty tons per acre, You can't beat this anywhere on earth. Try it. Packet, 5 cts.; 02., 18 cts.; 1/4 lb., 60 cts.; 1/2 lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid. 1b., \$2.00 postpaid.

312 Early Summer

312 Henderson's Early Summer

Standard Mid-Summer Variety

This variety is deservedly popular with the market gardeners. It forms large, solid, round, fiattened compact heads of excellent quality. The heads average more than double the size of the Jersey Wakefield, while it matures only ten to twelve days later. Packet, 5 cts.; oz., 18 cts.; ¼ lb., 60 cts.; ½ lb., \$1.10: lb., \$2.00; 2 lbs., \$3.90, postpaid.

298 Burpee's Prize Surchead

CONDON'S "Sure Crop" CABBAGE

Danish Grown Varieties

305 Condon's True Genuine Danish Ball Head

Market Gardeners Can Rely on This Strain

This celebrated Cabbage is now recognized the world over as the Hardest Headed, Longest Keeper, Best Shipping and Biggest Money Maker of all winter varieties. It is now grown almost exclusively in the large Cabbage growing sections north of the Ohio River. It is not especially suited to the south, but for northern states and in cold climates it beats all other varieties a mile. It is a strong, vigorous grower, producing large, round, compact heads, almost as hard as lead, weighing when trimmed, one-third more than any other sort of equal size (excepting Cannon Ball). Flesh is pure white, sweet, crisp and tender. Our strain of this excellent variety is highly bred to resist such diseases as "Yellows" and "Black Rot" and from our repeated trials as well as from the experience of cur many customers purchasing this seed annually we are convinced Our Strain Surpasses in even growth and heading, as well as in uniform size and solidity of heads, any other strain we have ever seen of the so-called "Hollander Cabbage." Packet, 10 cts.; oz., 30 cts.; ¼ lb., 80 cts.; ½ lb., \$1.50; lb., \$2.90; 2 lbs., \$5.70, postpaid. Market Gardeners Can Rely on This Strain

Direct from the Grower

316 New Danish "Round Head"

A few days earlier, shorter stemmed type of the famous Danish "Ball Head." Packet, 10 cts.; oz., 30 cts.; ¼ lb., 80 cts.; ½ lb., \$1.50; lb., \$2.90; 2 lbs., \$5.70, post-

300 Chinese Celery Cabbage

"Wong Bok" Very Earliest Dwarf Sure Header

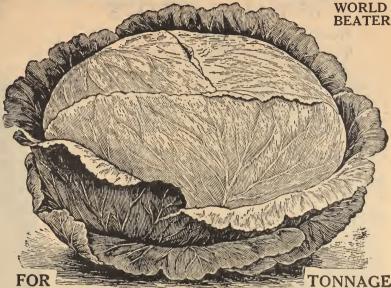

new vegetable introduced into this country from A new vegetable introduced into this country from China. Its appearance is attractive, resembling Cos lettuce in shape. When bleached it is almost clean white, and is very crisp. It has a mild cabbage flavor and can be eaten raw or cooked like cabbage or spinach. Grows very quickly and is more easily grown than ordinary cabbage. We offer only imported Chinese grown seed, which is reliable for good bunching heads. Packet, 10 cts.; oz., 30 cts.; 12 lb., \$1.50; lb., \$2.90; 2 lbs., \$5.70, postpaid.

CABBAGE-Late Flat Headed Varieties

304 CONDON'S Mammoth Prize Late Flat Dutch

This cabbage is as widely grown as any other in the whole country. Continued care and critical selection have secured a perfectly true stock of seed. The heads of our Prize Flat Dutch are very large, heavy, solid, flat on top, and of a bluish-green color. Our strain is a low growing variety, with short stem and comparatively few outer leaves. The quality is fine and the flavor excellent, the heads being white when cut and the inside leaves crisp and tender. Our seed has always been American grown, coming from the celebrated Long Island districts, and whoever purchases Prize Flat Dutch may be assured of getting the best. It is everywhere a favorite market variety. It matures slightly earlier than Drumhead; perhaps three to five days sooner. Prize Flat Dutch is comparatively free from a disposition to burst, and is one of the most reliable winter keepers. Packet, 10 cts.; 3/2 lb., \$1.20; lb., \$2.25; 2 lbs., \$4.40, postpaid.

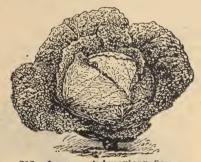

Condon's Mammoth Prize Late Flat Dutch

Wisconsin No. 8

319 Wisconsin No. 8 A "Yellow" Resistant Strain of Hollander

Developed out of Hollander under the direction of Dr. L. R. Jones of the University of Wisconsin. At Ra-cine, Wisconsin, where for several cine, Wisconsin, where for several years many of the commercial crops of cabbage were badly infected or entirely destroyed by the disease called the yellows, this strain has proven to be practically immune from attack. Packet, 15 cts.; ounce, 50 cts.; ½ lb., \$1.45; ½ lb., \$2.75; lb., \$5.25; 2 lbs., \$10.40, postpaid.

Improved American Savoy

313 Improved American Savov

Very Valuable Variety

Adapted for private use. Grown in fall and allowed to be touched by frost; it is one of the most delicious of all vegetailes. Packet, 7 cts.; oz., 22 cts.; ¼ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; postpaid.

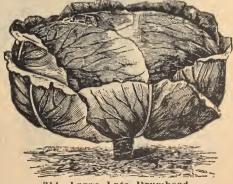

314 Large Late Drumhead

It makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. It is a standard sort for winter keeping and sells readily in the winter and spring markets. One of the most profitable varieties to grow, and will give unbounded satisfaction. Packet, 5 cts.; ounce, 20 cts.; /4 lb., 60 cts; /2 lb., \$1.10; lb., \$2.00, postpaid.

315 Mammoth Red Rock

One of the finest red cabbages on the market. Heads average over 10 pounds ch, and are always of rich color. Try it. Packet, 10 cts.; 25 cts.; 10, \$1.35; lb., \$2.50; postpaid. 318 Dutch Winter or Hollander

Large Late Drumhead

Condon's Selected Strains of Table CARROTS

325 New Early Chantenay or Model "Ready For Market 60 Days From Sowing"

A very fine variety for bunching. This is a very choice strain, producing thick roots of the finest quality. Will average three inches in diameter at the shoulder, gently tapering throughout the broad stump-root, and measuring five inches in length. Flesh tender, fine grained, free from hard core, and of a deep golden orange. An excellent variety to grow for winter use, as they can be harvested easily and are immensely productive. Packet, 7 ets.; ounce, 14 ets.; ½ lb., 30 ets.; ½ lb., 50 ets.; lb., 90 ets.; 2 lbs., \$1.70, pestpaid.

The Largest Table Carrot

A well-known sort; roots long, thickest near the crown, tapering regularly to a point; color deep orange. It is a good keeper of fine quality for winter use. Packet, 5 cts.; oz., 12 cts.; 14, 15., 25 cts.; 12 lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.50, postpaid.

323 Half Long Danvers A Universal Standard

Grown largely on account of its great productiveness and adaptability to all classes of soil. It is a desirable second early carrot for the home garden and is also suitable for field culture. The tops are of medium size. The mature roots are of medium length, six to eight inches long, tapering uniformly to a blunt point. The flesh is deep orange, tender and of good quality. Although the roots of this variety at maturity are comparatively short, they often produce as large a bulk as the longer field sorts and are more easily harvested. Packet, 5 cts.; ounce, 13 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, post-paid.

322 Early Scarlet Horn

One of the earliest varieties in cultivation, and very desirable for forcing. Tops very small. Roots nearly round and of reddish orange color. When fully matured, about 2 inches long, but should be used before fully grown, while young and tender. Packet, 5 cts.; oz., 13 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

327 Condon's Early Coreless Absolutely Free From Heart or Core

This comparatively new variety is by far the earliest of its type, but its earliness does not affect in any way its size or quality. It is a half-long, cylindrical, blunt-pointed variety, with a very small tap-root and small, fine top. The shape and size are extremely uniform, averaging 6 to 7 inches in length and 11/2 inches in diameter, clean-skinned, smooth, and easily pulled. The flesh is very fine-grained, absolutely without any woody heart or core, and entirely free from stringiness and coarseness. The red-orange flesh is of the finest flavor. Packet, 10 cts.; ounce, 17 cts.; $\frac{1}{4}$ lb., 37 cts.; $\frac{1}{2}$ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

328 Nantes Half Long Scarlet Stump Rooted

This extensively used, half long early variety has small tops and is excellent for the market or home garden. The roots are cylindrical, smooth and of a bright orange color. The flesh is orange, becoming yellow in the centre but very tender throughout. This variety is of the finest quality and is one of the most symmetrical and hand-some of the medium sized sorts. The mature roots are usually five to six inches long. Packet, 5 cts.; oz., 13 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

321 Condon's Select Danvers

For Critical Market Gardeners and Private Planters-The Earliest and Sweetest of All Table Carrots

Used Annually by the Largest Planters

Read What They Say-

"I have grown and marketed Carrots for 20 years, but I never had any that were as tender and sweet and sell so readily as your Private Strain of Select Danvers."

My entire crop of Condon's Select Danvers Carrots averaged over 600 bushels per acre this year and every one a marketable size. That's going some, don't you think? Book me for 50 pounds more of this same high quality seed for next year.

Danvers carrots have been the standard for over fifty years and we need not try to offer any proofs as to their popularity. Carrot-breeding is in about the same class as stock-breeding, and if same is not kept true, will deteriorate very quickly. We have endeavored to do more than keep the old parent sort true, and have actually bred up the quality of Danvers Carrot to such perfection that the old parent sort would be ashamed of itself. To distinguish our sort from others, we have termed our strain Condon's Select Danvers. Same has been bred for quality and for yield and on a given acreage it will produce a larger crop of marketable roots than any other kind. The roots are of a rich orange color, and about 6 inches long, with blunt point; adapted to all classes of soil. Packet, 10 cts.; ounce, 17 cts.; ¼ 1b., 37 cts.; ½ 1b., 65 cts.; 1b., \$1.25; 2 lbs., \$2.40, postpaid. postpaid.

326 Ox-heart or Guerande

An Excellent Sort For Shallow Soils-Very Fine Quality-Thick Shoulder

Grows 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend for the home garden as well as to all market gardeners. Packet, 7 cts.; ounce, 14 cts.; 1/4 lb., 30 cts.; 1/2 lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

You can make \$500.00 an acre this year growing carrots

> Try It

Whether you grow for market to ship by the carload or for private home consumption, this is the ONE BEST CAR-ROT to plant. "SWEET and JUICY."

STOCK CARROTS for Cattle Feeding

Greatest Horse and Cattle Food. Wonderfully Productive; 15 to 25 tons per acre. One acre equal to 2 acres of corn. Sow 2 lbs. of seed per acre on any ordinary soil.

Condon's Prize 329

This is the heaviest cropping carrot grown, yielding more tons to the acre than any other sort. The flesh is white, solid, crisp and very sweet; the roots are short and very heavy at the shoulder, which allows them to be harvested very easily. They do not break easily in pulling or storing, owing to their solidity and shape. This is not a carrot for gardeners, but is for farmers and cattle men. The roots frequently measure 12 to 25 inches in circumference, and 15 to 25 tons is not an uncommon yield. A few of these carrots should be grown by everyone, even if they only have one cow. Packet, 10 cts.; ounce, 16 cts.; ½ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

331 Mammoth Yellow Belgian

2 lbs. of Carrot Seed will sow one acre Sufficient to produce on good soil 25 Tons of Carrots Equal in feeding value to 300 Bushels Oats

330 Mammoth White Belgian

A Standard Early Sort

A variety with long slender root, about one-third of which grown above the surface of the ground, thus making it easy to pull. It is very productive, highly nutritious and a good keeper. Packet 5 cts.; ounce, 10 cts.; 1/4 lb., 22 cts.; 1/2 lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

331 Mammoth Yellow Belgian

Best Long-Keeping Yellow

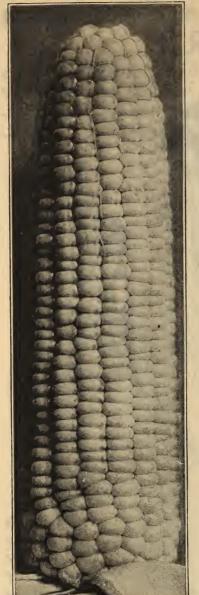

This sort is very similar to the White Belgian except in color Its strong point is its keeping quality, making it of special value for late feeding. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 22 cts. ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

620 Condon's "Silver Queen" or White Bantam SWEET CORN

620 Condon's Silver Queen or White Bantam

Since the Pilgrims settled Massachusetts, Sweet Corn has been one of the most relished vegetables. In early days our forefathers used the old-fashioned Indian Corn, picking same just as it came into the milk, and termed it Roasting Ears. Ever since, man has striven to produce a better quality suited to the advanced tastes and requirements of the time. By crossing the various types, wonderful improvements have been made, until one would think we had reached our zenith; especially after tasting those delicious types of Henderson's Golden Rod and Burpee's Golden Bantam. True, these grand types were far superior to any previously introduced, "but the color was against them." Once again Nature proved a wonder, for we found in our field of Golden Bantam several ears containing a few white grains. These were selected, planted by themselves, and today we have a distinct type of WHITE BANTAM, known as our SILVER QUEEN. Think of it, a WHITE BANTAM CORN, which contains all of the sweet lusciousness of the yellow sort, and yet invitingly silver white in color. Truly, this grand new variety should reign supreme in every garden. Do not associate it with any other kind; it is alone in its class, the SILVER QUEEN. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The quality is most superior, very excellent and surpassingly sweet. Ears 6 to 7 inches long, frequently bearing four and five good ears from a single stalk. 2-oz. packet, 10 cts.; 1/2 lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

SWEET CORN

617 Condon's Early Columbia

Market Gardeners Big Money Maker for a Second Early Variet

Only few days later than the extra early sorts and nearly twic as large. Selection from the famous early champion, and today ou stock of Columbia so surpasses the old parent there is no comparisor Condon's Early Columbia is an acquisition of rare value. This net and valuable variety of Sweet or Sugar Corn has eclipsed all othe sorts. It is as early as the Cory and nearly twice as large, bein 12-rowed and of great length. The color is a beautiful creamy white In quality, sweetness and flavor it is superior to any second early sort known and a very heavy yielder. Early Columbia Corn is the best and largest early sweet corn ever offered. 2-oz. packet, 8 cts. ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

618 Condon's Golden Sunburst

The sweetest, largest and best of all yellow Sweet Corn is what our customers say. Our own origination. This is the celebrated corn we distributed for trial a few years ago that everybody praised so highly. Better to-day than ever. Try it.

Cross between Burpee's Golden Bantam, Country Gentleman and Evergreen, retaining the color of Golden Bantam and its delicious flavor, combined with the other two, and the sturdy yielding qualities of the Evergreen. This is truly a remarkably fine sort, and is destined to become a great favorite in every market. Don't miss this. It's certainly a good thing, and we want you to try it. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

624 Early Minnesota The Old Reliable

A standard variety. Has held its position in the list for a long period of years as a dependable sort. The ears are of good size and well flavored. Valuable for either private or market use. Eight to ten rowed; excellent quality; large white grain and extremely productive. 2-oz. packet, 7 cts.; ½ lb., 15 cts.; lb., 25 cts.; 2 lbs., 45 cts., postpaid.

627 Howling Mob

Condon's Early Columbia

When this new sweet corn was first introduced at market by the originator, it became so popular that crowds gathered about his stand. Really, a mob howled for this delicious corn, and so it was named Howling Mob. Howling Mob is one of the best flavored and most tender of all second-early white sweet corns. It matures right after Golden Bantam and makes a perfect succession to this fine variety. Ears of Howling Mob measure from 7 to 9 inches in length and they are closely set with 12 or 14 rows of large, pearly white grains. 2-oz. packet, 8 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts.; postpaid.

Howling Mob Sweet Corn

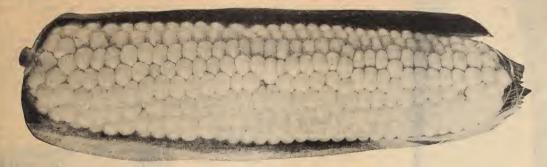

Condon's Golde Sunburst

Mena, Arkansas, March 3

Gentlemen: Your Sweet Corn pro-duced a wonderful crop for me and found ready sale in market at handsome profit Your Silver Queen and Golden Sun-burst are best for this market. Mrs. R. H. Gaines.

Four Leading Varieties of Very Early Sugar Corn

629 Mammoth White Cory 629 Mammoth White Cory

We consider this one of the best extra early varieties for the market and home garden. The ears are very large for so early a variety. The stalks are about four feet high, each generally bearing two large, finely shaped ears which become fit for use very early. They are twelve rowed, six to seven inches long, very symmetrical and handsome, seldom with any opening between the rows at the base. The grain is large, broad, very white and of remarkably good quality for such an early sort. 2-oz. packet, 8 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

623 Crosby's Early A most excellent early variety of fine quality. The ears are five and one-half to six and onehalf inches long, fourteen rowed or more, with short nearly square grains which are very white, sweet and tender. The stalks are about four and one-half feet high. This variety is desirable for the home garden and market. It is a sort largely grown in Maine for canning. 2-oz. packet, 8 cts.; 1/2 lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

630 Alpha The earliest sweet corn. Matures a week to ten days ahead of Mammoth White Cory. The ears average six to seven inches long, are uniformly eight rowed, fully equal in quality to Mammoth White Cory with skin a trifle more tender. The stalks are very uniform in height averaging about four feet. Ears are set low and close to the stalks. For the market grower who reaps an extra profit by getting his produce on the market ahead of his competitors this will be a money-maker; for the home gardener it will produce desirable ears for the table a week ahead of any variety except Silver Queen. 2-0z. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

616 Golden Bantam Extra Selected Seed

The World's favorite for 20 years, and better today than ever: BIG MONEY MAKER for gardeners and excellent for home plant-

This is an early sweet corn with golden yellow grain, very tender and of excellent quality. The ears are eight rowed, six to seven inches long and of the medium size found most suitable for the table. The flavor is exceptionally rich and delicious. The stalks are four to five feet high. Our stock of this splendid home garden and market variety has been very carefully selected and is decidedly superior to much that is offered. 2-oz. packet, 7 cts.; ½ lb., 15 cts.; lb., 25 cts.; 2 lbs., 45 cts., postpaid.

616 Golden Bantam American Favorite

Alpha Extra Early White Corn

Country Gentlemen Sweet Corn

626 Early Evergreen

Earliest of All Evergreens
Has ears fully as large as
those of the regular Stowell's
and is about five days earlier,
while the grains remain tender while the grains remain tender for a longer period. Its most valuable feature, however, is the extreme paper whiteness of the grains, which makes not only a more attractive ear when served on the table, but is most important for the canner. It retains its whiteness when put up in cans as distinct from the yellowish tinge of the still popular original Stowell's Evergreen. 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

Sweet Corn 621 Country Gentlemen

70 Day Corn, an Improvement on the Old Favorite Shoe Peg Sweet Corn, Used Extensively by Canners for Their Best and Highest Priced Canned Corn

Is a late main crop variety, which should find a place with every grower for home or market. The ears which are 7 to 9 inches long are borne on stalks 6 to 7 feet high. Unlike other sorts the grain is small and rather round and crowded together on the cob, instead of forming in defined rows. Deliciously tender and sweet this corn is regarded by many as the highest quality of all White Sweet corns. Condon's strain has been especially selected for small deep kernels and high sugar content and represents the highest bred type. 2-oz. packet, 10 cts.; ½ lb., 21 cts.; lb., 38 cts.; 2 lbs., 72 cts., postpaid.

622 Early Adams

Early Adams

Earliest Corn in Cultivation

Very early, and used extensively for a first-early table corn in the South. Stalks about 4 feet high, with small tassel, very few leaves, and without suckers. Ear short, very full, often nearly as thick as it is long, well covered with coarse husks; kernels white, smooth. An extremely hardy variety which can be grown closer together than most sorts. 2-oz. packet, 5 ets.; ½ lb., 15 ets.; lb., 25 ets.; 2 lbs., 45 ets., postpaid.

614 Black Mexican Considered the Sweetest of 70 days.

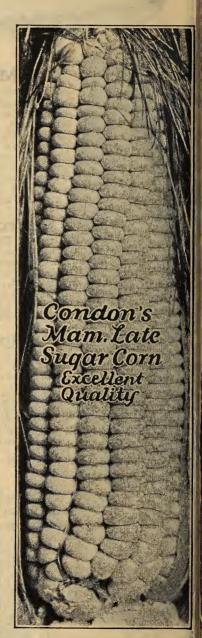

Grains when first perfected are pure white, and are then at their best for table use. Very tender and sweet; bluish black when ripe, but when cooked, grains are white with a bluish tinge. Fit to eat in 70 days. One of the best for home use. 2-oz. packet, 8 cts.; ½ 1b., 17 cts.; 1b., 30 cts.; 2 1bs., 55 cts., postpaid.

628 Mammoth Late Sugar

This tall growing sugar corn is one of the very sweetest known. It matures a little later than Stowell's Evergreen, and is large in both stalk and ear. In quality it is delicious, being sweet and tender. The ears remain long in the green state, and it is particularly good for canning purposes. An excellent late sort for the garden. 2-0z. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

626 Early Evergreen

White Evergreen Sweet Corn

The Finest Quality, Largest Eared Sugar Corn Wonderful Sort for Canning

Sweet as Honey, Tender Until Frost Comes Enormously productive, averaging 3 to 5 fine Big Ears from a single stalk. Ears 8 to 10 inches long, 16 to 18 rows on the cob. Every ear runs uniform, well rounded out both on the tip and the butt. The ears are compactly filled with long, plump, purity white kernels, lusciously tender and sweet. Another great feature is the length of time the ears remain "in the milk," the thick husk giving it splendid protection, making it marketable for a longer period of time than any other known sort. In color it is the most perfect Purity White grain corn you ever saw, making it the most attractive ear when served on the table and the most valuable variety for canning, retaining when canned that distinct purity whiteness which makes a big demand for it at good prices even when the markets are loaded with other varieties. DON'T FAIL TO PLANT SOME OF IT. 2-oz. packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

Late maturing sort, producing strong and vigorous stalks, 7 to 8 feet high; produces ears 8 inches long with 16 or more rows of the finest sugary grains. This variety has gained and maintained a reputation for productiveness, fine rich flavor, sweetness and deep set tender white grains. 2-oz. packet, 8 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

Golden Sunshine The Earliest, Largest Eared, Sweetest Yellow Corn Introduced to Date

This is a brand new distinct variety of Early Yellow Sweet Corn; offered to the general public last year for the first time. We were sold out last year long before planting time. Reports from hundreds of customers as well as our own trial ground experiments prove it to be just what the originator said about it; "namely," "The Earliest of all Yellow Sugar Corn and the finest quality for market, home or canning." 3 to 10 days ahead of Golden Bantam and much larger. Ears 6 to 8 inches long, generally 12 rows of kernels to a cob. Stalk grows 5½ feet tall bearing the ear one foot from the ground. We recommend this as a big money maker for gardeners, and a most satisfying variety for home planters. ORDER EARLY PLEASE. SUPPLY LIMITED 2-oz. packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

NOTICE

For many years we have specialized in Superior Celery Seed and supply annually many of the largest and most critical planters in America. On page 9, under specialties, we offer "Genuine" Imported French Grown Seed.

NOTICE

Your Celery seed made me a big crop this year of excellent quality and while the market was below normal, I had no trouble in disposing of my entire crop at a good price.

> JOHN J. HENSHAW, Batavia.

341 Condon's Golden Self-Blanching Celery

A-No. 1 Extra Select Strain fo Large Market Growers and Critical Planters—American Grown

Without doubt the very finest celery in cult vation and the Biggest Money Maker. Stalk Thick, Crisp and Brittle. No Hollow Center Blanches itself to a Beautiful Golden Yellow. We supp it annually to the largest and most critical planters i America and this is what they say about it.

Dear Sir: Newark, N. Y., Sept. 20.

I am writing in regard to the Celery Seed purchased from you. It has proven one of th best of seeds. So much of the Celery plante here has turned out to be the Green Celery. can use another pound of Condon's Golden Se Blanching Celery Seed and would like to knoif you will send me 1 lb. for the same price a last year. If so send me 1 lb. of Condon's Golde Self Blanching Celery Seed as soon as you ca by Parcel Post, C. O. D., and oblige

James H. Van Derbilt, R. F. D. No. 3.

The plants are of medium size, compact an stocky, with yellowish green foliage. As the mature the inner stems and leaves turn beautifu golden yellow so that blanching is effected at minimum expenditure of time and labor. It handsome color, crispness, tenderness, freedon from stringiness, and fine nutty flavor have e tablished it as a superior first early sort. Equall desirable for muck or upland farms. Try i Packet, 12 cts.; ounce, 60 cts.; ½ lb., \$1.80; ½ lb., \$3.25; lb., \$6.00, postpaid.

American Grown "Sure Crop" Celery

348 Henderson's Easy Blanching

343 Giant Pascal

The Largest Ribbed Celery

This is a green-leaved variety This is a green-leaved variety developed from the Golden Yellow Self-Blanching, and we recommend it as being of the best quality for fall and early winter use. It blanches to a beautiful yellowish white color; is very solid and crisp and of a fine nutty flavor. Packet, 10 cts.; ounce, 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.65; lb., \$3.00, postpaid.

340 Columbia

Second Early Winter Sort

An early-maturing sort unsurpassed in shape and quality. The plant is of medium height, but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal; the color has in it more of the rich yellow tint of Golden Yellow Self-Blanching, which variety it resembles very much in appearance when trimmed and bunched for the market. Packet, 10 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

348 Henderson's Easy Blanching Celery Originators True Stock. Absolutely New

Distinct Sort

The Easiest and Quickest to Blanch The Earliest and the Latest in One Row

The Earliest and the Latest in One Row
A valuable celery of recent introduction and is now extensively grown by
the most progressive celery growers
throughout the United States. The stalks
are stocky in growth and of medium
height and are the easiest and quickest
to blanch and keep better in the trench
than other sorts. The tender, brittle,
sweet, nutty flavored stalks are attractive in appearance. Ready for the table
or market in about 115 days. Grows
equally well on muck or upland. Packet,
10 cts.; ounce, 40 cts.; ½ lb., \$1.35; ½ lb.,
\$2.60; lb., \$5.00, postpaid.

342 Condon's Extra Select White Plume

The Very Finest for Fall and Early Winter Use "Crisp as Ice."

Use "Crisp as Ice."

It is a truly beautiful type. No other celery naturally turns white upon reaching maturity. All others require blanching with boards or with earth. The Golden Self-Blanching naturally turns yellow, but this one turns white. Not only does the stem whiten, but the leaf itself, especially every inner leaf, assumes the attractive white color. This makes the White Plume Celery one of the most showy ornaments that can be put upon the Thanksgiving or Christmas dinner table. Packet, 10 cts.; ounce, 30 cts.; ½ lb., \$1.65; lb., \$3.00; postpaid.

Large Smooth Prague
An improved form of turnip-rooted celery, excellent for soups and stews. Produces roots of nearly globular shape and comparatively smooth surface. Packet, 10 cts.; ounce, 30 cts.; 1/4 lb., 90 cts., post-

345 Kalamazoo

Extra Select Strain for Critical Planters Planters
We consider our Kalamazoo absolutely and without exception the very best celery grown. It is late; it is not self-blanching, but it is worth many times over all the extra trouble and labor involved in growing it. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 75 cts.; ½ lb., \$1.40; lb., \$2.50; postpaid.

This very desirable variety is considered the most attractive in color and the best in quality of any of the late-keeping sorts. The plant is dwarf. Packet, 5 cts.; ounce, 20 cts.; 1/2 lb., \$1.15; lb., \$2.00, postpaid.

344 Golden Plume

An outstanding new variety of Celery. The plants are of strong growth and produce thick and heavy stalks with a well-blanched solid heart. It is considered by many gardeners the best early Celery. Early and quite resistant to blight and rot. A very desirable variety, with good storing qualities; crisp and of excellent nutty flavor. Packet, 15 cts.; oz., 75 cts.; ¼ lb., \$2.00; ½ lb., \$3.85; lb., \$7.50, postpaid. or Wonderful

Golden Plume or Wonderful

Condon's "Sure Crop" Cucumbers

Seed Saved From Hand Selected Fruit of Uniform Type

361 Condon's Early Wonder-Earliest of All

361 Condon's Early Wonder

Earliest, Smoothest, Greatest Yielder and the Most Crisp. The Best and Most Profitable
Extra Early Slicer We Have Ever Seen. Notice Small Seed
Cavity Which Tells the True Story.

As an extra early Cucumber there is no strain to equal this. It is of a most handsome shape and holds its deep green color better than any other White Spine type. Fruits grow very even in size and regular in form. Color is dark clive green with lighter spines running from blossom end. It is smooth, tender and crisp. Remains green on the vine, and after picking it never turns yellow. It is very hardy, robust and free from disease. We have not seen a strain more uniform in size, color and evenness than our Earliest of All. Market gardeners and large planters who value earliness, will find this the most profitable sort in cultivation. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

371 Snow's Early Pickling

364 Extra Long White Spine

The Extra Long White Spine, or "Evergreen," as it is sometimes called, is the standard and most popular of the Long White Spine varieties. In season it is early, vigorous, and prolific, more blight-proof than the ordinary long sorts. The shape is straight; smooth, dark, shiny green in color; 8 to 12 inches in length, and, compared with "Davis' Perfect," is larger in diameter. The flesh is crisp, tender and of superb flavor. For general market and home use it is without a superior in this variety. The seed we offer is the result of a number of years of exhaustive trials and a scientific selection from the pick of different strains of many growers. Select stock. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

371 Snow's Early Pickling

This is a selection made from the "Chicago Pickle" by a veteran pickle grower, Mr. Snow, of the famous Snow Pickle Farm, Rockford, Ill. The type is shorter when ripe than the Chicago Pickle and is broad at the stem end, tapering slightly to the tip. The small pickles are dark green, cylindrical and square ended, average 4 to 5 inches in length when large enough for slicing, and are of excellent quality; but it is chiefly for producing medium-sized pickles, that this variety is so highly esteemed. If the fruits are gathered as soon as large enough, the vines will continue bearing through a long season. Packet, 7 cts.; oz., 12 cts.; ½ Ib., 55 cts.; Ib., \$1.00; 2 Ibs., \$1.90, postpaid.

CONDON'S "Sure Crop" CUCUMBERS

362 Davis Perfect Select

Original strain. As now selected, the long even fruits are of fine form, with an intensely dark, rich green skin. With very few seeds, the solid white flesh is of superb quality for slicing. So handsome and regular are the fruits that they bring an extra price on market, often being taken for "hot-house grown." The vines are of strong growth and quite prolific.

Mr. Davis, the originator, says: "This new variety beats all others in points of beauty, quality and productiveness. More fruit can be cut from it than from any other we ever tried in the greenhouse, while for outdoor growing they seem to yield even better than under glass, and even experts cannot tell the outdoor fruits from the hot-house product." Packet, 7 cts.; ounce, 14 cts.; 1/4 lb., 35 cts.; 1/2 lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

Condon's Everbearing

This is a unique and highly meritorious pickling variety; meritorious because of its quality, and unique in its ability to go right on bearing, whether the ripened cucumbers are picked or not. It is enormously productive and a general favorite. Fruits of every age and also blossoms may be found on a single vine and bearing continues until the coming of frost. A favorite for pickles. Also an excellent home garden variety. Packet, 8 cts.; ounce, 15 cts.; ½ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

365 Green Prolific, or Boston Pickling

This is a very prolific cucumber; largely planted for pickles. The fruits average 4 to 6 inches in length when large enough for slicing, and are of excellent quality. It is, however, for producing medium-sized pickles that this variety is so highly esteemed, as it is enormously productive, and if the fruits are kept gathered as soon as large enough, the vines will continue bearing throughout a long season. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

360 Condon's Extra Early Improved Long Green

Vines very vigorous and productive. The fruits are very long, often 12 inches; slender and uniformly dark green color. Furnishes some fruits early, but matures the bulk of its crop rather late. Excellent for slicing and very largely used for pickles. The fruits are often used for making sweet pickles. We offer a carefully selected strain, uniformly long, of good form and with the large warts and spines well distributed over the surface instead of being clustered at and spines well distributed over the surface instead of being clustered at one end, as in inferior stocks. See cut. Packet, 10 cts.; ounce, 18 cts.; ¼ lb., 45 cts.; ½ lb., 75 cts.; lb., \$1.35, 2 lbs., \$2.60, postpaid.

369 Serpent or Snake

A curious, unusually much twisted cucumber. Grows in many interesting shapes and forms. Often measures 2 to 4 feet long. More of a curiosity to grow to exhibit at fairs than for food value. Pkt., 10 cts.; 3 pkts., 25c, postpaid.

Klondike "White Spine" 367

A medium early, white-spined cucumber of handsome, very dark green color and of excellent quality for slicing. The vines are very hardy and productive. The fruits when mature are about 8 inches long, and are uniform in size and shape. Color dark green, slightly striped at the ends. The dark green color is retained much longer and is affected less by the hot sun than any other sort with which we are familiar. Its uniform size and shape and splendid color are making this variety very popular as a shipping sort. Packet, 5 cts.; ounce, 10 cts.; ¼ 1b., 30 cts.; ½ 1b., 50 cts.; 1b., 90 cts.; 2 lbs., \$1.70, postpaid.

Gherkin

West India Gherkins 373

A small fruited variety, very prolific, and used only for pickling as it has no slicing value. Fruits are thick and rounded in shape, ranging from 2 to 3 inches in length, and covered with spines. Makes a strong growth of slender vines, with small foliage. Prices, packet, 10 cts.; ounce, 20 cts.; ¹/₄ lb., 50 cts., postpaid.

Condon's Extra Early Improved

Condon's "Pure Bred" Cucumbers

375 Early Fortune
One of the finest types of White Spine yet produced. Early, very productive and disease resistant; fruits 9 inches long, slightly tapering; flesh white, very firm and crisp, with few seeds. The color is a rich, dark green, which does not fade when shipped a long distance. On account of its earliness, handsome shape, medium size, dark glossy green color and prolificness, it has become one of the most popular varieties with commercial truckers who plant acres for shipment to Northern markets. Matures in about 50 days. It is one of the earliest and finest dark-black, green-white spine cucumbers. Our seed is of originators "True Stock" Extra Selected Annually—None better. Packet, 8 ets.; oz., 15 ets.; ¼ 1b., 35 ets.; ½ 1b., 60 ets.; 1b. \$1.10; 2 lbs., \$2.10, postpaid.

370 Early Green Cluster Fruits of the slim form are desirable for pickling. It is extra prolific, frequently setting in clusters of two or three. These are desirable for small pickles. If the fruits are kept gathered, the vines will continue bearing. Packet, 5 cts.; oz., 10 cts.; 1/4 lb., 30 cts.; 1/2 lb., 50 cts.; 1b., 90 cts.; 2 lbs., \$1.70, postpaid.

358 Arlington White Spine

The young fruits are crisp and tender, and are of dark green color. The mature fruits are about 6½ to 7 inches long. Considered by many to be the best sort for small pickles. Excellent also for slicing. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

366 Japanese Climbing Vines extending a climbing sort; can be grown on trellises or other supports, valuable in small gardens. Very prolific, from 40 to 50 fruits having been counted on single plants. The cucumbers are long and of fine flavor. Packet, 7 cts.; ounce, 15 cts.; ½ lb., 45 cts.; ½ lb., 75 cts.; lb., \$1.40, postpaid.

368 The New Lemon Its flavor is de-licious, never Round Like a Lemon bitter. Excel-Round Like a Lemon

and for salads and pickles surpasses them all; always tender, crisp and juicy. Packet, 10 cts.; ounce, 20 cts.; ¼ lb., 55 cts.; ½ lb., \$1.05; lb., \$2.00, postpaid.

363 Early Short Green This variety is known also as Early Frame, and is an early, bright green cucumber of medium size, very extensively used for slicing and pickling. Packet, 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

General favorite everywhere and is used almost exclusively by pickle factories throughout the country. The fruit is of medium size, wonderfully even in growth, slightly pointed at both ends. Extra early and the whole crop can be depended upon to make fine shaped pickles. Color deep green, begins to set its fruit when quite young. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. Packet, 5 ets.; oz., 10 ets.; ¼ lb., 30 ets.; ½ lb., 50 ets.; lb., 90 ets.; 2 lbs., \$1.70, postpaid.

374 White Wonder

Beautiful clear white, not even changing color when fruits are matured. Fruits 8 to 10 inches long, very uniform. Wonderful flavor. Excellent as a slicer or for pickles. Packet, 10 cts.; oz., 20 cts.; 1/4 1b., 50 cts.; ½ 1b., 85 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

The Great Salad Plant for Fall and Winter Use. Also Known as Winter Lettuce

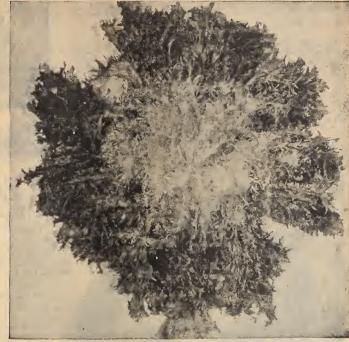

382 Fine Green Curled or Giant 382 Fine Green Curled or Giant Fringed Oyster. A hardy, vigorous growing endive with bright deep green leaves. The midribs of the outer leaves are usually tinged with rose. The dense mass of deeply divided leaves formed in the center blanches very readily to a rich cream color. This sort is highly esteemed for the market and home garden, and is much used for salads. Pkt., 8 cts.; does, 15, 10, postpaid.

383 White Curled The plants are moderately dense, with divided leaves which are very light yellowish green in color, even the outer ones being very light. This variety blanches readily to an attractive creamy white. Pkt., 8 cts.; oz., 15 cts.; ½ lb., 60 cts.; lb., \$1.10, postpaid.

380 Broad Leaved Batavian

380 Broad Leaved Batavian (Escarolle) A variety having broad, more or less twisted and waved bright deep green leaves with thick, nearly white midribs. The inner leaves form a fairly solid, clustering head which blanches to a beautiful deep creamy white and is crisp and tender. This sort is unsurpassed for salads and is much used for the home garden and market. Pkt., 8 cts.; 0z., 15 cts.; ¼ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10, postpaid.

379 Dandelion (Lowenzahn; Dent-de-Lion.) Cultivated for spring greens, is fast gaining favor. Our thick or cabbage leaved variety is best; unlike common sorts, almost double usual size. Packet, 10 ets. 1/2 ounce, 30 cts.; ounce, 50 cts.; 1/4 lb., \$1.75, postpaid.

Endive or Winter Lettuce. Fine Green Curled

HERBS Pot, Sweet and Medicinal Medicinal

399

401

Save a corner of the garden for a few Pot and Sweet Herbs (for flavoring, soups, meats, etc.) they are indispensable to every garden, while some of the Medicinal Herbs will be found very useful. They thrive nicely along the sunny side of the fence, in a deep and fairly rich soil.

Marioram Sweet

Summer

Every kitchen garden should have a few herbs. They are easily grown and are always pleasant and desirable for flavoring, perfuming and medicinal purposes.

Culture—Sow in early spring, at the time when the trees begin to leaf, in ordinarily good and well-drained garden soil, in rows 12 to 24 inches apart. Cover seed lightly. Thin or transplant to stand 6 to 12 inches apart in the rows. Cultivate frequently and keep free from weeds.

394 Basil Sweet

397

GOURDS

Resemble—in color, form and size—the eggs of hens; do not crack, and are uninjured by cold or wet. They make the very best nest-eggs. Packet, 10 cts.; ounce, 25 cts.

390 Sugar Trough

By sawing off the upper portion, large dishes or buckets may be made, which are useful for many household purposes. The shell when dried is thick and hard, extremely light but very durable. Packet, 10 cts.; ounce, 25 cts.

386 Dipper
When grown on the ground the stems will be curved, while if raised as a climbing vine the weight of the blossom end will cause the stem to grow straight. Packet, 10 cts.; ounce, 25 cts.

387 Dishcloth or Luffa

A natural dishcloth, and a most admirable one, is furnished by the peculiar lining of this fruit, which is sponge-like, elastic and durable. Packet, 10 cts.; ounce, 30 cts. 388 Finest Mixed

546 Monarch White Rice

EGG PLANT

376 Black Beauty-Earliest of All

As large as the New York Improved, but about ten days earlier. The skin is a rich, lustrous purplish black—the satin gloss and rich coloring add greatly to the beauty of these "eggs." The intensely brilliant coloring is uniform over the whole fruit. Pkt., 10 cts.; ½ oz., 25 cts.; oz., 45 cts.; ½ lb., \$1.40; ½ lb., \$2.70; lb., \$5.00, postpaid.

Large New York Purple

This is an entirely spineless strain of the large purple-fruited, which is the well-known standard. The plants are equally as productive, fruits as large and well colored, but stems and calyx are entirely free from spine. Pkt., 10 ets.; ½ 20., 22 ets.; 02., 35 ets.; ½ 1b., \$1.25; ½ 1b., \$2.35; 1b., \$4.50, postpaid.

377 Condon's Colossal—Largest of All

377 Condon's Colossal—Largest of All It is of large size and extremely good shape, being particularly adapted to slicing, and for flavor it cannot be surpassed. It resists drought, blight and bad weather to a wonderful degree, on account of its strong, upright growth. The fruit often measures 18 to 24 inches in circumference (6 to 8 inches in diameter) and is borne well above the ground. Pkt., 15 cts.; ½ oz., 40 cts.; oz., 75 cts.; ½ 1b., \$2.25; ½ 1b., \$4.00; 1b., \$7.50, postpaid.

POP CORN

545 Australian or Japanese Hulless

Also known in some sections as Baby Rice, Tom Thumb, or Bumble Bee Popcorn. The Australian Hulless is a dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strains of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Most tender and delicious flavor when popped. Packet, 5 cts; ¼ lb., 10 cts.; ½ lb., 18 cts.; lb., 30 cts.; 2 lbs., 55 cts.; 5 lbs., \$1.25, postpaid.

Monarch White Rice

Everybody knows the old variety named White Rice. Our strain is an improvement, with large ears, and the ears are more abundantly produced. Packet, 5 cts.; ¼ lb., 10 cts.; ½ lb., 18 cts.; lb., 30 cts.; 2 lbs., 55 cts.; 5 lbs., \$1.25, nostnaid. postpaid.

Queen's Golden

This is perhaps the handsomest of all the popcorns when on the ear, surpassing all others in size and color. It pops perfectly white. A single kernel will expand to a diameter of nearly one inch. Packet, 5 cts.; ½ lb., 10 cts.; ½ lb., 18 cts.; 1b., 30 cts.; 2 lbs., 55 cts.; 5 lbs., \$1.25, postagid. postpaid.

545 Australian or Ja-panese Hulless Pop Corn

Brussels Sprouts 295 New Danish Prize

Georgia Collards

353 Peppergrass

BRUSSELS SPROUTS

A variety of cabbage producing small heads or knobs along the stem, which are cooked like cabbage. Very popular in some markets. 295 New Danish Prize

This new variety has proven to be a decided advance on anything yet offered, being of half-dwarf, sturdy growth and producing abundant large solid dark green sprouts which are of excellent quality. Packet, 10 cts.; ounce, 25 cts.; ½ lb., \$5 cts.; ½ lb., \$1.40; lb., \$2.50, post-noid. paid.

294 Half Dwarf Paris Market

This is the most popular Brussels Sprouts on the Parisian market, scarcely exceeding 2 feet in height. It is of straight habit, with a slight purplish tinge on the leaf stalks, and sometimes on the sprouts themselves when young. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 65 cts.; ½ lb., \$1.15; lb., \$2.25, postpaid.

BORECOLE or KALE

abundance of green leaves, which are densely curled and crinkled.

This is hardier than Cabbage and makes excellent greens for Winter and Spring use. The leaves are as curly as Parsley, tender, and of very fine flavor. It is improved by frost. Sow the seeds in May or June, transplant in July and treat same as Cabbage. Immense quantities of this are grown in the South and shipped to Northern markets. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts., postpaid.

351 Georgia, South-

arn, or Creole

A variety of cabbage extensively used in the South. We offer the true white or green stemmed sort so exclusively used in the South. Forms a large loose open head, or a mass of leaves on tall stems. Freezing does not injure, but rather improves their quality.

Packet, 5 cts.; ounce, 10 cts.; ½ 1b., 20 cts.; ½ 1b., 65 cts., postpaid.

349 Chervil, Curled

349 CHERVIL

Hardy annual, worthy of more general use for flavor general use for flavor-ing and garnishing. Curled va-riety more beautiful than parsley. Packet, ets.; ounce, 25 ets., postpaid.

CRESS

353 Curled or Peppergrass Cress
This small salad is much used with lettuce to the flavor of which its warm, pungent taste makes a most agreeable addition. Packet, 5 cts.; ounce, 10 cts.; 1/4 lb., 35 cts., postpaid.

355 True WaterCress

This is quite distinct from the last, and only thrives when its roots and stems are submerged in water. It is one of the most desupmerged in water. It is one of the most de-licious of small salads, and should be plant-ed wherever a suitable place can be found. Packet, 10 cts.; ounce, 50 cts., postpaid.

Borecole or Kale-Dwarf Curled 293 Tall Green Scotch Curled

This variety is very hardy and is improved by a moderate frost. About thirty inches tall, with an abundance of green leaves, which are densely curled and crinkled Stands the Winters in the Middle States without protection. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts., postpaid.

Has the highly prized flavor of Water Cress. It is so nardy as to be green nearly the whole year, and is ready for use before any other salad in Spring. Its usage should be more general, as it is of as easy culture as pinach. It is a perennial plant and can be grown for several years without renewal. Packet, 10 cts.;

352 Fetticus or Lamb's Letting.

unce, 30 cts., postpaid.

352 Corn Salad

352 Fetticus or Lamb's

Lettuce This delightful salad, known as Mache-Steck Salot, is used during the Winter and Spring the Winter and Spring months as a substitute for lettuce, and is also cooked and used like spinach. In warm weather the plants will mature in four to six weeks. Perfectly will mature in four to six weeks. Perfectly hardy, sow in fall for early spring use. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 ets., postpaid.

433 The Mango Melon

Or Vegetable Peach

Another splendid novelty of late introduction, very striking in color, most wonderful yielder. Fruit is about the size of an orange, orange-shaped; and a bright orange-yellow color, somewhat russeted. For sweet pickles, pies or preserving they are splendid. Packet, 10 ets.; ounce, 30 ets., postpaid.

384 New Garden Lemon

Certainly one of the greatest novelties of recent introduction. Resembles the Vine Peach in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted like the Vegetable Peach. Packet, 10 ets.; ounce, 30 cts., postpaid.

417 Condon's Cabbage Head Lettuce

Big Money Maker Gardeners' Market King

Originated on our Rock River Valley Seed Farm and introduced in 1913. Thousands of customers will have no other kind.

Recommended by critical market gardeners as the very best solid heading variety for Spring or Summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender.

Produces immense heads, 8 to 10 inches across, and as solid as a Cabbage. It blanches beautifully. Crisp, Tender and Delicious. Absolutely Free from Bitterness.

The Largest-Heading Lettuce of all. It frequently weighs two or three pounds. The head is very solid, of pleasing light green color. As an example of its "standing" properties. perfect Lettuces were cut from the same bed for upwards of seven weeks. It is pronounced the finest in cultivation for exhibition purposes, and for an outdoor all season variety it stands unrivaled. Packet, 10 cts.; ounce, 20 cts.; 1/4 lb., 60 cts.; 1/2 lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid.

418 Condon's Market Gardeners' **Early Curled**

The Great Outdoor Curled or Loose Leaf Variety Withstands Extremes of Weather Better Than Any Other Variety

The earliest, largest, hardiest, crisp, tender, curled Lettuce in cultivation. Quick money maker for the gardener, and for back yard home gardens. We recommend this as the very finest early curled variety.

This grand new variety, which we introduced in 1912, has become very popular with our gardeners. They claim it is superior to the old varieties for green-house forcing, and is equalled by none for outside culture. Makes quick growth, forms large, loose heads, leaves thin, exceedingly tender and very curly. Color light green to golden yellow. Best sort for gardeners. Packet, 10 cts.; ounce, 20 cts.; 1/4 lb., 60 cts.; 1/2 lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid.

418 Condon's Market Gardeners' Early Curled

Condon's "Sure Crop" Lettuce

421 Grand Rapids

The Standard Variety for Greenhouse Forcing Condon's Special Selected Strain is the Best

This variety is especially adapted to greenhouse culture in winter. In the great Lettuce-growing centers our strain of this Grand Forcing sort is very largely used, and the product is sold in such large quantities that prices are quoted by the ton. It is superior to and more beautiful in appearance than the Simpson. It is of rapid, appearance than the Simpson. It is of rapid, upright growth; may be planted close; not liable to rot, standing several days after being ready to cut without injury; retains its freshness a long time after being cut, hence is much sought after by dealers; its quality is very desirable. See photograph, cut reduced four times. Packet, 5 cts.; ounce, 12 cts.; 1/4 lb., 35 cts.; 1/2 lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

426 May King

The Earliest of All Heading Varieties

This is a handsome, extremely early, compact, cabbage or heading variety for the home garden and market, forming very firm heads of medium size and excellent quality. The color is light yellowish green, tinged with reddish brown when mature. The inner leaves blanch rich golden yellow, very tender and buttery. The plant is very compact for so large a head. The variety is exceptionally early outdoors, attaining a size suitable for use before other sorts and is also very satisfactory for forcing. Packet, 7 cts.; ounce, 15 cts.; 1/4 lb., 45 cts.; 1/2 lb., 75 cts.; lb., \$1.40; 2 lbs., \$2.70, postpaid.

414 Big Boston Extra Select Strain for Critical Planters

This market variety is very popular for outlor culture and is also in demand as a compact, large heading, forcing sort for cold-frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge, thin, paratively smooth but wavy at the edge, thin, rery hard and crisp. In color they are bright green, the head slightly tinged with redlish brown. The inner leaves blanch to an attractive greenish white, tinged with light rellow. It heads up under cold weather conditions better than any other variety, and is grown very extensively in the south for shipnent north in the winter. Packet, 5 cts.; ounce, 12 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; lbs., \$2.40, postpaid.

CONDON'S LETTUCE Dependable

Improved Hanson

Improved Hanson

Condon's

Hot Weather Kind

Grows to large size and is uniformly sure-heading. Heads very solid and beautifully blanched, crisp, mild and tender. One of the finest varieties to grow for market during the sum mer months. Our stock is unexcelled. Packet, 7 cts.; ounce, 13 cts.; ¼ 1b., 65 cts.; ¼ 1b., 65 cts.; ½ 1b., \$1.25; 2 lbs., Handsome Reddish Bronze Edge \$2.40, postpaid.

This Lettuce does not head-makes a loose bunch of leaves of very fine quality. Edges of th outer leaves are a reddish bronze within, the leaves are almos white. Very crisp and tende Packet, 7 cts.; ounce, 13 cts.; ½ lb 35 cts.; ½ lb., 65 cts.; ib., \$1.25; lbs., \$2.40, postpaid.

416 California Cream

416 California Cream Butter Or Royal Summer Cabbage

A very reliable heading sor with glossy, deep green leave; the outer ones slightly spotte or splashed with brown. Th inner leaves form a large, ver solid head, rich light yellow i color, very thick, tender and but tery. Packet, 6 cts.; ounce, 12 cts ¼ 1b., 33 cts.; ½ 1b., 60 cts.; 1b \$1.15; 2 lbs., \$2.20, postpaid.

422 Iceberg

Has an unusually solid head. The white main ribs of the leaves curve toward the center, which keep the interior thoroughly bleached. It is quick growing and always crisp and tender, whether proposeted in ways crisp and tender, whether propagated in early spring or in the hot days of summer. Packet, 10 ets.; ounce, 20 ets.; ½ lb., 38 ets.; ½ lb., 70 ets.; lb., \$1.35; 2 lbs., \$2.60, postpaid.

424 Immensity

This grand Lettuce is claimed to be without exception the very largest lettuce in cultivation. Notwithstanding its great size, it is tender, sweet and crisp. It produces a fine, large, solid head, often 3 feet in circumference and 12 inches in diameter. It has great heat-resisting qualities, being slow to run to seed, so that it is very reliable for a late crop when many other sorts are unfit for use.

12 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

Packet, 5 cts.; oz.

423 Los Angeles (New York or Wonderful)

This is the World's Famous Head Lettuce grown s extensively in the Imperial Valley of California fc Eastern markets. Nearly 6000 carloads shipped las season, valued at approximately \$23,000,000.00. Firs introduced in 1906 and continually improved until ou present stock of seed is absolutely dependable and ur surpassed. New York Special is particularly adapte to California and the Southwest. For Central-Easter and Southeastern planting use Condon's Cabbage Hea Iceberg and Big Boston. Packet, 10 cts.; ounce, 20 cts. 1/4 lb., 50 cts.; 1/2 lb., 90 cts.; lb., \$1.75; 2 lbs., \$3.40 postpaid.

423 Los Angeles (New York or Wonderful)

CONDON'S "Sure Crop" LETTUCE

415 Black Seeded Simpson

415 Black Seeded Simpson

Extra Selected Strain

One of the best for sowing outdoors where an exceedingly tender leaf is desired and for those markets which demand a very large loose clustering sort. The color is an attractive light yellowish green. It is used also for growing under glass or in frames. The leaves are ruffled and blistered and even the large outer ones are very tender. This curly and thin-leaved, bunching variety is uniformly attractive and remains of excellent quality a very long time. Packet, 5 cts.; ounce, 12 cts.; ½ lb., 33 cts.; ½ lb., 60 cts.; lb., \$1.15; 2 lbs., \$2.20, postpaid.

427 Paris White Cos

429 Simpson's Early Curled

429 Simpson's Early Curled

A very extensively used early loose-leaved, or clustering variety. The leaves are light green in color, slightly frilled and much blistered, crisp, sweet and tender. The sort is especially adapted for sowing thickly and cutting when the plants are young. Packet, 5 cts.; ounce, 12 cts.; ½ lb., 33 cts.; ½ lb., 60 cts.; lb., \$1.15; 2 lbs., \$2.20, postpaid.

427 Paris White Cos

Cos Lettuce is distinct from other varieties, in having long, narrow, spoon-shaped leaves, folding into loose, sugar-loaf shaped heads which blanch better by having the outer leaves drawn about them and tied. Packet, 7 cts.; ounce, 13 cts.; 1/4 lb., 35 cts.; 1/2 lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

431 Chicken Lettuce

Wonderful for Poultry, Rabbits, etc.

Here is a genuine leaf lettuce which will yield as much or more chicken or rabbit feed as any "greens" plant. When once cut it starts to grow again. The leaves can be pulled off each stem like kale. Chicken lettuce does not make a head, but sends up vigorous stalks just loaded with leaves. Prices: Pkt., 10 cts.; ounce, 20 cts.; 1/4 lb., 50 cts.; 1/2 lb., 80 cts.; lb., \$1.50, postpaid.

425 Black Seeded Big Boston

Or Lapp's Black Seeded Cabbage Head

This new cabbage heading lettuce is an improved black-seeded strain of the famous Big Boston. Producing larger white heads, which are always white heads, which are always tender and crisp, more compact tender and crisp, more compact and will stand shipping better than Big Boston. Excellent for forcing in the greenhouse, hot bed or cold frames, also for growing in the open ground spring or fall. Packet, 7 cts.; ounce, 15 cts.; ¼ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.45; 2 lbs., \$2.75, postpaid.

Early Prizehead (Red Edge)

420 Early Prizehead

Reddish Bronze Edged

A large, clustering, nonheading lettuce, most excellent for the home garden and undoubtedly the most easily grown variety in cultivation. It is too tender, however, to stand shipping or handling on the market. The leaves are finely curled and crumpled, bright green tinged with brownish red, and are very crisp, tender and sweet. Packet, 5 cts.; ounce, 12 cts.; ¼ lb., 33 cts.; ½ lb., 60 cts.; lb., \$1.15; 2 lbs., \$2.20, postpaid.

The Earliest, Sweetest, Largest and Best Salmon Flesh Melor

You will find in this grand melon the acme of perfection in the salmon flesh varieties. The origina type of this new melon was first located in our field of Osage, where we found by close comparison it surpassed this excellent variety, as it did all others. Weighs from 6 to 8 pounds; exceedingly this skin, deep flesh, ripening very close to rind. Very small seed cavity, firmly netted, distinctly ribbed very firm and solid both on blossom and stem end. Never known to crack open. Flesh is deep Salmon color, very thick meat, sweet, sugary and delicious. This grand Melon sold this year on the local market at 25c each when other varieties were selling at 10c and 15c. The gardeners who greved Condon's Perfection were always sold out and gone before other varieties would sell at any price try it yourself. See photograph above. Packet, 10 cts.; ounce, 22 cts.; ½ lb., \$1.10; lb., \$2.00; 2 lbs., \$3.80, postpaid.

449 Extra Early Hackensack

Produces melons two weeks earlier than the old Hackensack; heavily netted, and has light green flesh of most delicious flavor; a splendid Cantaloupe melon. Its shape and solidity admit of its being packed very closely in crates for shipment, and it will keep in good condition for several days after picking. Large, fine form; grown also for the home garden very extensively. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.85, postpaid.

446 Golden Cassaba or Winter

"The Great Christmas Melon"

It is extensively grown throughout the Southwest for shipping to our Eastern markets, and sold at such very high prices during the early winter months. The melons are nearly globular in shape, bright yellow with golden tint and wrinkled skin. Measures 6 to 8 inches in diameter. Flesh is white, thick, and of delicious flavor. Packet, 10 ets.; ounce, 20 cts.; ½ lb., 50 cts.; ½ lb., 90 cts.; lb., \$1.75; 2 lbs., \$3.40, postpaid.

Melon in

434 The Great Banana The Great Banana Melon The Most Delicious Flavored

Cultivation It looks and tastes like a Banana. It is not a curiosity, but instead a wonderful Home Melon and a great Money Maker in any market. Fancy specimens often selling at 50c to 75c apiece. The flesh is nearly solid (Orange Color) attaining length of 20 to 28 inches. Put in a small patch this year for your own use and any you don't eat you can sell at a big price. Pkt., 10 cts.; oz., 15 cts.; ½ lb., 35 cts.; ½ lb., 51.25, postpaid.

445 Genuine Tip Top

Market Gardeners' Big Money Maker

Used almost exclusively as a large "orange flesh" Melon by the large melon growers of Ft. Wayne and Indianapolis, Ind., Columbus and Toledo, Ohio, Rochester, New York, and many other large centers. Our seed is the originator's strain, highly improved and "Guaranteed" to please the most exacting planter. The melon is large size, evenly ribbed and fairly well netted, outside color pea green. It is a strong grower, almost blight resistant, heavy yielder and of handsome ap-pearance. Flesh is beautiful orange color, very thick and solid, edible almost to the rind. Matures in 80 to 85 days. Our strain produces very uniform fruit, all of which large or small are excellent quality and sell at big prices in the market places. Try it. Packet, 5 cts.; ounce, 12 cts.; 1/4 lb., 35 cts.; 1/2 lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

442 Emerald Gem

One of the Very Best for Home Gardens

Very early. A richly flavored melon, salmon colored flesh, which is almost crystal in appearance, the flavor being rich, very sweet and luscious. The skin is quite smooth, and of a beautiful deep green color. This variety is very prolific and is one of the most valuable sorts in cultivation. Pkt., 5 cts.; oz., 10 cts.; 1/4 lb., 30 cts.; 1/2 lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

438 New Honey Ball

One of the Finest Melons Ever Introduced. Especially Suited to Southern States for Commercial Planters Shipping North Recently introduced, this cantaloupe comes to us from Texas, but thrives generally where other melons will ripen. Perfectly round, covered with netting, cross between Honeydew and Cannonball. It certainly has the good qualities of both and with its keeping and shipping qualities it will play a large part in the cantaloupe industry. The flesh is greenish, seed cavity extremely small, and edible to the very rind. While very sweet, yet there is some of the spiciness of the green fleshed cantaloupes which is lacking in one of its parents, the Honeydew. Edible in 100 days. Size 6½ x 6½ inches. Weight, 3½ pounds. Packet, 10 cts.; 0z., 20 cts.; ¼ lb., 50 cts.; ½ lb., 90 cts.; lh., \$1.75; 2 lbs., \$3.30; postpaid.

New Honey Ball

447 Hearts of Gold Condon's Pure Bred Selected Seed

One of the most popular Melons introduced in recent years. This strain we offer is a Pure Bred selection from the original type, but is much larger and carries heavier netting. Size, 6x5 inches. and carries heavier netting. Weight, 2 pounds.

flavor. The seed cavity is small. The melon does not turn yellow when ripe but retains its natural green color and remains solid and firm for days after it is picked from the vine. Our melon seed on this and all varieties offered is save d from hand selected, uniform, highly developed melons, and may be depended upon to give planters uniformly satisfactory results. Packet, 5 ets.; ounce, 12 ets.; ¼ lb., 35 ets.; ½ lb., 65 ets.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

439 Condon's Selected Osage

Condon's Select Osage Musk Melon needs no introduction to melon producing centers, for it is today and has been for many years considered the best all around Mid-Season salmon flesh melon for home or market. It is used almost exclusively in Michigan for shipping to the Chicago Market, and when we tell you we have many growers over there using annually as much as 50 lbs. of this select seed you know the quality is right. Vines vigorous and productive. Fruits slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. Flesh is rich orange-salmon, very thick, fine grained and highly flavored. No better strain of Osage obtainable anywhere on earth. Packet, 6 cts.; ounce, 12 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid. Condon's Select Osage Musk Melon needs no postpaid.

436 Condon's Delicious

Or Eden's Gem, slightly oval, heavily netted no ribs. Thick meated, very sweet, and as indicated by name, delicious flavor. Flesh green with golden lining next to seed cavity. Wonderful shipper and fine early home melon. Our seed is produced from selected melons and will please the most critical planter. Try it. Packet, 5 cts.; ounce, 12 cts.; ¼ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

432 Hale's Best

A new distinct early salmon variety. Matures ripe melons in 68 days after planting. Used extensively by large shipping associations as the one best dependable early deep orange or salmon fleshed melon. The melons are oval, inclined to produce some fruits of somewhat more elongated shape. The beautiful salmon flesh is exceptionally thick and sweet, practically melting in the mouth. The fruits are broadly ribbed and covered with a heavy netting. Pkt., 10 cts.; oz., 15 cts.; ¼ lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

Hale's Best Extra Early

To prevent blight spray Melon Vines with Bordeaux Mixture every ten days, adding Paris Green or Arsenate of Lead for the eating insects.

450 Milwaukee Market Condon's Improved Strain

Here is a melon that is recognized wherever known as one of the Very Finest Large Salmon Flesh varieties. It was introduced in Milwaukee a few years ago and is gaining in popularity every year. A medium large, pink fleshed melon with excellent eating qualities. The ribs are fairly prominent and the netting is very heavy; the shape is slightly oval; it is early in maturing and is increasing in use each year. The rind is extremely hard; it is almost hornlike, hence t should be an excellent shipping variety. It is very prolific, and handsome in appearance. We do not know of a better melon in its class than Milwaukee Market. Edible in 87 days. Size, 7½x6½ inches. Weight, 5½ pounds. Many specimen melons in our trials this year average better than 7 lbs. piece. Recommended for home or market. Packet, 8 cts.; ounce, 15 cts.; 1/4 lb., 35 cts.; 1/2 lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

452 Rocky Ford or Netted Gem

The original Rocky Ford, and the most popular of all green-fleshed melons, with a fine silver-colored netting of lace-like appearance over a green skin turning to pinkish gray when the melons are ready for use. The flesh is a beautiful light green, so sweet and luscious that it may be eaten close to the rind. The melons have a small seed cavity, and weigh about 1½ pounds each. Packet, 5 cts.; oz., 10 cts.; ½ lb., 30 cts.; ½ lb., 50 Cts.; ½ lb

435 Pollock's No. 10-25 Salmon Tinted Eden Gem

This is an early melon of the solid netted type that is so very desirable. Very small seed cavity, with thick, luscious flesh of genuine salmon tint shading to green near the rind. A splendid keeper, stands shipping well. Ripe fruits in 75 to 80 days. Our special strain of this grand melon, and in fact all our melon seed is grown from hand sorted selected fruits and will please the planter who wants only a 10c packet or the associations that need 500 lbs. or more. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; 1b., 90 cts.; 2 lbs., \$1.70, postpaid. postpaid.

Rocky Ford or Netted Gem

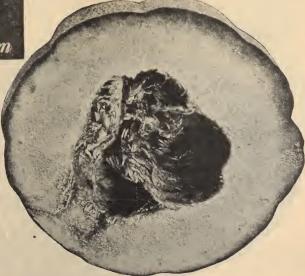

141 Lake Champlain Salmon Flesh

One of the earliest melons. Edible in 87 days. Flesh is deep, very sweet, golden yelow color, moderately netted. Excellent for nome market or nearby shipping points. Will ipen even in the most extreme northern secions. Our seed is not surpassed by any on the market. Packet, 10 cts.; ounce, 18 cts.; $\frac{1}{4}$ b., 35 cts.; $\frac{1}{2}$ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

448 Improved Green Nutmeg

Extra Early, Very Sweet

A greatly improved strain of the old Green Nutmeg. Fruit of a medium size, very rich, nelting and of exquisite flavor; flesh light reen. Very productive. Matures in 88 days. Size, 5x5 inches. Weight, 2 to 4 pounds. Packet, 5 cts.; ounce, 12 cts.; 1/4 lb., 30 cts.; 1/2 lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, post-

441 Lake Champlain-Delicious Melon

MUSK MELON

444 Famous Honey Dew

"Sweet as Honey and Similar Flavor

Its delicious honey-like flavor makes it the sensations melon of the age; single fruits often selling at \$1.00 eac. Melons average 10 to 15 lbs., very smooth, nearly roun. Flesh pea green 2½ inches thick. Sweet as honey an similar flavor. Packet, 10 cts.; ounce, 18 cts.; ¼ lb., 45 cts ½ lb., 80 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

443 Bender's Surprise Shape

Medium early, thick, deep orange colored flesh, deliciously sweet and of high flavor. Vines very productive, producing crop in 75 to 80 days. Melons average 10 to 15 pounceach. Packet, 6 cts.; ounce, 12 cts.; ¼ 1b., 35 cts.; ½ 1b 65 cts.; 1b., \$1.25; 2 lbs., \$2.40, postpaid.

SHUMWAY'S GIANT

This is the Jumbo Musk Melon

Is monstrous size, cream-yellow, very early, absolutely distinct and pure, with seeds more than twice as large as other sorts. A whole field of them will average 18 to 20 lbs. each, and select specimens 25 to 30 lbs. Deliciously sweet and luscious, with fine, melting, thick, salmon color flesh. Never stringy. The flavor pleasant; not high, nor rank. True stock is scarce. Packet, 7 cts.; ounce, 15 cts.; ½ lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.30; 2 lbs., \$2.50, postpaid.

474 KING and QUEEN—WINTER MELON

Greatest Little Melon on Earth—Sweet, Crisp and Delicious—Small Vines Suited to Kitchen Garden—Be Sure to Try This Little Wonder It is late to mature; very light in color with a suspicion of a stripe; size 10 inches in diameter; seed small, shiny black, flesh pink, solid and stringless. The flavor when cold is sweet, crisp and surprisingly delicious, and when you have finished you realize that you have eaten a melon as entirely distinct from a water melon, as the Casaba is apart from the Cantaloupe and just as delicious. Like the Casaba it should not be eaten right off the vine, but be allowed to lie around until the first signs of decay. It decays slowly like an apple, not like other watermelons. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

King and Queen

HONEY WATERI

Color of Gold

Sweet as Honey

Anyone having a prejudice against golden flesh watermelons will instantly forget it after tasting the Golden Honey. Flesh of rich golden yellow color, firm, crisp and glistening, and fairly melts in your mouth. Fruits medium large, oblong, rind hard and of very dark green color. It is a real quality melon and greatly liked by everyone that has tasted it. Try some this year. For the home garden and for exhibition purposes. Matures in 85 days. Pkt., 10 cts.; ounce., 18 cts.; ¼ lb., 38 cts.; ½ lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

WATERM

454 New Thurmond Grav Sure Cropper, Big Money Maker.

This new Watermelon has made its appearance on the Norther markets this past year and is sure to become very popular. Its qualitand attractiveness have made it an excellent market melon. In shait is long and thick. The rind is of a rich greenish gray color, maing it hard to sunburn. Melons grow to a very large size. The flet is bright red, finely flavored, solid and sweet. Matures in \$5 day Packet, 8 cts.; ounce, 12 cts.; ½ lb., 30 cts.; ½ lb., 55 cts.; lb \$1.00; 2 lbs., \$1.90, postpaid.

"Condon's Selected Water Melon for Critical Planters"

Genuine Tom Watson Greatest Favorite as a Shipping Melon, and Excellent for Home Markets, Sweet, Crisp and Coreless

Our seed of this grand variety has been carefully bred and selected from Perfect Specimen Melons and is used annually by thousands of planters, many of whom grow exclusively for market, so we feel safe in saying it "Excels" in Quality and Quantity any strain of this variety we have ever seen, and we try them all in our Mammoth Trial Grounds. Cream of all the melons for home use or long distance shipping, combining the luscious flavor of the "Kleckley Sweets" with the fine shipping qualities of "Alabama Sweet," and "Georgia Rattlesnake," making one ideal melon for all requirements. Medium early, oblong, of attractive appearance, uniform in shape and quality; the luscious flesh is as sweet as honey, melting, and of delicious flavor. Fruits average 35 to 40 pounds, 28 inches long, 12 inches in diameter; skin very dark green. Combining the sterling qualities of the best the world produces in the melon line, we do not hesitate to recommend it above all others as the one best. Our seed is of the originator's strain, carefully selected and bred to retain the highest possible quality. This is the money-maker. (See photograph.) Packet, 5 cts.; ounce, 10 cts.; ½ lb., 24 cts.; ½ lb., 42 cts.; 1 lb., 75 cts.; 2 lbs., \$1.40, postpaid.

469 New Excel—The Largest of the Shipping Varieties

This splendid variety has won for itself a place among all melon growers, either for shipping purposes or home garden. It is a cross between the Tom Watson and the Blue Gem. It is a long, bluish-green water melon, with dark green stripes; the flesh is of superb quality, and intense red to the rind. It is one of the sweetest flavored shipping melons ever introduced. Color of seed, black, light grey and white—a true hybrid. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

Gentlemen:

Hennepin, Illinois, October 24

I sold \$762.00 worth of Watermelons from the Seled purchased of you last spring. They were the finest

Melons produced in this section of the country. Yours sincerely,

Tony Pellegreno, R. F. D. No. 1.

451 Stone Mountain Or Dixie Belle

Named after the Great Stone Mountain in Georgia, where it was just recently introduced. We offer the genuine Southern strain of this variety and recommend it equal to any in the world. Without doubt the finest round melon ever introduced. In shape it is round or square round like the picture at right. Rich dark green color, medium thick rind, rich scarlet flesh of delicious flavor. Very few seeds. "All Heart." Average weight on good melon ground 50 lbs. and better. Especially suited to local or nearby markets. Where round melons have preference this one will bring top prices every time. It is very hardy and prolific; practically wilt proof. We recommend that you try it this year. Packet, 10 cts.; ounce, 15 cts.; ¼ lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

CONDON'S "Sure Crop" WATER MELONS

466 Kleckley's Sweets or Monte Cristo The Sweetest of All Melons

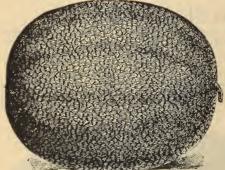

Medium Early Selected Strain, Suitable for Shipping One to Three Hundred Miles

There is no melon superior in quality to a good strain of Kleckley Sweets. The bright scarlet fless is the ideal of water melon quality—firm, crisp, entirely free from stringiness or cotton, and "sweet as sugar."

The melon is oblong in shape, about 20 inches in length by 10 to 12 inches in diameter. The skin is a rich dark green; the rind is thin and brittle, and for this reason the melon is not a good shipper.

to a distance beyond two or three hundred miles, but for home use and nearby market consumption it's got 'em all backed off the list. Our seed is all extra hand select from uniform, well shaped, fully ma tured ripe melons, and I really think it's just a little better strain than anything we have ever seen "Try This." Packet, 5 cts.; ounce, 12 cts.; 1/4 lb., 28 cts.; 1/2 lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.75, postpaid

Condon's Watermelon Seed is grown exclusively for seed purposes; only hand sorted melons of true type being seeded. Not a single melon ever sold or shipped from the fields. It will satisfy the largest and most particular planters. None better obtainable.

464 Indiana Sweetheart

Extra Select Strain

Large, oval shape, distinct variety; very heavy and has a mottled light and dark green surface. Thin rind but tough; flesh bright red, tender and sweet. Vigorous grower, and very productive; fine shipper, and excellent keeper. Very early. Packet, 5 cts.; junce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

457 Citron for Preserves

This melon is used exclusively for making preserves. The flesh is thick and clear white, and makes preserves of excellent quality. Cultivation similar to watermelons. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

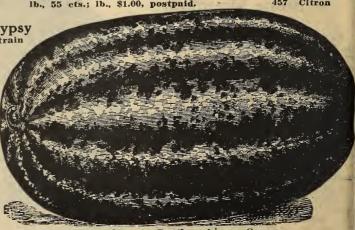

Citron

464 Indiana Sweetheart 461 Georgia Rattlesnake or Gypsy

The Old Reliable; Branch's Original Strain One of the finest melons ever grown; a splendid keeper, excellent shipper. Sometimes called Striped Gypsy. A very large melon of good shipping qualities. Shape oblong, striped, and mottled with various shades of green. Flesh bright red. Flavor sweet and first class. Rind not thick. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

475 Reuter's New Wondermelon

Its rind is thin, but tough, and it will stand safe shipment for reasonable distances. Its flesh is a rich red and full of flavor right up to the rind, without any hollow. The seeds are large and white and relatively few to the melon. It is large and long. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 85 cts.; 2 lbs., \$1.60, postpaid.

Georgia Rattlesnake, or Gypsy

White seeded; of unquestionable quality; very early; medium size, thin rind, flesh bright scarlet. Rind too thin for shipping, but it is the great home market melon. Few, if any, sorts surpass it in melting, delicious quality. Packet, 5 cts.; ounce, 10 cts.; 1/4 lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

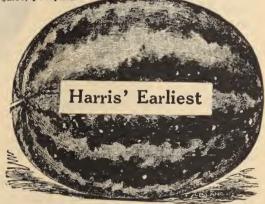

Burpee's Sugar Stick

456 Burpee's Sugar Stick

A large melon of finest flavor. The vines are of strong vigorous growth, setting large melons in good numbers. The fruits measure from 20 inches to 2 feet in length, and weigh on an average about 30 pounds. The rind is thin but tough. The skin is light grayish green, with narrow darker green lines, giving a mottled effect of s m a 1 l half-inch squares. The flesh is deep rich red, with a broad solid heart. The solid crisp flesh is deep rich red, with a broad solid heart. The solid crisp flesh is deep rich red, with a broad solid heart. The solid crisp flesh is deep rich red, with a broad solid heart. The solid crisp flesh is the mouth 1 i k e honey. A lusclous variety that stands s h ip pin g well. Packet, 5 cts.; 22, 10 cts.; ½ lb., 25 cts.; ½ lb., 25 cts.; ½ lb., \$5 cts

463 Harris' Earliest

Good Shipper. The Best of the Extra Early Sorts
Fruit slightly oval, with regular mottled stripes
of light and dark green. Flesh bright red, sweet
and tender. A desirable variety for the north,
or where the season is short. Packet, 5 cts.; ounce,
10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs.,
\$1.60, postpaid.

472 Perfected Kolb's Gem

A Favorite Among Southern Growers
Oblong to nearly round. Melons weigh from
30 to 50 pounds each. The rind, though thin,
is tough, and the melons bear handling and
shipping well. Flesh is bright red. A prrfitable market melon. Packet, 5 cts.; ounce,
10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb.,
85 cts.; 2 lbs., \$1.60, postpaid.

473 Phinney's Early

This Is a Very Choice Early Melon
It is very hardy and is a sure cropper. The rind is thin and the
quality of flesh is sustained clear
to the rind. Possesses all the
desirable features which go to
make up a good Extra Early
Home Market Melon. Melons average 12 to 15 pounds in weight.
Packet, 5 cts.; ounce, 10 cts.; ¼
lb., 25 cts.; ½ lb., 45 cts.; lb., 85
cts.; 2 lbs., \$1.60, postpaid.

Notice

By using our celebrated "Hot Kaps" you can plant your melons and all vine seed early and be two weeks ahead of your neighbor.

458 Cole's Early "Earliest of All"

It is very early and will mature farther north than most other sorts. Flesh of bright red color, of granulated, sparkling appearance. In flavor lusciously sweet and refreshing. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

CONDON'S "Sure Crop" WATER MELON

New Irish Grey-A Good Melon

465 Irish Grev

Also Known as Georgia Sweethear The Latest Introduction in Melons : a Mighty Good One. Excellent for Home or Shipping

Home or Snipping

It's sweet; the flesh is red, crisp a free from stringiness and in color rind a mottled greenish grey, entir distinct. Rind is thin but very tou. Shipments made last summer withrough perfectly. Vines very vigoro healthy and hold up and produce f melons late into summer when oth sorts die out. Try it. Packet, 5 counce, 10 cts.; 1/4 lb., 25 cts.; 1/2 lb., cts.; 1/b., 85 cts.; 2 lbs., \$1.60, postpaid

459 Florida Favorite Deliciously Sweet, Second Early Shipper

A splendid oblong melon; ten days earlier than Kolb's Gem. Skin dark green, slightly mottled with still deeper shade; flesh dark red and of the finest flavor and quality. We have a splendid stock of this melon to offer at an exceedingly low price. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

The Sugar King Melon. Similar to Kleckley Sweet and of Equally as Good Quality

A very sweet, long, dark green variety. Fruits average 18 to 20 inches long; have a thin rind and deep red meat of delightfully delicious flavor; pulp entirely free from stringiness; seeds white. One of the finest for the home garden. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

455 Alabama Sweet

Sometimes Called "Everbearing Always Sweet"

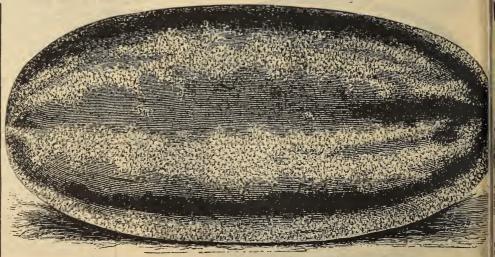

A very large, long melon of excellent quality; very popular in the South, where it is grown extensively for shipping. Color rather deep green, with dark, irregular striping. Rind thin, but very tough; flesh bright red, fine grained and sweet. The fruits average a little thicker than those of Florida Favorite. Seed white. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; 1 lb., 85 cts.; 2 lbs., \$1.60, postpaid.

462 Halbert Honey

Alabama Sweet-A Cracker-Jack for Market or Home Use

Mustard, Mushrooms, Kohl-Rabi and Okra

MUSTARD

Used as a condiment; the green leaves are used as a salad, or cut and boiled like Spinach. Cultivated same as Curled Cress or Pepper-Grass. One ounce of seed will sow 50 feet of drill.

477 Southern Giant Curled

It is highly esteemed in the South, where the seed is sown in the fall and plants used early in spring as a salad. Seeds brown. Plants are 2 feet high; enormous bunches. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 20 cts.; ½ lb., 35 cts.; lb., 65 cts.; cts.; ounce, 10 cts.; 1/2 lbs., \$1.20, postpaid.

476 Chinese

A giant curled variety with leaves double the size of the ordinary. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 20 cts.; ½ lb., 35 cts.; lb., 65 cts.; 2 lbs., \$1.20, postpaid.

478 White Seeded English

The leaves are light green, mild and tender when young; seed light yellow; used for flavoring, in pickles, etc. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 20 cts.; ½ lb., 35 cts.; lb., 65 cts.; 2 lbs., \$1.20, postpaid.

479 Condon's Sure-Crop Mushroom Spawn

One pound will spawn about 10 feet square

Mushroom beds may be made in a warm, dry cellar, or in any building where the frost does not penetrate, and in the open air during the summer and fall months. Having procured the spawn, the next thing to be attended to is to make preparations for the beds. About a fortnight or three weeks before the beds are to be made collect a quantity of fresh horse manure without the straw; place it in a heap under cover, and as it heats keep turning it over once or twice a week, until the flery heat has become exhausted, which will require from ten to fourteen days' time. When the manure is in a condition to be made up, lay out your bed according to your requirements, say three feet wide, ten feet long, and from two to three feet deep; beat it well down with the back of the spade as the process of building goes on. When the bed has been made some time, say a week or thereabouts, and the heat sufficiently declined to a temperature of 65 or 75 degrees, the spawn may be put into it. Break the spawn in pieces two inches square, and put them six inches apart all over the bed, then cover the bed with two inches of rich soil. When the soil looks dry, give a gentle watering with tepid water, using a hose or watering-pot. Best ENGLISH GROWN SURE CROP SPAWN. Brick, 35 cts.; 3 bricks, \$1.00; 10 bricks, \$2.75, postpaid.

479 Sure Crop Mushrooms

OKRA OR **GUMBO**

Extra nice for soups, stews, etc., and much liked when pickled. Plant in hills, 2 feet apart each way.

481 White Velvet

Distinct in appearance; the large pods are perfectly round, smooth, an attractive velvety white, of superior flavor and tenderness. Plant dwarf, of com branching growth. compact, prolific. Packet, 5 ets.; ounce, 10 ets.; ¼ lb., 20 ets.; ½ lb., 35 ets.; lb., 65 ets.; 2 lbs., \$1.20, postpaid.

411 Early White Vienna

KOHL RABI 410 Early Purple Vienna

A very fine vegetable. Sweeter and of finer flavor than Turnips and cooked same way. Sow seed in spring and again in June or July.

411 Early White Vienna

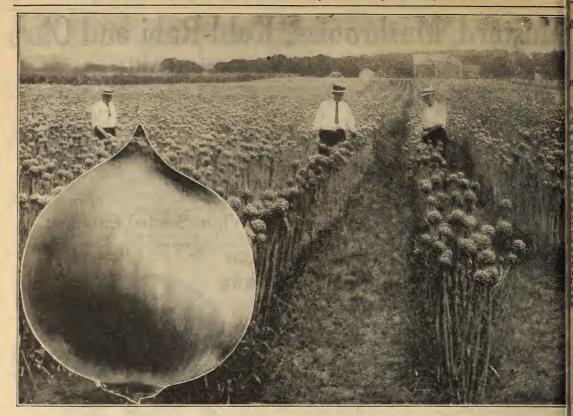

The bulbs grow to the size of an apple when ready for use, and are of a pale whitish green; they are of delicate, cabbage-like flavor. Packet, 10 cts.; ounce, 20 cts.; ½ lb., 65 cts.; ½ lb., \$1.00; lb., \$1.75; 2 lbs., \$3.40, postpaid.

410 Early Purple Vienna

This is not quite so early as the preceding and slightly larger in size. It differs also in having skin of a dark, glossy, purplish red. Packet, 10 ets.; ounce, 25 ets.; ¼, lb., 65 ets.; ½, lb., \$1.00; lb., \$1.75; 2 lbs., \$3.40, postpaid.

480 Perkin's Mammoth Long Pod

Plants are of compact growth, with many close joints. At each leaf joint develop handsome, smooth white pods which average 6 inches long by 1 inch in diameter. They are exceptionally fleshy and tender. Packet, 5 ets.; ounce, 10 cts.; 1/4 lb., 20 cts.; 1/2 lb., 35 cts.; lb., 65 cts.; 2 lbs., \$1.20, postpaid.

CONDON'S "MODEL GLOBE" ONION SEED

"The Most Perfect Onion in Cultivation"

Grown Expressly for Large Critical Planters Who Insist on Known Quality Used Annually by the Largest Onion Growers in America

Above you see an actual photograph of one of our big fields of Condon's Model Globe Onion See growing right on our own Seed Farms at Rockford, Illinois. Note the Bulb inserted in the field, is an actual photograph of the Bulbs we planted. These Bulbs are bred to produce a perfect Glot Shaped Onion with Small Neck and Extra Heavy Skin, making them the very finest obtainable for large Commercial Growers. They are recognized as the best storage and keeping Onion, as well a the largest yielders on the market today. Whether you grow one acre or a hundred you should plat this Pure Bred Northern Grown Tested Seed.

Old customers know and appreciate the extensive work we have done in breeding and perfectin most all important crop, and to new buyers the best recommend we can give is to point with pric to the long list of well satisfied large planters who have used our Special Model Globe Onion Seed for many years.

THE TRUTH ABOUT ONION SEED

Those of you who want a little seed to grow a few Onions for your own private use or a poun or two to sell the product in your local markets, can use any of the varieties listed on the followin pages. They are all good, reliable sorts and are carefully grown to insure quality and type. You wh want to plant for commercial purposes to sell in car lots, by all means use our Model Globe type Our customers tell us our Special Strain of Model Globes is as near perfect as they could wish for. W selected the parent stock from the Southports and by reselecting and breeding have developed the strain which produces a much finer grained Onion, smaller necks, extra heavy skin, making the Extra long keepers and especially suited for storage purposes. In color our Model Red Globe is the deepest dark blood Red you ever saw. The Yellow is an exceptionally heavy skinned dark yellow and the White is as clear white as the driven snow. In yielding qualities they have produced as muc as 1,200 bushels per acre, but of course that is uncommon. Average yield in good season, 600 to 76 bushels. bushels.

482 Condon's Giant Sweet Spanish

The Largest Yellow Globe Shaped Onion

Condon's Giant Sweet Spanish produces beautiful Globe Shaped Bulbs of enormous size from seed sown in the open ground in the early spring. Under favorable conditions the bulbs are much larger than Prizetaker, Denia or Gibraltar, and more beautiful in shape and appearance, being of a pleasing light straw color which extends over the entire Onion. The flesh is Pure White and exceedingly sweet, mild and tasty. The texture is brittle and tender. Crop matures all at one time and has been known to make remarkable yield of 1,200 bushels per acre. This makes a wonderful Onion for Home or Market consumption and keeps in a firm condition until Holiday time, but is not recommended for Commercial Storage Purposes. We consider this far superior to all other mild sweet Onions. Packet, 10 cts.; ounce, 24 cts.; ¼ lb., 70 cts.; ½ lb., \$1.35; lb., \$2.65; 2 lbs., \$5.20, postpaid. 4931/2 Crystal White Wax

This is a large, flat, pure white onion, which is shipped in such large quantities from Texas each season. It matures early, is very productive, and is mild and sweet. Pkt., 10 cts.; oz., 35 cts.; 1/4 lb., \$1.00; 1/2 lb., \$1.85; lb., \$3.50, postpaid.

4951/2 White Bermuda

A very great favorite, especially in the South where they are grown in large quantities each season. They are called white, but really are of a pale yellow color, are of very large size, and have an extremely mild, pleasant flavor. Pkt., 8 cts.; oz., 20 cts.; ½ lb., 70 cts.; ½ lb., \$1.30; lb., \$2.0 postraid 1b., \$2.50, postpaid.

484 Condon's Mammoth Prize-Taker

One of the largest and handsom-t Yellow Globe Onions. They atone of the largest and nandsomest Yellow Globe Onions. They attain immense size, 15 inches in circumference being often attained when raised under favorable conditions. To reach this size, it is necessary to start them early in hot-beds and transplant, so they may have a long season to reach their natural size. Grown under ordinary conditions, they grow to slightly larger size than the ordinary globe onion. This onion is of the same type as the large Spanish onions imported in quantities and sold in crates. Grown now for many years in this country, our seed is thoroughly acclimated, and if permitted to thoroughly ripen, keeps equally as well as the Globe Onions. Don't fail to try at least a small quantity of this grand onion. Packet, 5 cts.; ounce, est Yellow Globe Onions. grand onion.

PLANT PEANUTS

The peanut is worthy of more general cultivation. The peanut is a soil builder and renovator. If in-The peanut is worthy of more general cultivation. The peanut is a soil builder and renovator. If included in the crop rotation and properly handled, peanuts are not exhaustive of soil fertility. The tops of the peanuts make fine hay, relished by all stock, while the roots furnish rich food for both man and stock. The best soil is one of a sandy, loamy nature, which has a red clay subsoil, as this indicates lime, which is essential for this plant. They yield 40 to 100 bushels to the acre, according to how well the crop is managed. Pean uts should be shelled before planting, but can also be planted in the hull 16 to 18 inches apart. They should be planted in April and they will ripen before September, even as far north as Canada.

Plant in rows about 2½ or 3 feet apart, dropping the nuts 8 to 10 inches apart, one in a hill. Cover one or two inches. Cultivate three or four times with a cultivator, so as to loosen the earth and keep down the weeds. When they mature, pull them up, turning the roots to the sun. In bright weather they will be cured sufficiently in 24 hours. It requires fifty pounds in hull to plant an acre.

A Typical Harvest of Mammoth Virginia Peanuts

506 Mammoth Virginia Bunc

Universal and Standard Favorite

This is the variety most generally grown for commercial use, and m considerably larger nuts than the Spanish. The peanuts we offer are lected from the best and most productive crops grown, plant rather distems upright, foliage rather light, pods clustered about the base of p usually two, sometimes three, seeds in a pod; pod bright and clean, of peas light brown; pods adhere to plant in digging. It is the stan variety for roasting. They furnish excellent forage, and we recomm to all our customers, even if they do not plant for market, to plant at a small patch of peanuts for home use or stock feeding. Hundreds of young friends have written us that they have had a wonderful crop past season. Choice Seeds. Packet, 5 cts.; ½ lb., 10 cts.; ½ lb., 18 cts. 30 cts.; 2 lbs., 55 cts.; 5 lbs., \$1.30; 10 lbs., \$2.50, postpaid.

Special Attention to Market Gardeners and Home Garden Planters

Here is something you have waited for a long time. ONION SETS GROWN from Southport Globe Seed. The greatest money making crop in cultivation and the earliest cash crop for gardeners. Produces marketable green bunch onions ten days to two weeks ahead of Onion Sets offered elsewhere, which are universally grown from onion seed produced from flat shaped onion bulbs. Any of these Southport Globe sets you let grow to maturity will produce a nice globe shaped onion of excellent quality for early fall dry onions or to store for winter.

Early Bunch Onions from Southport Globe Sets Ready for Market

Sets are small uniform size, of excellent quality this year and very reasonable in price. For early green bunch Onions, we would recommend planting Sets every two weeks from early March until late in May. One pound will plant a row 25 feet long. 10 bushels plant an acre.

764 Garlic Bulbs or Sets

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the South of Europe, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. Fine bulbs, ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.; 5 lbs., \$1.50, postpaid.

PARSNIP 501 CONDON'S White Queer

The Finest Flavored Parsnip Grown. Sweet and Sugary, Crisp and Firm, Excellent Keeper.

ENORMOUSLY PRODUCTIVE

Often Making Better than 1200 Bushels from One Acre Condon Bros., Seedsmen,

Gentlemen. We wish to compliment you on your extra fine stock c seeds. I find your White Queen Parsnip the best I have ever grown Consider me a well pleased customer.

Joseph Cavill, Dickson, Tenn.

Condon's White Queen Parsnip is a highly improved type, producin uniformly large and handsome roots of stocky form, heavy at th shoulder, well rounded, gradually tapering to the base, so that the are easily dug, and if grown in properly pulverized soil, the roots wis be smooth and free from wrinkles and side roots. The flesh is white of fine texture, free from core and stringiness, and especially fine flavored, cooking tender, sweet, and rich, rendering it one of the fines of table vegetables for winter use. The roots may remain in the ground all winter, being hardy, or some may be dug late in the fands and stored in sand or soil, so that they can be gotten at easily whe the ground is frozen. Frost improves their quality. This parsnip is the heaviest cropper of all, and we recommend it for both garden an field culture.

Packet, 10 cts.; ounce, 17 cts.; ½ lb., 40 cts.; ½ lb. 70 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

Roots comparatively short, ending somewhat abruptly with a smal tap root; grows mostly below the surface; has a very smooth, clear skin. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 22 cts.; ½ lb., 40 cts.; lb., 7 cts.; 2 lbs., \$1.40, postpaid.

PARSLEY

The Great Garnishing Plant

Very useful for flavoring soups and stews and for garnishing. The green leaves are used for flavoring, or they may be dried crisp, rubbed to powder and kept in bottles until needed.

504 Champion Moss

This is a vigorous, compact growing variety, excellent for garnishing and flavoring, and a handsome decorative plant. Leaves very finely cut and so closely crisped or curled as to resemble bunches of moss. Owing to its uniformly, fine, deep green color and very attractive foliage, this is one of the most popular sorts for both the market and home garden. Packet, 10 cts.; ounce, 16 cts.; $\frac{1}{4}$ lb., 30 cts.; $\frac{1}{2}$ lb., 50 cts.; lb., 90 cts.; 2 lbs., \$1.70, postpaid.

505 Hamburg Turnip Rooted

The root is the edible portion of this variety and resembles a small parsnip, both in color and shape. Flesh white, a little dry and in flavor is similar to celeriac. The foliage is practically the same as that of Plain Parsley. The roots can be dug late in the fall and stored in sand for winter use. Extensively used for flavoring soups and stews. Packet, 10 ets.; ounce, 16 ets.; ½ lb., 30 ets.; ½ lb., 50 ets.; lb., 90 ets.; 2 lbs., \$1.70, postpaid.

Condon's White Queen Parsnip

504 Champion Moss

517 Condon's Mammoth-Podded Little Midget Peas

By far the shortest straw and largest pod of any pea we know of. Ready for market 45 days from planting. Its extreme earliness, combined with the large pods, which are always filled with sweet, luscious peas, makes Condon's Little Midgets the universal favorite. Most all growers of peas prefer a short vine, and in Condon's Mammoth-Podded Little Midget you have it. Height of vines only 15 inches; pods 4½ inches long; well filled and quality fully equal, if not surpassing any Pea in existence. The pods contain from 7 to 8 large dark green peas, which remain in edible condition a week later than most other varieties. The plants are very robust, compact and short jointed, requiring no bushing or staking. We believe Condon's Midget Peas contain more sugar than any other sort in cultivation. 2-ounce Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

510 Ameer or Claudit

Also Known as Perfection-"An EXTRA EARLY SORT"

It is a cross between Alaska and a large-podded sweet wrinkled pea, retaining that hardy, vigorous early character of the Alaska, with the large pods of the luscious sweet wrinkled type. In comparison to Alaska, it is two or three days later, equally as hardy, dwarf upright vines completely ladened with pods twice as large, that may be picked in one-half the time. Two pickings market the entire crop. Considering the fact that this pea is as early as the earliest, producing pods twice as large, with quality unsurpassed by any "extra early" variety, gardeners who plant for early shipping market will find this a moneymaker. 2-ounce Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

CONDON'S "Sure Crop" PEAS

516 Condon's Ultimatum

THE GREAT MAIN CROP PEA. 26 to 32-inch straw, requiring no bushing, second early, hardy, vigorous cropper, vielding enormous quantities of large, fat, dark green pods containing 10 to 12 juicy peas; flavor unsurpassed. It's simply a wonder for market or home use. 2 Oz. Packet, 10 cts.; 1/2 lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

Thomas Laxton

Thomas Laxton

This Is a Real Rival to the Famous Gradus, as a Long-Podded, Extremely Early Wrinkled Pea, and in Some Respects Is

Wrinkled Pea, and in Some Respects Is Even Better.

The growth is identical, but the pods are a deeper, richer green and square at the ends. In the judgment of experts, Thomas Laxton is even sweeter and finer in flavor, while as the large peas are of a deeper green, they present a more attractive appearance on the table. The crop ripens only three to four days after GRADUS.

2-Ounce Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

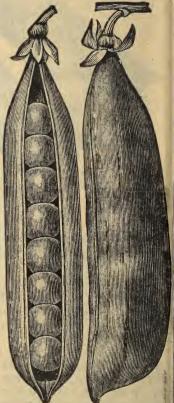

512 Giant Laxtonian New Giant Podded Short Straw

May be called **The Dwarf Gradus**. Grows 16 to 18 inches high. The tall, extra early Gradus Pea, with its large, telephone-like pods and its exquisitely flavored peas, is one of the most popular of all peas. In Laxtonian we have a dwarf type of the Gradus, with the same large pods—almost the same in season, and, moreover, requiring no supports—and the same superlative quality peas. 2-Ounce Packet, 8 cts.; ½ lb., 18 cts.; 1b., 32 cts.; 2 lbs., 60 cts., postpaid.

527 Nott's Excelsior Early, Big Cropper, Extra Fine Quality

A distinctly American production of remarkably vigorous constitution; enormously productive, and generally excellent. The pods are of good size, produced liberally, and are extremely well filled with excellent peas of perfect quality. The plant is among the smallest, very rarely exceeding 15 inches in height, and is easily grown. It still is, and long will be, extremely popular. Many people who have only small gardens use this sort exclusively, making repeated sowings for successive crops. 2-Ounce Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs.,

516 Condon's Ultimatum

Side View of a Row of Nott's Excelsior-A Standard Favorite

PEAS 508 True American Wonder

519 Earliest of All or Alaska

An extra early Pea, Round Seeded, vines uniform in growth, pods usually carry 7 or 8 Peas, research for the pearled recommend this variety very highly; the beautiful dark green color of the pods adds greatly to the selling quality. Very hardy, Ready to use in 50 days, Our strain is unexvelled, 2-ounce Packet, 7 cts.; ½ lb., 15 cts.; lb., 28 cts.; 2 lbs., 50 cts., postpaid.

508 American Wonder

The earliest wrinkled pea. The vine grows 12 to 14 inches high and is very prolific. Pods of striking form and size. It is of finest flavor. Peas planted in June mature in 50 days. It is particularly adapted for family use, as it requires no brush or other support. An old standard variety that is very popular everywhere. We have taken great pains in selecting and growing our stock. 2-ounce Packet, 7 cts.; ½ lb., 17 cts.; ib., 30 cts.; 2 lbs., 55 cts., postpaid.

529 Laxton's Progress

One of the earliest large podded dwarf sweet peas. Height, 18 inches. About 2 to 4 days earlier than Laxand pointed, deep green color, containing 8 large dark green peas of high quality. 2-ounce Packet, 8 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., postpaid.

A very fine first early dwarf pea, regarded by some as the best of the wrinkled sorts. It is very hardy; can be planted early; vines are 18 inches high, very prolific; pods are almost square at lower end, larger and broader than the usual dwarf pea, and dark green color. 2-ounce Packet, 8 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., postpaid. postpaid.

509 Alderman

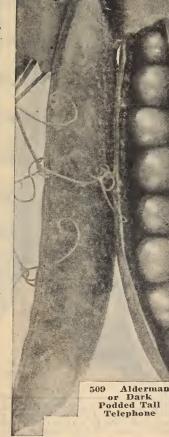

The very finest. Tall, dark Podded Pea

The plants grow 4 feet in height and bear an enor-mous crop of fine pods. mous crop of fine pods. The pods measure 4¾ in. in length and contain 8 or 9 very large peas each. Sweet and tasty. Market Gardeners will find this a big money maker. 2-ounce Packet, 8 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., postpaid.

522 Hundredfold

One of the best of the One of the best of the Laxtonian types; vine 16 inches high, sturdy, dark green and productive; pods dark green 4 inches long, fairly broad and pointed containing 8 large, dark green peas; excellent quality. 2-ounce Packet, 8 cts.; ½ 1b., 20 cts.; 1b., 35 cts.; 2 lbs., 65 cts., postpaid. lbs., 65 ets., postpaid.

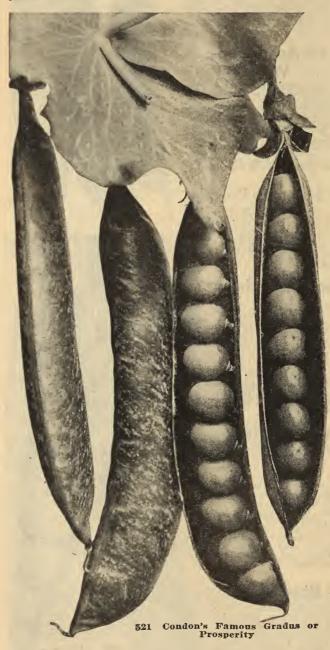

522 Hundredfold

World's Record

An improved type of Gradus, being slightly earlier, more dwarf, true to type and productive. Height 2 feet. Vines moderately stout, medium green; pods medium green, 4 inches long, very broad, pointed and well filled with 7 to 9 very large, dark green peas of exceptional quality. Packet, 8 ets.; 1/2 lb., 18 ets.; lb., 32 ets.; 2 lbs., 60 ets., post-

FRESH PEAS FROM YOUR OWN GARDEN ARE FAR BETTER THAN ANY SOLD IN CANS. PLANT 2 OR 3 ROWS OF OUR NORTHERN GROWN PEAS THIS SPRING AND ENJOY THEM ALL SUMMER LONG.

521 Gradus or Prosperity

Improved Selected Strain

The largest podded, finest flavored second early pea. We have carefully selected and bred our stock to a degree far surpassing any we have seen in comparative trials.

This remarkable pea is not only large and of the best quality, but is within two or three days as early as the small, round, extra early sorts. Gradus is a wrinkled pea, growing about 30 inches high; the pods are of a ing about 30 inches high; the pods are of a bright green color, measuring 4 inches or more in length, as large as Telephone, well filled with luscious peas, 8 to 10 or more in a pod. The peas are of the highest table quality and retain in a remarkable manner their color and attractive appearance after cooking. A little tender, so it should be sown in the warmest spots in the garden. A grand pea in all respects. 2-0z. Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts., postpaid.

515 Condon's Giant Edible Podded Sugar

Eat the Pods and All—Just Like String Beans. Certainly Delicious
Boiled like string beans, either with milk, creamed gravy or butter sauce, they are certainly delicious. Vines very vigorous, attaining growth 5 to 6 feet, and when supported yield abundantly. Don't fail to try a few. 2-0z. Packet, 8 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

523 Improved Telephone

This is a fine wrinkled pea, growing about four feet high. The peas are large and of a pale green color, possessing a superior sugary flavor. 2-0z. Packet, 8 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts., post-

526 McLean's Little Gem

Strong and vigorous in growth, producing vines from 18 to 24 inches in height, dark foliage, bearing pods single on both sides of the stalk beginning near the ground. Pods are almost straight, 2½ to 2¾ inches long, light in color and blunt at the ends. Ready to pick 59 to 61 days from planting. Seed is green, wrinkled and medium in size. 2-0z. Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts.; postpaid.

513 Bliss Everbearing

Vine stout, about two and one-half feet high, bearing at the top six to ten broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The peas are large and wrinkled, cook very quickly, are tender of superior flavor and preferred by many to any other sort. 2-0z. Packet, 7 cts.; ½ 1b., 17 cts.; 1b., 30 cts.; 2 lbs., 55 cts., postpaid.

524 English or Large White Marrowfat

The vines of this variety are about five feet high and of strong growth. The pods are large, cylindrical, rough, light colored and well filled; seed large, smooth, round and light yellow. The variety is excellent for summer use, but is inferior in quality to most of the newer sorts, although undoubtedly one of the most productive of the garden varieties. 2-0z. Packet, 7 ets. ½ lb., 17 ets.; lb., 30 ets.; 2 lbs., 55 ets., postpaid.

CONDON'S "Sure Crop" PEAS

525 Little Marvel

A New Dwarf Extra Early Variety of Great Merit

The vines are of dwarf, robust growth, averaging 18 to 20 inches in height. Pods average 2½ inches in length and are well filled with 5 or Fully as early as Little Gems or American Wonder, far better quality and bigger yielder. 2-Oz. Packet, 8 cts.; ½ lb., 18 cts.; 1b., 32 cts.; 2 lbs., 60 cts., postpaid.

518 Dwarf Telephone

518 Dwarf Telephone or Dwarf Defiance

A Main Cropper-Sweet Wrinkled

A Main Cropper—Sweet Wrinkled
A cross between Stratagem and
Tall Telephone. Vines average
24 to 28-inch straw, hardy and
robust. Pods borne in clusters
like the Tall Telephone. Pods average 2½ to 3 inches long, well
filled with large sugary peas.
2-0z. Packet, 8 cts.; ½ lb., 18 cts.;
lb., 32 cts.; 2 lbs., 60 cts., postpaid.

525 Little Marvel, Dwarf, Large Pod

528 Potlatch or Big Dinner An Improvement on Stratagem

A sweet wrinkled second early variety producing large, fat pods well filled with sweet, declicious peas. Hardy upright grower, averaging 24 to 30-inch straw. On account of its robust growth requires no bushing. Excellent for market or home use. 2-0z. Packet, 8 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

514 Champion of England One of the Very Best Late Varieties

Height about 4 to 5 feet. One of the oldest and best in cultivation. It is esteemed for good quality and productiveness. The pods are of good size, handsome and wonderfully well filled, and are produced in great abundance. The peas are of large size and delicious flavor, 6 to 9 to the pod. It cannot be overpraised as a standard late sort. 2-Oz. Packet, 7 cts.; ½ lb., 17 cts.; lb., 30 cts.;

You will increase your NOTICE yield and improve the quality by inoculating seed be-fore planting. Garden Size Bacteria No. 775 for Peas, Sweet Peas and Beans. Suflbs. of the above items. Same Bacteria for all three. Price, 25 cts., postpaid.

Champion of England (Tall)

PEPPER

537 Condon's New Victory

The earliest, largest, thickest, meatlest, finest flavored Sweet Mango Pepper in cultivation. Our own origination. Cross between Chinese Giant and Neapolitans. Sturdy, vigorous grower. Victory Pepper is an abundant yielder producing on an average 22 to 25 perfect Peppers on a single plant. These find ready sale at 10c each when other sorts go begging. The color is a very deep green when young, turning to a beautiful bright red when ripe. Be sure to include this in your vegetable garden. It's a good one. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00; 2 lbs., \$9.75, postpaid.

533 Small Red Chili

Pods Are Small and Hot

Plants grow 18 inches high, fruit usually erect, about one and a half inches long, cone shaped, bright red and very hot; exceedingly prolific. Matures in about 145 days. Used for pepper sauce or pickling or dried for winter use. Packet, 10 cts.; ½ oz., 30 cts.; oz., 50 cts.; ½ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

534 Condon's Sweet Salad Tomato Pepper

Also Called "Cheese" Pepper

Of upright growth, enormously productive. May be eaten out of the hand like an apple, or stuffed with meats, rice, etc., and baked, or served as a salad, and fine for canning, being of sweet and delicate flavor. Stays in bearing right through the season from early June until frost, producing an enormous crop, maturing in 110 days. An excellent sort for home or market. Packet, 15 ets.; ½ ounce, 40 ets.; ounce, 70 ets.; ½ pound, \$2.00; ½ lb., \$3.75; lb., \$7.00, postpaid.

Pungent and strong; very prolific. It is easily gathered as the fruit does not adhere to the stem and grows almost erect on the branches. This variety is used in manufacturing the well-known Tabasco Sauce. It is tall growing, producing small, slender and very hot fruits in 140 days, which are splendid for family use, sauce and pickling. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ pound, \$1.50, postpaid.

538 Condon's Yellow Giant PEPPER

A beautiful yellow Sweet Mango Pepper 7 to 10 inches long by 4 to 5 inches in diameter. The beautiful golden yellow color contrasting with the green and red of the other sort makes an excellent combination which is always admired on the table, either in pepper sauce or on the dishes. Packet, 12 cts.; ½ ounce, 32 cts.; ounce, 55 cts.; ¼ lb., \$1.60; ½ lb., \$3.00; lb., \$5.75, postpaid.

Condon's Yellow Giant

Hungarian

1331/2 Hungarian or Banana Pepper

A New Long Yellow Hot Variety

Improved strain of Long Yellow Pepper brought to this country and mproved by a Hungarian gardener. This variety caused a great sensation when first offered on the Milwaukee and Chicago markets. Buyers simply went crazy about it at fancy prices. Never has sufficient quantities been produced to satisfy the demand. Length—5 to 6 inches. Circumference—4½-5% inches stem end. Color—Pale lemon green to Apricot yellow as it matures. When fully mature changes to bright cherry red. One of the most valuable hot peppers for home or canning. Pkt., 15 cts.; ½ oz., 45 cts.; oz., 80 cts.; ½ lb., \$2.25; ½ lb., \$4.00, postpaid.

542 Ruby King One of the most popular varieties, growing 4½ to 6 inches long, 3½ to 4 inches thick. The peppers are a bright ruby-red and are among the best sorts for pickles. Quite sharp in flavor. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 85 cts.; ½ lb., \$1.60, postpaid.

535 Bull Nose, Hot A pungent very early pepper. Packet, 10 cts.; ounce, 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.65, postpaid.

541 New Pimiento The mildest of all. This pepper is absolutely without pungency. It is largely grown, canned and shipped to all parts of the world and greatly relished everywhere. Packet, 10 cts.; ounce, 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.65, postpaid.

539 Long Red Cayenne A well-known variety having a slender, twisted and pointed pod about 4 inches long, and when ripe, bright red in color. Extremely strong and pungent flesh. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 85 cts.; ½ lb., \$1.60, postpaid.

540 Neapolitan Early and productive. Flesh thick and mild. Packet, 5 ets.; ounce, 22 cts.; ¼ 1b., 80 cts.; ½ 1b., \$1.55, postpaid.

Our strain of Chinese Giant is not excelled

> Chinese Giant Mango Pepper

Extra Select Strain

543 Oshkosh An attractive bright canary-yellow Pepper when ripe, but rich dark green while young. Of smooth blocky shape, 4½ inches long and 3½ inches across. Compact bushy plants, producing a fine crop of mild and sweet fruits about the same time as Ruby King. Packet, 12 cts.; ½ ounce, 40 cts.; ounce, 75 cts.; ¾ lb., \$2.50, postpaid.

Pimiento The Mildest of all

Chinese Giant makes a vigorous growth, developing into heavy and stubby bushes about 2 feet in height. The rich dark green fruits turn to a brilliant searlet-red when they reach maturity. The fruits are 4 to 5 inches broad and fully as long. The mild and sweet flesh is the thickest ever found in any of the large Peppers. Pkt., 10 cts.; ½ oz., 35 cts.; oz., 55 cts.; ½ lb., \$1.65; ½ lb., \$3.00; lb., \$5.50, postpaid.

536 Chinese Giant

531 Harris' Earliest

The earliest Pepper in cultivation, forming uniform, dwarf, compact plants about 18 inches tall, bearing a wonderful crop of hanging, blocky fruits 3½ inches long and 2½ inches thick. The flesh is thick, sweet, and always mild. Pkt., 10 cts.; ½ oz., 30 cts.; oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

532 California Wonder

This is a new variety which originated in California. It is one of the largest peppers grown and has remarkably thick and sweet flesh. Of excellent quality and a particularly heavy yielder. Packet, 10 cts.; ½ oz., 30 cts.; oz., 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.25, postpaid.

CONDON'S "Sure Crop" PUMPKINS for Pies and Stock

549 Big Tom

549 Big Tom

A greatly improved strain of Yankee or Connecticut Field Pumpkin which has been selected for many years to secure the most uniform type. Not only are the pumpkins larger and smoother, but the yield is nearly double that of the old variety. We recommend it to our customers as the very best type of cornfield pumpkin. Packet, 5 ets.; ounce, 10 ets.; ¼ 1b., 22 ets.; ½ 1b., 38 ets.; 1b., 70 ets.; 2 lbs., \$1.30, postpaid.

551 Japanese Pie

551 Japanese Pie

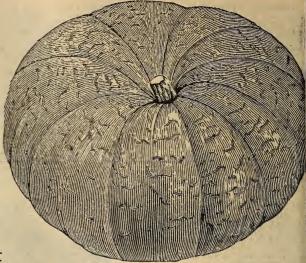

A high quality pumpkin of Japanese origin. The flesh is very thick, of a rich salmon color, fine grained, dry and sweet. Seed cavity small. Of medium size, early, very productive and a good keeper. Highly desirable as a pie or cooking pumpkin. The seeds are distinct in appearance, being curiously sculptured in the same manner as Japanese letters. Packet, 8 cts.; ounce, 12 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

556 Tennessee Sweet Potato

The best variety for home gardens. They are almost pear-shaped, growing to a large size. Packet, 7 cts.; ounce, 10 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

Large Sweet Cheese or Kentucky Field

Very popular in the south, but not as well adapted to northern latitudes. Fruit flattened, diameter usually about twice the length; skin mottled light green and yellow, changing to creamy yellow when matured. The flesh is yellow, tender and of excellent quality. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 18 cts.; ½ lb., 32 cts.; lb., 60 cts.; 2 lbs., \$1.10, postpaid.

552 King of the Mammoth

552 King of the Mammoth

This is the very best genuine strain of the true Man moth Pumpkin. Fruits grow to enormous size, sometime reaching two feet or more in diameter, and from or hundred to two hundred pounds in weight. Salmor orange skin; very thick, bright yellow flesh, which is fit grained, tender, and of excellent quality for pies. Traise the largest fruits, vines should be allowed amp space in which to grow; only one plant should be allowed to grow in a hill and only the best fruit left on the vin Packet, 10 cts.; ounce, 1 cts.; ½ lb., 45 cts.; ½ lb s0 cts.; ib., \$1.50, postpain

553 Winter Luxur or Queen

Fine keeper an mormously productive. Color, golderusset. Packet, 7 cts ounce, 10 cts.; ½ lb., 60 cts lb., \$1.10; 2 lbs., \$2.10 nostnaid postpaid.

550 Connecticut Field

Is the common fiel or cow pumpkin. I you have any liv stock, plant some o these. Packet, 5 cts. ounce, 10 cts.; ¼ lb. 18 cts.; ½ lb., 60 cts.; 2 lbs. \$1.10, postpaid.

550 Connecticut Field

555 Sugar Pie

The Best Pumpkin of All
This is the pumpkin from
which the celebrated Yankee
Pumpkin Pie is made. It looks
like a regular field pumpkin,
but is smaller and entirely different in quality. Very early
and prolific, cooks very quickly and is the best quality of
any pumpkin in the list.
About ten inches in diameter
is the average size. Skin is
deep orange-yellow, with finegrained flesh. Handsome and
excellent keeper. A most prolific yielder and cannot be excelled as a table pumpkin. It
is sometimes called Red
Sugar.

s sometimes called Red Sugar. Packet, 5 cts.; ounce, 12 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

Mammoth Sandwich Island Salsify

A very hardy variety and will withstand severe weather better than any other sort. It is used largely for fall sowing. Packet, 5 cts.; ounce, 8 cts.; 14, 45 cts.; 2 lbs., 80 cts., postpaid.

597 Improved Thick Leaved

A rapid growing variety, forming clusters of large, very thick, slightly wrinkled leaves. A favorite with market gardeners. Packet, 5 cts.; ounce, S cts.; 4 lb., 17 cts.; ½ lb., 27 cts.; b., 45 cts.; 2 lbs., 80 cts., very lbs., 45 cts.; 2 lbs., 80 cts., postpaid.

596 King of Denmark

The Greatest Money Making Spinach in Cultivation. Fully as early as the old time sorts —Leaves thick and fleshy, re-maining in good marketable condition three weeks after all other sorts have gone to seed.
Packet, 5 ets.; ounce, 10 ets.;
4 lb., 20 ets.; ½ lb., 30 ets.;
lb., 50 ets.; 2 lbs., 90 ets.,
postpaid.

SALSIFY OR VEGETABLE OYSTER

590 Mammoth Sandwich Island

The Salsify is one of the most delicious and nutritious of vegetables, and should be more generally cultivated for use in winter, when the supply of really good vegetables is so limited. It has a grassy top and a long, white, tapering root, nearly resembling a small parsnip. It closely assimilates to the taste and flavor of the oyster, when properly cooked, and is a good substitute for it; very wholesome and nutritious. The roots are either boiled and mashed or made into fritters, in which form they are delicious. The roots are perfectly hardy, and may remain out all winter, but should be dug early in the spring, as they deteriorate rapidly after growth commences. Store a quantity for winter use in a pit or cellar in damp earth or sand. This variety is large and strong growing with long, smooth, white, tapering roots, and is less liable to branch than the other sorts. It is invaluable for market gardeners' use, Packet, 10 cts.; ounce, 20 cts.; ¼ lb., 60 cts.; ½ lb., \$2.00; z lbs., \$3.90, postpaid. 60 cts.; 1/2 lb., \$1.10; lb., \$2.00; 2 lbs., \$3.90, postpaid.

SPINACH

When properly prepared, no vegetable makes better greens.

592 Bloomsdale or Savoy Leaved

This is the earliest ariety. Plant is of This is the earliest variety. Plant is of upright growth, with narrow, pointed crinkled leaves. Is very hardy. Packet, 5 ets.; oz., 8 ets.; ¼ lb., 17 ets.; ½ lb., 27 ets.; lb., 45 ets.; 2 lbs., 80 ets., postpaid.

Remains in Good Condition After Others Have Gone to Seed

Have Cone to Seed
A new spinach of the Long Season type, but leaves are more crumpled, of a darker green color. Good size, thick and of good quality. Will remain fit for use after other varieties have bolted to seed except King of Denmark. Ready to cut in about 45 days. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 20 cts.; ½ lb., 30 cts.; lb., 50 cts., 2 lbs., 90 cts., postpaid.

591 Princess Juliana

598 Long Standing Bloomsdale

In appearance of plant this new train is much like Savoy Leaved or Bloomsdale. It shows the erect habit of Savoy Leaved but the leaves are a little larger and thicker, more crumpled, more heavily savoyed, and curl downward a little more. The crumpled, more heavily savoyed, and curl downward a little more. The leaf stems are a little shorter, making the plant more compact. The color is an attractive medium dark green. The most important feature of this new strain is that it remains for a long time in condition for use before bolting to seed. Its long standing quality makes it a valuable addition to the spinach list. Packet, 5 cts.; oz., 10 cts.; ½ lb., 30 cts.; lb., 50 cts.; 2 lbs., 90 cts., postpaid.

594 New Zealand

The stems and leaves are soft, The stems and leaves are soit, thick, fleshy and crystalline in appearance. When started early in the spring, the plants will resist heat and make strong growth during the summer. Packet, 7 cts.; ounce, 12 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.50, postpaid.

596 Spinach King of Denmark

Sure Crop" **Kadish Seed**

is grown from hand transplanted roots; therefore the types are kept pure and true, and furthermore no root is set for seed that is not a perfect, sound, crisp radish, so the seed produced from them comes true to type, small tops, highly colored and the flesh remains crisp and firm in good, marketable condition long after seed of average quality has got pithy or hollow and gone to seed. Whether you plant only a packet for your own use or 100 pounds for market, you should sow the best obtainable and you'll surely get it if you send us your orders.

567 Condon's Early White Turnip or White Box

A most excellent radish for forcing under glass or for growing in the open ground. Its short top and rapid growth make it a great favorite with market men, and its mild, sweet quality wins the favor of the consumer.

It is the best white globe-shaped radish for early summer use, as it remains solid and crisp longer than any of the other early sorts. Market men grow it extensively. A desirable white sort for the home garden. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

569 Early Scarlet Turnip

A round, red, turnip-shaped radish, with small tops and of very quick growth, deserving general cultivation on account of its rich, scarlet-red color and white, crisp and tender flesh. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

White Turnip

564 Condon's Lightning **Ouickest of All-White Tipped Radishes**

This Is the Market Gardener's Favorite for Forcing

Under Glass or Outdoors

Very early; mild and crisp, juicy and tender; top small; will stand heat without becoming pithy. One of the best selling and most attractive radishes on account of its bright scarlet top, snowy white tip and handsome shape. Our stock of this is the very best, selected with special care as to size, shape, color and earliness, and market gardeners will find it a money maker, as it is just right in every respect. Distinctly white tipped. See photograph below. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

See painting from nature on front cover

Condon's Earliest Red Bird

Earliest Radish in the World and Biggest Money Maker-Ready for Market in 18 Days

This is a distinct improvement on the old Red Bird type. Our stock has been perfected and bred to the highest degree, seed being produced only from hand transplanted roots, insuring market gardeners and critical planters the Earliest Radish in the World. Turnip shape with beautiful crimson carmine skin, flesh firm, crisp and tender, very small top. Very heat for Foreign or Outdoor Culture. and tender, very small top. Very best for Forcing or Outdoor Culture. See photo above. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, post-noid paid.

pleased.

RADISH

Pure Bred Seed from Hand Selected Roots. Sow Every Week or Ten Days for Continuous Prop of Fresh, Crisp Radishes.

563 Condon's Royal Gem

The Largest, Most Perfect Globe shaped, White Tipped Radish in Culivation. Comes in 7 Days Later than

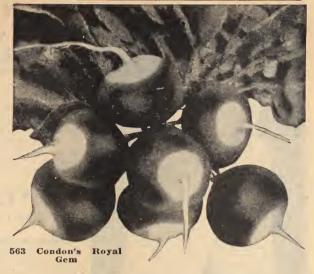

ightning.

Flesh is sound and crisp as ice—sweet, juicy nd tender. Remains firm and free from pithiess longer than any of the early varieties. It is distinctly a globe-shaped radish with beauful earmine color two-thirds down, breaking ff distinctly to a perfect white tip. Tops small—just right for bunching. Thousands of gareners in all parts of the country use this every ear and all claim it a most excellent and profit-ble-variety. See photograph. Packet, 10 cts.; unce, 15 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; 1., \$1.00; 2 lbs., \$2.00, postpaid.

577 Vick's Scarlet Globe

ondon's Select Early "Deep Scarlet" Strain No better strain of this favorite variety in he world is what Our Big Market Gardener ustomers tell us. All grown from hand sected transplanted roots. The roots of this ariety are slightly olive shaped and are a ch, bright scarlet in color. The flesh is white ad tender. The roots are fit to pull under bod conditions in 21 to 25 days. We specially commend this to gardeners as a large, first trly forcing radish. It is also desirable for est early planting outdoors for the home garnand market. Packet, 5 cts.; oz., 10 cts.; 1/4, 24 cts.; 1/2 lb., 42 cts.; lb., 75 cts.; 2 lbs., .40, postpaid.

576 Scarlet Turnip White Tip

Standard variety for many years. Color deep scarlet with a distinct white tip, flesh white, very firm and of good quality. Packet, 5 cts.; oz., 10 cts.; ½ lb., 24 cts.; ½ lb., 42 cts.; lb., 75 cts.; 2 lbs., \$1.40, postpaid.

557 SAXA—Round Bright Scarlet Extra Early—for Forcing or Outdoors

This is a European variety which has become very popular in the United States. It is one of the very earliest radishes and slow to run to seed. The tops are very small, the radishes are round and bright scarlet. We recommend it for the first planting in the garden, and also for forcing in hotbed and greenhouse. Packet, 5 cts.; oz., 10 cts.; ½ 1b., 24 cts.; ½ 1b., 42 cts.; 1b., 75 cts.; 2 lbs., \$1.40, postpaid.

558 French Breakfast Olive Shape Scarlet Top—White Tip

The Great Breakfast Radish of France

A quick growing, s mall, olive-shaped radish about 2 inches long when fully grown. Color beautiful deep scarlet except a little clear white about the tip. Its s mall top and earliness make it very desirable for growing under glass as well as for planting outdoors. Splendid for the table on account of its excellent quality and attractive color. See cut. Packet, 5 cts.; oz., 10 cts.; ½ lb., 42 cts.; ½ lb., 42 cts.; ½ lb., 45 cts., 2 lbs., \$1.40, postpaid.

558 French Breakfast

573 Long White Vienna, or Lady Finger. Tapering about 4 inches long and pure white, mild and tender, matures in about 25 days. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.45, postpaid.

570 Improved Chartier. A summer radish, long, large and handsome; top crimson, fading to white at tip; flesh white and delicious, remaining long in good condition. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; 2 lbs., \$1.45, postpaid.

572 Long Scarlet Short Top. The standard; bright scarlet with white, mild flesh; grows 6 in. in length; matures in about 25 days. Packet, 5 cts.; ounce, 10 cts.; ¼ 1b., 22 cts.; ½ 1b., 40 cts.; 1b., 75 cts.; 2 lbs., \$1.45; postpaid.

579 Radish—White Icicle

The World's Very Finest and Earliest Pure White Radish—Great Favorite for Market and Home Garden. Our Strain of This Wonderful Radish Is Not Excelled and Rarely Equalled—All Grown from Hand Transplanted Roots, Insuring the Mos Uniform Quality Possible

Planted in spring, the Radishes are ready for use in twenty to twenty-five days; their long slender form and pure paper white skin are most attractive when bunched for market This Radish is not only crisp and tender when young, but retains these qualities until the roots attain large size, so that it will remain in fine condition longer than any other first early variety. It is excellently adapted for forcing purposes or successive sowings in the open ground. (See photograph.) Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.55, postpaid.

566 Condon's Giant Perpetual

King of All Long, Red Radishes for Market, for Shipping or Home Consumption

Brittle as Ice—Never pithy; makes marketable crop in 25 to 30 days' time. Withstands both extremes of cold spring and hot summer. Plant it early and often, as it is an all season cropper. Packet, 10 cts.; ounce, 18 cts.; ¼ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

568 Crimson Giant Globe

The Radish That Never Gets Pithy. Sweet, Crisp, Juicy, Mild
—Wonderful Yielder, Beautiful Color, Large Size

This Radish is an entirely new type and differs radically from all varieties hitherto in cultivation, in so far as its roots attain more than double the size of other round, early varieties, without getting pithy or hollow. It is very early, notwithstanding its size. Color crimson, flesh pure white, of the best quality. The roots often weigh 1½ ounces each and are crisp and juicy. Fine for outdoors and forcing. The seed should be sown very thinly to permit full development for roots. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.55, postpaid.

Condon's Summer and Winter Radishes

In the cool weather of the early spring and fall months those varieties listed on the two preceding pages are the most profitable to plant; for hot weather and winter use these are the best. By planting such varieties as Condon's Earliest Red Bird, Lightning, Royal Gem, Perpetual, Icicle, White Elephant and either of the good winter varieties listed below you will have fresh, crisp, delicious Radishes from early spring until the following Christmas and later if you store your winter sorts.

Condon's White Elephant 565 The Greatest White Summer Radish Ever Known

This is the new variety we gave away as a premium in 1917, and everybody liked it better last year than the year before. The flesh is crisp, sound and sweet, never pithy, no matter how hot the weather. Shaped like the cut, half long. Color creamy white with a slight gray cast at top. It's a money maker for the gardener and a dandy midsummer sort for home use. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.40, postpaid.

574 Mixed Radishes

We have had considerable demand for seed of many different varieties of radishes mixed, and so this mixture is now offered to our customers. For a small garden, or when many sorts are preferred, this seed will give, at small expense, a large yield of early, medium and late sorts, lasting several weeks. Nearly all shapes, sizes and kinds are included. Packet, 5 cts.; ounce, 10 cts.; 1/4 lb., 25 cts.; 1/2 lb., 40 cts.; lb., 75 cts., postpaid.

Even when comparatively small this variety is in good condition for use, and continues crisp until matured, when the roots are 4 to 6 inches long by 1½ to 2 inches in diameter. This is considered one of the best large, white summer sorts. The roots remain in condition for use much longer than the early warieties. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 23 cts.; ½ lb., 43 cts.; lb., 80 cts.; 2 lbs., \$1.55, postpaid.

559 California Mammoth Winter

First introduced into this country by the Chinese in California. It is pure white, about 1 foot long and 2 or 3 inches through, tapering regularly to the top. The flesh is tender and crisp, keeping well through the winter. Packet, 5 cts.; oz., 12 cts.; ¹/₄ lb., 25 cts.; ¹/₂ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.50, postpaid.

571 Long Black Spanish
One of the latest and hardiest long

radishes, especially adapted for winter use. Roots rather long, thick, almost black, with white flesh of firm texture, decidedly pungent, but well flavored. The roots when mature are usually 7 to 9 inches long by 2 to 3 inches in diameter at thickest part. Packet, 5 cts.; oz., 12 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.50, postpaid.

561 China Rose Winter

Also Called Scarlet Winter popular favorite with rose-colored skin. It is a large and shaped radish, growing partly above the ground. The portion above the ground is darker in color than that below ground. Packet, 5 cts.; oz., 12 cts.; ½ lb., 25 cts.; ½ lb., 80 cts.; 2 lbs., \$1.50, postpaid. 575 Round Black Spanish

Roots round, sometimes slightly top-shaped, 3 or 4 inches in diameter; skin black, flesh white, very compact and pungent, but well flavored. Keeps well through the winter. Packet, 5 cts.; 0z., 12 cts.; 14 lb., 25 cts.; 15 lb., 80 cts.; 2 lbs., \$1.50, postpaid.

560 Celestial White Chinese

Large, stump-rooted radish with white skin. Can be sown from July 1 to August 15, and will keep in prime condition; mild in flavor, brittle, and never woody. Market gardeners will find this a special seller. Packet, 5 cts.; 0z., 12 cts.; 1/4 lb., 25 cts.; 1/2 lb., 45 cts.; 1/b., 50 cts.; 2 lbs., \$1.50, postpaid.

Store Winter Radishes in sand in your cellar. They keep firm and crisp all winter.

CONDON'S Pedigreed SQUASH

613 Italian Marrow or Cocozelle

The shape is long, cylindrical and tapering slightly to the stem end; it is a summer variety, used when immature by slicing and frying and is certainly delicious. May also be cooked and served like Asparagus as it is sometimes called Summer Asparagus. The skin is a dark green, changing to alternate stripes of green and gold as it ripens. The vines are bush and extremely productive; it is gaining in popularity as its merits become better known. The length of the mature fruits varies from 12 to 16 inches, and the diameter, 5 to 6 inches. Edible in 60 days. Weight, 4 pounds. Pkt., 10 cts.; oz., 18 cts.; ½ lb., 38 cts.; ½ lb., 70 cts.; lb., \$1.35; 2 lbs., \$2.50, postpaid.

602 Giant Summer Straightneck

Latest introduction in sum-mer squash. Identical to Giant Summer Crookneck, only this is summer Crookneck, only this is truly a straight squash, making it nicer shape for shipping. Packet, 10 cts.; ounce, 20 cts.; 4/4 lb., 50 cts.; 1/2 lb., 85 cts.; lb., \$1.50, postpaid.

606 Giant Summer Crookneck

Mammoth White Bush

610 Mammoth White Bush

An early maturing, somewhat flattened, scalloped bush squash, of largest size and the handsomest of the summer varieties. The fruit is uniformly warted and a beautiful, clear waxy white, instead of the yellowish white so often seen in the old Early White Bush Scallop. The stock we offer of this variety is exceptionally true to type. Packet, 7 cts.; ounce, 13 cts.; ¼ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00; 2 lbs., \$1.90, postpaid.

607 Golden Hubbard

607 Golden Hubbard

Vine vigorous and very productive. Fruits of medium size, weighing from six to eight pounds, and in shape like the Hubbard, although in condition for use earlier. They are wonderfully long keepers and can be held over in good condition for spring use. Shell moderately warted, hard, strong and of a beautiful orange-red color, except for a bit of olive-green on blossom end. Flesh deep orange; dry, fine grained and richly flavored. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.30, postpaid.

608 Improved Hubbard

It cannot be too highly extolled as a winter squash; it boils smooth and dry, is of very rich quality, and keeps as solid as a rock. It is more popular with private growers than any other variety. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.30, postpaid.

606 Giant Summer Crookneck

Largest and one of the earliest of the crookneck summer squashes. Vines of bush habit,
large and more vigorous than Summer Crookneck. Fruits when matured are very large,
often 1½ to 2 feet long, with exceedingly warted
surface. The color is deep yellow. Its large
size and attractive color make it a great favorite with market gardeners. See cut. Packet,
8 cts.; ounce, 14 cts.; ¼ lb., 35 cts.; ½ lb., 60
cts.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

599 Blue Hubbard

In this Squash the combination of sweetness, dryness and delicious flavor is something really remarkable. Its outer color is a very light blue, shape oval. Very prolific. A great favorite where known. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.30, restraids. postpaid.

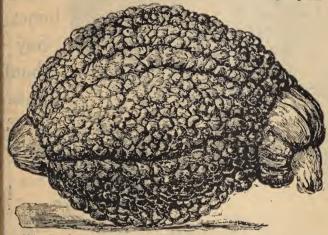

A very early, somewhat flattened, scalloped the bush squash of larger size. Skin deep orange; flesh pale yellow and of very good flavor. Our select strain of the old Yellow Bush Scallop is much improved; fully as productive but uniformly larger and flatter than the old stock and has a very small seed cavity. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts.; 2 lbs., \$1.60, postpaid.

603 Delicious Winter

The squashes, weighing from 5 to 10 pounds, vary both in color and form, but are uniformly delicious in flavor and splendid winter keepers. The dark orange flesh is very thick and fine grained. Packet, 6 cts.; ounce, 14 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; 2 lbs., \$2.30, postpaid.

It is probably the finest in quality of all squashes, large in size, a great yielder, a good keeper, and in fact is just about right in every way, but unfortunately it makes but very little seed, and for that reason the seedsmen seem to have dropped it, and it is practically unknown to the present generation. It grows to large size, generally over 2 feet long and sometimes over 3 feet. It keeps equal to a Hubbard, is better quality, more prolific and earlier. It has a tough shell, but not hard like the Hubbard. The picture shows its appearance better than I can describe it. Pkt., 10 cts.; oz., 18 cts.; 4 lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; 2 lbs., \$2.30, postpaid.

Condon's Chicago Warted Hubbard Improved Strain

605 Fordhook

Excellent for summer or winter use. For baking like sweet potatoes, or making pies, is unsurpassed. Will keep until June. Flesh very thick; straw yellow color. Packet, 6 ets.; oz., 10 ets.; ½ lb., 35 ets.; ½ lb., 60 ets.; lb., \$1.10; 2 lbs., \$2.10, postpaid.

600 Boston Marrow

Very early and prolific variety. Outside color dark orange yellow; flesh deep, fine grained and dry. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

609 Mammoth Chili The Largest of All

The skin is quite smooth, but with broad, open netting and of a rich orange yellow. Flesh thick, of a rich yellow coloring; fine grained and sweet. Packet, 5 cts.; ounce, 15 cts.; 4 lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

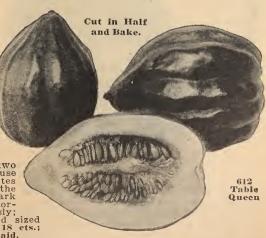

Table Queen or "Des Moines"

A comparatively new variety. Market gardeners have found it their best seller. The enthusiasm of customers entitles it to the place among Squashes accorded to "Golden Bantam" in Sweet Corn. Table Queen is just the right size to serve two persons. This avoids the waste resulting from the use of larger varieties. Does not require over twenty minutes or baking or boiling. This Squash is ready before the Hubbards and yet stores equally well. The color is dark green changing to bright golden after picking and storing. The meat is dry and mealy. It yields enormously; the whills furnishing an ample supply for a good sized amily. Makes wonderful pies. Packet, 10 cts.; 02., 18 cts.; 4 lb., 50 cts.; ½ lb., 85 cts.; lb., \$1.50; 2 lbs., \$2.90, postpaid.

601 CONDON'S Chicago Warted Hubbard **Improved Strain**

The most productive hard shelled win-The most productive hard shelled winter ter squash in existence. The best winter keeper. Very productive. Early and of a beautiful dark green color. A few seed sown along the fences, edges of corn fields, and in waste lands, make wonderful growth and produce a profitable crop where nothing has been produced before.

where nothing has been produced before. Condon's Improved Strain of Chicago Warted Hubbard Squash is unquestionably the very best Winter Squash. The vines are vigorous and very productive. The fruits are extra large, heavy and well warted with extra hard shell which makes it such a wonderful keeper. The skin is uniformly dark green. The flesh is of a bright orange yellow, fine grained, thick, dry and richly flavored. This grand Squash can be kept in good condition until late spring and will retain its highly flavored qualities till used. This squash is unquestionably the best for Market or Home use. Our improved strain of Hubbard Squash has about reached the height of perfection. Packet, 10 cts.; ounce, 20 cts.; ½ lb., \$5 cts.; ½ lb., \$5 cts.; ½

"Your First of All Tomatoes are wonderful. I made big money on my crop this year."-Fred G. Deishlie

Gentlemen: I am sending you a cluster of your First of All Tomatoes that I grew this year. This cluster contains ten large luscious tomatoes. Many clusters contained twelve to fifteen tomatoes. I don't see how the vine holds them up. They are the best I ever saw. I make big money on them.—Earl Mouck.

Our Tomato Seed is "PURE BRED" Selected from PERFECT FRUIT-HIGHEST QUALITY Obtainable

The Best For Canning

CONDON'S "Peerless" TOMATO

"The World's Greatest" Main Crop Tomato

Originated on our Famous Rock River Valley Seed Farms. We have been for years working on this grand variety and are now safe in saying, we are satisfied beyond any question of doubt, we are offering you the best Tomato ever introduced.

643 Condon's Peerless

Grand Tomato

In shape, CONDON'S PEERLESS is smooth, well formed and extremely deep from stem to blossom, making it unusually heavy. It ripens evenly to the stem, and is without ridges or cracks; it has great meatiness and few seeds. It is firm without being hard, unrivalled home tomato and an unequalled shipper. The vines are vigorous but compact. The joints are short and it always fruits in large clusters at every second joint, which accounts for its wonderful productiveness. Condon's Peerless is the heaviest for its size of any variety and on account of its brilliant red color, depth and solidity, is the handsomest tomato. Its beautiful appearance and color make it sell ahead of all sorts, and its unusual solidity, few seeds and desirable form for rapid peeling without waste, make it the most desirable canning variety known. It is up to you to select the best, as it costs you no more; takes no more time to grow the best than it does to grow older and more common sorts. The best is none too good for you, and we want you to give CONDON'S PEERLESS a trial and be satisfied with the BEST TOMATO MOTHER EARTH AFFORDS. Pkt., 10 cts.; ½ oz., 40 cts.; oz., 75 cts.; ¼ 1b., \$2.25; ½ 1b., \$4.00; 1b., \$7.50, postpaid.

639—"Norton" Wilt Resistant—Yields enormous crops of medium size solid firm rich red fruit, on soil affected by wilt where other sorts were nearly a failure. Excellent shipper or canner. Pkt., 10c; oz., 35c; ¼ lb., \$1.25; ½ lb., \$2.30; lb., \$4.25 postpaid.

644 Condon's Giant Everbearing TOMATO

Beautiful Red
Wonderful Yielder
This is the variety we distributed over a quarter million packages of last season.
We have the most wonderful lot of testimonials on it you ever read.

Everyone was well pleased and we are sure the name fully represents the variety as it sure is Everbearing. Ripe fruit from early summer until killed by frost. Wonderful yielder, medium size,

smooth bright red fruit. If it is early Tomatoes you want, use Condon's First of All and if you desire big ones, Condon's Peerless is the boss. For continuous crop Condon's Giant Everbearing excels all known varieties. Try it. Packet, 15 cts.; ½ ounce, 60 cts.; ounce, \$1.00; ½ lb., \$3.50; ½ lb., \$6.00; lb., \$10.00; 2 lbs., \$19.50, post-

Our Tomato Seed All Saved From Selected Fruits—Cost More Than Some and Worth It

CONDON'S Giant Everbearing Tomato "Queen of the Market"

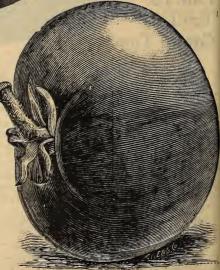

Zephyrhills, Fla., Nov. 18.

Dear Friends:

Your Everbearing Tomatoes that you sent me last spring are still blooming, making ripe Tomatoes all the time. This is the second crop now (Nov. 12.) The plants make from 40 to 116 Tomatoes to one plant. The plants I staked and they are now 7 feet high and it looks like they never die. Thanks for the Seed, I will order again later, and recommend you to my friends.—U. M. Kruse, R No. 1.

649 Golden Yellow Ponderosa Excellent as a Salad Tomato

Another wonderful sort, in every way similar to the well-known Ponderosa, or No. 400, which has been a standard pink variety for years, the only difference being in color, which is a beautiful golden yellow, the richest shade yet attained by any variety. The superior flavor of the yellow varieties is bringing them into favor as a table fruit more each season. We believe the height of perfection has been attained in this grand new yellow Ponderosa. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00; 2 lbs., \$9.75, postpaid.

649-Golden Yellow Ponderosa

Condon's Main or General Crop of Tomatoes

655 Livingston's Globe

THE GREATEST SHIPPING TOMATO KNOWN

THE GREAT STATE TO THE TOTAL TO THE FINEST Early Purple Tomato in Existence. Very Distinct in Shape, Firm Fleshed, of Delicate Flavor; Almost Blight-Proof. "Very Short Crop."

Condon's Select Strain of this tomato is used exclusively by many of the largest shipping associations in the South.

Livingston's Globe is an extra-good, allround sort, of a distinct globe shape or elongated fruits. On account of its shape, it permits a great number of slices to be made from each fruit. We class it with the first early varieties. The fruits are of large size, and retained throughout the season. It is always smooth of firm flesh and few seeds; ripens evenly; color, a fine glossy rose, tinged with purple, and without the slightest tinge of yellow when ripe. It is exceedingly productive. In quality there is nothing more to be desired, being mild, pleasant, and of delicious flavor. May be picked quite green; will carry to distant markets in excellent shape and ripen up uniformly. Pkt., 10 cts.; ½ oz., 25 cts.; oz., 40 cts.; ¼ lb., \$1.25; ½ lb., \$2.35; lb., \$4.50; 2 lbs., \$8.75, postpaid.

647 Early Acme
A good second early pink fruited variety, invariably round, smooth and of good size. Stands shipping well. Packet, 5 cts.; ounce, 35 cts.; /4 lb., \$1.00; ½ lb., \$1.85; lb., \$3.50, postpaid.

646 Dwarf Stone Vines dwarf but vigorous and productive, fruits bright red, exceedingly smooth and very solid. Packet, 10 ets.; ounce, 40 ets.; 4, th., \$1.25; ½ lb., \$2.35; lb., \$4.50; 2 lbs., \$8.75, postpaid.

659 Stoke's Bonny Best A second early, searlet fruited variety. Similar to John Baer. Packet, 5 cts.; ounce, 25 cts.; 1/4 lb., 80 cts.; 1/2 lb., \$1.45; lb., \$2.75; 2 lbs., \$5.25, postpaid.

653 Livingston's Beauty

A main crop, smooth, plnk fruited variety. Fruits are of medium size and ripen up well around stem. Packet, 5 ets.; ounce, 35 ets.; 4 lb., \$1.00; ½ lb., \$1.85; lb., \$3.50, postpaid.

640 Beefsteak A big late scarlet fruited variety, Fruits are very solid, smooth and rather flattened in shape. Packet, 15 cts.; ½ cz., 35 cts.; cz., 60 cts.; ¼ lb., \$1.85; ½ lb., \$3.45; lb., \$6.50, postpaid.

645 Dwarf Champion A dwarf or "tree type." Pink fruited variety. The most widely used of the "dwarfs." Fruits are medium size and smooth. Packet, 10 ets.; ounce, 40 ets.; ¼ lb., \$1.25; ½ lb., \$2.35; lb., \$4.50, postpaid.

657 Stone-Improved "Wilt Resistant Strain"

We have selected this variety with great care for many years, and feel confident no better strain is available at any price.

Stone is one of the best large-fruited, smooth, main-crop Tomato in existence. It has held this enviable position for many years. It is a strong, vigorous grower, with sturdy vines producing an enormous crop of large, handsome fruits. The Tomatoes are a rich scarlet-red color. They are perfectly smooth, of even color, firm, solid, and noted for their excellent long-keeping qualities. The skin is smooth and shiny. It is free from cracks or other irregularities. The flavor is deliciously sub-acid and tasty. Used extensively for canning. Packet, 5 cts.; ounce, 30 cts.; ¼ lb., 90 cts.; ½ lb., \$1.60; lb., \$3.00, postpaid.

648 Early Detroit

Early Detroit has been thoroughly tried as a shipping sort during the past few years and has been found to meet the most exacting requirements. The variety is not only the most productive of the purplish pink tomatoes for the early market, but in uniformity and size of fruit, freedom from cracking and from tendency to blight it leads all others of its class, Packet, 10 cts.; ounce, 40 cts.; ½ lb., \$1.10; ½ lb., \$2.10; lb., \$4.00, postpaid.

656 Gulf State Market

Unsurpassed as a long distance shipping Tomato. A second-early, smooth, pink-fruited variety. It is very similar to Globe. Fruit are globe-shaped, high-crowned, medium sized, and perfectly smooth; also solid and meaty, and have a thick skin. They set in clusters of from 5-7. Vines make good growth and have rather heavy-cut foliage. Ideal type has higher "shoulders" than Globe. Preket, 5 ets.; oz., 35 ets.; ¼ lb., \$1.00; ½ lb., \$1.85; lb., \$3.50; 2 lbs., \$6.75, postpaid.

June Pink

A Pink Earliana

Similar to the popular Scarlet fruited Earliana in growth of vine, shape and size of fruits and time of maturing. This is a variety of exceptional value to market gardeners, who want an early, purplish pink tomato, either for home market or to ship; also desirable for planting under glass. Packet, 10 cts.; ½ oz., 25 cts.; oz., 40 cts.; ½ 1b., \$2.35; lb., \$4.50; 2 lbs., \$8.75, postpaid.

654 Marglobe-Wilt Resistant

The most perfect shipping Tomato that has ever been developed. In general appearance it surpasses any we have seen. Truly a globe shaped variety with a bright scarlet color. Now recognized as the

outstanding Tomato for commercial growers and shippers in the South. Introduced by the United States Department of Agriculture for wilt resistance. Also resistant to "nail-head rust" which attacks the fruit. The strong vigorous vines produce large, beautifully shaped, smooth, deep red, globe shaped Tomatoes in enormous quantities. Outstands long periods of wet and unfavorable weather. Our strain of this new Tomato is produced from original Pure Bred stock seed carefully selected, seed only saved from large, fully matured fruits. Seed is all hand-rubbed, bright color with strong vigorous germination. Some of the largest and most particular planters and shippers in the South have used our strain for several years with perfect satisfaction and we

feel confident that no better type is available anywhere on earth at any price. We urge you to give Marglobe a trial this year. Pkt., 10 cts.; $\frac{1}{2}$ oz., 25 cts.; oz., 40 cts.; ½ lb., \$1.25; ½ lb., \$2.35; lb., \$4.50; 2 lbs., \$8.75, postpaid.

664 Earliana "Penn. State" **Excel Strain**

A large, smooth and productive Earliana Tomato maturing in 120 to 125 days. This strain of Earliana was developed at the Pennsylvania State College. The extreme earliness of its large, smooth fruits makes it a very profitable tomato for market gardeners, as well as desirable for the home garden. The vines are small but vigorous and productive. The fruits are bright deep scarlet, medium to large, nearly round and exceptionally smooth for so early a variety. The fruits are borne in clusters nean the base of the plant, and the bulk of the cropripens very early. Pkt., 10 cts.; ½ 2c., 35 cts.; ½ 2b., \$3.45; lb., \$6.50; 2 lbs., \$12.75, postpaid. A large, smooth and productive Earliana To-

658 Sparks Earliana

An extremely early, smooth, bright red Tomato of good size and flavor. Pkt., 5 cts.; oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.45; lb., \$2.75; 2 lbs., \$5.25, postpaid.

fruit. A popular market tomato in the East and South. Packet, 10 cts.; ounce, 40 cts.; ½ lb., 90 cts.; ½ lb., \$1.60; lb., \$3.00; 2 lbs., \$5.75, postpaid.

641 Chalk's Early Jewel

Within a week or ten days, as early as the famous Spark's Earliana; it is a heavier cropper, with tomatoes of larger size and sweeter flavor. Packet, 5 cts.; oz., 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.40; lb., \$2.75; 2 lbs., \$4.25, postpaid.

SMALL FRUITED TOMATOES

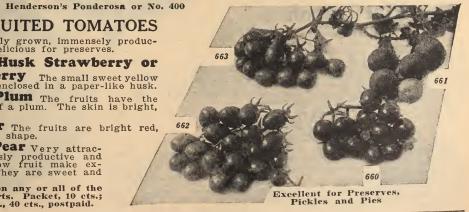

These are easily grown, immensely productive, and very delicious for preserves.

661 Yellow Husk Strawberry or **Ground Cherry** The small sweet yellow fruits are each enclosed in a paper-like husk. 662 Yellow Plum The fruits have the size and shape of a plum. The skin is bright, lemon yellow.

660 Red Pear The fruits are bright red,

and of true pear shape. 663 Yellow Pear Very attractive. Enormously productive and the golden yellow fruit make excellent salad. They are sweet and

delicious. Special Price on any or all of the small fruited sorts. Packet, 10 cts.; ½ oz., 25 cts.; oz., 40 cts., postpaid.

Purple Top

Strap Lea

CONDON'S Select Table TURNIPS

671 Six Weeks, or Early Snowball

Excellent for Table

Six Weeks or Snowball A perfectly globe-shaped, white-skinned turnip. It is exceedingly productive. The flesh is fine grained, firm and of very delicate flavor. It is one of the best keeping of the white fleshed sorts. Very early, and particularly adapted for family or market use. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 20 cts.; ½ lb., 35 cts.; lb., 65 cts.; 2 lbs., \$1.25, postpaid.

669 Early Purple Top Strap Leaved

A Very Quick Grower and a Good Keeper

A very early strap leaved variety, very extensively used for the table. The leaves are few, entire, upright in growth.

The roots are flat, of medium size, purple or dark red above ground, white below. The flesh is white, fine grained and tender, Roots when in best condition for table use are about two and one-half inches in diameter, but can be grown much larger for stock feeding. This sort is also known as Early Red Top Strap Leaved. Packet, 5 cts.; sounce, 10 cts.; ½ lb., 20 cts.; ½ lb., 35 cts.; lb., 60 cts.; ½ lb., 35 cts.; lb., 60 cts.; ½ lbs., \$1.10, postpaid.

670 Purple Top White Globe

The Popular Variety for General Planting

This excellent table variety is globular in shape, of good size and very attractive appearance. The roots are large, purple or dark red above ground, white below. The flesh is white, fine grained and tender. The roots when in best condition for the table are about three inches in diameter, but can be grown much larger for stock feeding. This sort keeps well for so early a variety and is one of the best for market use. It is also known as Red Top White Globe. Packet, 5 cts.; ounce, 10 cts.; ¹/₄ lb., 22 cts.; ¹/₂ lb., 38 cts.; lb., 65 cts.; 2 lbs., \$1.20, postpaid.

667 Early White Flat Dutch

Strap Leaved

A very early white turnip, extensively used for the table, especially in the southern states. The leaves are entire and upright in growth. The roots are of medium size, flat, very white fleshed, fine grained and sweet. The roots when in best condition for table use are about 2½ inches in diameter. This variety is also grown as a field crop. Packet, 5 cts.; oz., 10 cts.; ½ lb., 20 cts.; ½ lb., 35 cts.; lb., 60 cts.; 2 lbs., \$1.10, postpaid.

673 White Egg
Solid, Fine Grained, Good Keeper

An early, oval or egg-shaped variety with smooth, clear white roots of medium size which grow half out of the ground. The tops are small with leaves distinctly cut. The flesh is clear white, firm, fine grained and sweet. The roots of this quick growing garden sort when in best condition for use are usually about two inches in diameter and about three and one-half inches long. Packet, 5 cts.; postpaid.

Desirable vegetable for the table; can be storedin the cellar or pit out-doors forwinter use

BIG MONEY IN TURNIPS

666 Extra Early White Milan

Held in High Esteem by All Growers

Remarkably early variety. Tops very small, strap leaved, upright nd compact, so that rows can be planted close together. Roots clear hite, very smooth, flat, and are of best quality when only about 2 nches in diameter. Flesh clear white, mild, sweet and tender. Very stable for early use. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts.; 2 lbs., \$1.55, postpaid.

Purple

Jon Wilcon

668 Golden Ball or Orange Jelly

Extra Early White Milan

Fine Yellow Flesh Table Turnip

A beautiful bright yellow turnip of medium size and universally sweet and delicious flavor. Is hardy and one of the best keepers. Flesh extremely firm and solid. Brings good price on market. If you have never tried yellow turnips, we advise you to plant some of the Golden Ball in your home garden this year. Packet, 5 cts.; oz., 10 cts.; 1/4 lb., 20 cts.; 1/2 lb., 35 cts.; lb., 60 cts.; 2 lbs., \$1.10, postpaid.

675 Cow Horn

Excelient for the Table or Stock

A long white turnip, 12 to 15 inches in length, 2½ inches in diameter and growing well above the ground. Of rapid growth, producing large, heavy roots in 75 days. One of the best and sweetest for home use or for stock feeding and excellent to plow under as a green fertilizer. Packet, 5 cts.; 0z., 10 cts.; ½ lb., 18 cts.; ½ lb., 28 cts.; lb., 50 cts.; 2 lbs., 95 cts., postpaid.

672 Southern Seven Top

Cultivated extensively and with profit in the South for the tops, which are used and are most excellent for greens. It is very hardy, will grow all winter, but will not produce a good root. In many sections of the South it is also a favorite green feed for stock, and its use as a pasture crop like Rape is quite general. Packet, 5 cts.; oz., 10 cts.; ½ lb., 18 cts.; ½ lb., 28 cts.; lb., 50 cts.; 2 lbs., 95 cts., postpaid.

Specialties for the Garden That All Should Plant

Grow your own Horse Radish. It's much better and

391 Horse-Radish Sets

Chicory

The seed should be sown in the open ground not later than June in drills 12 to 18 inches apart, and the seedlings should be thinned out to stand not closer than 3 inches. The plants form long, parsnip-shaped roots which are lifted in the fall, trimmed of leaves and stored in soil in a cool place until wanted for forcing.

Roots should be planted upright about one and a half to two inches apart in a trench 16 to 18 inches deep. This will bring the neck of the root to within nine inches of the level of the trench, to be filled with light soil.

It requires about one month to force roots.

It requires about one month to force roots. Packet, 10 ets.; ounce, 18 ets.; ¼ lb., 45 ets.; ½ lb., 80 ets.; lb., \$1.50, postpaid.

Leek 412 Broad Leaf or New Flag

We offer a very superior stock of this popular variety, so largely grown for fall and early winter use. It is of quick, strong growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white and of fine, mild flavor. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 80 cts.; lb., \$1.50, postpaid.

412 Leek-Broad Leaf

391 Horse-Radish Sets New Bohemian or Maliner Kren

New Bohemian or Maliner Kren
This is grown by planting the small sets or
pieces from the side roots in deep, rich soil and
cultivating in the same manner as with the ordinary variety of Horse-Radish, but the plants are
so much stronger in growth that the roots grow
to considerably larger size and greater weight.
The quick, strong growth not only gives a much
larger crop from a given area both in size of
single roots and bulk weight of crop, but also
enables the grower to place the roots in the markets much earlier than with the ordinary variety.
Small Roots, ready for planting: 20 ets. a doz.;
\$1.25 per 100; \$10.00 per 1,000, postpaid.

Rhubarb or Pie Plant

582 CONDON'S New Strawberry

Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early Spring, but Summer as well. The very best. Quality simply superb. Stalks of good size, soft and juicy. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true Strawberry flavor. Pkt., 10 cts.; ½ 1b., 80 cts.; ½ 1b., 45 cts.; ½ 1b., 80 cts.; 1b., \$1.50, postpaid. postpaid.

583 Rhubarb Roots

We offer only hardy two-year-old roots that will make a crop the following year after setting out. 15 cts. each; 3 for 40 cts.; doz., \$1.45; 100 for \$10.00, postpaid.

Best Varieties, High Grade Tobacco

635 Big Oronoko Sweet

A favorite Virginia variety. Grows very large, broad leaves. A fine variety for dark plug wrappers and brings a good price in the market.

637 Connecticut Seed Leaf

This is a staple variety in all sections of the country, and will grow successfully over a wide range of territory. Used for cigar fillers.

634 Big Hybrid Havana

The best known variety, as it is used very largely for cigar wrappers. Commands the highest market price when well grown and cured.

638 Improved White Burley

A mild and sweet tobacco. It is the standard main crop variety in the tobacco sections as it is extra fine for manufacturing in nearly every manner that tobacco is used.

636 Comstock Spanish

Sometimes called Zimmer's Spanish. The standsometimes called Zimmer's Spanish. The standard variety for cigar leaf. More extensively grown 638 Improved in this country than any other kind for this purpose. About the only kind grown in Wisconsin. The leaf is good sized and is suitable for wrappers and fillers.

Special Price on any of the above: Packet, 10

Special Price on any of the above: Packet, 10 cts.; 1/2 ounce, 30 cts.; ounce, 50 cts., postpaid.

One of the many beautiful Lawns produced from Condon's Velvet Green Lawn Seed

Condon's Superior Grass Seed for Lawns and Golf Courses

731 Condon's Velvet Green Lawn Seed Used extensively by park boards, golf clubs and by private home owners. Over 250,000 pounds sold annually. Recognized the country over as the very finest quality. Sow in spring or fall. 1 lb. for 300 square feet. Contains only the highest grade of grasses suitable for the purpose of making a beautiful, durable, lasting lawn. Our Lawn Grass Seed germinates quickly, roots deeply. This enables it to withstand the intense heat of summer and the hard cold of winter, showing a beautiful, rich green from snow to snow. It contains no annual grasses for making a quick show, to the detriment of the permanent lawn, but has only those which are lasting and hardy. When a lawn is once established from our seed, it lasts for years. From six to eight weeks' time is all that is required to form a close, thick turf of rich velvety green. One pound sows 300 square feet very nicely. For a perfect and enduring lawn of closely interwoven, firm, elastic turf, which will flourish under varied conditions of soil and climate, and show a luxuriant growth throughout the year, plant Condon's Velvet Green Lawn Grass Seed. ½ lb., 25 cts.; lb., 45 cts; 3 lbs., \$1.30; 5 lbs., \$2.00, postpaid.

732 Condon's Shady Place Mixture On nearly all lawns there are shaded, bare and unsightly spots, on which the owners have difficulty in getting a stand of grass. For such places this mixture is adapted. It is composed of grasses which naturally grow in shaded places. They are the finest and most costly of all grasses. ½ 1b., 28 cts.; 1b., 50 cts.; 3 lbs., \$1.40; 5 lbs., \$2.25, postpaid.

809 Cocoos Bent Grass The hardiest and most dependable Bent Grass; has withstood temperatures as low as 35 degrees below zero. Sow in the same manner as Blue Grass or Red Top. Seed we offer was grown by Lyman Carrier, the originator. A true genuine unmixed Creeping Bent Grass. One top dressing a year will keep it in excellent condition. Sow 1 lb. per 190 sq. ft. ½ lb., \$1.50; lb., \$2.75; 3 lbs., \$8.00; 5 lbs., \$13.00, postpaid.

683 Creeping Bent Grass Agrostic Species. Especially suited for lawn and golf courses, being perfectly hardy; producing a dense velvety green carpet that withstands much trampling. Sow 1 lb. to 200 square feet. ½ lb., 65 cts.; lb., \$1.25; 3 lbs., \$3.60; 5 lbs., \$5.75, postpaid.

682 Red or Creeping Fescue (Festuca rulra). Very hardy grass, well adapted to severe winter conditions. Does well on poor, sandy or acid soil, and thrives luxuriantly in shady places. Used extensively for golf and lawn purposes. Sow 1 lb. to 200 square feet. ½ lb., 45 cts.; lb., 85 cts.; 3 lbs., \$2.45; 5 lbs., \$3.75, postpaid.

681 Chewing's Fescue (New Zealand-Grown). Festuca Chewing's is in even greater demand for Putting Greens than the Red Fescue. Best seeded alone when used for greens. It is a perennial with creeping roots and makes a fine turf. Does well in sandy soils, and in the shade. Sow either Spring or Fall at the rate of 5 lbs. to 1,000 square feet. ½ lb., 45 cts.; lb., 85 cts.; 3 lbs., \$2.45; 5 lbs., \$3.75, postpaid.

691 Wood Meadow Grass (Poa Nemoralis). Used as a shade grass in the Northern half of the United States. Excellent grass under trees or between apartment buildings. A perennial closely related to Kentucky Blue Grass. Sow in the Fall or Spring 1 lb. to every 300 square feet. ½ lb., 45 cts.; lb., 85 cts.; 3 lbs., \$2.45; 5 lbs., \$3.75, postpaid.

685 Blue Grass, Kentucky Fancy Recleaned (Poa pratensis). Also known as June Grass, Green Grass, etc. Sow 1 lb. to 300 square feet, 60 lbs. per acre for hay. Rated as one of the best permanent grasses, especially useful for lawns, meadows, and rich land. ½ lb., 23 cts.; lb., 40 cts.; 3 lbs., \$1.10; 5 lbs., \$1.70, postpaid.

742 Red Top (Agrostis Alba) Fancy Recleaned One of our best native grasses. Useful for lawn or pasture fields. Does well on moist or even quite dry soils. Sow 1 lb. to 300 square feet, 20 lbs. per acre. ½ lb., 23 cts.; lb., 40 cts.; 3 lbs., \$1.10; 5 lbs., \$1.70, postpaid.

744 Rye Grass, English or Perennial (Lolium perenne). Good for lawns or pasture. Especially suited for winter lawns in the south. Sow 1 lb. to 200 square feet. ½ lb., 15 cts.; lb., 25 cts.; 3 lbs., 70 cts.; 5 lbs., \$1.00, postpaid.

757 Rough Stalked Meadow Grass (Poa Trivialis) An ideal shade grass closely related to Kentucky Blue Grass, but somewhat finer and softer. It has a splendid apple-green color and is a creeper. Sow in Fall or Spring at rate of 1 lb. to every 300 square feet. ½ lb., 35 cts.; lb., 65 cts.; 3 lbs., \$1.80; 5 lbs., \$2.90, postpaid.

696 White Dutch Clover An excellent clover for lawns, makes a close, compact growth, covering the ground like a carpet. Thrives well on all soils. ½ 1b., 35 cts.; 1b., 65 cts.; 3 1bs., \$1.80; 5 1bs., \$2.90, postpaid.

Forage and Hay Crops

726 Canadian Field Peas

Field Peas are an important class of legumes, and should be nore generally planted. Few farmers know the value of field leas as a hay crop and fertilizer. They fit into crop rotation well. Field Peas are usually grown with oats, for hay, a combination hat is equal in feeding value to clover hay. They contain more ligestible crude protein and fat than alfalfa and corn. When they are grown with oats, they are threshed together, and easily separated with a fanning mill after threshing, thereby setting two crops from one operation. Sow 2 bushels oats to 1½ bushels of peas per acre. Drill the peas in 4 inches deep, as early as the ground can be worked. Then, 2 or 3 weeks later, low the oats, drilling it in the other way. If the oats are sown with the peas, it grows too rapidly, and checks or smothers the growth of the peas. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., post-

722 Extra Early Prolific Cow Peas

A select strain of the well known New Era Cow Peas, ex-remely early and hardy, maturing in 70 days. Enormous crop-bers. For all requirements this is the best. Sow 1 Bu. per acre. ½ 1b., 12 ets.; 1b., 20 ets.; 3 1bs., 50 ets., postpaid.

723 Improved Whippoorwill Cow Peas

The Old Reliable; matures in 70 days; very productive; grown argely for fertilizer and pasture. Sow 1 Bu. per acre. ½ lb., 2 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

734 German or Golden Millet

The most popular and widely grown variety. Wonderful milk producer, big yielder of good palatable hay. Sow ¾ Bu. per acre. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

727 Hungarian Millet

Often called Hungarian Grass. Very similar to German Millet, only finer. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

733 Japanese Millet

Sometimes called Billion Dollar Grass. This is a type of Millet boolutely distinct from all others. Sow 1 Bu. per acre. ½ lb., 2 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

747 Sudan Grass

748 Early Amber Sugar Cane

A profitable feed crop that can be grown almost everywhere, producing even bigger yields than millet. As much as 30-35 tons of green feed have been harvested per acre.

Makes wonderful silage either alone or drilled with Corn, improving feeding value of Corn fifty per cent. Sow 20 lbs. drilled per acre; 50 lbs. broadcast. 1/2 lb., 12 cts.; lb., 20 ets.; 3 lbs., 50 ets., postpaid.

741 Dwarf Essex Rape

Rape is an annual forage plant of great value, profitable in all sections of the country. It can be grown to advantage on land which has already produced an early grain crop, like oats, rye, or winter wheat.

Rape provides excellent pasture for all kinds of live stock, cattle, hogs and sheep. It can be sown at any time during spring or summer, so a good pasture can be had whenever it is needed. Rape will prepare sheep and hogs for market better and in less time than any other forage plant. Sow 8 to 10 than any other forage plant. Sow 8 to 10 lbs, per acre broadcast. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts.; 5 lbs., 80 cts., postpaid.

Canadian Field Peas

747 Sudan Grass

—The Wonderful Hay Crop
One of the best annual forage
plants ever introduced, suitable for almost any locality. Sudan Grass
thrives best on rich loam, but has been

thrives best on rich loam, but has been successfully grown on almost every kind of soil, from heavy clay to light sand. Cold, wet, boggy soils are not suited to Sudan Grass.

Sudan Grass is a sorghum, and an annual, without underground root sprouts. It grows 4 to 5 feet high in drilled seedings, and 5 to 8 feet in cultivated rows. Do not soy Sudan Grass drilled seedings, and 5 to 8 feet in cultivated rows. Do not sow Sudan Grass before corn planting time. Like corn, it is a warm weather crop. In favorable seasons, the growing period is long, and several cuttings can be obtained in one season. For hay it is ready to cut in 60 to 75 days, when it is in full head. It continues its growth, and in 40 to 45 days it is ready for another cutting.

growth, and in 40 to 45 days it is ready for another cutting.
Sudan Grass is an enormous yielder, producing 3 or 4 tons of hay at the first cutting. The second cutting is lighter, and the hay is much finer. Live stock of all kinds will eat the hay readily.

For hay, sow at the rate of 20 to 30 lbs. per acre, using a grain drill, and cover from one to one and one-half inches deep. Heavy seeding makes finer quality hay. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts.; 5 lbs., 80 cts., postpaid. postpaid.

Grow Larger and Better Crops by Using The Original Soil Inoculator

The Improved Soil Inoculator, Robbe-Hiltner Process Restores and Maintains Soil Fertility

Grow legumes—alfalfa, clovers, soys, vetch, peas, and beans—for valuable feed crops, soil improvers, cover crops; BUT BE SURE TO INOCULATE THEM WITH NITRAGIN. Agricultural Colleges advise inscillation. Inoculated legumes draw valuable nitrogen from the air—not the soil—increase yield and quality of the crop and leave a rich store of nitrogen in the soil for future crops. Inoculated legume seed develops heavy clusters of nodules, where nitrogen is stored, on the roots of the legume plant and without which the legume is valueless as a soil builder. Nitragin inoculated legume crop bears heavy nodules and pays big in increased soil fertility. Protect yourself by insisting on NITRAGIN, the original Soil Inoculator. All inoculators are perishable; every package of Nitragin is dated as to life of contents for your protection. Look for the dated label when buying; agricultural colleges recommend this protection.

Prices for NITRAGIN Bacteria Culture listed below. Postpaid.

810 Stim-u-Plant Tablets

Use them on all your planting. Stim-U-PlanT Tablets are packed in sizes: Trial size, 15 cts.; small size, 25 cts.; 100 tablets, 75.; 1.000, \$3.50, postpaid.

821 Hammond's Slug Shot

non-poisonous powder and a very popular insecticide; popular insecticide; it requires no further mixing or preparation, easily distributed either by duster or in water by spraying. Very effectual in destroying potato bugs and beetles, green and black flies, slugs, worms, caterslugs, worms, cater-pillars, etc. 1 lb. car-ton with sifter top, 30 cts.; 5-lb. package, \$1.00; 10 lbs., \$1.90,

"Dependable Fertilizer" 814 Nitrate of Soda or Chili Saltpeter

Nitrate of Soda is not a substitute for other Manures, but one of the cheapest and best forms in which to apply Nitrogen to plants. Do not let nitrate touch green growth or it will burn. Remove the lumps before using and break them up, which can be done by pounding. For the Home Garden apply as a solution one ounce to two gallons of water. I lb., 22 cts.; 5 lbs., 75 cts.; 10 lbs., \$1.40 postpaid. By Express or Freight at Customer's Expense—5 lbs., 50 cts.; 10 lbs., 90 cts.; 25 lbs., \$1.50; 50 lbs., \$2.75; 100 lbs., \$5.00.

815 Condon's Bone Meal

Our "Special Brand" Bone has been slightly steamed to soften it and is thus quicker in its action. Analysis: Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; bone phosphate, 48 to 54

per cent.
PRICE: Shipped by Freight at Customer's Expense—5 lbs., 40 cts.;
10 lbs., 70 cts.; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50.
Postpaid—1 lb., 25 cts.; 5 lbs., \$1.00.

812 Natural Pulverized Sheep Manure

3% potash, 1¼% phosphoric acid and 2¼% ammonia. Spread a hundred pound sack over your lawn in the early spring. It will produce wonderful results. Use it on all corn and grain crops at the rate of 300 to 500 lbs, per acre in drills or hills. On Garden crops, use 500 lbs. per acre or 100-lb. sack on Home Garden plot of 50x150. Special prices shipped by freight, customer to pay transportation charges. 25 lb. bag, 30 cts.; 50-lb. bag, \$1.50: 100 lbs., \$2.50: 500 lbs., \$1.00.0: 1,000 lbs., \$18.25: 2,000 lbs., \$35.00. SMALL QUANTITIES BY MAIL, I lb., 20 cts.; 3 lbs., 50 cts.: 5 lbs., 75 cts., postpaid.

Alfalfa On Every Farm

That's our slogan for this year and will continue to be until every one of our customers have at least a few acres of this wonderful crop.

Now Grown Successfully in Every State in the Union

It is the hardiest, the most lasting, the most productive, the most efficient soil enricher and the Biggest Money Crop for every farm. Alfalfa increases farm values because it enriches the soil instead of depleting it as grain crops do. Grain crops of any kind grown on Alfalfa sod yield much more abundantly and better quality than the same fields yielded before Alfalfa was grown there. It will make at least three cuttings a season even in extreme Northern States and from experiments carried on over a number of years the average yield of Alfalfa per acre was 5.4 tons, whereas Red Clover yielded only 2.5 tons; Timothy, 2.3 tons. In other words, one acre of Alfalfa will produce more good hay than two and one-half acres of any other grass or clover crop.

676 Condon's Mountain Brand Dry Land Alfalfa

We have specialized for years on Alfalfa and are safe in saying Condon's Mountain Brand Dry Land will give complete satisfaction everywhere. Our seed is grown in the extreme North West where the winters are very severe, and is by far the very best type of what is known as Common Alfalfa. In fact it is far superior to some seed which is sold as Grimm types. The seed is very high quality, both in purity and germination. Prices very low for such high quality seed. All State Tested and "Guaranteed." 1/2 lb., 25 cts.; lb., 45 cts.; 3 lbs., \$1.25, postpaid.

678 Genuine Montana Grimm Alfalfa Certified by State Authorities

Repeated comparative tests prove conclusively that "Genuine Grimm Alfalfa" is the hardiest, most lasting and most productive of all varieties; therefore "The Most Profitable To Grow."

Its root system is spreading or sprangled either directly from the crown or farther down the root, depending on the soil, and that spreading root system is what helps to prevent it from winter

killing during freezing and thawing weather.

We offer Certified Genuine Montana Grown Grimm Alfalfa that we know will please you and our prices are as reasonable as pure seed can be produced for. If you pay less than we ask we firmly believe you will get less. All our seed sold on your approval. ½ 1b., 35 cts.; 1b., 60 cts.; 3 lbs., \$1.65, postpaid.

Grimm Alfalfa "Certified Sealed Bags"

"Blue Tag" Highest Quality

The Blackfoot Idaho Grimm Alfalfa seed is produced by an organization of Idaho growers who can all positively trace their seed back to the original Grimm stock of Carver County, Minnesota. These growers have had their fields inspected by the state authorities, for the Grimm characteristics and also for weeds, and the seed finally examined and certified by the State Seed Analyst, after being thoroughly cleaned and scarified.

We believe this "Blackfoot Grimm" is the purest and best strain of Grimm on the market and it is absolutely reliable. Remember, the state of Idaho is back of this seed and guarantees its genuineness. The state where the seed is grown is not so important so long as it is northern grown, but the genuineness of the seed is the essential thing. Smaller quantity than 30 lbs. not in sealed bags. ½ lb., 35 cts.; lb., 60 cts.; 3 lbs., \$1.65, postpaid.

ennial Sweet Clover Root After First Season's Growth

> Special Circular mailed free

upon request telling all

about how to grow this Wonderful Crop

SWEET CLOVER

699 New Grundy County

Vhite Blossom.—Two Weeks Earlier than the common and nuch finer for hay. Recommended by all agricultural uthorities as the greatest pasture and fertilizing plant. he First Green Feed in the Spring—The Last Green Feed the Fall.

Now recognized as the greatest fertilizing plant in ex-stence. Grows vigorously on the very poorest of soil. lanted on the thinnest of clay soils, where nothing grew, soon made them so fertile that other grasses came and mothered it out. It has been known to so enrich bottom and, whose top soil has been washed away, that 75 bushels from was again grown on it. 1/2 lb., 17 cts.; lb., 25 cts.; lbs., 65 cts., postpaid.

Northern 697 White Blossom Grown

In habit of growth and appearance very similar to Grundy ounty described above, producing taller and coarser hay, and is two weeks later. ½ lb., 15 cts.; lb., 22 cts.; 3 lbs.,

698 Hubam Sweet Clover

Hubam Sweet Clover looks like the biennial listed above, nd grows very similar except that it grows four times s fast and when seeded in early spring attains a growth 4 to 5 feet by September. ½ lb., 18 cts.; lb., 30 cts.; 3 lbs., 5 cts., postpaid.

NOTICE: INOCULATE THIS SEED

Increase your yield of Alfalfa and Sweet Clover by inoculating seed with NITRAGIN—full instructions on every package.

No. 798—1/4 bu. size, 40 cts.; 1/2 bu. size, 60 cts.; 1 bu. size, \$1.00; 5 bu., \$4.75, postpaid. Same Bacteria used for Alfalfa and Sweet Clover.

Sow 15 lbs. Sweet Clover per acre with all small grain. It's a wonderful fertilizer and hay crop.

684 Meadow Fescue English Blue Grass

One of the most valuable hardy grasses grown—ited to almost every climate; dry or wet—hot or ld, this is one dependable cropper, producing imense pasturage very early in the spring and up te in the fall. Also makes wonderful hay crop owing 2½ to 3 feet high. Sow in early spring fall 15 lbs. per acre broadcast. ½ lb., 18 cts.; , 30 cts.; 3 lbs., 85 cts., postpaid.

688 Bromus Inermis

The Grass for Dry Climates

Drought-defying, frost-resisting; yields enorous crops of splendid hay and affords early and undant pasturage. Adapts itself to almost every ndition of soil and climate to which grasses may put, equaling in quality and rivaling in yield most any other grass. It is an abundant procer of leaves and is much relished as pasture, d hay. It is about equally nutritious with timhy. Sow in spring, 20 pounds per acre. ½ lb., cts.; lb., 35 cts.; 3 lbs., 95 cts., postpaid.

735 Orchard Grass

Admirable for Pasture or Mowing
A valuable grass for pasture or hay land, and on
count of its earliness especially valuable for a
rmanent pasture. It furnishes green grass very
rly in the spring and until late in the fall. When
sely cropped it grows up very quickly and is
ady for grazing again in ten to twelve days. It
succulent and nutritious, furnishing excellent
sture or hay. When grown for hay, two good
ops can be obtained in one season. ½ lb., 20 cts.;
., 35 cts.; 3 lbs., 95 cts., postpaid.

752 Timothy and Alsike Mixture The Greatest of All Pasture and Hay Crops

The Createst of All Pasture and Hay Crops

By far the best and cheapest seeding. On low bottom moist soils, where other grasses fail, this will give perfect satisfaction, and on upland it's amazing what wonderful crops you can raise.

By experimenting it was found that Alsike and Timothy made a combination that was excellent and ahead of anything yet discovered for hay and pasture. They blossom and the seed ripens together and are sulted to the same soils. On low, moist lands, where other grasses would fail, they do especially well. They do well on any land where common grasses and clover grow.

One great advantage that is realized by a mixture of these grasses is the fact that they are both perennials and make a better combination than most any other two. When you once get them established they stay right with you, until you wish to break up the sod. They do not winter kill and are very hardy indeed. ½ 1b., 15 cts.; 1b., 25 cts.; 3 lbs., 70 ets.; 5 lbs., \$1.00, postpaid.

751 Condon's Timothy Seed

751 Pure Timothy

As a crop to cut for hay, Timoth is probably surpassed by no other grass now cultivated. If sown along it requires 8 to 12 pounds per acre It is usually sown with other grasses about one-half to one-third of the above amount. Can be sown in either fall or spring. Timothy Seed is one of our specialties. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 55 cts.; 5 lbs., 85 cts., postpaid.

Clovers and Sand Vetch All State Tested for Purity and Germination

Quality far above any requirements of the United States

Guaranteed Satisfactory on Arrival or Money Back

We use every possible care in selecting and cleaning of our Grass and Clover Seeds, and believe so firmly that our quality excels, will allow you upon receipt of seed to have same tested for Purity and Germination, and if not perfectly satisfactory, you may return at our expense, and your money will be cheerfully refunded. With such a safeguard, can you afford to sow seed of unknown quality?

695 Medium Red or June Clover

Mammoth Red Clover is quite distinct from Medium, being larger, of coarser and more robust growth, and two to three weeks later. On rich, loamy soils it attains an immense growth, yielding much more bulk than medium clover, but makes only one crop, and pasture after that. It grows well on land too poor and on soil too low for Medium Red, and is, therefore, largely used to restore fertility to worn-out soil. 1/2 lb., 18 cts.; lb., 30 cts.; 3 lbs., 85 cts., postpaid.

692 Alsike, or Swedish Clover

Alsike seems to be especially adapted for the Northern States; it is a perennial clover and lives longer than Medium Red; it is also more hardy; in fact it is the hardlest of all clovers; it does not heave out of the ground in Winter and the severest cold does not injure it and it resists the extremes of drough and wet. It is the only clover that will thrive on moist soil, but it will also grow fairly well in stiff clays. It is mostly grown in bottom lands and quit often mixed with Timothy; these varieties seem to be well adapted for this soil and ripen at the same time. ½ lb., 18 ets.; lb., 30 ets.; 3 lbs., 85 ets., postpaid

696 White Dutch Clover

A low, close-growing Clover; round, white heads; very fragrant best adapted to moist soils, but does well on dry land; excellent a an addition to mixtures for permanent meadows and pastures. Fo lawns it is also splendidly adapted; indeed, no lawn is considere "quite right" unless it contains a good sprinkling of this swee pure, white-blooming, low growing "soft as velvet," hardy Whit Dutch Clover. ½ 1b., 35 cts.; 1b., 65 cts.; 3 lbs., \$1.80, postpaid.

693 Crimson Clover or Giant Incarnate

South of the Ohio River this wonderful annual clover leads the all for hay, for pastures and fertilizer. Sow 15 pounds per acre i spring or fall. In the North sow in April, ready to cut and pastury July 10th. Every farmer ought to sow at least one acre for hands. It's A BIG MONEY MAKER. ½ lb., 15 cts.; lb., 25 cts.; 3 lbs.

745 The Great Sand or Hairy Winter Vetcl

The Greatest Fertilizing Plant Known for Poor, Worn Out, Sand Soil or Sick Clover Land

For pasture and hay crop fully equal to Alfalfa. Does better coor, worn out soils than any other forage or legume crop. So in spring or fall, 30 pounds per acre, with half bushel Oats or Baley to hold vines off the ground. Highly relished by all classes stock. ½ 1b., 15 cts.; 1b., 25 cts.; 3 lbs., 70 cts., postpaid.

CRIMSON CLOVER

745 WINTER VETCH

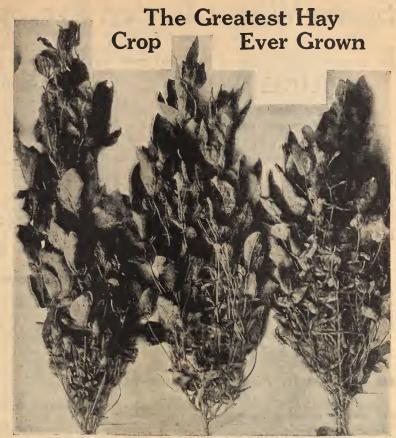

Soy Beans

Most Important as a Feed and Ensilage Crop

Soy Beans are easy to grow, and are especially valuable for oil too poor or acid for other egumes. They withstand both trought and rain well, and are let easily damaged by moisure. They make a good emergency crop, as they can be own late, after other crops ail or are washed out. They leposit large quantities of introgen in the soil, building it poor land on which clover a affalfa can not be grown.

Soy Beans, as a hay crop, re higher in protein content han clover hay, or field peas and oats mixed. For dairy catle, the hay is equal to alfalfa ay. They make wonderful nsilage, when grown with orn, and are also used for hog asture. They take the place foilmeal, and are even more alatable and digestible.

Culture—Sow when all daner of frost is over, about corn
lanting time. For hay crop,
oy Beans may be seeded
roadcast or with grain drill
sing one bushel of seed per
cre. Cover seed one inch
eep. If preferred sow seed
y drilling in rows 36 inches
part, allowing cultivation one
ray, using half-bushel seed
er acre. It is now a univeral custom to sow Soy Beans
a combination with corn for
ilo or hogging down, droping one or two beans in each
ill of corn. One bushel plants
en acres with corn, costing
nly a few cents per acre, but
vell worth \$20.00 per acre for
eed.

787 Illini

790 Manchu

785 Ito San

787 Illini

Latest Introduction by the Illinois Agricultural Experiment Station

Earliest of All-Excellent for Hogging Down

The Illini is primarily a seed type rather than hay ype, early maturing (105 days), stands well, and olds its seed well. It has white flowers, gray ubescence, yellow seeds with light brown hilum or eed scar, and yellow to light brown pods. These haracteristics enable one to distinguish and rogue ixtures easily, and thus to keep the variety pure. Ye highly recommend this.

787-1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

90 Manchu This is by far the most popular Soy Bean in the middle west. It is a medium early vaiety, and it matures dry beans in about 110 days. The Manchu is almost unanimously considered to be he best of all Soy Beans for any purpose until the atroduction of Illini. Seeds are yellow with a pecular black seed scar. It is a medium variety, orignally from Northern Manchuria. We recommend his variety for hay and silage, and as being one of the best to plant with corn for silage. 1 lb., 20 ts.; 3 lbs., 50 cts., postpaid.

85 Ito San This is the standard, best known, and nost widely grown. Early maturing (in about 110

days), grows 2½ to 3 feet high. The bean is yellow, it is immensely productive and fine to sow with corn for hogging or forage. Makes fine hay. Especially adapted to a northern latitude. 1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

786 Black Eyebrow Seeds are black with brown saddle and black seed scar. It is also from Manchuria and about like Manchu in growth and date of maturing. Specially adapted to northern conditions for both grain and hay. One of the best for planting with corn. 1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

788 Black Sable This variety is very much grown in the northern sections, for forage and ensilage. The seed itself is jet black. Dwarf habit, hence not so much planted with corn. Chiefly used for emergency hay crops. Matures in 125 days. 1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

784 A. K. Classed as an early variety, maturing in about 110 days. Seed light green color, bushy type with rank foliage. 1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

783 Hollybrook Also called Mid-West, medium late, maturing in about 125 days, pods small but yield is heavy. 1 lb., 20 cts.; 3 lbs., 50 cts., postpaid.

Spring Wheat, Barley, Rye, Speltz and Oats

We are actually farming our own farms and grow only "Pure Bred" carefully selected seed of these special crops. All Recleaned and Tested. Send your order now for some of this Pure Bred Seed and grow bigger and more profitable crops this year.

SPRING WHEAT

754 New Marquis Beardless

THE KING OF THE SPRING VARIETIES

Marquis is supreme, it outstrips anything and everything in wheat. It is a factor of its own thining forth in its greatness as the most wonderful achievement Agriculture has ever known. By far

This wheat has ever known. By far the best variety for the corn belt.

This wheat has very stiff straw of medium height, which does not lodge easily, the heads are bald and quite heavy, have smooth yellow chaff; the kernels flinty, more round than those of other spring wheats, thicker and more plump, and of dark red color. ½ 1b., 12 cts.; 1b., 20 cts.; 3 1bs., 50 cts., postpaid.

755 Velvet Chaff Spring Wheat

This is an extremely hardy, bearded variety of wonderful productiveness, generally yielding at least 10 bu. more per acre than other kinds of Spring Wheat. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

BARLEY

680 Wisconsin Pedigree Bearded

The Sweepstakes Barley of the World
This is the barley that won First, Second, Third
and Fourth Prizes in the "Open to the World"
Contest at Omaha a few years ago, besides a number of special prizes. It was also awarded First,
the only prize offered, in "Barley in Sheaf, Open
to the World."
Wisconsin Padignon Parley in Sheaf, Open

to the World."

Wisconsin Pedigree Barley is a selection from Oderbrucker and comes from the foremost state in the Union in the production of Barley. It is the result of many years' selection and breeding, starting with a single perfect stalk. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

679 Oderbrucker Barley

(Wisconsin No. 55) A heavy yielding and plump six-rowed variety, introduced in 1906 by the Wisconsin Agricultural Experiment Station. A large percentage of the Barley acreage in Wisconsin is now of this grain. Compared to Manshury, Oderbrucker has a stiffer straw, higher protein content and being a more vigorous grower is a better rust resister. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

743 Mammoth Spring Rye

A Most Profitable Crop

Quite different from Winter Rye; highly valued Quite different from Winter Rye; highly valued as a catch crop. It is not only more productive, but the grain is of finer quality, grown in any latitude. Straw is of special value as it stands 5 or 6 feet high, being better than that of Winter Rye and producing nearly four times as much straw as Oats. Produces 30 to 40 bushels of grain to the acre. As it does not stool like Winter Rye, not less than two bushels to the acre should be sown. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postnaid. should be sown. 50 cts., postpaid.

FOR FALL SEEDING

Write in August for our special prices on fall wheat,

746 Speltz or Emmer

Sow 1½ to 2 Bu. per Acre
A valuable grain, closely related to wheat; the kernels, however, are tightly enclosed in the hulls or husk, and these adhere to the grain when it is threshed. Speltz is becoming more popular every year, as it produces good crops even under adverse circumstances where other grain fails. It withstands more dry weather than any other grain, and produces more food value per acre than any other cereal, while it is a most valuable feed for all kinds of stock. It can be fed to horses, the same as oats, with the hulls on. Speltz can be grown on most any kind of soil, rich or poor, wet or dry, as it will not lodge like other grain because of the stiff and strong straw, and will always bring the best returns. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

OATS

738 Improved Swedish Select

Considered by many to be the most valuable oats raised in the Northwest today. It is known under other names, such as King Oscar, Wisconsin No. 4, etc. This was originally quite a late oat made early by growing it in the high altitude in which it was developed. It possesses striking features, the grain is short, plump, white, and very heavy, under favorable conditions averaging about 40 pounds to the measured bushel. Owing to its great root development it stands very high for its drought resisting qualities. At the Wisconsin Experiment Station it has stood at the head of the list for several years, having been distributed by that station as Wisconsin No. 4. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

739 Silver Mine

This oat has made for itself a reputation as an extraordinary heavy and reliable yielder. It is very hardy and prolific and yields beautiful white kernels, which are especially desired.

The heads are very large in proportion to its stiff, bright, clean straw. 1/2 lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

736 Condon's White Bonanza

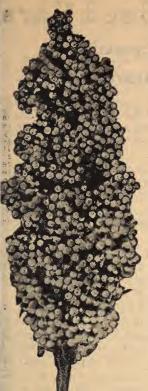

This year's experimental tests again prove our claim that "Condon's White Bonanza" is the Greatest All Around Oat of the country. It is extremely vigorous, stiff straw, not too heavy, stands up remarkably fine; in fact, during heavy windstorms this summer it proved big enough for the job. If you want something fine and reliable, sure to make you money, send your orders at once, as our supply is limited, owing to the advance orders already booked. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

737 White Kherson

One of the earliest oats in cultivation. It was introduced by the Experiment Station of Iowa, and has proved a success in that state, being naturally adapted to sections that are subject to drought. It is a vigorous but not rank grower, producing shorter straw than other varieties, with branching heads and very broad leaves. The berries are white in color, small, but numerous, and have a very thin hull. This oats usually weighs well per bushel, and in this respect, as well as in productiveness, it is one of the best of the early varieties.

early varieties.

Kherson surpassed them all for an early "Sure Cropper." This is the Boss Oat for seeding with Alfalfa or Sweet Clover. Our seed is pure and extra recleaned. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

Feterita

Special Poultry Foods Your Own

SUNFLOWER

750 Mammoth Russian

A small patch of cultivated sunflowers will produce a great quantity of the very best poultry feed for winter. Drill in rows, cut with a corn harvester, dry thoroughly and let the fowls do the threshing. If you can't spare land for cultivating, plant them in waste corners. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 55 cts.; 5 lbs., 85 cts., postpnid.

BUCKWHEAT

Very profitable crop for milling purposes, to turn under for fertilizer, to smother out weeds; for poultry food, and to produce second crop following rye and wheat. When ground makes excellent hog food. There are two distinct varieties, Giant Japanese and Silver Hulled. Japanese is the earliest variety in cultivation; therefore especially suited to Northern States or for second crop planting where season is short. Silver Hulled is later and a trifle more productive, having less waste in milling on account of seed having small hull; both make excellent pancake flour.

689 Giant Japanese

½ lb., 12 ets.; lb., 20 ets.; 3 lbs., 55 ets., postpaid.

690 Improved Silver Hull

½ lb., 12 ets.; lb., 20 ets., 3 lbs., 55 ets., postpaid.

The great advantage Feterita has over Kaffir corn and all other lants of that class is its extreme earliness and great drought resting qualities. Feterita is from 20 to 30 days earlier than Kaffir prn, makes excellent fodder and produces a large grain crop; in some istances it made an excellent yield of grain in the semi-arid regions ithout having received any rain from the time it was planted until was harvested. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 55 cts., postpaid.

728 MILO-MAIZE Forage Plant of Great Merit

Belongs to the Non-Saccharine Sorghums. It is pronounced the best and surest grain crop for dry countries and seasons, even better than affir corn. It grows several smaller heads on side shoots, often as any as eight heads on a stalk. Very valuable for feeding stock and oves a gold mine for chicken feed. Plant five to ten pounds per acre, b., 12 cts.; lb., 20 cts., 3 lbs., 55 cts., postpaid.

29 KAFFIR CORN One of the Best Forage Plants

Makes splendid feed for poultry, fed either in the grain or ground id cooked. Foliage and stalk make excellent forage. Cultivate the me as common corn, requiring four or five pounds of seed per acre. 1b., 12 cts., 1b., 20 cts.; 3 lbs., 55 cts., postpaid.

ROOM CORN 686 Dwarf Evergreen Extra Early

Especially Suited for Making Whisk Brooms
The earliest, best and most productive variety. Produces brush that
of the highest possible quality and always brings the top price.
arly Dwarf Evergreen Broom Corn will produce a crop on any good
rn soil. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 55 cts., postpaid.

687 IMPROVED SUPERIOR EVERGREEN, TALL

A variety for general cultivation on account of color and quality of ush. Ripens early. Grows about 8 to 10 feet high. Brush good ngth, 20 to 25 inches long; fine and straight. ½ lb., 12 cts., lb., 20 s.; 3 lbs., 55 cts., postpaid.

750 Mammoth Russian Sunflower

729 Kaffir Corn

728 Milo Maize

Condon's Pure Bred Early Seed Corn

Condon's Golden Glow

Sig Yielding Varieties—Seed Corn

All Picked Before Frost—Dried Inside

"Germination Guaranteed"

715 Reid's Yellow Dent

Leading standard yellow variety originated by Mr. James L. Reid Illinois many years ago, who fixed a type that experts have failed change for the better. In our opinion the most popular sort of flow corn grown in the United States. We offer pure type of is leading standard variety, which is among the best all ound purpose Yellow Dent Corn grown. Description—blor deep yellow, with lighter cap. Grain very deep, closely teked; butt and tips almost entirely covered over. ightly rough, with grains dented on top. Leaves and alks of Reid's Yellow Dent make the finest ensilage add fodder. Matures in 110 days. Adapted—Reid's ellow Dent is adapted to central and southern portons of Iowa, Indiana and Illinois, Eastern Kansas

708 Iowa Gold Mine

d Oklahoma, Southeastern Nebraska, Missouri, exas, Arkansas, Louisiana, Mississippi, Georgia, labama, Tennessee, Kentucky and Virginia.

Not a large corn, but the best thing we low of for medium early. We offer the pure rain Gold Mine, and recommend it. Deription—With the expert corn farmer old Mine is known as medium early, becreen the 110 day and the extra early rts that mature in eighty-five days. is, however, a great producer and re cropper. Ears are medium, mmetrical. Color bright golden yellow, le grain is deep and the cob is small. For s reason it dries out quickly, product, sixty-two to sixty-three pounds of res. Stalks make excellent silage fodder. Adapted—Iowa Gold me will grow in nearly every te in the Union, and is espelly recommended for the estern corn belt. All roughout the Eastern tates, where the climate es not demand an exercise of the estern to the estern that is a carly variety, it is ry popular. Has an tried all over e South with thing but the stresults.

Iowa Silver Mine

Standard large yielding, drouth resisting white variety with same characteristics as Iowa Gold Mine. Adapted anywhere south of Rockford.

700 Boone County White—Thoroughbred White

Boone County is a very large white corn, something like Silver Mine, but larger and later in maturing. It is a native standard variety in Illinois. Boone County is peculiarly suited to all the Southern States, as it ripens earlier than the native corn and will not be forced ahead too rapidly, owing to its slow growing tendencies. Description—Ears well filled out at both ends, cylindrical, 9 to 11 inches long, averaging twenty rows, some eighteen and twenty-two. Grain very deep, a little rough. Cobs white, of medium size. Boone County is a show corn, and has carried off many premiums offered at corn contests-state and county fairs. Matures in 110 to 120 days.

707 Improved Leaming

One of the most desirable standard varieties of yellow corn is our Improved Leaming, of which we are large growers. Description—
The stalks of Leaming are of good height, very leafy, broad blades, making splendid Silage or Fodder corn. Ears are well filled out, averaging about ten inches in length, color, beautiful golden yellow. Adapted—Being a medium early sort, Leaming will mature farther north than Reid's. It is recommended for all parts of the corn belt, with exception of the extreme north. Special prices on all the above "Pure Bred" Seed Corn, ½ 1b., 12c; 1b., 20c; 3 lbs., 50c, Postpaid.

715 Reid's Yellow Dent

701 Condon's Golden Harvest

A splendid corn to sell in market on the ear. Will produce a satisfactory crop with less favorable conditions than those required by Reid's Dent. In numerous tests on both good and poor soil we have found that it responds to good soil and cultivation with an immense yield; it will also produce more corn with ordinary treatment than any other large-eared variety. The plant is ideal, the stalk being about eight feet high with abundant broad leaves, and it is so well rooted that it withstands wind storms extra well. It is comparatively free from barren stalks. Ears are borne uniformly at about four feet from the ground, high enough to get at the sun and air, low enough to be protected from wind storms and just right for husking. The shank is long, allowing the ear to droop when maturing, thus shedding the rain instead of holding it in the husk, and, being small, it is very easy to break in husking, yet we seldom find an ear whipped off by the wind. The ears are large, 10 to 12 inches long, nearly cylindrical, holding their size well to the end, are well rounded or capped over at both ends and have that well groomed appearance of thoroughbred corn. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

721 Condon's Red Hackberry

The Greatest Feeding Corn ever known. Extremely early, maturing in 100 to 110 days. Wonderful yielder, producing 83 bushels average last year. The color is a rich dark red with occasional light caps; grains very deep and hackled; ears 10 to 12 inches long, very small cob—therefore extremely early. Safe to plant as far north as Central Wisconsin or Southern Dakota. Don't fail to try at least a bushel of this wonderful corn. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

Extra Early Snapping Flint Corn

Ready to Snap for Hogs in 75 to 80 Days

Every farmer should have at least four or five acres for early fall feed. Always hard and ready to feed when you need it badly. Robt. Johnson says: "Condon, I couldn't afford to farm without some flint corn. It's insurance against my main corn crop. Sometimes I snap and feed it and other times I just turn in my hogs and let them wait on themselves, and, believe me, they clean it up fine."

710 IMPROVED YELLOW YANKEE. Particularly adapted to the Northern Middle States. One of the earliest and best known yellow flint varieties. The ears are well filled to the tips with good, rich, golden-yellow kernels. The stalks grow five feet high and often produce two and three ears each. Will produce a good crop if planted as late as July.

712 LONGFELLOW FLINT. A beautiful cob of rich, glossy yellow, and very long—ten to fifteen inches. The stalks grow to the height of 7 to 7% feet, and the ears are borne about three feet from the ground. This is a favorite with chicken raisers in the middle com belt.

716 SANFORD'S WHITE FLINT. This is one of the standard varieties of fint corn and very popular. The ears are of unusual length, twelve to fifteen inches, smooth and symmetrical shape, of a flinty white color. Stalks grow very tall, usually have two to three-ears, and it is a splendid va-

All the above Flint Corn at the following uniform prices: ½ lb., 12 ets.; lb., 20 ets.; 3 lbs., 50 ets., postpaid.

See Wholesale Price LIST ENCLOSED for Special Low Prices on SEED CORN and All Farm Seed

703 The Greatest Ensilage Corn Ever Grown
40 Tons Per Acre Common Yield—70 Tons Have Actually Been Produced

A fine strain of ensilage corn, selected by ourselves, which has proved to be one of the lost valuable and largest yielding ensilage corns in cultivation. It grows very tall, attaining a height of 16 to 20 feet; is prolific in its nature, having from two to six ears to the alk, makes a heavy thick growth of fodder, and is altogether, in our opinion and in the pinion of those who have tested it, the best and most productive of ensilage corns. Lb., octs.; 3 lbs., 50 cts., postpaid.

ee special Wholesale Farm Seed list enclosed for special low prices on the above and all other Farm Seed.

Belvidere, Ill.

I just could not help writing you about our Silo King Corn. When I took the Corn out to the Farm my man said he would not plant it. He wanted home grown seed same as he had always used. I talked him into planting it, and when we filled our silo last week I wish you could have seen my man. He now takes all the credit. The neighbors who helped will all want some of this seed. We filled a 40 ft. silo with a little over half the acres that we used last year. We will have to have Silo King Corn next spring.

706 Giant Red Cob Fodder Corn. An Old Time Favorite

A tall growing southern variety which is very popular all over the country. In Canada it seems to the preference over any other sort, perhaps because it has been very widely grown and will protee a large tonnage in a short space of time. It grows very tall and very leafy. The seed is white a grows on red cobs, thus giving it the name. Lb., 15 cts.; 3 lbs., 40 cts., postpaid. See special Wholesale Farm Seed list enclosed for special low prices on the above and all other Farm Seed.

2048 Aster—Condon's New Peerless Yellow

New Peerless Yellow

It has been difficult to get good yellow Aster. We have been working constantly for several years and have at last develope one that is quite good. It can be described as of American Branching habit, height about two feet flowers of good size and form petals slightly incurved, but nearlie forms of the yellow Aster.

The color is a deep yellow whe first opened, and fades slightly a it ages. Packet, 20 cts.; 6 for \$1.00

Condon's Sure Bloom Flower Seed

Surely there is nothing more beautiful in this world than flowers! A garden of flowers around the house makes it a real home. Nothing can take the place of a flower-garden. For the sake of little children, and for all that is good in the world, surround your home with the refining and uplifting influence of flowers. The most beautiful flowers imaginable may be grown successfully from our "Sure Crop" Seed if cultural directions which are printed on all packages are carefully followed. Flower Seed come in several classifications and should be planted as follows:

Hardy Annuals. Seed may be sown in the open ground in early spring. The plants will flower and die in the one season.

Tender, or Half Hardy Annuals. Seeds should be sown in boxes in the house or in hot-beds during March or April and the plants set out in the open ground in May. They will flower for the one season and die.

Hardy Biennials. Sow seed as you would the hardy annual. The plants will not bloom until the following year, after which they die.

Tender, or Half Hardy Biennials. Seed should be sown as you would the half hardy annuals. The plants require protection during the winter. They will bloom and die the following season.

Hardy Perennials. Seeds may be sown in earl spring, or during July and August to produce plant that will flower the next season, and continue t bloom each succeeding year. Seed of some hard perennials if sown very early will produce plant that will bloom the same season. It is unneces sary to give protection to these plants during th winter, but it will prove beneficial to the plant if a covering of leaves, litter or strawy manure i provided.

Half Hardy Perennials. Sow seed as you would the half hardy annuals. If plants are set out in the open ground they must be lifted before frost, potter up and taken in the house during the winter.

See page 192 for complete index on everything in this big catalog.

Evansville, Ind., Nov. 27.

Gentlemen: Last year I purchased Flower Seeds from a number of firms, yours included. After planting them all I found that your Seeds made not only the largest and strongest plants, but bloomed the loveliest and longest of all the others. And for that reason, this year, I am going to make my order up in its entirety from your catalog. Very truly yours, Mrs. Paul O. Tweedy.

lew and Rare Annual Flowers for Your Garden

Everybody Should Try These Gorgeous New Free Blooming Flowers

2029 The Sunshine Aster

Choicest Mixed Colors Improved Anemone-Flowered

One of the most attractive novelties. The plants e sturdy and strong, throwing up long flower ilks, making wonderful cut flowers. Some of the wers have twisted petals and some have quilled tals; all have a cushion center of tiny quills of a ntrasting color which makes a flower look as if it ere covered with snowflakes. The blue flowers e dotted with a paler blue and some in white, d the rose in a lighter shade of pink or white. feir delicate beauty is hard to describe. Pkt., cts.; 6 for \$1.00.

Double Pompon or **Button Zinnias**

See painting on back cover of catalog. An elegant small-flowering type growing 12 thes tall, with attractive, round, fully double, atton-like blooms about 1 inch in diameter. Makes excellent display; also good for cutting. 2566 Scarlet Gem. Packet, 15 cts.; 2 Packets,

2567 All Colors Mixed. This mixture will give showy bed or border. Even though the flowers e only an inch in diameter, the plants are most tractive, as they are covered with blooms. Pkt., oc; 2 Pkts., 25c; ½ oz., 45 cts.; ¼ oz., 75 cts.

5 cts.; $\frac{1}{8}$ ounce, 45 cts.; $\frac{1}{4}$ ounce, 75 cts.

440 Eschscholtzia. New Double Orange

2029 The New Sunshine Aster

2542 Wallflower Early Wonder Double Mixed

Early Forcing Annual Double. This was developed by crossing the perennial double with the early annual and should thrive and bloom pro-fusely in warm and dry countries where only the early annual singles are successfully cultivated. A fine pot-plant and if sown early will bloom first year from seed. Pkt., 25 cts.; 5 for \$1.00.

This is a double Eschscholtzia of giant size. The outside of the petals are brilliant orange crimson and the inside is a coppery orange. There is a decided doubling and frilling of petals which en-hances the beauty of this remarkable new creation. The plants are vigorous, growing to a height of 11/2 to 2 feet. Packet, 15 cts.; 2 for 25 cts.

2441 Eschscholtzia—New Double Pink Enchantress

This is a most outstanding new novelty. Has the same habit of growth and character as the Double Orange. Only difference is in the flowers, which are a gorgeous light pink. Pkt., 15 cts.; 2 for 25 cts.

2542 Wallflower, Early Wonder, Double Mixed

Three years ago on a European trip it was my pleasure to see Swiss Giant Pansies in full bloom it their native country and I arranged with the producer for limited quantity of seed last year and fo larger quantity this season. In our trials the past summer, both on the farm and at home, Swiss Giant excelled anything that we have ever seen either in size of bloom, length of stem, varied markings and distinctive colors as well as continually blooming from early spring until latter part of November. Fo early blooms, sow seed in hot bed or in a shallow box in the house in March. Transplant to the open ground in April and you will have abundance of gorgeous blooms all summer long. Seed may be sown out of doors in April and will bloom in July, but larger flowers develop from the second setting o blooms. Large size packet, 30 cts.; ½6 oz., \$1.25; ½8 oz., \$2.00; ½ oz., \$3.50; ½ oz., \$6.50; 1 oz., \$12.00.

2323 Larkspur — La France Bright Salmon Pink—Stock Flowered

The most striking color of all and the most outstanding novelty of the year. La France is more vigorous and taller growing than any of the other light shades and is more resistant to mildew. Color, pleasing salmon pink, large and well formed double flowers on long stems making it the very best for florist use or cut flower purposes. Pkt., 25 cts.; 5 for \$1.00.

²⁰⁹⁰ Calendula — Mammoth Orange

The New Sensation—Extra Long Stems Flowers larger and more beautiful than any othe Calendula on the market

The blooms are flat and much larger than thes of any type previously introduced. By compariso we believe this type is so vastly superior to othe varieties on the market that this will lead for man years as the best strain for forcing as well as out door planting for cut flowers. Pkt., 15 cts.; ½ oz 55 cts.; oz., \$1.00.

New and Rare Annual Flowers for Your Garden Try These New Gorgeous Free Blooming Annuals This Year

²⁰²³ Antirrhinum-Snapdragon

ieneva Pink The most beautiful Giant Flowered variety of this most popular lower. Clear shell pink flowers borne on long gracell stems. Snapdragons are now immensely popular of the greenhouse culture to produce beautiful sprays or floral work and likewise for an outdoor beding flower. For solid massing in beds Geneva Pink ill furnish a gorgeous mass of clear pink blooms om early July to October. Seed may be started infors and transplanted outside when weather is suitble or seed may be sown out of doors first week in ay. Be sure to include this in your garden plantings this spring. Our Seed is of the True Originators rain. Large Pkt., 25e; 3 for 70c.

²⁰²² Antirrhinum-White Rock

Very similar in habit of growth and character of oom to Geneva Pink except plants are half dwarf. lowers are pure white and especially suited for rcing. This great novelty was recently introduced y a Kansas Florist. Large Pkt., 25c; 3 for 70c.

²⁴⁶⁰Salvia-New Scarlet Bedder

A Beautiful New Dwarf Bedding Variety

This new variety of Salvia is a very compact and ten habit and produces large erect brilliant scarlet likes. When sown at the end of February the plants mmence to blossom at the end of June until frost. xcellent for bedding. 15 to 18 inches high. Pkt., 15e;

²⁴⁶³Salvia-Light Blue Farinacea

A perennial variety, but best grown as an annual. ed sown in the open ground in May, blooming from the frost. The fine light blue flowers are borne on ng spikes held above the foliage; makes a good blue ne; 2 to 3 feet. Pkt., 10 cts.

2464 Salvia-Dark Blue Patens (Blue Sage)

In color this is as blue as the "Scarlet Sage" is red; unlike the latter, however, it is not useful for bedding, but it is a beautiful plant for the border or greenhouse; tender perennials; 2 feet. Pkt., 15c;

2403

Rosy Morn

The Sensation of the Flower World.
The Most Gorgeous Double
Flowered Bedding Petunia ever introduced. For Bedding—or Window boxesthis new novelty is the most charming of all annuals. Blooms all summer long. Medium-sized

flower semi-double with heavy petals folding back from center of a lovely rose color. It re-sembles a gar-denia in shape. Pkt., 35c; 3 for \$1.00.

Antirrhinum Geneva Pink 2023

Condon's Flower Seed Grow and Bloom We Give Liberal Size Packets

2403 Petunia-New Double Rosy Morn.

1460 Salvia Scarlet Bedder

New and Rare Perennial Specialties

Campanulas or Bellflowers

Well known, beautiful hardy herbaceous perennials, bearing a great profusion of attractive bell-shaped flowers, thriving best in light, rich soil; some of the varieties flower the first season if sown early.

2095 Persicifolia Grandiflora Blue (Peach Bells). Undoubtedly one of the finest of the hardy Bellflowers; grows 2 to 3 feet high, with large blue flowers. Pkt., 15 cts.; 2 for 25 cts.

Lilium Regale

2326 The Regal Lily It is absolutely hardy, and is excellent for forcing. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the jasmine, and lacking the heavy, oppressive odor of most lilies. Blooms out-of-doors early in July, and seedling bulbs will flower the second year. Lift the bulblets in fall and replant to greater depth in their permanent location. Packet, (250 seeds), 25 cts. For bulbs see bulb pages.

Pyrethrum-Large Flowering Hybrids

Single Mixed

Hardy perennial, bearing large daisy-like flowers, ranging in color from white to deep red, with bright yellow centres; blooms in May and June, and again in the fall; and is one of the most graceful and long-lasting cut flowers; 2 feet.

Pkt., 10 cts.

2258 Gaillardia-Dazzler

2258 Gaillardia-Grandiflora-

A new strain of Gaillardia of strong growth, well branched, and free blooming. The longstemmed, well-shaped flowers are golden yellow, marked with rich searlet. Flowers up to 5 inches across. Excellent for cut flowers. Pkt., 25 cts.; 5 for \$1.00.

2488 Lathyrus-Latifolius

(Hardy Everlasting Pea)

One of the best and most desirable flowering hardy climbing plants, attractive both in flowers, and foliage, growing to a height of 8 to 10 feet, and producing clusters of large flowers the entire summer; fine cutting; lasting well. Choicest mixed colors. Pkt., 10 cts.; ¼ oz., 25 cts.; oz., 75 cts.

Caucasica. House's New 2466 Scabiosa Giant Strain. A new strain of this handsome border plant, flowers very large and of beautiful form ranging in color from light azure-blue and lavender to deep blue and silvery white. Pkt., 25 cts.; 5 for \$1.00.

House's New Giant Strain Scabiosa Caucasica.

New and Rare Perennial Specialties

208 Delphiniums

Condon's De Luxe Select New Double Hybrids, Mixed. The st gorgeous superior New Double strain in amazing shades Light and Dark Blue, Rose, Mauve, etc. This new strain s the admiration of all who visited our trials the past sumr. Actually 90% extra double flowers of large size and nderful array of colors. Pkt., 35 cts.; 3 for 90 cts.

2209 Wrexham Strain Hollyhock Delphinium

A new race with spire-like spikes. The chief distinguishing tures of the "Hollyhock" Delphiniums are: the extraordiy length and the tapering and spire-like shape of the spikes; indescribably rich and varied tints; the very remarkable

extension of the flowering period — many varieties bloom well into August, their resemblance to Hollyhocks. The seed we offer was grown from the introducers stock seed and is as true to type as is obtainable. Pkt., 35 cts.; 3 for 90 cts.

2427 Poppy

Sunbeams. One of the most beautiful and satisfactory perennials ever introduced. The plant is of neat habit, forming a tuft

Delphiniums 2208 Condon's De Luxe Double Mixed

of bright green, fern-like foliage from which spring throughout the entire season a profusion of slender, leafless stems, 1 foot high, each graced with charming cup-shaped flowers. The flowers are charming shades of orange, salmon, maize, scarlet, and other tints. Pkt., 25 cts.; 5 for \$1.00.

2169 Double-flowering Coreopsis

Coreopsis Lanceolata Grandiflora Fl. Pl. Coreopsis Lanceolata has for a long time been gem in the perennial border and one never ws tired of the masses of golden yellow oms which it produces, which are decorative the garden and invaluable as cut flowers. This v double and semi-double form is just as easy grow and the extra petalage adds a further rm to the flower. Pkt., 15 cts.; ¼ oz., 50 cts.

(Swan River Daisy) Annual

Very attractive, growing about a foot tall. The plants form compact little bushes branching close to the ground and bearing small Cineraria or Daisy like flowers on the end of each branch. The color of the flowers is bright

end of each branch. The color of the nowers is bright blue.

The plants thrive in a fairly rich, porous soil, where they get plenty of sunshine. They are well suited for dwarf borders and for filling in open spaces in the perennial or annual flower bed. Sow the seed thinly and barely cover from view when the maples are in leaf, or start indoors the middle of March and transplant to the garden the latter part of May. Makes a lovely low border to taller growing annuals. Pkt., 5 cts.; ¼ oz., 45 cts.; ½ oz., 70 cts.

2073 Brachycome

51 Balloon Vine

"Love in a Puff" Annual Climber

A rapid-growing annual mber; succeeds best in the soil and warm situant; flowers white; seed vess look like miniature balans and of great interest children. Pkt., 10 cts.; oz., 20 cts.; oz., 35 cts.

2051 Balloon Vine

2070 Bird of Paradise

House Culture

The blossoms are of a rich golden yellow, about 2¼ inches in diameter, produced in large trusses, the most striking feature being the long, incurving stamens and pistils of a beautiful bright crimson color. Seed should be soaked in warm water and started indoors or under glass in a light sandy soil. Plants should be carefully hardened by gradual exposure to fresh air before going into the open ground. If the seed is started early it will produce blooms in great profusion the first year. Pkt., 12 cts.

Condon's Flower Seeds Grow and Bloom

2076 Burning Bush or Kochia [Annual]

also known as Summer Cypress

Makes a beautiful specimen plant, or grown in hedge form is equally attractive. Grows about 3 feet high, forming a perfect pyramidal shaped cypress bush, with fine feathery, light green foliage. Pkt., 5 cts.; ¼ oz., 20 cts.; ½ oz., 30 cts.; oz., 50 cts.

2080 BUTTERFLY FLOWER Schizanthus (Poor Man's Orchid)

This is one of the daintiest of annuals. The seed germinates readily and in a few weeks the plant is a mass of small but bright flowers in a bewildering range of colors, all blotched and marked in contrasting shades. The foliage is delicate and fern like. It may be sown in spring for garden decoration or may be seeded in fall in pots in the conservatory or house for spring blooming. Hybrids, Finest Mixed. Pkt., 10 cts.; ½ oz., 25 cts.; ½ oz., 40 cts.; oz., 70 cts.

2089 Calendula Collection

One packet each of the three named varieties of Calendula. Each one a beauty in itself, for only 25c. postpaid.

2082 CALCEOLARIA (Pouch Flower) (House Culture)

A most interesting and beautiful pot-plant for the green house. It is a native of Peru, which, with proper care, wi grow into fine large bushes with many showy pocket-like flowers of various colors. Some of the flowers are beautiful spotted and tigered, others are self-colored in yellow or rethey are greatly admired. Sow the very small seeds careful in a box containing a rather sandy leafmold mixture. Moiste the soil before sowing and cover with a pane of glass prevent too rapid evaporation. Transplant and keep growing in a moist air registering 42 to 48 degrees Fahrenheit. Hybrid Grandiflora, Finest Mixed. Pkt., 15 cts.

CALENDULA—Scotch Marigole
These are easily grown annuals, retaining their fresh appearant even during the hottest weather. Contrary to most other plant Calendula can be transplanted up to the time the flowers begin to ope they grow well and bloom freely even if planted between stones trash heaps, whether located in the sun or in the shade. If the sist is sown at intervals of 4 to 6 weeks, flowers may be had all the yearound provided of course that for winter blooming the plants a taken up in the fall, planted in pots, and placed in the house no as unny window. sunny window.

Perhaps the best known of all Calendulas. It is magnificent flower, growing to enormous size, and outstanding because of its rich orange-yellow col The flowers are well rounded and fully double to tenter. They are made up of enormous broad stantial petals. Our improved strain of Orange K is particularly free flowering. The long-stemmed bloo are very fine for cutting, lasting a long time in wat Pkt., 10 cts.; ½ oz., 30 cts.; oz., 50 cts.

2086 Meteor

An excellent variety with large flowers. The individual petals are arranged shinglelike, curving inward in center. Grown under average conditions the flow never show an open center except after they have pastheir prime. The bushes make a fine compact grow about 15 to 18 inches tall.

The rich green follage forms a fine background the gaily colored flowers.

Each individual flower petal has broad, showy striff of brilliant orange set against a creamy white ground this combination of color is most charming and usual. Meteor is very free-blooming and lasts a lettime in water. Pkt., 10 cts.; ½ 0z., 25 cts.; 6 45 cts. 45 cts.

2087 Lemon Queen

A lovely companion to Orange King, with flow of equally large size. The color is an intense r lemon-yellow of great brilliancy. Blooms very fre and is by far the best lemon Calendula in existen Pkt., 10 cts.; ½ oz., 30 cts.; oz., 50 cts.

A complete mixture of all the varieties of Calendu we offer. They will make a fine display in any gard whether planted as a border, bed, or with other annu Easily grown, free blooming. Pkt., 10 cts.; ½ oz., 20 ct oz., 30 cts.

Calliopsis (Annual)

The calliopsis is very hardy, and will thrive nywhere. It makes a quick growth, and prouces beautiful foliage. It is one of our brightst and best summer bloomers. Gold and aroon of the most brilliant hues are the preailing colors. Excellent for cutting and

2092 Crimson King

A most free-flowering and showy variety, ith bright crimson blooms of large size. Pkt., 0 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.; oz., 60 cts.

2093 Golden King

Bright yellow flowers with a dark brown enter. Blooms 10 to 12 weeks after sowing nd continuously during summer and fall. kt., 10 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.; oz., cts.

2094 Finest Single Mixed

All the best types are found in this mixture, intaining the most desirable sorts and colors, ne of the most useful of our garden flowers. kt., 10 ets.; ½ oz., 25 ets.; oz., 40 ets.

Candytuft (Annual)

These belong among the most useful of hardy annuals. The plants bear neat clusters of flowers in great profusion. A most attractive border and cut-flower, blooming profusely in cool weather. Sow as early in the spring as the ground can be prepared. Candytuft develops to perfection in locations where the summers do not get too hot. They thrive in a sandy loam soil, exposed to full sunlight, and where good drainage prevents excessive moisture in the soil. They will grow vigorously and bloom continuously; 12 inches tall.

²¹⁰³ Empress or Giant White Hyacinth Flowered

An improved strain, producing immense trusses of pure white bloom, each plant having five or six pyramidal spikes. Fine for bedding and cutting. Also very pretty in borders. Pkt., 8 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.; oz., 70 cts.

2104 Condon's Giant Flowering Finest Mixture

All shades and colors, known in Candytufts will be found in this mixture. All large flowering. Pkt., 8 cts.; ½ oz., 20 cts.; oz., 35 cts.

2105 Perennial Candytuft (Iberis sempervirens)

This is a favorite perennial, bearing handsome trusses of pure white flowers. The plants are of dwarf growth, not more than 12 inches tall, and are wonderfully adapted for edging or rockwork. The plants bloom freely and make a solid bed of white flowers during late April, May, and June. Pkt., 10 cts.; ½ oz., 50 cts.; ½ oz., \$1.20.

Condon' "Seeds are Better Seeds.''
That's why
Gardeners and Florists prefer

Campanula (Canterbury Bells)

(Bellflowers) Biennial

Large, bell-shaped flowers are borne in the greatest ofusion. Easily grown in ordinary gardens. Seed sown rly in-doors will produce plants that usually bloom e first Summer. As this type is biennial, seed should sown each year to have flowering plants each season.

2097 Finest Single Mixed

This is unquestionably the finest type of this old fashned and much prized garden plant. Many ranges of ades and colors. Large saucer like single flowers. ct., S ets.; ½ oz., 20 ets.

2098 Finest Double Mixed

This old fashioned garden plant is much desired on acunt of its large Double Flowers. Better known as cup a saucer flower. Pkt., 10 cts.; 1/8 oz., 30 cts. 2103 Candytust Empress or Giant White Hyacinth

2108 Canna (Indian Shot Plant) Annual

Crozy's Large Flowering Choicest Mixed

Very showy plants, having large tropical foliage surmounted by handsome spikes of blooms in many glowing colors. Fine plants can be easily raised from seed started in pots indoors during March and set in the open during May. Our mixture contains only the best and finest colors. Pkt., 10 cts.; ½ oz., 25 cts.; oz., 40 cts. Canna roots are listed on page 92.

2146 Chinese Lantern Plant

(Physalis Franchetti)-Perennial

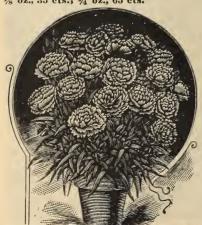

A hardy perennial grown for its showy scarlet-red seed-pods which are easily dried for winter bouquets. The flowers are white, followed by the showy lanterns. Easily grown in any soil. Pkt., 10 ets.; 1/2 oz., 35 ets.; 1/4 oz., 55 ets.; 1/2 oz., 95 ets.

2111 Cardinal Climber Annual Climber

(Ipomoea cardinalis)

A splendid, new, brilliant climber of great value. A strong and rapid grower, attaining a height of 20 to 30 feet with beautiful deeply laciniated leaves and just covered with intense cardinal red flowers from midsummer till frost. Flowers measure 1½ to 2 inches across and are borne in clusters of 5 to 7 blooms each. The leaves resemble those of a fine Japanese Maple. They cover the vines completely and give good shade, admitting, however, plenty of air when planted on the porch.

The brilliant scarlet flowers are borne profusely. Pkt., 10 cts.; ½ oz., 35 cts.; ½ oz., 65 cts.

2114 Carnation Marguerite

Perennial 2117 Centrosema Climber

Grandiflora Butterfly Pea Sometimes Called "Look at Me"

A hardy vine of rare and exquisite beauty which blooms early in June from seeds sown in April, and bears in the greatest profusion inverted, pea-shaped flowers, and ranging ir color from rosy violet to reddish purple, with a broad feathered white marking through the center, while the large buds and the back of the flowers are pure white. The stem and foliage are very graceful and of a delightful odor. Pkt., 15c; 1/4, 0z., 50c.

2108 Canna—Crozy's Large Flowering
Mixed

2111 The Cardinal Climber

2114 Carnation

(Giant Flowering Marguerite) Flower in 3 or 4 Months from Seed

These lovely, fragrant Carnations produce fine double flowers which often measure three inches across. The variety of color includes white, blush, deep pink, salmon, carmine, scarlet, dark crimson, maroon and many beautifully variegated flowers. Most of them have beautifully fringed petals and are delightfully fragrant. Superb Mixed. Pkt., 10c; 1/8 oz., 40c; ¼ oz., 65c.

2100 Canary Bird Flower

2122 Celosia Plumosa (Annual) (Feathered Cockscomb)

The plants are of broad rounded form, from 2 to 3 feet tall. Each branch or stalk ends in a large pointed head of richly colored bloom which later broadens to a loose, plumy head of the most brilliant color. To secure the finest and largest heads sow the seed thinly outdoors the end of April, where the plants are to bloom. When they are 2 inches rall, thin to stand 18 inches apart. We offer a most magnificent strain of the most Gorgeous varieties in finest mixtures. (See cut.) Pkt., 7 cts.; ½ oz., 20 cts.; ¼ oz., 35 cts.

2121 Cockscomb Cristata

A class of very showy plants of unusual appearance. The flowers form a tremendous head or comb, which has a velvety touch. Grows 15 to 18 inches tall and is in good demand as a cut-flower. We offer a very splendid mixture on all the "Choicest Tall Varieties," Pkt., 8 cts.; 1/6 cz. 40 cts.; 1/4 oz., 70 cts.

SPECIAL

2123 One large pkt, each of the 3 beautiful varieties of Celosia offered on this page including Woolflower. Only 20 cts. postpaid.

2148 Cineraria (House Culture) Large Flowering Choicest Mixed

Cinerarias are truly beautiful, with their bright colors and delicate fragrance. If plants are wanted for blooming around Christmas time, the seed should be sown during April. For blooming during early spring, June or July sowing should be made. Sow the seed in shallow pans or boxes containing a fine, fairly sandy soil. Sow the small seeds thinly and barely cover with very fine soil which should be carefully run through a small meshed sieve. Keep shaded and moist until the seedlings appear. Transplant as soon as they are large enough to be handled.

HYBRIDA GRANDIFLORA. See illustration. This large-flowered strain of Cineraria is unsurpassed in size of flowers. Fontains a wide range of beautiful colors, some with a large white eye. Pkt., 15 cts.

2100 Canary Bird Flower

Annual Climber

Beautiful climber, the charming little canary-colored blossom bearing a fancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambling character, and if seeds are planted by the side of arbor or trellis will run about twenty feet, and will blossom from July until frost. Fkt., 10 cts.; 2c., 25 cts.

2120 Chinese Woolflower Celosia

Deep Crimson Scarlet

Plants grow two to three feet high, the blooms starting early, with a central globular head which often reaches the immense size of two feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage so that a plant looks like an immense bouquet splendidly arranged and set in the ground. Nore of the blooms fade in any way until hit by frost, but all continue to expand and glow with a deepening richness of color, a deep crimson-scarlet. Flowers, when cut in a fresh state and carefully dried retain their shape and brilliant color and are useful for winter decorating, like everlastings. Pkt., 10 ets.; 1/2 oz., 50 ets.; 1/4 oz., 90 ets.

2151 Clarkia Double and Single Mixed Annual

Clarkia is one of our easiest grown annuals, developing to perfection in a cool climate. The plants grow quickly and are in full bloom from 5 to 6 weeks after planting. The plants make a branching growth and bloom very freely. The flowers are borne on long stems and are very fine for cutting. Clarkias, on account of their bright colors, are excellent for mass planting. The mixture contains rosy purple, rose, salmon, white, and many other delicate shades in a complete and harmonious assortment. Sow the seed thinly and barely cover from view early in the spring. When the plants are about an inch tall thin to stand 4 to 5 inches apart. Pkt., 10 cts.; ½ oz., 30 cts.; ½ oz., 50 cts.

2157 Cobaea Scandens [Cathedral Bells] Annual Climber

Of very rapid growth, 10 to 20 feet tall. In our northern climate the seed should be started indoors and the plants set out when the nights have become quite warm. The young flowers are light green, changing to rose-purple as they open up fully. They are quite large, borne on long stems and of bell shape. In warmer sections it will live outdoors for many years. To encourage an even and quick germination press the flat seeds edgewise into the soil so that the upper edge comes even with the soil surface. It is a good climber for covering tall unsightly fences or garden houses where plenty of shade is wanted. Equally as fine for providing shade for the porch. Pkt., 10 cts.: ¼ oz., 25 cts.; ½ oz., 40 cts.; oz., 60 cts.

Forms dense bushes, about 2 feet high, and produces throughout the summer beautiful flowers in shades of orange and yellow to the darkest velvety brown. Recommended for cutting, borders, flowering hedges and pot culture. Pkt., 10 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.; oz., 70 cts.

Double Annual T**hr**usanthem<u>um</u>

2151 Clarkia

2145 Chrysanthemum Annual Coronarium Double Mixed

The Annual Chrysanthemums do best where the weather remains reasonably cool during the summer. They are easily grown. The flowers appear within ten weeks after the seeds are sown, if planted early in the spring as soon as the ground can be prepared. Blooms continuously from June until September. For fall blooming, sow during June and thin to stand 12 to 15 inches apart in the row. A very fine garden variety including a wide range of colors such as white, rose, sulphuryellow, golden yellow, orange, red, and maroon; 18 inches tall. Pkt., 10 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.

Condon's Beautiful Centaurea Imperialis

(Royal Sweet Sultans-Annuals)

This beautiful class is undoubtedly the finest f all Sweet Sultans for cut-flower purposes. the charming, sweet-scented, artistic-shaped The charming, sweet-scented, artistic-snaped flowers are borne on long, strong stems and when cut will stand for several days in good condition. It is best, in this latitude, to sow very early in the spring, so that they may perfect their flowers before very hot weather comes. We offer the following distinct colors:

2133 Giant White New Marguerite.

2134 Giant Deep Lavender.

2135 Giant Brilliant Rose.

2136 Giant Amaranthus-New Red.

2137 Giant Finest Mixed-All Colors.

Any and all the above Centaureas. Pkt., 5 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.; oz., 70 cts.

Dusty Millers or White Leaved Centaureas—House

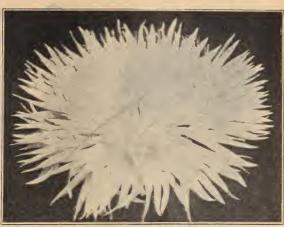

Fine for bedding, vases, hanging baskets and pots; also extensively used for margins. As an edging to a bed of dark-leaved Cannas or Scarlet Sage these are particularly effective. Sow the seed early indoors, and transplant in May.

2141 Candidissima. Silvery white; leaves broadly cut. Pkt., 10 cts.; % oz., 25 cts.; % oz., 40 cts. Gymnocarpa. Fine cut silvery follage; 1½ feet. Pkt., 10 cts.; % oz., 35 cts.; ½ oz., 55 cts.

Bachelor Button

Pink

2133 Centaurea Imperialis—Giant White New Marguerite

Centaurea · Cyanus or Bachelor Button (Annual)

These are also known as Bachelor's Buttons, Blue Bottle, Ragged Sailor, Bluet and sometimes as Hagged Robin. They are well known to every flower lover and always included in old-fashioned gardens. We have discarded the old single-flowering type, the improved double-flowering sorts offered below being much better in every ways.

2126 Double Blue. It is identical in color to the single blue variety, but, being a full, double flower, it takes fewer of them to make a nice bunch.

2129 Double Minata Pink. A splendid variety for cutting; color clear rose-pink.

2127 Double White. Densely double pure white.

2128 Double Minata Brick-red. Very attractive.

2125 Double, Mixed. A complete mixture of the above and other fine double Cornflowers.

Any and all the above Bachelor Buttons. Pkt., 7 cts.; ½ oz., 30 cts.; oz., 50 cts.

2130 SPECIAL OFFER-One pkt. each of the separate Bachelor Buttons. ONLY

Columbine—Aquilegia

Hardy Perennial

No hardy plant grown from seed is more easily handled than the Columbine.

Seed may be sown in the open ground early in spring, and will, in some cases, bloom the same season; or they may be planted in August or September, and will come up early in spring and make vigorous plants, which will bloom abundantly during late spring and early summer.

Columbines should be planted wherever their presence will serve to lighten up a too stiff and formal planting, for no other plant has so airy a grace as the Columbine, is more generous of its blooms, or more effectively adapted for cut flowers.

2167 Condon's Prize Double Mixed.

Pkt., 10 cts.; 1/8 oz., 25 cts.; 1/4 oz., 40 cts.

2168 Condon's Prize Single Mixed.

This list has been selected because of the long stems and keeping quality of the flowers. It is by no means complete, but merely suggestive.

Cleome Pungens Spider Plant

2154 Cleome Pungens **Giant Spider Plant**

Annual

Annual

The plants make a quick growth, 4 to 5 feet tall. They are most attractive and useful for planting in the border, to separate the vegetables from the flower garden, or to hide unsightly walls or fences.

The plants thrive in a warm sunny location and in soil which is moderately rich and sandy. The Spider Plant does well in pots in the house. The habit of the plants is bushlike and well rounded, with a profusion of flowers borne freely from July until frost.

The blooms are most curious in construction, with long, feathery petals standing far apart. The long, narrow, protruding stamens add to the quaintness of the flowers. After the flowers drop off they are succeeded by long seed-pods on slender stems, giving the effect of a many-legged spider with a bunch of flowers at the top. Many colors mixed.

2206 Delphinium Perennial Larkspur Gold Medal Hybrids

Finest Mixture

Easily grown from seed sown any time from early in the spring until the forepart of August. They delight in fairly rich soil, but are rather susceptible to an excess of water. Beautiful long spikes, ranging from almost white through the various shades of blue to rich royal purple. Pkt., 10 cts.; 1/8 oz., 40 cts.; 1/4 oz., 60 cts.

Digitalis (Foxglove)

Hardy Perennial

Showy and especially useful among shrubbery and in half shady places, though it grows equally as well in open sunlight situations. Succeeds under almost all conditions. Flowers in June and July.

2217 Condon's Mammoth White

Large pure white flowers, beautifully marked with yellow. Pkt., 10 cts.; 1/8 oz., 50 cts.

2218 Condon's Mammoth Rose

Long spikes surmounted by enormous f brightest rose. Pkt., 10 cts.; 1/8 oz., 50 cts.

2219 Condon's Mammoth Purple

Very large and bearing many beautiful flower-spikes. Pkt., 10 cts.; 1/8 oz., 50 cts.

2220 Condon's Mammoth Finest Mixed

Beautiful tall spikes of White, Pink, Rose, Yellow, Purple and many other colors. Pkt., 10 cts.; % oz., 45 cts.

DIGITALIS (Foxglove)

Dianthus Pinks Heddewigii

Dianthus Heddewigii (Annual Garden Pinks)

The popular Chinese and Japanese Pinks are also well known under their botanical name Dianthus, but usually just called Old-fashioned Pinks. Few flowers can equal these in beauty and profusion of blooms. They are easily grown and do well in almost any kind of soil and location.

2211 Double Snowball

for beds or borders because of its compact, sturdy growth. The plants are well rounded and bloom profusely for many weeks during late summer and early fall. The flowers are fully double, with beautifully fringed edges and of a pure white color. They grow about 10 inches tall. Pkt., 10 cts.; 1/4 oz., 50 cts.; 1/2 oz., 75 cts.

2210 Double Fireball

An excellent counterpiece to Snowball, listed above, with fully double flowers of a flery and most brilliant scarlet. The plants are of compact growth and even height. They bloom freely and profusely. Pkt., 10 cts.; 1/4 oz., 50 cts.; 1/2 oz., 75 cts.

2212 Double Mixed

An unusually fine mixture of double flowers in great variety; extra choice. An excellent free-flowering strain of Pinks for beds or borders, blooming profusely from midstummer until frost. Fine for cutting. Pkt., 10 cts.; 1/4 02., 40 cts.; 1/2 02., 60 cts.

2213 Plumarius (Perennial or Pheasant-Eye Grass Pink)

Those are very popular because they are easy to grow and bloom freely for many weeks. They are valued for rock gardens. Thick tufts of fine leaves, many small, star-like, rich rose flowers. Delicately scented. Pkt., 10 cts.; 1/8 oz., 30 cts.; 1/4 oz., 45 cts.

2231 Globe Amaranth

Everlasting Flowers

(Annuals)

The Everlasting Flowers have within recent years again become very popular. They were great favorites with our grandparents, who grew them for garden decoration and winter bouquets. They are easily grown and bloom freely and continuously during summer and fall, requiring no special kind of soil or

2233 Xeranthemum

2231 Globe Amaranth

(Gomphrena) Finest Mixed

Grows 2 feet tall and blooms profusely. A mixture of white, pink, lilac, and bronze-yellow shades. The button-shaped flowers measure ½ to ¾ inch in diameter. Pkt., 10 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.

2234 Statice Choice Mixed

Choice Mixed

Statice, also called Sea Pink, is extremely showy, with large clusters of blooms carried on graceful stems. The plants are easily grown from seed and do well in almost any kind of soil. The flowers may be cut and treated like Everlastings, drying them in a cool and shady place, hung up on the stems to keep their natural position. Sow the seed thinly indoors during February or March and transplant, with a ball of earth adhering to the roots, into the open when the maples are in full leaf. Before sowing pick the seed clusters apart to free the thorny hard hulls from the thin long brown seeds. Sow both in case some of the seeds were left in the hulls, and cover with ½ inch fine soil. Pkt., 10 cts.; ½ oz., 60 cts.

The beautiful straw-like flowers come in white and pink shades. Grows 15 to 18 inches tall and blooms freely. Pkt., 10 ets.; ¼ oz., 25 ets.; ½ oz., 40 ets.

Acroelinium

Statice

2236 Condon's Special Öffer Collection one packet each of the Six Everlastings Offered on this page for only 40 cts. **P**ostpaid

2233 Xeranthemum Double Mixed

The plants grow 2 feet tall, producing double flowers measuring 1½ inches in diameter. Easily dried for winter bouquets. Grows readily from seed sown early in the spring. The flowers are very graceful and come in rose, white, and purple. Free-flowering. Pkt., 10 cts.; ¾ oz., 30 cts.; ½ oz., 45 cts.; oz., 70 cts.

2235 Condon's Special **All Sorts Mixed**

Our mixture of Everlastings includes all the five fine varieties described on this page and a number of others which are showy and easily grown. We are sure that this mixture will give a fine show and plenty of cut-flowers for winter bouquets. Pkt., 10 cts.; ½ oz., 25 cts.; ½ oz., 40 cts.; oz., 60 cts.

2232 Rhodanthe Mixed Colors

Dainty flowers carried on graceful slender stems. The blooms come in white, pink, and red shades. Rhodanthe is easily grown and blooms ten weeks after the seed is sown. It does best in a loose sandy soil which contains humus. Pkt., 10 cfs.; 1/4 oz., 30 cfs.; 1/2 oz., 45 cfs.; oz., 70 cfs.

Rhodanthe

Dolichos—Hyacinth Bean (Annual)

The two varieties of Dolichos are by far the most showy and useful for any gardener. They are of re-markably strong and sturdy growth, quickly growing to a height of 8 to 10 feet. The broad leaves afford good shade and make a fine screen to the porch or garden house.

Plant the seed after the weather has become quite warm and when the maples are out in full leaf. The plants produce a wealth of flowers during September and October.

2224 Daylight

A climber of rapid growth that always attracts attention. The vines grow quickly to a height of 8 to 10 feet and bloom profusely from base to summit. The large pure white flower-spikes stand out boldly from the rich green foliage. As the flowers drop they are succeeded by broad white pods which remain fresh for a long time and add to the appearance. Pkt., 7 cts.; oz., 25 cts.

2225 Darkness

The color of the stems and leaves of Darkness is a purplish red. It mixes well with other climbers and produces a good variety. The numerous long spikes of pealike flowers are deep reddish maroon, not unlike Wisteria. The blooms are followed by beautiful metallic purple seed-pods. Sow the seed one inch deep when the maples are in leaf. Pkt., 7 cts.; oz., 25 cts.

2226 Condon's Choicest Mixed

well balanced mixture, containing above colors and many others. Packet, 10 cts.; ounce, 20 cts.

2239 Euphorbia Snow on the Mountain

2249 Four O'Clock

Marvel-of-Peru (Annual) Tall All Colors Mixed

Tall All Colors Mixed
The flowers remain closed until about 4 o'clock
in the afternoon, when they all open together and
the plants become a glowing bank of vivid coloring,
filling the air with their delightful fragrance. Sow
early in the spring. Height of plant about 2 feet,
bearing hundreds of flowers from early summer until frost of crimson, violet, yellow and white; many
varieties have two or more of these colors spotted,
splashed or flaked on the one flower. A good mixture. Pkt., 7 cts.; ½ oz., 15 cts.; oz., 25 cts.

FLOWERS FROM SEED FOR SHADY PLACES

Begonia Digitalis Mimulus Bellis Foxglove Myosotis Campanula Godetia Pansy Columbine Kenilworth Ivy Poppy Coreopsis Lobelia Verbena

2226 Dolichos. Condon's Choicest Mixed

Euphorbia (Annual Poinsettia)

The foliage is exceedingly ornamental; the plants are largely used in beds or borders.

The plants do best in a dry, sandy soil and a warm location. When the plants are about 2 inches tall carefully thin or transplant them to stand 15 inches apart in the row. The color contrast is most apparent where the plants receive the full sun all day long. The variegation of the leaves begins to develop during July and increases in beauty throughout the season until the late fall.

2239 Variegata (Snow on the Mountain)
A showy border plant with foliage veined and margined with white; flowers white. Packet, 10 ets.; 1/4 ounce, 25 ets.

This plant is somewhat similar to the Poinsettia and produces large bracts of brilliant scarlet leaves on the top of each spike. Grows quickly to a height of 2½ to 3 feet from seed sown in the open early in May. Pkt., 15 cts.; ½ oz., 70 cts.; ½ oz.,

NOTICE: See pages 110 to 115 for New Novelties in Flower Seed

Four O'Clock. Blooms All Summer

Feverfew White Gem

2246 Forget-Me-Not

2271 Godetia (Annual) Satin Flower Good Mixed

cts.

Alba Single

Of easy culture, forming compact bushes about a foot tall and flowering profusely all summer long where the weather remains reasonably cool. It is a plant which grows to perfection in cool locations. The plants are well suited for beds or borders. A grand mixture, including some lovely shades. Pkt., 6 cts.; ¼ oz., 30 cts.; ½ oz., 50 cts.

2243 Feverfew (Annual) Matricaria White Gem

Small, fully double flowers greatly resembling a button Chrysanthemum. The foliage is deep green and finely cut, forming a distinct background to the pure white flowers. The plants grow from 12 to 15 inches tall, branching freely close to the ground, with each stem crowned with a cluster of the small, double, pure white flowers. They do best in a sunny location. Pkt., 7 ets.; ¼ oz., 35 ets.

2252 Fuchsia

(Lady'siEar Drop)

Hybrida Choice Single and Double Mixed House Culture

Shrubby plants, adapted to the house in winter and to the shaded open air border in the summer. Of der in the summer. Of easy culture from seed. One of the most beautiful one of the most beautiful and satisfactory of all the window plants. The flowers are delicate and graceful in form and rich in color. The shades include color. The shades include red, white, purple, etc., in various combinations. Seedlings will bloom freely in the year that seed is sown. The best collection of single and double sorts, embracing all the colors to be had in Fuchsias. Pkt. (16 seeds), 25 cts.

Pkt. (15

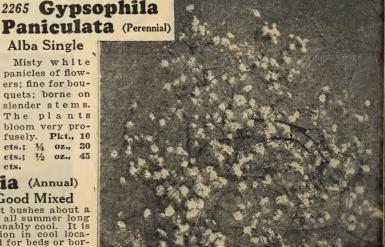

2246 Forget-Me-Not Perennial Myosotis Alpestris Blue

This well-known flower is one of the daintiest and most delicate of all favorites. Quite hardy. It succeeds best in rich, moist soils. Excellent for borders and flowers extremely early. Effective in masses.

Dwarf, free-flowering bushes. Excellent for beds or borders. Light blue flowers standing out sharply from the rich green foliage. They do best in the semi-shade, where it is fairly moist. Pkt., 10 cts.; ½ oz., 40 cts.; ½ oz., 60 cts.; oz., 95 cts.

2264 Gypsophila Baby's Breath (Annual) Elegans Grandiflora Alba White

A quick grower with myriads of small, open, bell-shaped flowers. Does well in any soil and an open situation. Fine for planting along walls and sunny slopes. The plants grow 10 to 15 inches tall and are excellent for bunching with other flowers. Sow the seed the latter part of April. The plants are covered with small, star-shaped, pure white flowers on dainty stems. Very graceful. Pkt., 6 cts.; oz., 25 cts.

Gypsophila Baby's Breath 2264

Geranium (House Culture)

Easily raised from seed which if sown early will produce plants that will flower the first year. Geraniums enjoy an almost universal popularity. They are very popular plants, suitable for pot culture in the winter or for bedding purposes in the summer. They form nice, bushy plants, bearing continuously many gorgeous flowers in variously brilliant colors.

2261 Lady Washington
Pelargonium
These are the well known richly colored show Pelargoniums. Our mixture includes all the best varieties. Seed saved from the largest flowered show varieties; beautifully blotched. Pkt., 15 seeds, 25c.

2260 Giants of California

They will bloom from seed in four to five months, and will frequently reward the cultivator with charming new varieties; in fact, propagation by seed is the only sure way to obtain new varieties, Finest double, semi-double and single varieties of the most gorgeous and brilliant colors; all shades of scarlet and crimson, rose, pink, sailsmon, cream, veined, pink, builsh, snowy white, and all the new auriole types. The spotted or speckled varieties are very novel and extremely attractive. Trusses immense and the blooming qualities of the plant truly wonderful. Mixed. Pkt., 10 cts.; 1/8 oz., 60 cts.

2268 Gloxinia (House Culture)

Giant Choice Hybrids

Gloxinias are splendid pot-plants, growing best in the greenhouse or the conservatory, where heat and moisture can be regulated to suft the plants. They are showy, free flowering, and do well in shaded locations. The flowers measure 4 inches in diameter and are borne with the greatest freedom, surrounded by rich dark green velvety leaves. Pkt., 25 cts.

2268 GLOXINIA CHOICE HYBRIDS

WASHINGTON GERANIUM 2261 LADY

GAILLARDIA SINGLE PICTA

Gaillardia Blanket Flower (Annual)

Gaillardias are exceptionally fine for beds, borders, and for cutting. They are most showy, with their large flowers of bright colors; 15 inches tall. Gaillardias do best if planted in a porous, rather sandy soil, and where they will receive plenty of sunlight. Sow the seed thinly when the maples are coming into leaf, covering with ½ inch of fine soil, or start the seed indoors the middle of March.

2255 Picta Single Mixed

A wide range of colors, including yellow, scarlet, crimson, and mahogany. Wonderful in beds or borders or for cut-flowers. Pkt., 8 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.

2256 Picta Double Mixed

Double flowers in rich shades of crimson, garnet, lemon, orange, etc. Mixed; are variously and gayly colored. Pkt., 8 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.

2257 Grandiflora

Perennial Hybrids

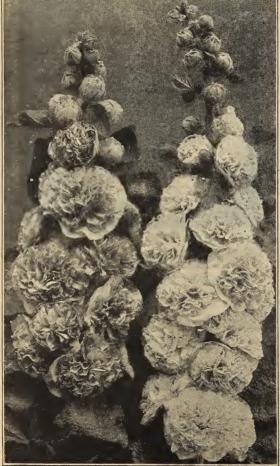

Beautiful large flowers with yellow tips and crimson centers. Excellent for cutting. The plants grow 2 feet tall and thrive where they get the full sun. Blooms freely and continuously during late spring and summer. Pkt., 8 cts.; 1/8 GZ., 25 cts.; 1/4 OZ., 40 cts.; 1/2 OZ., 60 cts.

Gourds-Ornamental Mixed

2291 Heliotrope (House Culture) Finest Mixed Giant Hybrids

Everyone loves the delightful fragrance and beauty of the Heliotrope, but few know that it can be raised from seed as easily as the Verbena. To insure a long period of bloom, the seed should be sown indoors during February and the plants set out in rich, well-prepared soil when the maples are in full leaf. Flower-heads of great size and immense beauty, measuring 6 to 12 inches across. Their fragrance is delightful and pronounced. The colors range from white through shades of blue and violet. Pkt., 10 cts.; 1/2 oz., 50 cts.; 1/4 oz., 75 cts.; 1/2 oz., \$1.20.

2297 Double Crimson 2300 Double Pink

2274 Gourds—Ornamental Mixed

Annual Climber

The growth is quick and foliage pretty. These gourds are of various shapes and colors; some large, some small. All are hard-shelled and will keep for years. Grow 10 to 30 feet high. Excellent for covering porches, walls, outbuildings and waste places. The small gourds are excellent toys for children, while the larger ones may be used as bowls, dippers, sugar troughs, etc. Pkt., 10 cts.; oz., 25 cts.

2278 Grasses Ornamental

Mixed Many Kinds (Annual)

Ornamental Grasses should be grown for garden decoration and for winter bouquets. For winter use it is very important that the stalks are cut early in the morning while they are still wet with dew. They are then placed in a cool, dry, and airy room in their natural position until they are perfectly dry. Pkt., 10 cts.; 1/2 oz., 20 cts.; 1/4 oz., 30 cts.; 1/2 oz., 50 cts.; 0z., 75 cts.

Hollyhocks (Perennial)

Here is a perennial that indeed needs little description as it has been a great favorite for many years. Of strong habit, growing 6 to 8 feet in height. The flowers measure 3 to 4 inches in diameter. Hollyhocks should be sown any time from early spring until early August. The magnificent flower-spikes make a wonderful display during June and July.

2297 Double Crimson

A deep rich crimson shade, very fine. Plets.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00. Pkt., 10

2298 Double Yellow

An exquisite and fine large deep yellow. Pl 10 cts.; ½ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2299 Double White

Waxlike petals, double white like a rose. I 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2300 Double Pink

A very attractive shade of pink, color clear. I 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2301 Double Salmon

A very fine variety, attractive colors, large and fully double. Pkt., 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2296 Double Mixed

All the above colors and many others. A fine mixture of many shades. Pkt., 10 cts.; ¼ oz., 35 cts.; ½ oz., 50 cts.; oz., 90 cts.

2295 Annual Hollyhock **Condon's Giant Prize Double Mixed**

Blooms First Year from Seed When Sown Early

These are the largest flowered and most perfectly double Hollyhocks we have been able to produce after many years of the most painstaking selection of only the best varieties. The colors are rich and brilliant. Pkt., 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2304 Humulus

2307 Ice Plant

Humulus

Annual Climber

2304 JAPANESE HOP (Japonicus)—One of the most rapid climbers grown. Seed can be sown in the open ground in spring and it will attain enormous dimensions very quickly. The foliage is luxuriant and it is one of the best plants for covering verandas and trellises. Pkt., 10c; ½ oz., 30c; oz., 50c.

2307 Ice Plant (Annual Trailer) (MESEMBRYANTHEMUM)

A singular plant of spreading habit, and very effective in beds, rockwork or hanging baskets, etc. The plants have a peculiar icy foliage, and the sun gives to them the appearance of being covered with icy crystals. The flowers are white and pink. Pkt., 10c; ¼ oz., 25c.

Helichrysum Monstrosum Strawflowers

Annual Everlasting

Easy to grow and do well under the most varied condi-tions of weather and soil. They do best if planted where they get sunlight all day long. A porous and moderately moist soil which is fairly rich produces the finest plants and largest flowers.

(Japanese Hop) Sow the seed outdoors when the maples are coming into leaf in rows 12 inches apart, and cover with ½ inch of fine soil. The seeds will germinate in about 2 weeks after planting, and when the young plants are about 2 inches tall it is best to thin them so that they will stand 10 to 12 inches apart in the row. For extra-early flowering the seeds can be started indoors in shallow boxes about the end of March or early in April. The plants make a strong upright growth from 2 to 3 feet tall and bloom profusely during late summer and fall..

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cut-flowers, but also because they can be dried for winter bouquets. Cut the flowers early in the morning while the dew is still on them, and hang them heads down in a cool, shady, and airy place until thoroughly dry.

Fire Ball is a popular variety mainly because of the richness and brightness of its blooms. They are an intense and wird crimson. The flowers are large and well formed. The brilliancy of the color is retained well in the dried flowers. Pkt., IOC; 1/8 02., 25c; 1/4 02., 40c; 1/2 02., 60c.

2282 Golden Ball (Strawflowers)

A well-named variety since the flowers are of almost ball shape and of a rich golden yellow color. They are borne profusely on strong robust plants. Particularly fine. Pkt., 10c; % oz., 25c; % oz., 40c; % oz., 60c.

The color of this distinct variety is a bright and cheefful rose, a shade that is always greatly admired. Rose Queen deserves a place in every garden. The blooms are of remarkable size and good form. The petals are large, well expanded, and lie closely together, forming a double flower which never shows a yellow center. Pkt., IOc; 1/2 oz., 25c: 1/4 oz., 40c: 1/2 oz., 60c.

2284 Salmon Queen (Strawflowers)

The lovers of delicate shades will appreciate this fine variety because of the soft salmon color of the flowers. A robust, free-flowering variety. Pkt., 10c; 1/2 oz., 25c; 1/4 oz., 40c; 1/2 oz., 60c.

2285 Violet Queen (Strawflowers)
As the name implies, this variety has violet flowers. The color is rich and intense. Violet Queen is a variety of recent introduction, but it has quickly become of the most favorite of all Strawflowers. The dried blooms show up particularly rich and life-like. Pkt., IOC: 1/8 0z., 25c; 1/4 0z., 40c; 1/2 0z., 60c.

2286 Snowball (Strawflowers)
Snowball is a favorite on account of its pure white flowers. Is grown extensively by those who make a business of growing Strawflowers for winter bouquets. The reason for this is that Snowball is most easily dyed to any desired color. The blooms are of largest size and quite double. Pkt., 10c; % 0z., 25c; % 0z., 40c; % 0z., 60c.

2287 Finest Mixed (Strawflowers)

Includes all above fine colors described. Those who have not room enough to grow the separate colors will get a fine display from this mixture. Pkt., 10c; 1/2 oz., 25c; 1/4 oz., 40c; 1/2 oz., 60c.

2288 Special Offer: One packet each of the 7 separate varieties of Strawflowers for only 50c Postpaid.

2310 Japanese Kudzu Vine

Pueraria Thunbergiana Perennial Climber
"Jack and the Bean Stalk." The blossoms are large and in panicles somewhat like wistaria, but larger in size and with better clusters. The color is of a pleasing shade of purple. The foliage is luxuriant, somewhat like the leaf of a bean. The vine is extremely rapid and dense in growth, making the Japanese Kudzu or "Jack and the Bean Stalk" vine of great value where a quickly produced shade is wanted. From established roots, this vine will attain a length of 40 to 50 feet in one season. It will even flourish where nothing else will grow. It is perfectly hardy increasing in size and beauty year after year. An ornamental and rapid growing climber. Pkt., 10c; 1/4 02., 25c; 02., 75c.

2310 JAPANESE KUDZU VINE (Jack and the Bean Stalk Vine)

2313 Lantana (House Culture) Hybrids Choice Mixed

Shrubby plant, 1 to 3 feet high, bearing flowers of various shades and colors. Especially adapted to greenhouse or window culture, though thriving nicely in the open. Flowers large and verbenalike, All shades of pink, red, orange, yellow, orange-scarlet and white. Finest hybrids. Mixed. Pkt., 10 cts.; 1/4 oz.. 20 cts.; 1/2 oz., 30 cts.; oz., 50 cts.

2331 Lobelia (Annual)

Compacta Sky Blue

Lobellas bloom very quickly from seed and the small bushes are fairly sheeted with flowers throughout the season. Very desirable for edgings, borders or pot culture. Rich, deep blue with dark foliage. The finest for bedding. Pkt., 10 cts.; 1/8 oz., 40 cts.

Choice pink and white shades mixed. The Lavateras or Annual Mallows are showy and effective plants covered during the entire summer with bloom. For large borders and cutting they are very desirable. Color, pink and white. Pkt., 5 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.

Larkspur

(Annual)

Quick-growing and free-flow-ering annuals which produce stiffly erect spikes of beautiful flowers in great profusion. They are strictly annuals, being dis-tinct from Delphinium. Very showy and easily cultivated. The plants do best in cool and moist ground. Larkspurs are admirably adapted for beds or borders, but they are also very useful for cutting. Easily grown for winter bloom-ing in the greenhouse.

2316 Dark Blue

Dark blue flowers of large size, set so closely on the stem as to form a solid splike of color. Blooms freely and continuously for many weeks. Pkt., 10 ets.; 1/2 ez., 30 ets.; 1/2 ez., 45 ets.

2317 Scarlet Rose

The plants are of fine, strong upright growth bearing long spikes closely set with bright rose flowers. This color is particularly attractive. Pkt., 10 cts.; 1/2 oz., 30 cts.; 1/2 oz., 45 cts.

2318 Violet

A rich shade of violet. The flowers are large and, being closely set on the flower-stem, make an attractive and heavy spike. Always very double. Pkt., 10 cts.; 1/4 02., 30 cts.; 1/2 02., 45 cts.

2319 White

Pure snow-white elegant flowers set closely on long and stately spikes. The light green foliage is also attractive. Pkt., 10 cts.; ½ oz., 30 cts.; ½ oz., 45 cts.

2320 Exquisite Pink

A most appealing bright pink with large blooms closely set on fine spikes. An ex-quisite variety, Pkt., 10 cts.; ¼ oz., 30 cts.; ½ oz., 45 cts.

Condon's Special Mixture

This fine mixture comprises all the above and other fine shades. Pkt., 10 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.

2322 Special Offer

One packet each of the six wonderful Larkspurs for only 40 cts., postpaid.

2328

or cutting. 35 Odorata Grandiflora Finest Mixed Hybrids: This mixture contains a selection from all types of Mignonette, very sweet.

Price on all Mignonette: Pkt., 7 cts.; ½ oz., 20 cts.; oz., 35 cts. 2355

2355 Mignonette Finest Mixed

MARIGOLD—(Annual)

There are two classes of Marigolds usually grown in the garden. These are Tall African and Dwarf French. The Tall African varieties grow 2½ to 3 feet tall. The Dwarf French varieties are of more compact growth, forming ball-like bushes 12 to 15 inches in height. This class is particularly fine for borders, blooming from July until frost. Marigolds are easily grown and should be sown in shallow drills in the open garden carly in the spring, after all danger of frost is over.

Tall African Varieties

2340 Lemon-Ball

Extra large, round, double flowers of a clear canary-yellow. Large round plants with attractive dark green foliage. Pkt., 10 cts.; ½ oz., 25 cts.; ½ oz., 40 cts.; oz., 60 cts.

2341 Orange-Ball

Enormous double flowers of intense rich orange. The flowers are produced in great profusion. Pkt., 10 cts.; ½ oz., 40 cts.; oz., 60 cts.

2372 Imperial Japanese Morning Glory

NASTURTIUMS

(Annual)

For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. Nasturtiums are much used for table decoration. Of the easiest culture, succeeding practically anywhere, blooming most freely on lighter soil.

The Dwarf or Tom Thumb sorts make the most beautiful bedding and border plants, growing about one foot high, while the tall or climbing kinds are invaluable for covering unsightly railings, very fine for hanging baskets and vases, and are also equally beautiful if simply grown trailing over the ground. The tall sorts produce the largest flowers.

2376 Condon's Gorgeous **Dwarf Mixture**

We take great pride in this mixture of Dwarf Nasturtiums which is composed of the very finest large-flowering Dwarf Nasturtiums in existence. The color range of the flowers is magnificent, taking all shades. Pkt., 10 cts.; 0z., 18 cts.; ¼ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.50.

"Beautiful Chinese Primroses"

Condon's Beautiful Annual

Phlox-"Drummond"ii

Phlox is one of the easiest grown an most satisfactory of all summer-flowering annuals. Whether sown en masse or as a single border, the brilliant colors foun among Phlox always make a good impression. One of the most valuable characteristics of thi annual is its free blooming habit.

Usually the seed is sown outdoors when the maple are coming into leaf. Sow thinly and cover with quarter inch of fine soil. When the young plants ar about an inch or two tall, they should be carefully thinned tallow 4 to 6 inches of space between the plants so that the can develop freely. The plants grow 15 inches tall.

2420 Grandiflora Choice White

This is perhaps the largest flower of all the annual Phlox. The heads are made up a large individual blooms and form a massive cover of pure white over the rich green foliage. It is a strong grower and sturdy bloomer. Because of its free-blooming habit it makes very fine display if planted in a double row, as a border to larger beds. Pkt., 10 cts, 1/2 oz., 30 cts.; 1/2 oz., 4.5 cts.; 1/2 oz., 70 cts.

2421 Grandiflora Choice Lilac

This is an entirely new shade among the annual Phlox. The color is a soft bright lila accentuated by a white eye in the center. Lilac is a very free and continuous bloomer, wit large flowers borne in handsome clusters. The plants are of stocky growth and flower mor profusely all during late spring and summer, and way into the fall if they are given plent of space to develop. Pkt., 10 ets.; ½ 02., 30 ets.; ½ 02., 45 ets.; ½ 02., 70 ets.

2423 Starred and Fringed **Choice Mixed**

Grandiflora Choice Mixed

In the fringed flowers the petals are distinctly bordered with white, which, together with the bright eye of the center, contrasts with the magnificent velvety colors, in more than twenty shades, In the Starred Phloxes the central teeth are five to six times as long as the lateral ones. Pkt., 10 cts.; ½ 02., 30 cts.; ¼ 02., 45 cts.; ½ 02., 70 cts.; 02., \$1.10.

2424 New Dwarf Cecily

The new dwarf large flowering strain of the annual Phlox Drummondii is a most distinct and charming novelty. The plants are only six to eight inches in height when in full bloom. The broad, rounded heads of flowers as well as the individual florets are of large size. The colors vary from light lilac through various shades of red and purple. Pkt., 10 cts.; ½ 02., 50 cts.; ½ 02., 75 cts.

2422 Grandiflora Choice Crimson

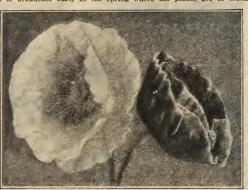

A magnificent and beautiful shade of rich crimson which loo particularly well if seen in full sunlight. The individual flowe are large and make up into well-rounded massive heads during bloon ing season. Pkt., 10 cts.; ½ oz., 35 cts.; ¼ oz., 55 cts. ½ oz., 85.30.

2419 Grandiflora Choice Mixed

Bloom from seed in ten weeks' time. If we could have but or flower in the garden it would be phlox. Large flowering strain chosen with great care for many years; ideal flower of immen size and beauty unsurpassed. Colors from white to nearly blac including pink, red, violet, crimson, purple, yellow, blue, scarlet an brown, striped and blended in an indescribable manner. Pkt., Ische.; ½ 02., 25 cts.; ¼ 02., 40 cts.; ½ 02., 60 cts.; 02 95 cts.

Condon's Giant Poppies

Poppies are very easily grown and should be included in every garden because of their gorgeous colors. Sow the seed thinly in drills or broadcast early in the spring where the plants are to bloom.

2428 Shirley Single (Good Mixed)

The flowers are of exquisite texture and very large. Upon opening they appear like wrinkled tissue paper with a silky sheen. The range of colors is particularly noteworthy in this variety. There are some excellent shades of rose, pink, carmine, crimson, and salmon. The flowers are borne profusely and continuously throughout the spring and early summer. Pkt., 7 cts.; 1/4 oz., 20 cts.; 1/2 oz., 30 cts.; oz., 50 cts.

2429 Shirley Double (Good Mixed)

This beautiful strain produces large double and semi-double flowers in a wonderful range of colors. Pkt., 10 cts.; 1/2 oz., 20 cts.; 1/2 oz., 30 cts.; oz., 50 cts.

2433 Oriental Scarlet Perennial

This is the most showy of all the perennial Poppies. The in mense rich scarlet-red flowers are borne profusely during late M and June. They are carried on long heavy stems and are excelle for cutting. Sow the seed where the plants are to bloom, as the do not transplant very satisfactorily. Pkt., 10 ets.; 1/2 oz., 3 ets.; 1/4 oz., 45 ets.

2455 Ricinus Castor Oil Bean

Zanzibarensis

These are semi-tropical and tropical plants grown largely or their picturesque appearance. The plants grow from 8 to 0 feet in height and bear immense leaves. This is the tallest f all the Castor Oil Beans, with leaves measuring 2½ feet cross. The leaves are lobed and they are of rich green shades. The heavy stems are either red or green. The plants will grow from 12 to 14 feet in height and form a perfect yramid of foliage, presenting a beautiful tropical apearance. Pkt., 8 cts.; oz., 25 cts.

2452 Rose **Dwarf Multiflora Baby Fairy Rose**

(House Culture)

Only an inch across; mostly double. They are borne in clusters, and embrace all the tints of the larger roses. The blossoms are followed by bright red hips or seed pods that are very pretty. The bush grows only 10 inches high, and begins to bloom six months after the seed is sown. Pkt., 10 cts.; 1/8 oz., 50 cts.

Ricinus Zanzibarensis, Castor Oil Bean

Sweet William Perennial

These are excellent for border plants and should be acluded in every garden. They are grown from seed own right in the open about the middle of April, but hey can be sown as late as the end of June.

2483 Double Choicest Mixed

SWEET PEAS - - - Condon's Giant Spencer "or Orchid"

Flowered Varieties

We recommend these for general outdoor growing throughout the United States except in the extreme South, where Sweet Peas flower during the winter and where the early flowering type gives best results. Many Sweet Pea lovers plant a short row of the early flowering kinds to get the advantage of early blooms, but we recommend the Summer flowering Sweet Peas for your principal crop for outdoor planting either during the Spring or Fall.

2500 Gleneagles Light blue lavender. This lovely variety with its charming shade of lavender has proven to be a very desirable variety and is admired by all lovers of Sweet Peas. Very long stiff stems and a robust grower. Pkt., 10 cts.; oz., 30 cts.; 1/4 lb., 90 cts.; 1/2 lb., \$1.75; lb., \$3.25.

2501 ldyl A magnificent new salmon pink of great size and exquisite form. A very charming variety with the salmon pink shade backed up on cream. Vigorous growers with flowers formed on long stiff upright stems. Pkt., 20 cts.; oz., \$1.45.

2485 Mary Pickford A beautiful light pink with just the faintest suffusion of salmon. The perfectly formed flowers are invariably rounded. The long stemmed flowers are decidedly waved. This grand variety was named after the famous movie star, and is certainly a very beautiful variety. Pkt., 10 cts.; oz., 30 cts.; ½ lb., \$1.00; ½ lb., \$1.90; lb., \$3.50.

2502 Olympia Color, rich purple, and an outstanding variety for its richness of color. The flowers are enormous in size, produced in threes or fours on very long stiff stems. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.75; lb., \$3.25.

2503 Pinkie Belongs to the deep pink variety. Color is very deep rose pink, having four mammoth blooms well placed on long stems. Very famous and continuous bloomer. The perfect rose pink tone of the flower is free from the blueness of other deep pinks. One of the late introductions and should be in every collection. The flowers are nicely waved and are placed on long stems. Pkt., 12 cts.; oz., 50 cts.; ½ lb., \$1.75; ½ lb., \$3.25; lb., \$6.00.

2520 Powerscourt A pure lilac lavender variety with flowers of immense size. Color very distinct and one of the best lavender varieties of late introduction. Flowers large and well formed. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.65; lb., \$3.00.

2487 Reflection A fine new blue of the most beautiful soft tone of deep blue. It is a pure blue and does not show a trace of violet. The flowers are of immense size with four invariably well placed on long stiff stems. One of the very latest introductions and a great favorite at all flower shows. Truly a magnificent sort. Pkt. 15 cts.; oz., 50 cts.; ½ lb., \$1.75; ½ lb., \$3.25; lb., \$6.00.

2504 Supreme A pale blush pink variety with large flowers on long stems. A very attractive shade. Free flowering habit. One of the very finest of the clear pink sorts. Pkt., 10 cts.; oz., 30 cts.; ¼ lb., 90c; ½ lb., \$1.75; lb., \$3.25.

2486 Sybil Henshaw An outstanding variety with large crimson flowers. Carried in fours on fine long stiff stems. The rich crimson color makes this one of the most attractive sorts, and is very desirable. One of the latest introductions. Pkt., 15 cts.; oz., 50 cts.; ½ lb., \$1.75; ½ lb., \$3.25; lb., \$6.00.

Chieftain

2509

2505 What Joy One of the most popular varieties. Color, deep cream. Magnificent large flowers and very attractively produced on long stiff stems. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.75; lb., \$3.25.

2498 Avalanche The last word in white Sweet Peas for large flowering varieties. Pure white extra large and born on long stiff stems. Very late introduction. The broad wings of pure white add much to the magnificent appearance of this new variety. Pkt., 10 cts.; oz., 30 cts.; ½ lb., 90 cts.; ½ lb., \$1.75; lb., \$3.25.

2499 White King Remarkable for its glistening purity and beautiful appearance. Very 1 ong stemmed sort with extra large flowers. Pkt., 10 cts.; 0z., 20 cts.; ½ lb., 70 cts.; ½ lb., \$1.30; lb., \$2.50.

2506 Youth This is an outstanding white ground variety. White, edged with soft rose pink. Large size and free bloomer. Pkt., 10 cts.; oz., 25 cts.; ½ lb., \$3.00.

2508 Camp Fire Color, cerise. The flowers are usually well formed and waved. The plant is a strong grower, giving plenty of four blossom sprays. Abundant bloomer. Pkt., 10 cts.; oz., 25 cts.; ¼ lb., 80 cts.; ½ lb., \$1.55; lb., \$3.00.

2509 Chieftain A charming variety. Color, deep mauve. Very attractive, producing large flowers on good stiff upright stems. One of the late introductions and a great favorite due to its unique coloring. Pkt., 15 cts.; oz., 50 cts.; ½ lb., \$1.75; ½ l... \$3.25; lb., \$6.00.

2511 Dora The standard is a rich rose pink, the wings are a fine delicate creamy rose or bicolor. A very late introduction with flowers of an enormous size, and the color is very unique in itself. Pkt., 10 cts.; oz., 30 cts.; ½ lb., \$1.75; lb., \$3.25.

2507 Mary Catherine Named after our youngest daughter, whose photograph appears. Mary Catherine is the "Queen of All" White Sweet Peas and the most up-to-date Spencer or Giant Orchid-flowered type. Buds exceptionally large and as pure white as the driven snow. Pkt., 10 cts.; oz., 35 cts.; ¼ lb., \$1.15; ½ lb., \$2.10; lb., \$4.00.

2512 Sunset The general effect of this grand flower is that of the glowing of the setting sun. A beautiful combination of rose, amber, and gold. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 70 cts.; ½ lb., \$1.30; lb., \$2.50.

2513 Doreen One of the finest Giant flowering varieties. Carmine Rose, The flowers are of great size and attractive form. Usually produced in fours to the stem. A very robust grower. Pkt., 10 cts.; oz., 25 cts.; 1/4 lb., 80 cts.; ½ lb., \$1.55; lb., \$3.00.

SPECIAL OFFER 2514 One packet each of the 3 varieties of Giant or Summer Flowering Spencers listed above, also the 16 varieties on page 152—19 separate varieties in all—ONLY \$1.55. If purchased separately these 19 packets would cost you \$2.17.

SPECIAL OFFER 2515 One ounce each of the 3 varieties of Giant or Summer Flowering Spencers listed above, also the 16 varieties on page 152—19 separate varieties in all—ONLY \$5.35. If purchased separately these 19 would cost you \$7.35.

2510 Condon's International Mixture of Giant Spencer Sweet Peas

is composed exclusively of Spencer's Hybrids in proper proportion for most brilliant effect. It contains some most superb seedlings. New and exquisite colors and shades, such as apricot, lavender, light and dark blue, several shades of pinks and scarlets from light shades to deep rose. Also striped and mottled varieties, with purple and deep maroons, all of the waved and fluted Spencer type. Without exception this is the very finest mixture it is possible to make, and we recommend our patrons to grow them liberally. Plant at least an ounce; a quarter of a pound is better, and you will have the finest display of Sweet Peas ever seen in your neighborhood. Pkt., 10 cts.; 0z., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.40; lb., \$2.50.

2522 Condon's Choice Mixture of Spencer's Hybrids. A well balanced mixture of leading varieties of Spencer or wavy flowered Sweet Peas. Pkt., 10 cts.; oz., 20 cts.; ½ lb., 50 cts.; ½ lb., 90 cts.; lb., \$1.75, postpaid.

2517 Condon's Superb Mixture of Grandilloras. We make up this mixture by combining carefully considered proportions separate named varieties, each the very choicest of its class. Nowhere else can one procure a more magnificent mixture of finely formed and beautifully colored, large flowering grandiflora Sweet Peas. Pkt., 6 cts.; oz., 12 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.10.

2564 Special Offer: One packet each of the six Giant Colossal Flowered Zinnias for only 40c postpaid.

CONDON'S ZINNIAS

Dahlia Flowered [Annual]

Dahlia-Flowered Zinnias are of very recent origin yet they quickly became known because of their many outstanding features. The flowers are of immense size. They are made up of a large number of small petals which stand well apart, adding greatly to the grace and looseness of the blooms. This is a decided improvement over the Giant Mammoth type which many gardeners consider stiff in effect, The plants make a strong growth and form a compact, well-rounded bush about 2 feet tall. The flowers are borne on long sturdy stems above the foliage from midsummer until frost.

2548 Crimson Monarch

One of the best of the Dahlia-Flowered Zinnias with flowers of immense size. They are a bright and attractive shade of crimson-scarlet. The blooms are of perfect form and are borne in great profusion. Pkt., 15c; ½ cz., 75c; ½ cz., \$1.25; cz., \$2.00.

2549 Golden State

Rich golden yellow shading to bright orange as the flowers reach their full size. The blooms are large and of true Dahlia form. They are borne on fine long stems, Pkt., 15c; 1/4 02., 75c; 1/2 02., \$1.25; 02., \$2.00.

2550 Polar Bear

The best of all white Zimias. The flowers are of great size, made up of a large number of small petals. The coior is pure paper white. Pkt., 15c; 1/4 02., 75c; 1/2 02., \$1.25; 02., \$2.00.

2551 Dream

attractive variety with large flowers of a distinct shade of

A very attractive variety with large flowers of a distinct shade of deep lavender, changing to a purple tint as they age. The blooms are large and of fine form. They are borne freely on strong and sturdy plants. Pkt.. 15c; 1/4 oz., 75c; 1/2 oz., \$1.25; oz., \$2.00.

2552 Illumination

This variety resembles Exquisite but the flowers are uniform, deep tyrian rose instead of having a duo-tone effect. It is a truly magnificent flower of large size and always fully double. Pkt., 15c; 1/4 oz., 75c; 1/2 oz., \$1.25; oz., \$2.00.

2553 Oriole

This variety seems to be particularly popular with all classes of gardeners. A bright glistening orange shaded with liquid gold. As the flowers age they show a coppery cast, but the effect is beautiful at all times. Of good form. Pkt., 15c; 1/4 0z., 75c; 1/2 0z., \$1.25; 0z., \$2.00.

2554 Dahlia Flowered all colors mixed

This is a complete mixture of the Dahlia-Flowered Zinnias described on this page. It also contains a number of other varieties.

Pkt., 15c; ¼ 62., 75c; ½ 62., \$1.25; 62., \$2.00.

2556 SPECIAL OFFER

One packet each of the seven named Dahlia Flowered Zinnlas for only 75c, postpaid. If purchased separately would cost \$1.05.

Hardy Northern Grown Fruit Trees

Apples For Everybody—Best Standard Varieties
Budded from Bearing Orchards

EARLY SUMMER VARIETIES

1100 Duchess of Oldenburg From Russia, extremely hardy, medium size, yellow with red stripes. Somewhat sour, fine for cooking. Will not keep long when fully ripe.

1101 Red Astrachan The old-time favorite. Perhaps one of the most popular early apples ever grown. Large, roundish, nearly covered with deep crimson, overspread with thick bloom. Juley, rich acid, beautiful; a good bearer.

FALL AND EARLY WINTER VARIETIES

1104 Wealthy Originated in Minnesota. Fruit large, roundish; skin smooth, mostly covered with dark red; flesh white, juicy, good. Tree very hardy, vigorous, and productive.

1113 Snow An early winter apple of medium size and dark red color. The flesh is pure snowy white, juicy and aromatic with a rich yet sprightly vinous flavor. The standard for quality in dessert apples.

1112 Talman Sweet Medium size, pale yellow, tinged with red; firm, rich sweet. November to April.

1105 Maiden Blush Good size, fine flavor, beautifully blushed, good bearer, a fine apple for home and market.

1103 Grimes Golden One of the most popular Apples, Tree a strong, thrifty grover. Fruit medium to large; flesh yellow, firm, very fine grained, juicy, sub-acid flavor; fine quality. Excellent for eating, cooking or market.

LATE WINTER VARIETIES

1109 Northern Spy Large, bright red and very hardy.
Comes into bearing very late. Not a success in Kansas and Nebraska, but largely planted in Illinois, Michigan and the East.

1110 Northwestern Greening Extremely hardy and vigorous grower. Fruit large, greenish yellow when ripe Good quality and a long keeper. Especially recommended for Northern States.

Stayman's

1111 Winesap Another old and tried variety of a beautifured color, rather thick skin, good quality and a long keeper. Thapple is medium size. For the home orchard we still recommend it especially for the Middle Western States.

1102 Baldwin A large, dark red Apple; sub-acid, good flavor. Tree hardy, vigorous, productive. Excellent for eating, cooking and market.

1106 **Jonathan** Bears young and a big producer. Frui very attractive, bright red, quality of the finest, flavor of the best Flesh tender, crisp and juicy, with a smooth and glossy skin tha makes it a big seller everywhere.

1108 **Delicious** A remarkable variety rapidly taking firs rank both for commercial and home orchards. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy, with a delightful aroma; of very highest quality. A splendid shipper, bearing annually.

CRAB APPLES

1114 Whitney No. 20 Large, averaging 1½ to inches in diameter. Skin smooth, glossy, green, striped, splashe with carmine: flesh firm, juicy; and flavor pleasant; ripens the latte part of August. Tree a great bearer and very hardy.

1116 Yellow Siberian Fruit medium; golden yel löw; borne in clusters.

1115 **Hyslop** Medium in size, very bright red skin. Delicious for jelly and preserves.

The fruits are purple with firm yet juicy green flesh of excellent quality. Tender skin and very small pit. Free stone. PRICES on all Plums, Prepaid: Each, 85 cts.; 3 for \$2.10; 6 for \$3.90; 12 for \$3.7.20. \$7.20.

Peaches from your own trees are delicious -Start a few this year.

If you want the best Fall-bearing Raspberry, plant St. Regis; we have tried them all and know that St. Regis is far ahead of any other Fall-bearing variety. There is a big demand for this fine fruit in the late Summer and Fall, and many growers in this locality grow St. Regis for Chicago market and receive \$8.00, \$10.00 and even \$12.00 for 24-pint crates. However, if you do not grow them for market, by all means plant a few bushes for home use and enjoy this delicious fruit all Summer and Fall. St. Regis produces a big crop of fruit during the regular Raspberry season and then continues bearing all Summer and Fall on the new canes. St. Regis resembles King in manner of growth, ripens extra early and the fruit is similar in quality, flavor and appearance. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$4.00; 500 for \$15.00, prepaid.

1062 Early King

Produces a big crop every year. King is without exception the most prolific early Red Raspberry ever grown. Perhaps the greatest outstanding feature of this variety is its earliness. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$3.50; 500 for \$12.50, prepaid.

1061 Cuthbert

An old variety, but still holds first place, as it always has, for home use or near markets. Large size. Late Red variety. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$3.50; 500 for \$12.50, prepaid.

1063 Columbian

A very strong growing variety. Fruits large, dark purple and of good quality. Hardy and very productive. Very large, purplish color, rather soft, rich, sprightly flavor unrivalled for canning, making jam, jell, etc.; wonderful vigor and productiveness. 3 for 50 cts.; 6 for 80 cts.; 12 for \$1.20; 100 for \$6.00; 500 for \$25.00, prepaid.

Blackberries

1072 Early Harvest

Is very earliest. Berries medium size and sweet. Plants dwarf and compact, may be planted close together. Particularly suited for south of Rockford; not good for extreme north. 3 for 30 cts.; 6 for 50 cts.; 12 for 70 cts.; 100 for \$4.00; 500 for \$16.00, prepaid.

1075 Snyder

Hardiest of all. Especially suited for the north. Berries medium size, sweet, juicy and of fine flavor. 3 for 30 ets.; 6 for 50 ets.; 12 for 70 ets.; 100 for \$4.00; 500 for \$16.00, prepaid.

Black Raspberries

1065 Cumberland

This new black cap is a wonder in size and vigor of plant growth and is as hardy as any known variety. It has no disease of either cane or foliage, grows luxuriantly wherever planted, and is tremendously productive of extra large, coal black berries, not approached in size or beauty by any other known variety. Kansas and Gregg, remarkable for size as they are, are simply "not in it" with Cumberland, except that their season of ripening gives each a distinct place. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$3.25; 500 for \$12.00, prepaid.

1066 Gregg

Extra large late sort. Delicious flavor. This is the extra big late blue black fellow. Heavy growing canes that branch out sparingly. Its late ripening and good quality make it a favorite. 3 for 30 cts.; 6 for 50 cts.; 12 for 70 cts.; 100 for \$4.00; 500 for \$16.00, prepaid.

1067 Plum Farmer

The earliest black cap in cultivation. The plants are very healthy, being unusually free from disease. The canes are strong growing, thus giving lots of bearing wood, insuring a heavy crop of fruit, of large, fine quality. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$3.25; 500 for \$12.00, prepaid.

1068 Kansas

Large, heavy grower and cropper, branches very freely. Is hardy, productive, glossy, jet black berries. 3 for 25 cts.; 6 for 40 cts.; 12 for 60 cts.; 100 for \$3.25; 500 for \$12.00, prepaid.

1064 LATHAM Red Raspberry

Conceded to be the Best Red Raspberry now Grown Recommended for Home Gardens and Market.

Although this is a comparatively new variety it is entirely ast the experimental stage. Latham is a tall, vigorous grower, ne canes are extra heavy, well able to support the tremendous and of fruit. The foliage is a healthy dark green, tough and rathery, highly resistant to insects. Sometimes called Redpath r Minnesota No. 4. A new variety of great promise. It has been redicted by authorities that the Latham will soon take first lace as a commercial sort, among the red varieties at least is a splendid strong-growing variety and produces immense uantities of bright red, extra large berries. This is the earliest erry to ripen. It is not considered an everbearer, but the season f ripening is very long, sometimes a month and a half in length teports received from the cold northwestern states indicate hat this is an extremely hardy variety. 3 for 30 cts.; 6 for 50 ts.; 402, 90 cts.; 100 for \$5.50; 200 for \$10.00; 500 for \$20.00, repaid.

The big Red Raspberry Mosaic-free plants.

1090 Moore's Early Grape Ine of the finest black varieties

1080 DEWBERRY Lucretia

A variety of established reputation.

Dewberries are bringing big money and are said to be more profitable than any other fruit grown at the present time. Berries are very large, bright glossy black, beautiful and of delicious flavor. They are earlier and larger than blackberries. Of slender trailing growth, and immensely productive. Plant rows three feet apart and string on single wires held up by short post, same as grapes. Mulch over in late Autumn. Strong plants. 3 for 22 cts.; 6 for 40 cts.; 12 for 75 cts.; 100 for \$4.50, post-paid.

1080 Dewberry-Lucretia

GRAPES More Popular Every Year-Plant Liberally

CULTURAL DIRECTIONS. Plant for field culture 8 by 12 feet, bout 440 plants per acre. Grapes will grow and do well on light and or clay where it is hard to raise other farm or fruit crops.

1090 MOORE'S EARLY (Black)—The most widely planted, most oppular of the early black grapes. Similar to Concord in appearance and quality and two weeks earlier. Succeeds everywhere Concord grows. We advise the planting of Moore's Early for it always pays. for 45 cts.; 6 for 85 cts.; doz., \$1.60; 100 for \$9.00, prepaid.

1091 NIAGARA (White)—The best known white grape. As vigrous and productive as Concord. We grow it largely and recommend t commercially. 3 for 50 cts.; 6 for 95 cts.; Doz., \$1.75; 100 for 10.00, prepaid.

1092 CONCORD (Black)—The most widely grown, most popular f all grapes; rich, black, good bunch, good quality, good shipper. Produces tremendous crops everywhere. 3 for 40 cts.; 6 for 75 cts.; Doz., \$1.35; 100 for \$8.00, prepaid.

1093 DELAWARE (Red)—One of the very best for table use. Bunch and berries of medium size. The flavor is very sweet and decicious. 3 for 70 cts.; 6 for \$1.30; Doz., \$2.40; 100 for \$16.00, prepaid.

1094 AGAWAN. Very hardy, having endured thirty degrees beow zero without injury. A short, jointed, vigorous and healthy
trower; ripens its wood early. Exceedingly productive, the cluster
aedium to large, cylindrical, very compact and alluring; berries very
arge, dark red, juicy, piquantly flavored; pulp tender, seeds easily
reed; skin thin but tough. 3 for 70 cts.; 6 for \$1.30; Doz., \$2.40;
00 for \$16.00, prepaid.

1092 Concord Black All grape vines 2 yr. old.

STRAWBERRIES About Varieties We have grown them all and after careful trial ground comparisons have discarded many sorts and offer you a list of Only the Very Best and Most Profitable varieties

Every variety of Strawberry Plants offered by us is perfect-flowering, and requires no other kind planted with it for proper pollinization. We have discontinued all pistillate varieties, as there are plenty of perfect-flowering varieties on the market that are better. Any variety we offer can be grown alone with perfectly satisfactory results; although several kinds may be grown together if you prefer.

1501 Mastodon—The Giant "Everbearing Strawberry" Produces Bigger June Crops Than Most Common Varieties

Mastodon is the ONE Everbearing Strawberry for common, ordinary fellows like you and I, because expert knowledge, special soil, etc., are not required to make these plants produce their customary big crops of delicious berries, Spring, Summer and Fall.

Just plant them out this Spring in ordinary soil that will produce good garden or farm crops, give them only ordinary care, keep the blossoms cut off until July 1st—that's all there is to it. In about three weeks you'll have berries—big, red, delicious berries—lots of them and you will continue having them until Winter. That's the first crop, then along in the Spring when ordinary varieties are producing their first crop Mastodon gives you its SECOND crop—and a big crop, too, because in addition to being by far the best Fallbearer it is a wonderful June bearing variety. Then after a short rest these same plants commence producing another Summer and Fall crop. There you are, three full crops in eighteen months—how can you make money any faster? 25 plants, 80 cts.; 50 plants, \$1.35; 100 plants, \$2.25; 500 plants, \$9.50; 1,000 plants, \$17.50, prepaid.

849 Everblooming Tuberose

846 MADEIRA VINE

"Climbing Mignonette." A beautiful tuberous-rooted climber, with rather plain, thick leaves and handsome racemes of fragrant white flowers. The vine makes a very rapid growth and a few plants will cover a trellis or cottage in a single season. It is a very pretty thing to use for shading a porch or veranda, as the leaves are brilliant, glossy green. Lift the bulbs each fall the same as Dahlias. Each, 5 cts.; 6 for 25 cts.; per dozen, 45 cts., postpaid.

846 Madeira Vine

Summer Flowering Spring Bulbs

Everybody's Garden Should Have These Beautiful Bulbs.

Easily grown, requiring scarcely any care, start to bloom early in the summer and continue until cold weather. You can rely on all our bulbs as sure to grow and bloom. They are large, sound stock with live center shoots, far surpassing those small-bulbs frequently offered at lower prices. We maintain The Best is the Cheapest.

849 TUBEROSES

Giant Flowering—Annual—Excelsior Dwarf Pearl—Mammoth

Celsior Dwarf Pearl—Mammoth
Our Mammoth Excelsior Dwarf
Pearl is a special selection made for
many years of the most dwarf, double and full flowered spikes and is
exceptionally sturdy and dwarf in
habit. This "Mammoth strain" is
positively the highest type of the
Tuberose. The kind to grow if you
desire "prize" blooms. Large size.
Price, each, 8 cts.; 3 for 20 cts.; 6 for
35 cts.; per dozen, 65 cts., postpaid.

839 CALADIUM Elephant's Ear—Annual

Llephant's Lar—Annual
These well-known Elephant's Ears
are the most effective, both as single
plants on the lawn, massed in beds,
or for margins of water. The distinct apron-like leaves often attain a
length of three feet by twenty inches
wide. Bulbs can be stored in dry
sand over winter and kept from year
to year. 7x9 inches in circumference,
each, 12 cts.; 3 for 33 cts.; per dozen,
\$1.20—Mammouth Bulbs, 9x11, each,
22 cts.; 3 for 60 cts.; doz., \$2.15, postpaid.

847 Oxalis

845 CINNAMON VINE

Beautiful Foliage, Dainty Flowers, Exquisite Perfume

Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, 'the vines dying down to the ground each autumn, but growing very rapidly in early spring, soon covering any trellis or arbor. Where you wish to hide unsightly places, we would suggest planting the Cinnamon Vine. Every tuber sure to grow. Plant any time in spring. Please order at once. No trouble to keep till planting time. Strong tubers, each, 8 cts.; 3 for 20 cts.; per dozen, 65 cts., postpaid.

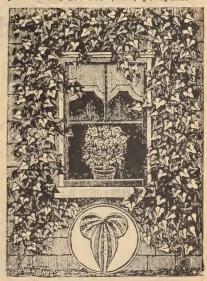

839 Caladium—Elephant's Ear

836 SPECIAL OFFER. One nice bulb each of the two Calla Lilies, ONLY 60 ets., postpaid. See page 162.

Only 49 cts. each postpaid

The Ideal Tool for getting in and around plants and shrubs. Made of strong, durable steel.

Condon's Large Flowering

Canna Bulbs Guaranteed to Bloom

No other bedding plant will give the same uniform good results in our varied and trying climate. They do well in all sections of the country, and stand preminently at the head of the list.

flower-trusses.

851 The President

Green foliage; height 4 ft. Very latest introduction and the most satisfactory rich glowing scarlet Red Canna ever produced. Bigger and better than Firebird. Make a solid bed of these on your lawn and you will be envied by all your neighbors. Immense, firm, rounded flowers, 7 inches across when open, are produced on strong, erect stalks well above the large, rich green foliage. "The President" is superior to any other red variety in the quantity and also quality of bloom, and the firm flowers resist drought and heat to a remarkable degree.

858 Richard Wallace

Green foliage; height 4 ft. Golden Yellow. This is an ideal bedding variety. Color deep .golden yellow. Flowers are of large size held well above the foliage, a vigorous grower and very free flowering.

Bulbs "Guar-anteed to Bloom." Set the dry bulb out 12 inches apart each way just as early as dan-ger of freez-ing is over. 852 King Humbert

Bronze leaved; height 5 ft. A Universal Standard Favorite: Glowing Orange Scarlet, streaked with Primson: This remarkable "Gold Medal" Canna has been the sensation of recent years. It is a cross between the orchid-flowering and the French or Crozy type, combining the best features of both, the large lowers of one with the free blooming character of the other, and the handsome broad, tropical foliage.

853 Goldbird

Green leaved; height 4 ft. Canary Yellow. Re-markably free flowering variety. The immense soft canary-yellow flowers are borne in large clusters well above the very healthy green foliage. A robust grower, sure bloomer, forming sturdy, shapely plants very quickly, making it an ideal variety for amateurs or Florists.

854 Hungaria

Green leaved; height 3½ ft. The Best Pink Canna. Very compact, almost dwarf and of a very luxuriant growth. Leaves bluish green, never burn. Trusses of enormous size borne well above the foliage. Flowers very large, with immense petals. Color purest La France-pink, with satin sheen.

855 Yellow King Humbert

Green leaf; height 4 ft. The Best-Spotted Yellow Canna. An orchid-flowering sport of the well-known variety King Humbert. Has the same habit of growth as its parent; foliage a very dark green, with flowers measuring 5 to 7 inches across individual petals 3 to 3½ inches in diameter. Color of flower a deep rich yellow, softly spotted and blotched with bright red with bright red.

856 Wyoming

Bronze leaved; height 6 ft. The Best Orange Yellow. Rich purplish bronze foliage. Flowers are large as King Humbert, and of good substance; bright orange, slightly rimmed and flaked with rose.

859 Shenandoah

Bronze leaf; height 4 ft. Salmon pink. The largest and most popular pink canna in cultivation. It is unsurpassed for planting either singly or in large solid beds. Its exquisite pink flowers are of largest size.

SPECIAL BARGAIN

968 Le Marechal Foch. This might briefly be described as an improved America, having the same soft flesh-pink color, but with much larger blooms and coming into flower two weeks earlier. Of unusually strong, vigorous growth with splendid straight, well-filled spikes. Each, 6 cts.; ½ doz., 30 cts.; doz., 50 cts.; 100 for \$3.50, postpaid.

Condon's Beautiful

The Most Charming Flower in Cultivation -Stately and Attractive—Easy of Culture

"To know them is to love them." Every yard should have at least a few choice Gladiolus. They succeed nicely in any good fertile garden soil. Plant as early in the spring as ground can be worked and for succession of bloom set at intervals of two spring as ground can be worked and for succession of bloom set at intervals of two weeks. Bulbs set six inches deep require a few more days to come up, but more than repay you for waiting, as they form a deep root system, retaining moisture which furnishes more stalk growth and larger and more perfect flowers. Set in rows of solid beds eight to ten inches apart, to allow for cultivating, which should be done at least once a week. Water freely, if possible, this insures more continuous flowering. Lift the bulbs in the fall, dry thoroughly, and store in dry, warm place until spring again. These multiply in the ground and you can separate the small seedlings from the mother plant, grow them on the following year and in that way increase your supply. Our list of named varieties comprises the best standard reliable sorts that we recommend will please you. All good healthy well propagated bulbs that we guarantee will produce large spikes of beautiful flowers.

Conceded to be one of the ies for cutting or bedding 963 America. finest varieties for cutting or bedding ever sent out; color a beautiful soft fleshpink; orchid-like in its coloring and texture. Each, 5 cts.; ½ doz., 27 cts.; doz., 48 cts.; 100 for \$3.00, postpaid.

Tuberous Rooted Begonias

A Beautiful House Plant

The flowers vary considerably as to form and size, ranging from 2 to 4 and even 6 inches across, with some of the single ones perfectly smooth, while others are fluted or distinctly fringed. The colors are delightfully vivid and distinct.

distinct.
When grown outside, the Tuberous Rooted Begonias should be taken up before cold weather, spread out to dry, and be packed away in boxes of dry sand and stored through winter in some cool place, yet not where frost can reach them. Some little time before planting outside in spring they should be potted and kept inside until well started. They delight in a partially shaded location in soil composed of leaf mold, sand and well rotted manure. Water frequently and freely. and freely.

Double Begonias

862 Double Rose A fine shade of bright rose.

863 Double Pink Double bright pink flowers.
864 Double Scarlet A very impressive variety.
865 Double White Well-formed, pure white

866 Double Yellow and Orange Very beautiful.
861 Double, Mixed A complete mixture of all colors, including pink, rose, scarlet, salmon, and white. Of excellent size.
Your choice Double Begonias. Each, 30 cts.; 3 for 75 cts.; 6 for \$1.40; dozen, \$2.50, postpaid.

Single Begonias

870 Single Rose A pure shining rose color. Very showy.

871 Single Pink A lovely soft pink. Blooms profusely.

872 Single Scarlet Particularly striking and effective.

873 Single White Beautiful waxy white petals.

874 Single Yellow and Orange Bright and showy.

875 Single, Mixed This mixture contains a complete assortment of all the colors listed. Large flowers borne profusely.

Your choice Single Begonias. Each, 30 cts.; 3 for 75 cts.; 6 for \$1.40; 12 for \$2.50, postpaid.

833 Giant Amaryllis

American New Hybrids

FLOWERS 5 to 7 INCHES ACROSS

The flowers of these magnificent Amaryllis are amazing for their brilliant coloring, ranging from deep reddish maroon to pure white and striped. Every bulb has a magnificent, flower-crowned stalk and some have two, with two or more flowers to each. Amaryllis bloom best when they are potbound. Strong blooming bulbs. Each, 60 cts.; 3 for \$1.65, postpaid.

DECORATIVE HOUSE PLANTS loxinia Bulbs

The Gloxinia has handsome large, round, hairy leaves and quantities of big flowers. Give rich, light soil and partial shade, until well started into growth; in watering, do not wet the leaves. When through blooming, store in any dry, warm place for re-potting next season.

878 Scarlet, Bordered A showy, free-flowering Gloxinia with rich scarlet blooms, having a broad edge of pure

879 Purple, Bordered A broad white border around a clear violet-purple throat. Very showy and free bloomthroat.

ing.
880 Pure White This is a very beautiful variety with large trumpet-shaped flowers borne profusely.
881 Purple This is a very rich dark color of a fine velvety appearance. Large showy flowers.
882 Scarlet The richness and brilliancy of this fine variety are responsible for its great popularity. Bright scarlet

scarlet.

Any of the above Gloxinias. Each, 40 cts.; 3 for \$1.00; 6 for \$1.75; 12 for \$3.25, postpaid.

Beautiful **Hardy Lilies**

292 Lilium Auratum (Gold-Banded Lily f Japan). This favorite garden lily is one of he grandest plants in cultivation. Its immense, vory-white flowers are thickly studded with yelw and crimson spots, while in the center of each etal is a golden ray, fading at its edges into he white. Such choice bulbs as we offer if well ared for will give from five to ten magnificent owers the first year, and under good cultivation vill, after becoming well established, give many nore. It blooms usually in July and August. leight outdoors in the open usually three to five eet. Each, 35 cts.; 3 for 95 cts.; doz., \$3.25.

295 Lilium Candidum (Annunciation or fadonna Lily). A hardy garden and forcing sort hat has long been one of the most popular of all lies. It is still one of the finest single clear thite flowers in cultivation and its rich perfume very attractive. It should be planted in the 'all and usually blooms in June. Outdoors it hrives best where it can remain undisturbed for everal years. Height outdoors in the open usully three to four feet. Each, 35 cts.; 3 for 95 ts.; doz., \$3.25, postpaid.

294 Speciosum Rubrum. The white or ink petals are thickly dotted with rose or crimon spots. This hardy, strong growing sort is ometimes called "Crimson Banded" and is conidered by many the most satisfactory for garden ultivation. Each, 37 cts.; 3 for \$1.00; doz., \$3.75.

291 Lilium Regale or Myriophyllum. It is bsolutely hardy, and is excellent for forcing. It as been predicted that this will become the laster Lily of the future, and being so hardy, nay be grown at home. The flowers are white, lightly suffused with pink, with a beautiful hade of canary-yellow at the center, and extendag part way up the trumpet. It is delightfully erfumed, reminding one of the Jasmine, and acking the heavy, oppressive odor of most Lilies.

Blooms out-of-doors early in July. Each, 25 cts.;

for 70 cts.; doz., \$2.50, postpaid.

It is in the hardy border or among shrubbery that Lilies do best, as they get the benefit of the shade of the surrounding plants which is so necessary for their welfare. In planting, cover the bulbs at least three times their own depth, and when hard frost sets in 4 to 6 inches of leaves or litter should be placed over them; this should be removed in the Spring when danger from hard frost is past.

1293 Speciosum Album. Pure white flowers with a greenish band through the center of each They are of great substance and very fragrant. One of the best for general culture. Each, 40 cts.; 3 for \$1.10; doz., \$4.00, postpaid.

> 1290 Lily of the Valley. The Lily of the Valley will thrive and throw up its beautiful, modest, fragrant white bells in any kind of soil. It will make a carpet of refreshing green, daintily patterned by its pervading flower sprays, in those shady and cold spaces otherwise lost to ornamentation around every house and in the little nooks and angles too small for coarser and more ambitious plants. The bloom occurs in late spring and early summer. Large Pips, 6 for 30 cts.; doz., 55 cts.; 100 for \$3.75, postpaid.

Double Tiger Lily (Tigrinum flore pleno)

The double flowers are borne in large clusters. They are bright salmon-red with contrasting purplish black spots. Blooms during August and September. This is the only double Lily in existence which is worth while cultivating. Very hardy, permanent, and easy to grow. Each, 25 cts.; 3 for 70 cts.; 12 for \$2.50.

Condon's Giant Flowering Gorgeous Peonies Extra Strong 3 to 5 Eye Clumps. Latest New and Rare Introductions

No disease or insects ever trouble these plants. They last forever, growing better every year with age. To make a home complete Peonies should be in every yard, as they cost so little and look so big. We only grow the best varieties in their class, which we offer at very cheap prices for high quality well eyed roots. We furnish free full culture directions with every order.

1283 Sarah Bernhardt. Mauve Rose

This variety is the nearest approach to a yellow Peony of the Chinensis type. The guard petals are creamy white and the center a deep sulphuryellow. Protected from the sun the flowers will hold a very attractive canary-yellow shade. The flower is large, medium compact, flat, bomb type. Tall, strong grower. Free bloomer; midseason. Primevere always draws considerable attention in our fields. Rating 8.6. Each, \$1.75; 3 for \$4.50.

Company of the property of the 1273 MON (Dessert.)

growing, free blooming plant, of delicate coloring. When the flower is cut just as the bud unfolds, and is allowed to open in a shaded room wonderful tints of flesh, straw and white can be seen to perfection. Midseason. Rating 9.4.

Each, \$1.75; 3 for \$4.50.

son.) Pink. This remarkable flower is at its best in the show room. If cut in the bud, and held in a dark cool room for a day or two, and ther brought into the light, it develops into a flower of wonderful coloring and exquisite beauty. In color it is the most vivid of all the pinks, the only "real pink" as someone has said. Rating 9.3.

Each, \$1.75; 3 for \$4.50.

12S3 SARAH BERNHARDT. (Lemoine, 1906.) This sterling variety well deserved the high honors bestowed upon it at the National Peony Show at Fort Wayne, Ind., June 15, 1926; it took first prize for the best dark pink. We are fortunate enough to possess a very large stock of this exquisite Peony. The flower is the ideal of refinement in Peonies, which, aided by its beautiful color, apple-blossom-pink with each petal silver tipped, makes it about as perfect a Peony as could be imagined. It possesses an agreeable fragrance; blooms late. Sarah Bernhardt (Lemoine) should be in every collection. Rating 9.0.

be in every collection. R. Each, \$1.00; 3 for \$2.75. Rating 9.0.

Cup-shaped flower of fine form, with rounded petals, velvety crimson-carmine, very brilliant, with silvery reflex and often streaked white; very large, silvery border; visible stamens intermixed with the petals in many flowers. A superb variety, awarded certificate of merit at the Paris Show, June, 1920. (Originator's description.) Rating 8.7.

Each, \$3.50; 3 for 10.00.

1263 MIKADO. (Barr.) Dark red. We consider this one of the best of the red Japanese Peonies. This variety was first exhibited in America by the Japanese Government in its exhibit at the Chicago World's Fair in 1893. This is a large cup-shaped flower with a single row of wide dark crimson petals, encircling a filagree cushion of golden petaloids, crimson edged and golden tipped. Rating 8.6. Each, \$2.25; 3 for \$6.00.

The form and color of Philippe Rivoire, 1911.)

The form and color of Philippe Rivoire are of great refinement and it well deserves the highest rating of all red Peonies. Large, perfect flower with deeply serrated petals of a very dark and uniform amaranth-red, of rose type. A strong grower and a free bloomer. Blooms late. The variety has a lovely tea rose fragrance. Rating 9.2. Each, \$4.00; 3 for \$11.

288 MARQUIS C. LAGERGREN. (Dessert, 1911.) Bright velvety cherry-red, slightly tinged violet, silver tipped. Large, semi-imbricated flowers. Strong, vigorous grower, very free bloomer; midseason. A splendic variety of very brilliant color. Rating 8.0. Each, \$1.50; 3 for \$4.00.

Peonies

Finest in Cultivation

All Postpaid

1284 BARONESS SCHROEDER. Very RATES SCHROEDER. Very large, globular flower; flesh-white passing to milk-white. A strong, tall grower, very free flowering. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant. Rating 9.0. Each, 65c; 3 for \$1.75.

1280 KARL ROSENFIELD. The flower is large, of semi-rose type, a perfect ball-like form when fully open, of a most perfect rich deep brilliant crimson on long, straight stem; slightly fragrant. The plant is tall, strong and upright in growth, and bears a large, strikingly brilliant flower on every stem. The foliage is rich dark green. Blooms midseason. Both for landscape planting and cut flowers this Peony has proven ideal. Rating 8.8.

Each, 75c; 3 for \$2.00.

1279 OFFICINALIS RUBRA PLENA.
The earliest of all dark red Peonies. Comes into full bloom by Decoration Day. This is the very finest old-fashioned dark red sort. It is considered by experts as perhaps the most brilliant of all red peonies, and in addition comes into full bloom by Memorial Day. Each, 85c; 3 for \$2.25.

1270 Therese-Satiny Pink. Gorgeous

1270 THERESE. (Dessert, 1904.) Second highest scoring Peony (Le Cygne 9.9). Among the world's finest varieties. Therese probably received more comment in our fields than any other Peony. The flower is of an enormous size and true rose type, with delicate fragrance. Color rich satiny pink with lighter center. The plant is of vigorous growth, very free blooming and the foilage is a rich green. Rating 9.8. Each, \$2.00; 3 for \$5.50.

1271 L'ETINCELANTE. (Dessert.) Dark pink. Very large flowers, decidedly cup-shaped with great broad petals of deep bright pink heavily margined with silver and with a large center of bright yellow stamens. A tall, thrifty plant that is a wonderful landscape variety. Rating 8.4. Each, \$1.50; 3 for \$4.25.

SPECIAL OFFERS

1241 SPECIAL OFFER. Three of each for \$7.50,

Hardy Outdoor Ferns

Hardy Ferns in Foundation Planting.

315 OSMUNDA CINNEMOMEA. (Cinnamon Fern.) A large Fern, growing in a crown 2-5 feet high, 8 inches wide, beautiful, cinnamon colored leaves.

316 ASPLENIUM FELIX FAEMINA. (Lady Fern.)
A large, handsome Fern, standing from one to
three feet in height. A wood and roadside Fern.

1317 ONOCLEA STRUTIOPTERIS. (Ostrich Plume Fern.) Grows in a crown, fronds are 2 to 4 feet by 6 to 10 inches. 1318 ADIANTUM PEDATUM. (Maidenhair.) The black, wiry, creeping roots lie right at the surface. They branch freely if the roots are lightly covered with leaf mold.

Special price on Hardy Ferns. Each, 35 cts.; 4 for \$1.25; doz., \$3.50, postpaid—Your choice.

Ferns planted among your shrubbery, in the perennial border, or in the foundation planting around your house, especially on the north and east side or under tall trees, bring to your home a fragrance from the wild woods, in some of nature's most beautiful creations. Plant in groups of at least 3 to 5 each of each variety, scattered at irregular distances.

Hardy Ferns should be planted when dormant any time between Sept. 1st and July 1st. They prefer a settled foundation and cool feet. If late spring planting is followed by a dry, hot summer, the fronds are likely to dry up in the middle of the summer the first season.

Hardy Ornamental Flowering Shrubs and Hedge Plants That Will Beautify Your Home

1142 Spirea Van Houttei-Bridal Wreath

Red Barberry

1184 Atropurpurea The newest and most beautiful hardy ornamental hedge plant ever introduced. No planting today is complete unless this "New Introduction" is included in your assortment. Perfectly hardy as far north as Canada. Excellent for individual planting effect or in groups with other plants and shrubs. It grows in short, bushy form—18 to 30 inches high, producing beautiful specimen plants with circumference equal to height. Foliage is a rich, lustrous bronze-red. Becomes more brilliant as time goes on. Plant in full sunlight. Each, 35c; 3 for 90c; doz., \$3.25, postpaid.

Hydrangea

1153 Paniculata Grandiflora The Universal hardy treeshaped shrub. They grow to a height of 8 to 10 feet, and are absolutely hardy, grow in any soil and bloom the same year they are set out. They flower abundantly, bearing immense panicles of bloom a foot long, white at first, turning to rose in Autumn, commencing to bloom in August, when very few shrubs are in bloom. Each, 35 cts.; 3 for 90c; doz., \$3.25, postpaid.

1154 Arborescens (Hills of Snow). Comes into bloom just after the flowering time of the Lilacs, Syringas, Viburnums and Spring-flowering Spireas and continues on into August. The panicle is more like a Snowball in form and size than Paniculata Grandiflora (hence the name). Pure white. Each, 35c; 3 for 90c; doz., \$3.25, postpaid.

1182 Berberis Thunbergi-Japanese Barberry

Spirea

The most beautiful satisfactory shrub No garden complete without this. Easily grown, does nicely everywhere—either in solid rows, borders or close to porch. Blossoms first season. Ouplants are stately and well developed Bears large spirals of densely crowder single white flowers, each blossom like a miniature rose, the entire length of the branches—and they appear by the million—hence the common title of "Bridal Wreath." Each, 20c; 3 for 45c doz., \$1.44, postpaid.

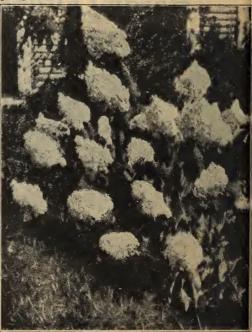

20 to 30 inches tall. For mass plantings, the crimson flowers and variegated foliage making a beautiful contrast with other shrubs. Flowers lasting several weeks. Each, 30c; 3 for 75c; doz., \$2.50, postpaid.

1141 Billiardi Rosea Has dense spike of rose-pink flowers that crown sparsely twigged, erect branches. For shrubbery groups, natural plantings and moist places. Bloom from July to September. 3 to 6 feet. Each, 25c; 3 fo 60c; doz., \$2.00, postpaid.

1182 Japanese Barberry

(Berberis Thunbergi)

Especially suited for protecting corners of the lawn near the sidewalk. This kind has nothing to do with Black Rust so you can plant them freely. It is of low, regular and compact growth and requires very little pruning. It has find thorns and small round rich green leaves that change color in the Autumn to crimson at which time it is covered with bright crimson berries Very attractive. Each, 25c; 3 for 60c; doz., \$2.00 postpaid.

1153 Hydrangea Paniculata Grandiflora

Hardy Ornamental Shrubs and Vines

Greatest Values Ever Offered—Prices Lower Than Ever Before

All 2 yr. Old 18 to 24 Inch Bushes "Guaranteed to Grow"

1156 PHILADELPHUS (Syringa; Mock Orange). A tall, vigorous and hardy bush. Produces a mass of white flowers in May, resembling orange blossoms, deliciously fragrant and fine for cutting. One of the best flowering shrubs; foilage very attractive. Each, 24c; 3 for 60c.

1147 SYRINGA VIRGINALIS. One of the most beautiful shrubs grown. A vigorous tall grower, with very large, double-crested flowers, pure white, sweet-scented, produced in clusters of five to seven. Has longest blooming season of any variety. Each, 45c; 3 for \$1.20, postpaid.

1159 LILAC, PERSIAN PURPLE. One of the best known flowering shrubs and deserving of its wide popularity. Universally loved for its pleasing fragrance and delicate colorings. Very fragrant. Each, 35c; 3 for 90c, postpaid.

1121 TAMARIX AFRICANA. Strong, slender, tall-growing, irregular shrubs, with feathery foliage and small, delicate flowers, borne profusely on gracefully bending branches. These pink flowers are very attractive during May. Each, 24c; 3 for 60c, postpaid.

1183 AMOOR RIVER PRIVET. This is the hardiest of all Privets and especially desirable for hedge planting in the North, where winters are severe. It is much superior to any other hedge plant, as it is not subject to blight. The dark green foliage is retained until late in the fall, and it can be pruned to give any desired effect. Bears handsome white flowers in June. Each, 15c; 3 for 39c; doz., \$1.44; 100 for \$11.00.

Bush Honeysuckle

Handsome, upright shrubs, with showy flowers and bright berries. They thrive in almost any fertile soil, and in most instances prefer sunny situations. Invaluable for border or mass planting.

1148 RED TARTARIAN. The flowers are borne freely in May and June. Are of bright pink color, followed by showy red berries. Each, 25c; 3 for 60c, postpaid.

1149 WHITE TARTARIAN. About the same as the red except that flowers are white. Both are Bush Honeysuckles. Each, 25c; 3 for 60c, postpaid.

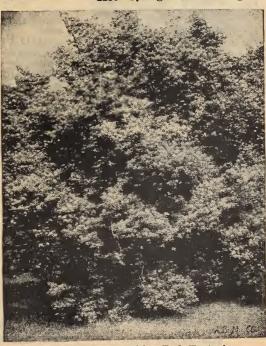

tremely handsome shrub, with beautiful foliage and snowy white flowers, borne in large clusters. Flowers are radiant and appear in numerous white balls. An old-time favorite; one of the best of the flowering shrubs. Each, 35c; 3 for 90c; postpaid.

1155 Hardy Snowball-Old Time Favorite

1156 Syringa-Mock Orange

1148 Bush Honeysuckle-Red Tartarian

Condon's "Guaranteed" Rose

The Very Finest Roses in America—All 2 Year Old Field Grown No. 1 Selected Plants

Note how well they are branched and the heavy well formed root system These hardy Roses will begin to grow immediately and will bloom the first season.

Our Roses are all strong two-year-old American-grown, budd Our Roses are all strong two-year-old American-grown, budd or grafted, and while some planters prefer stock grown on the own roots on account of the possibility of budded plants devoping wild shoots, this will rarely occur if the deep plantic as directed in our illustration is followed. Always make yo holes for Roses large enough to properly spread out the coplete root system and Always Plant as Deep as Indicated the arrow on the photograph below. Much can be said in faw of hydded plants they being more vigorous producing for of budded plants, they being more vigorous, producing fin blooms, coming into bearing sooner, and are as permanent a hardy as those on their own roots, while many of the very fine varieties will not succeed at all when grown on their own roo

and preference is given to budded plants by all who have hexperience with the different classes.

CULTURAL NOTES ON ROSES. We have prepared a leaf giving full and concise directions on the planting and care Roses; mailed free on request and included free in every ord

Classification of Roses Hybrid Perpetual

These are the hardiest of all Roses. They are of vigorou upright habit, with large leaves and very large, full, doub richly fragrant flowers which are produced in profusion in Jun and more sparingly in autumn. In order to obtain the fine flowers, prune severely in early spring, manure liberally a keep the soil well cultivated.

Hardy Everblooming Hybrid Tea Rose

These great bush Roses have rapidly superseded all oth the classes for general planting because of their parentage, which the result of cross fertilization between the Hardy Hybrid P petual or June Roses and the Everblooming Tea Roses. From the June Roses they inherit the large, bold, handsome, equisitely fragrant flowers, retaining in a marked degree the hardness, so that they stand the severest winters without days and from the Tea Roses they have retained the free and age, and from the Tea Roses they have retained the free a constant blooming habit, together with the great variety color found only in this class. They produce their gorgeo flowers without interruption throughout the entire growing st son, making them the best of all Roses for general planting.

Polyantha or Baby Roses

The members of this distinct and charming class of eve The members of this distinct and charming class of eviblooming Roses, of which the Baby Rambler forms a conspicut group, are distinguished by their dwarf, bushy habit of grow medium size, very double flowers and delightful fragrance. The class of Roses produces bushy, well branched plants 12 to inches high, which are completely loaded with rare blooms free early spring until late fall. They make wonderful hedges borders, also delightful house plants.

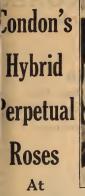

Hardy Climbing or Rambler Roses
For dependability and hardiness their flexibility in use a
the superb beauty of their profusion of blooms and the add value of their foliage makes the Hardy Climbing Rose a favor with everybody. Excellent for decorating pillars to a drivew over pergolas, summerhouses, lattice work, or may be festoon along the porch roof. The word "Perpetual" is "slightly exaggerated" but really means that with proper care the sap rises again with new rowth, resulting in another show of blooms. Hybrid Perneans that with proper care the sap rises again with new rowth, resulting in another show of blooms. Hybrid Peretual Roses have a rugged constitution and will stand like the extreme cold of the North and the heat of the outh flourishing even under adverse conditions. They fairly esist the diseases that injure the foliage of the more deliate Hybrid Teas. We recommend the five varieties listed n this page as the cream of the standard introductions to ate either for the North, the East, the South or the West.

400 WHITE AMERICAN BEAUTY (FRAU KARL IRUSCHKI). This brilliant white type Rose has become enowned as the very highest type of its class and the best now-white Rose ever introduced. It is an extraordinarily trong grower, branching freely, and has the vigor and ardiness of an oak. Large, heavy foliage and magnificent owers that are nothing less than glorious—immense in ize and produced with great freedom on long, stiff stems. The color is marvelously white, without a tinge of yellow r any other shade. Hardy everywhere. See cut. Large wo year old field grown plants. Each, 60c; 3 for \$1.50, post-aid.

402 GENERAL JACQUEMINOT. Standard of color for ears, the clear red blooms are just as bright today as seventy years ago. The plant is very hardy, but needs quite areful attention in thinning and pruning if the best-formed ragrant flowers are wanted, but many people let it grow t will and make a big, brave bush that blazes like a bonfire yith its hundreds of bright red flowers in June. See cut. arge two year old field grown plants. Each, 60c; 3 for 1.50, postpaid.

399 PAUL NEYRON. "Among the Foremost Roses of he World." Paul Neyron enjoys the distinction of producing he largest of Roses. The plant blooms two or three times a ear. The color is clear pink, shading to rose—most beautiul in the massiveness of the blossoms. Very fragrant with aild touch of apple blossoms. The rose is very strong and igorous and is considered by Rose growers as being among he six Roses of the world best suited for outdoor planting. ee cut. Large two year old field grown plants. Each, 60c; for \$1.50, postpaid.

403 PRINCE CAMILLE DE ROHAN. Dark velvety turple-crimson, and doubtless the nearest "black" Rose in ommerce. Should not be confused with Black Prince, an aferior Rose, for Prince Camille has larger flowers, inensely fragrant. See cut. Large two year old field grown blants. Each, 60c: 3 for \$1.50, postpaid.

401 AMERICAN BEAUTY. The best known, most popular and impressive Rose in cultivation. Big, gloriously ich in fragrance, the flowers are simply superb. Color, rich rimson, charmingly shaded and veined. As the flowers extend, their beauty seems to be enhanced rather than diminshed. The fragrance is not excelled by any Rose known. See cut. Large two year old field grown plants. Each, 65c; for \$1.65, postpaid.

Special Offer—No. 1412 One 2 year old Rose each of the four beautiful \$1.75

Seautiful Hardy Climbing or Rambler Roses

Rose Pink

ne Most Beautiful Climbing Rose in cistence. Named After the Celeated Parent — American Beauty.

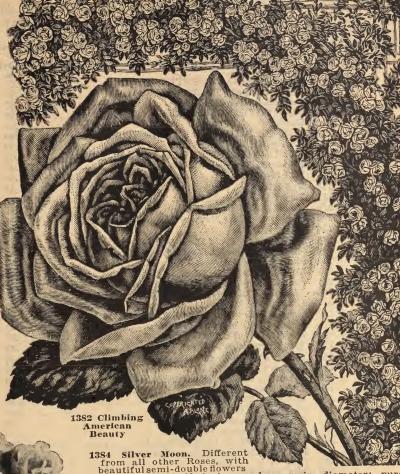

Here we have the latest iumph in American Rose cowing, the true Climbing merican Beauty in all its omise and glory, the realed dream of every Rose rower. Large flowers, each coduced on separate stems, wid rosy-crimson in color, ith delicious fragrance. orne in the greatest profuon throughout the growing ason. Foliage tough and athery, deep, glossy green, in and insect proof. The oungest plants attain a eight of 10 to 15 feet in a ngle season. Hardy and s sturdy as an oak

s sturdy as an oak all localities. Splenid in the South. For ingle specimens, trailing over verandas, for ellises, anywhere and verywhere, this Rose all give the greatest atisfaction. Large 2 ear old Field Grown lants. Each, 60e; 3 for 1.65, postpaid.

383 Dr. W. Van Fleet Rich Shell Pink

Rose, which on account of s dainty color and exquisely shaped buds and flowers, has become a great farorite. The long pointed uds are of a rich flesh-pink n stems 12 to 18 inches ang; splendid for cutting. A trong vigorous grower. Arge 2 year old Field Grown lants. Each, 50e; 3 for \$1.35.

Paul's Scarlet Climber

from all other Roses, with beautifulsemi-double flowers four and a half inches and over in diameter; pure white in color, petals of great substance, beautifully cupped, forming a Clematis-like flower. Large 2 year old Field Grown Plants. Each, 60e; 3 for \$1.65, postpaid.

1385 Crimson Rambler. "The Old Reliable." This rapid, hardy climber produces a marvelous profusion of rich crimson flowers in clusters. It reaches a height of 10 to 20 feet in a single season. Large 2 year old Field Grown Plants. Each, 50c; 3 for \$1.35, postpaid.

1386 Gardenia. Buds bright yellow, opening double flowers of cream color; incurving towards evening to the shape and color of a Cape Jessamine, hence its name. Large 2 year old Field Grown Plants. Each, 60c; 3 for \$1.65, postpaid.

1387 Excelsa. Red Dorothy Perkins. The color is an intense, clear, scarlet-carmine. Flowers of Dorothy Perkins type are perfectly double, produced thirty to forty on a stem. Large 2 year old Field Grown Plants. Each, 50c; 3 for \$1.35, postpaid.

1388 Dorothy Perkins. Shell Pink. Perfectly double, clear shell-pink flowers, with attractively crinkled petals. This variety is so well known that no further description is needed. For best results, prune out old canes at the base when bloom is over. Large 2 year old Field Grown Plants. Each, 50c; 3 for \$1.35, postpaid.

1390 Paul's Scarlet Climber. Is scarlet—definite, actual, and vivid. Nothing so pure and bright in color has ever before been known in a climbing Rose. It needs, and deserves, to stand by itself, away from hardy climbers that are merely red, and with which it will not mix. The garden without Paul's Scarlet Climber is deficient. Get its brilliance into your service this year. Use it as a pillar or a bush. Large 2 year old Field Grown Plants. Each, 60c; 3 for \$1.65, postpaid.

Attention, Friends and Customers

It is the real early crops of Vegetables and Flowers that bring the top prices. Prepare now to have your crops ready for market early when values are highest.

Use

Germaco

Crop Insurance for Market Gardeners

These are miniature hothouses and make crops mature earlier. A revolutionary device that saves farmers much in time, labor and money. This proved method of plant protection means big profit to you next year. Use them on all your garden crops and receive top prices for early vegetables.

Earlier Crops Mean Higher Prices! —Use This Amazing New Method of Plant Protection

THIS remarkable invention consists of a L scientifically constructed wax paper cone that you place over each plant. Thus they are miniature hot-houses that protect plants from frost, wind, rain, insects and ground crusting.

HOTKAPS not only protect plants but make them grow hardier and faster. Thus you get a greater crop production to market earlier for

higher prices.

The illustration above shows what Germaco HOT-KAPS mean to growers of all vine crops. The plants illustrated were sown in a seeder. HOTKAPS were placed over spots in the row. Note how quickly the plants under them have grown-the head-start they have in the race for high priced markets.

HOTKAPS cost you little to use and bring big profits. They save you worry, too, over frost, wind, hail, rain, insects and ground crusting. They put each of your plants under a hothouse to grow quicker and hardier without danger of loss.

Write us today about these profit makers. Or simply order the supply you need for this season.

Germaco

Condon's Ideal Collection of 12 Wonderful Hardy Hybrid Tea Bush Roses

The World's Greatest Values—All Two Year Old Field Grown, Strong, Bushy, Well Rooted Roses—"Guaranteed to Please"

Shown in Colors True to Form on Opposite Page

1438 Mrs. Calvin Coolidge

Rich Golden Yellow
A Glorious New Rose that won the admiration of all those in attendance at the National Flower Show in Chicago last fall. Rich golden yellow blooms borne on erect stiff stems. Flowers large and of perfect form. Rich green foliage. Large two year old field grown plants. Each, 65c; 3 for \$1.50, postpaid.

1418 Sunburst

A Dazzling Combination of Color

A pazzing combination of Color Apricot-yellow with orange center. Buds are long and pointed and borne singly on long stems. Open blooms are beautifully formed. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1416 John Russell

A Brilliant Red Rose

A rich, deep velvety crimson of very large type, beautiful in bud and in the large double flowers. Strong vigorous grower. An unusual rose of the best quality. Large two year old field grown plants. Each, 90e; 3 for \$2.55, postpaid.

1420 Sensation

A Glorious Double Sweet Scented Scarlet Rose

Splendid large crimson-scarlet, perfect in its long pointed bud as well as in the fully developed, sweetly scented, double flower. A strong, vigorous grower that is particularly brilliant late in the autumn. Large two year old field grown plants. Each, 65c; 3 for \$1.80, postpaid.

1431 Los Angeles

One of the Most Beautiful Pink Roses Yet

Introduced

The long-stemmed flowers are of a luminous flame-pink, toned with coral, and shaded with translucent gold at the base of the petals. The buds are long and pointed and expand to flowers of large proportion, of absolutely perfect form and of rich fragrance. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1430 Souvenir De Claudius Pernet

An Exquisite New Rose

A most vigorous grower of erect branching habit, beautiful, brilliant green foliage, long pointed buds of exquisite shape, carried on long, stiff stems. Very large full flowers with elongated deep petals, a beautifully formed bloom. Color, striking sunflower-yellow, deeper in the center, without any color blending. Large 2 year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1427 Souvenir De Georges Pernet

A Glorious New Rose
Unequaled in color by any other variety; its long pointed buds of rich Oriental-red tipped with carmine and suffused with a rich golden sheen expand to full double flowers of elegant form. Strong vigorous growing and profuse in flowering. Large 2 year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1440 Madame Butterfly

Bright Pink, Apricot and Gold

Petals are extra large, borne in great numbers on stiff stems. The tight buds are a lovely shade of Indian oak, yellow at the base; the opening flowers are perfect in form and texture, clear and brilliant in color and of delicious fragrance. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1428 Radiance Carmine Pink

An Ideal Bedding Rose

An Ideal Bedding Rose

The flowers, which are of splendid form, are large and full and somewhat of the June Rose type. The buds are particularly handsome in form, the full blooms large and double, the petals of immense size and the blossoms are highly perfumed. The growth of the plant is vigorous, making strong canes which are thick and heavy. Radiance is rightly considered a leading Rose of the garden for cutting. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1435 Kaiserin Augusta Victoria

A Superb Hardy White Rose
This marvelous Rose has had many rivals for
the place it still retains as the greatest white
Rose in existence. Strong, sturdy grower, flowering with the utmost freedom. Large two year
old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1429 Red Radiance

The Greatest Garden Rose
The color is an even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

1439 Crusader Blackish Crimson

A big, strong-growing variety, robust and rugged in every characteristic. The growth is heavy and the flower stems are strong and heavy, producing very little blind wood. It is free-growing and free-flowering, and the blooms are truly characteristic of the variety—big and double, and, in color, a rich, velvety crimson. Large two year old field grown plants. Each, 60c; 3 for \$1.65, postpaid.

SPECIAL OFFER

12 Beautiful Hardy Garden Roses as described above and pictured in colors on opposite page. One large two year old field grown plant each of the twelve beauties postpaid for
